Subject: Please read ASAP

I know that you are going to remove the flag if the vote comes to you, but the vote should go to the people, we the people are the state. You also need to ask and look at what your people want and are saying. Please read the following letter that I have sent out to the House of Representatives. I know this stuff never gets read, everyone at the state or national level just laugh at us and do what ever they want, we vote you in and that is the end of it, such a sad situation. I just wish someone would stand up and do what's right and let the people decide something with there vote.

Please vote to not remove the flag. That young man killed those people not our flag or our heritage. If you want to remove it you also need to close all golds gyms because he had a shirt on representing gold gyms. To quote the new leader of the naacp and the way she feels about her new position; Quarles-Burnley tells The Spokesman-Review that the episode hurt the organization because people questioned the group's integrity. But the chapter's new leader says she's committed to moving forward and showing that the actions of one don't reflect on all. The actions of one do not reflect us all, as a people, or as a state or as the south!

Sincerly,
Carol Johnson
