His Holiness, Pope Francis PP  
00120 VIA DEL Pellegrino  
Citta del Vaticano

Dear Pope Francis,

I need your assistance in promoting God's Most Useful Plant on OUR Planet? Commercial Hemp/Cannabis/Cannabinoids should be used instead of harmful chemical products; medical, agricultural and industrial.

God gave me a directive in 2005 while sitting in Bureau of Prisons in Jessup, Georgia to make Haiti a showplace in Western Hemisphere using Hemp. Hemp for Mother Earth has been trying to achieve this directive without success; Your help would move obstacles in my path!

The Mountains in Haiti could be covered in Hemp in 120 days. We could have three growing seasons each year without using any food producing lands. Hemp would provide: Plastic, Paper, Concrete, lumber, wallboard, charcoal, bio fuel, vitamins, food while making topsoil, fertilizer and stopping erosion. No more trees would be cut down.....Hemp uses less water to grow than other plants too.....

I have ideas for Hemp plastic portable housing that would work anywhere in the world. These houses could be built for under \$500.00. Hemp plastic is 10 times stronger than steel. The medical aspect is great for CURING AIDS, Diabetes, heart, lupus and many other diseases. God needs our help in returning EARTH to a Garden of Eden.

I have contacted every leader of Religious Denominations in South Carolina but NO ONE would answer nor pray with me on this directive.

God has sent you the remedy to food, housing and diseases in Hemp/Cannabis/Cannabinoids production to meet both of our needs to achieve our goals! Will you help this homeless, unemployed person?

May God Bless Mother Earth and ALL Inhabitants? Poisonous Products have to be removed. 100,000 Haitians could be working in production of all Hemp products produced in Haiti within one year.

Yes! We could clean up nuclear fallout and other pollution with this fast growing wonderful gift from God. Do you plan to let Corporations that are destroying mankind and earth continue to exist: Hearst, DuPont, Monsanto, Rockefeller and Dow??

I want to use the Federal Marijuana Act to CURE my diseases but can not get response from Government. I do not want to be TREATED for the rest of my life by Big Pharm drugs that destroy the body.

Hope God moves your heart to help set Hemp/Cannabis/Cannabinoids free to heal our World. Peace & Happiness!  
Sincerely,

Ricky L. Loftin

**In 1976 President Gerald Ford put an end to all Cannabis Research And Granted exclusive rights to Major Pharmaceuticals Companies!**

**In 1983 Reagan/Bush Administration told all Universities and Researchers to destroy**  
**ALL 1966-76 Cannabis Research Work!**

The problems with all medicines' the Doctor's prescribe for me are the diseases and death associated with their products. I do not won't to be treated for these diseases at corporate profits for the rest of my life!

FEDERAL MARIJUANA...U.S. PATENT #6630507.....Department of Health and Human Services should give Citizens a chance to CURE their DISEASES??

Cancer was CURED.....Let's deprive DuPont of 125 Billion they make treating Cancer and cure it with God's most useful Plant.

Mr. Kevin Marsh

Hemp for Mother Earth

4520 Monticello Rd. 2C

Columbia, S.C. 29203

Dear Sir:

Hemp for Mother Earth would like to ask your help in creating jobs and small businesses for our Citizens in South Carolina? I sent you a registered letter in 2009 trying to educate your company on the potential of this Billion Dollar crop. [No Response] We got Hemp Law passed last year and the time is ripe for creation of Environmental Industrial friendly jobs that produce NO CARBON FOOTPRINT.

Crystal Jones Watson is a part of SCE&G Family that would be a great leader of this new look at environmental opportunities for our Citizens. Crystal is having a graduation party on the 10<sup>th</sup> of December to celebrate with oyster roast. Crystal has a husband and three children to raise that I want to take poisons and chemicals out of carpet, cloth, plastic, wallboard, lumber, paint so that these kids will have less medical problems in future. The demise of Hemp was caused by Hearst, DuPont and Rockefeller in 1937 because Hemp would ruined their Billion Dollar Businesses. It's all in Government records if you would now take an interest?

