Subject: Mary's House (Women's Shelter for Battered women)

Mary's House is located in Pickens County, the only one of its kind and received its funding from the Baptist Association. The New administrator let go the former staff and rehired a religiously diverse staff. The Baptist Association pulled their funding and they are in need of emergency funding. Otherwise the organization will close and the women and children housed there will have no place to go. They are requesting an audience with the Governor for help. I have provided them with your email address. I've attempted to call you leaving a message on your office phone and your cell is full.
