Roche Unlock the Potential of Locked Nucleic Acids!

Hear more from leading author and scientific expert, Dr Bo Rode Hansen at RNA Therapeutics 2017

Dear Mr Tony Kester,

Expand your scientific horizons with industry expert **Dr Bo Rode Hansen**, who will be presenting a special keynote address on harnessing the potential of locked nucleic acids at SMI's 8th annual **RNA Therapeutics** conference.

The established event set to take place on **22nd & 23rd February** in Central London, will once again gather a global audience of scientific leaders, KOL's and drug development specialists, providing a focal point to discuss the future of targeted drug delivery.

Respected for his extensive RNA experience and involvement in the Locked Nucleic Acid drug platform, Dr Bo Rode Hansen has authored and co-authored over 40 peer reviewed publications. He is currently the **Global Head of RNA Therapeutics Research at Roche and General Manager of the Roche Innovation Centre** in Copenhagen.

His **presentation** will provide exciting new insights into RNA therapeutics drug discovery discussing key updates surrounding: **drug candidates** for diseases with difficult targets; **next generation** drugs; and new concepts on optimising the **drug discovery process**.

Take a look at the **agenda** for further details.

Dr Bo Rode Hansen will be joining other notable speakers in the field at **RNA Therapeutics 2017** including:
