Subject: Fw: Law Enforcement Positive Help with LEGAL HEMP in South Carolina for Chief Tyndall and Sheriff Jay Koon

Let's work together to build S.C. agriculture to manufacturing with our OWN Citizens! Foreign Corporations coming is not helping South Carolina Citizens create small businesses and jobs within our STATE! The new Plastic factory in Anderson is great; My IDEAS to Governor Haley in 2010 was to build First Hemp Plastic Factory.....The Factory is sitting empty in Hampton County!!

Dear Sir:

I respectfully ask that as a Law Enforcement Agent for the Citizens of South Carolina; Do a forum on LEGAL HEMP GROWTH & MANUFACTURING movement for the HEALTH and WELFARE of our STATE. God's most useful seed/plant GIFT to our PLANET has been under house arrest since 1937 crooked Politicians (Criminals in Suits) and Corporations got together to protect Hearst, DuPont & Rockefeller's Billions; while polluting the Earth's Inhabitants with chemicals and poisons! I can provide the FACTS:

I have been going strong with Hemp for Mother Earth since God's directive to me, "Make Haiti showplace in Western Hemisphere", in 2005! I promised Mother in 2008 to direct my energy to LEGAL endeavors that would enhance Mother Earth and all Inhabitants toward better life without chemicals and poisons in today's products! We finally got HEMP legal in South Carolina in 2014! I lived with Mother for 41 months with Alzheimer's while watching today's poisoned BIG PHARM certified drugs took her dignity and self-respect! Marijuana seeds and buds blended up in smoothie would have supplied all healthy nutrients without any harmful effects. WHY DO YOU THINK FEDERALLY

APPROVED DRUGS spend 12 to 14 seconds on what adverse effects this new drug can have on your body out of a 30 second commercial? Systematically poisoning Earth and Inhabitants!

My IDEAS are coming TRUE but Foreign Corporation are stepping in and taking control! We, Citizens of South Carolina, are smart enough to create our own Environmental Green Industrial Revolution with HEMP! Your Job, in this Citizens eyes, is provide safety, education and protection while keeping LAWS of this STATE. I have written: SLED Chief Keel, South Carolina Chiefs Association, Police Union, Firemen, Harry Ott, Jr. and ALL Heads of Churches and NOBODY returned an answer nor acknowledged my positive information; nor would pray with me?????? THIS IS A CONSPIRACY OF LAW ENFORCEMENT TO KEEP LEGAL HEMP AWAY FROM CITIZENS WHILE DIRECTING IT TO FRIENDS, FAMILY OR POLITICIANS CONTROLLING ALLIES!

I wrote to Governor Haley in 2010 wanting to build the First and only Hemp Plastic Factory in United States to supply car parts to 13 car manufacturers in 600 mile radius of South Carolina without getting a response? Mercedes Benz wanted to build a 100 Million Dollar Hemp Plastic Factory in South Africa in 1998 to employee 4000.....A German Company is investing 11.1 Million in upstate Hemp Plastic Factory to supply 10 car manufacturers World Wide! South Carolina Citizens can grow and manufacturer hemp: plastic, carpet, clothe and cardboard for new car construction!
Henryford1941hempcar.com

We need leadership in LAW ENFORCEMENT that helps Citizens gain prosperous small businesses and jobs with POLICE taking a positive stance to right the lies and deceit of Politicians and Corporations in 1937!

I can clean up landfills, Gaston Copper, bomb plant and etc... with Law Enforcement willing to LISTEN to facts: COMMON SENSE, INSIGHT, IMAGINATION, INGENUITY & INTEGRITY TOO!

My being an ex-con hinders me from being creative in legal manner to produce positive, educational information of God's most useful seed/plant GIFT to OUR Planet! I paid my time for the debt that was owed to the court so why does Police discriminate against ex-con's trying to better themselves and surrounding with positive actions?

I would respectfully ask that IF I can get L.E. Hollloway (WACHTV) and M. Norman (WISTV AWARENESS) to do positive spots each week on T.V. to inform Citizens of many advantages of HEMP in our mainsteam; You, Chief Tyndall, Katrina Shealy, Creighton Coleman and Dr. Terry Walker from Clemson would join in for the benefits to our Citizens? I want CATHY SHANNON to be SPOKESWOMAN of Lexington County United Law Enforcement movement for an Environmental Green Industrial Revolution!

I will bring 2 Billion to S.C. Citizens in agriculture growth and manufactured production in 2016 with your help! IGNORANCE nor NOT FACING THE REALITY OF HEMP/MARIJUANA TRUTH IS NOT BLISS!

You want PUBLIC INVOLVEMENT then let's talk and direct our Citizens to these new TRILLIONS in God's Environmental Green Industrial Revolution? Cain't never could till he/she gave it a try? Will you listen to positive facts with open mind that helps
