South Carolina State Parks Bhumi Gupta, you don't have to know about nature at all to participate. The running and physical activity will be a large part of the competition. Please sign up and participate! :)

South Carolina State Parks Bhumi Gupta, There are lots of different challenges (recreational, pure fun, nature) so folks can still have fun while being active. That team's advantage would be the fact that they could run from challenge to challenge where some other teams may only walk. The race was designed for all levels of skill and knowledge!