They have converted three coal power plants in Ohio and Virginia to burn wood in the last four years. I have continued to ask Harris Pastides at University of South Carolina to give me the opportunity to open this closed

station once again and burn Hemp. No carbon footprint and use the gases to grow plants in greenhouse. Hemp grows twenty foot tall in 4 months while giving you two crops a year where pine trees give you allergy and takes 6 to 10 years to produce the pulp. [ take poisons and chemicals to create products] Everything about hemp is bio degradable and nourishment to the earth.

I have IDEAS to build hemp plastic houses (hemp plastic is 10 times stronger than steel) that generate some electricity in building products. The Military is using the guys Idea from Georgia Tech in cloth to generate electricity for hardware in field. CEO Immelt of General Electric likes the idea but wants me to submit a working plan. Need help!

All clean-up of spills, military bases, nuclear and other things can be helped with hemp production. I've ask Sierra Club to let me work with them on cleaning up Gold Mine and it would refurbish top soil while protecting young trees.....NO! Sir, I can clean up air, water and ground with hemp that is not usable right now. Hemp would supply oxygen while eating pollution and not causing any discomfort to our Citizens.

I would love to sit down and talk with you about these IDEAS. I've ask Don Tomlin Jr. once again to reconsider helping me get involved with USC Incubator but have yet to receive response. Dr. Terry Walker, Clemson Bio Mass Center, has been an advocate of mine since 2008.

Oh! I ask Steve Benjamin, Mayor of Columbia, to build new baseball field with all hemp products so that Columbia could show innovation while having the first ball park with NO CARBON FOOTPRINT.....

Crystal Jones Watson would be a great person to help Hemp for Mother Earth create environmentally sound products for future generations to live without poisons and chemicals.

Sincerely,

A handwritten signature in black ink, appearing to read "Ricky L. Loftin". The signature is fluid and cursive, with a horizontal line drawn across the middle of the letters.

SLED – Mr. Mack Keel

Police Chiefs – Mr. Dan Reynolds

S.C. Law Enforce – Mr. Mike Oliver

Dear Sirs:

HEMP FOR MOTHER EARTH has been attempting to educate the Citizens of South Carolina, since 2005, on benefits of Hemp Production. The lies and deceit by Major Corporations in 1937 making Hemp into Marijuana saved Hearst and DuPont from losing Billions while Rockefeller would have had to dispose of his oil byproduct waste. Popular Science Magazine wrote in 1938, " Growing hemp with today's technology would make it the first Billion Dollar Plant."

Trees take 6 to 10 years to grow to harvest which requires chemicals and poisons to produce products that are passed on to our Citizens and earth. Hemp will grow two (2) crops a year with 20% more pulp and better yield per acre than pine trees. (No yellow tree pollution causing us allergies either)

This reduction gives Sonoco, New Portugal wood fiber company and others' environmental sound product that leaves NO CARBON FOOTPRINT. Our trees can grow without fear of clearcutting and ruining our land. Kingstree has closed plywood factory that could run off hemp with board having more elasticity and R-15 insulation in board itself. The Fire Chief would love hemp wood, paints, varnish and etc... because no poisons or chemicals get in burn victims lungs and kills them. These are facts from our Government that you'll can look up for yourselves and see that you are standing in the way of God's most useful seed/plant to OUR PLANET.

Automobile industry will be using all Hemp: carpet, cloth, cardboard and plastic by year 2016. [Henryford1941hempcar.com](http://Henryford1941hempcar.com) is a good starting point to

prove my point. We could lead in environmentally sound plastic that leaves NO CARBON FOOTPRINT. Hemp plastic is 10 times stronger than steel. Hemp is rolling through America like a Freight Train and you'll need to help our Citizens have small business and job creation while keeping Major Corporations from buying up all our Land!

Cancer was cured in 1973 but research was destroyed by President Reagan and H.W. Bush to support Nelson Rockefeller takeover of Big Pharm. Big Pharm is now exerting that patent on NEWS and will take over cannabis studies from our Citizens.

