

**Save America by phasing out welfare.**

**Welfare sounds good and kind to help people in need but it has totally destroyed people and made them slaves. They are completely dependent upon the Government and people have been on welfare for 6 or 7 generations with no hope of escape.**

**I have the solution if you are willing to apply it. Everyone can receive Free Groceries to start and substantial part time income to follow. Just follow these very simple instructions.**

**1. join [www.youngevity.com](http://www.youngevity.com) I.D. Battery Bob # 100961776 or you can call 1-800-982-3189 to join. Shop at our on line store to buy your groceries. Replace my I.D. with your new I.D. Refer others to shop at our on line store. You get a very good referral bonus which you can use to get your next month's groceries FREE. The more that you refer the more FREE groceries you will receive. Continue to refer people to shop at our on line store and you will receive a very strong part time income so that you can get off the welfare system . This is a membership store and It costs a one-time \$25 to join and if you buy \$50 worth of groceries every month the shipping is free, and your groceries are delivered right to your door. People on welfare don't have \$75- \$80 dollars so the system co-signs a LOAN payable to youngevity so that people can get their first month's order. They refer other people to shop at our store and with their referral bonus they can pay off the loan, get their groceries FREE and start to improve their financial situation. \$ 100 is a very cheap loan to have people get off of welfare and regain their pride and independence. This is absolutely true, and people can break the shackles of slavery that the welfare system is. How much money do you want to earn ? The choice is yours.**

**from:** BOB MILLER <uniquebob@hotmail.com>

I returned from a very brief vacation and I had 197 emails.  
A 153 of those emails all were asking for money.

In these tough economic times it seems that a lot of people  
need some extra money.

I found a solution. There is an on-line grocery store that pays  
a referral bonus to people that refer others to shop at our on-line store.  
Many, many businesses pay a referral bonus so that is nothing new to  
offer a bonus to refer a new customer.

You just switch where you shop to our on-line store and refer  
a few other people to do the same. The more you shop and  
the more people that you refer the more money that you will earn.  
There is no limit as to how much that you can earn

Our company has created over 100 millionaires because they invited  
others to shop at our on-line store. Your pay is tied to your I.D. #  
so you get paid automatically.