I sent Mr. Keel numerous e-mails and fax's pertaining to Government Studies on Hemp and would love to have each one of you as a Mentor for Hemp for Mother Earth. I've requested a meeting with Chief Holbrook, Chief Tyndall and Sheriff Leon Lott to try and get backing for educating our Citizens to facts not perceived inherited thoughts. The lies and deceit need to stop; while Police, Firemen, EMT's and Churches need to help Hemp For Mother Earth educate Citizens.

God gave me a directive in 2005 to make Haiti a showplace in Western Hemisphere with all natural hemp production. I have worked toward that goal while getting Hemp Legal in South Carolina. We could lead the Nation in creating Environmental Green Industrial Revolution that is grown from our soil and manufactured by our Citizens. The service industry jobs that our STATE has been getting can leave at any time but nobody can stand up against us when we grow and manufacture our own. I have written Governor Haley around 1500 pages of information on formation of environmentally friendly jobs: Taking poisons out of ground, water and air: Aiken Bomb Plant, Nuclear storage dump, military bases and beautification of landfills that would not stink anymore.

I'm an ex-convict that God has used to promote Good Health for our Citizens and Earth. The exposé of lies and deceit by Mellon and Major Corporations to light gives you facts to learn from to protect the Citizens of our STATE with the TRUTH. I pray you use God's message as insight to pursue justice for Citizens. Peace & Happiness!

Sincerely,

A handwritten signature in black ink, appearing to read "Ricky L. Lott". The signature is fluid and cursive, with the first name "Ricky" being more prominent and the last name "Lott" following in a similar style.

Columbia, S.C. 29203

(803) 771-4308

Mrs. Molly Spearman, *Super of Education*

Congratulations on your win last night. I would love to sit down and talk to you about the billions that could be made off hemp promotion in South Carolina. Yes! We got the law passed last year and Senator Shealy voted for Hemp.....Yes! Mrs. Shealy had cut me off facebook for trying to educate Citizens but learned anyway.

I can bring 2 Billion Dollars to S.C. in agriculture and manufacturing within 2 years of planting. We could make all products in our schools poison and chemical free while preserving Environmental balance with nature. I have a hemp plastic house that would generate it's own electricity. Hemp for Mother Earth is all about Common Sense, Insight, Imagination, and Ingenuity & Integrity Too.

New ways of doing things that were foiled by DuPont, Hearst, Rockefeller, Dow & Monsanto in 1937 by turning God's most useful plant into Marijuana. All products from Hemp will leave no carbon footprint and is bio degradable. Colorado schools get \$290,000.00 dollars off every Million in Sales of legal Marijuana for their schools. Legal Marijuana does not hold a candle to the Billions off hemp. Henryford1941hempcar.com is a great read and all cars will be

hemp in the future: batteries, carpet, wood, cloth, plastic (hemp plastic is 10 times stronger than steel) and cardboard. We as citizens deserve education into this plant to see the 50,000 new jobs and small businesses created for our Citizens.

If you'll want to fix schools and learning don't let major Corporation control what our Citizens can do within our STATE. It's time to take our STATE back to homegrown and manufactured productions that create jobs for our Citizens. This could all be achieved with Grants from Government to start a Nationwide educational revolution for Hemp to be leader in housing, medical, cars, farms, wood, plywood and medical for animals.

I've written to Governor Haley since 2008 about using hemp to produce car parts for the 13 car manufacturers within 600 mile radius of S.C.. I also wrote Roger Goodell (NFL Commissioner) about using Roche in Florence as research for marijuana use on football injuries. Roger did not respond but three weeks after receiving my letter; NFL gave 16 \$300,000.00 dollar Grants to study marijuana on football injuries. The Post traumatic stress the Government gave U. of Arizona a Grant to study and getting their marijuana from Ole Miss. Yes! I wrote them too trying to get them to use closed Roche Factory in Florence. Governor Haley refused to help injured service personnel with small farms of 100 acres of better for rehabilitation and growth of military personnel retirement in our STATE. Let's work together to educate our Citizens while creating new and invigorating jobs for our Children in the future.

Lt. Governor, Yancy McGill, has close plywood factory that we could make hemp wallboard that will not mold or mildew and is stronger than regular plywood. Check with Fire Marshall, Hemp will not put off poisons and chemicals that get in lungs like everyday used products.....Hemp for Mother Earth needs to sit down and discuss possibilities of positive effects on our Environment and STATE without Political Parties; just S.C. Citizen's ways of showing the world that we can make a difference and change.....

Thank you for your time.....Sincerely

Ricky Loftin

A handwritten signature in black ink, appearing to read "Ricky Loftin", written in a cursive style.

Mayor Benjamin, Will you help me.....? This is a job I could really enjoy while supplying positive factors on health! Somebody has to be First.....Citizen that creates for City of Ideas!!!

Ricky Loftin                      02-22-14  
Homeless and Jobless    (803) 771-4308  
Governor Nikki Haley  
God's Remedy to Medical Needs

Dear Governor,

Why will no Politician help a voting CITIZEN with written answers concerning using Medical Marijuana/Cannabis/Cannabinoids to CURE my diseases? I've given endless facts on medical marijuana for the past five years but you will not answer! Prakash Nagarkatti (University of South Carolina) is really destroying God's greatest seed/plant gift to enhance profits for Big Corporations.

I would like to conduct a study on myself using buds, seeds and oils? This study could be accomplished with help from Government Patent, Political leaders and University of South Carolina's help. All studies would be a first with me having a job that enhances my body and health. God's greatest seed/plant gift to the planet works; if, we do things naturally. Maybe not the Fountain of Youth but a reasonable facsimile.

A GRANT from Government and donation would support me while using University of South Carolina Incubator Research Center. The facilities at U.S.C. for working out, swimming and etc...would give positive factors in a complete CURE for my body. We need a 20 to 30 year study on this 59 year young body? Curing my diseases would be a FIRST without the harmful effects of additives in today's Big Pharm drugs. Innovation in creating new healthy measure in medical field will be a winning situation for our Citizens.

Yes! The choice is yours' to make; whether you contribute to making me healthy or doing an injustice to God's most useful plant by refusing positive FACTS for ENVIRONMENTAL GREEN MEDICAL/AGRICULTURAL/MANUFACTURING REVOLUTION.

What will it hurt to consider a Citizens request for CURING diseases using my mind and body? COMMON SENSE, INSIGHT, IMAGINATION & INGENUTIY will prevail for Citizens of South Carolina with Politicians getting educated to FACTS instead of lies and deceit by Corporations.

Medical Marijuana would CURE: Ringing in Ears, Bald Head, Stomach Problems, Migraine Headaches, Hep C, Cholesterol, Spinal, Blood Pressure, Skin Dryness & Texture, Shaking/Spasms, Memory, hearing loss and Natural Viagra: chasing women 30 year olds' and being vigorous 22 once again.

Let's immolate Mayor Benjamin's City of Ideas with Innovated South Carolina Citizens creating small businesses that's homegrown and manufactured. We stand to lose much with service industry only jobs!!!

Thanks for your time.....I'm giving Gerri a bunch of facts and hope you tour Canada's hemp fields and production lines while touring their Country??????? Canada sends 1 Billion in exported hemp to U.S. each year!!!

Sincerely,

Ricky L. Loftin

[2008]

Dear Mr. Buffett, I have written and E-Mailed your office many times trying to get Commercial Hemp Production back into the limelight. This need is more in focus now than my first letter to your office in 2007.

I would like to open all closed Plastic Plants in South Carolina and use Hemp plant for cheaper production. SABIC bought out **General Electric Plastic Division** in late 2007 and I know plastic can be made cheaper from Hemp.... **BEMIS** is another plastic division that could be brought down and return this product to the United States .

Plastic Shopping bags must go, U.N. ENVIRONMENTAL OFFICIALS SAY: These bags could be made of plastic from hemp that would disintegrate in the landfills and produce fertilizer after six months. Hemp Fiber bags could replace these bags because they could be made so cheap.... Hemp Plastic can be made 10 times stronger than steel...**Popular Mechanics Magazine 1930's.....** DOW is shutting down two plants in Louisiana that make plastic....

GROUP PROPOSES MASSIVE PROGRAM TO REFOREST APPALACHIAN MINE SITES: Lexington , Ky. This supports my letter(s) in 2007 wanting to use the Hemp Plant to cover the coal slag heaps with productive plants. Young trees will need cover and the hemp plant will provide this and become fertilizer and top soil when it dies in the winter. The colder climates will bring the hemp plant back each year without replanting. Look at Missouri and Kansas .... I wanted to do this to all strip mined land in the United States ...?

Jim Clyburn from South Carolina refuses to answer any of my letters but wants: **A CLEAN, GREEN FUTURE?** We can bring hundreds' of thousands of jobs and hundreds of trillions of dollars to this economy in the next few years with the Hemp Plant.

FEDERAL OK SOUGHT FOR FOREST OF CLONES: This will bring disaster to South Carolina like the fish in the Mississippi River.

The biggest laugh the Government put out was: **FAKE TREES TO COLLECT POLLUTION BY THE INTERSTATE:** What do you do with the pollution when you capture it in these fake trees. Disposal cost plenty of money!!!

Common Sense and Insight into this plant would bring Trillions of Dollars! I want a trillion for myself.... There is so many things that need to be done with this plant that we haven't even scratched the surface.

*Rocky Joffe*

**RICKY L. LOFTIN**

**CATHY SHANNON**

**SHANNON HEATING & AIR**

**CHIEF W.H. "SKIP" HOLBROOK**

**CITY OF COLUMBIA**

**DEAR CHIEF HOLBROOK,**

**WE ARE LOOKING FOR MENTORS TO HELP EDUCATE THE PUBLIC ON HEMP AND MARIJUANA. THIS FIELD IS COMING IN FOCUS STRONGER THESE DAYS WHILE OUR CITIZENS ARE STILL IN THE DARK; CONFUSED BY LIES AND DECEIT OF MAJOR CORPORATIONS IN 1937!**

**I HAVE CONTACTED SHERIFF LOTT AND CHIEF TYNDAL FROM WEST COLUMBIA POLICE DEPARTMENT CONCERNING HAVING A MEETING TO DISCUSS THIS VERY IMPORTANT TOPIC. WE, CITIZENS, DO NOT WISH TO BE LEFT IN DARK CONCERNING THE BILLIONS OF DOLLARS IN SMALL BUSINESS AND JOB CREATION THAT IS SPREADING OVER THE UNITED STATES. MAYOR BENJAMIN AND MRS. WILSON FROM CITY OF COLUMBIA HAS BEEN ADVISED ON THIS SUBJECT; JUST LIKE THE LAST POLICE CHIEF OF COLUMBIA. WE NEED TO BE BOLD AND DARING ON GETTING OUR CITIZENS EDUCATED AND HEMP FOR MOTHER EARTH HAS BEEN DOING THIS SINCE 2005.**

**PLEASE PERUSE MY LETTER(S) AND RESPOND WITH YOUR VIEW ON THIS SUBJECT! THIS IS COMING AND MIDLANDS POLICE, FIRE AND EMT FORCES SHOULD LEADING THE STATE IN EDUCATING THE PUBLIC. WE WANT TO BE FIRST IN ENVIRONMENTAL GREEN INDUSTRIAL REVOLUTION THAT GROWS AND MANUFACTURES FROM OUR SOIL.**

**HEMP-MARIJUANA IS GOD'S MOST USEFUL SEED/PLANT GIFT TO OUR PLANET!!!**

**SINCERELY,**

Mr. Charles Jackson, Jr.

*New Brooklyn Baptist Church*

Mr. Charles Jackson, Sr.

*Laurel Baptist Church*

Dear Sirs,

I would like for you'll to supply guidance for me in my endeavor to give God a positive answer on his directive to me in 2005. Hemp for Mother Earth has reached out to Mr. Jackson Sr. in the past with Government information on Hemp but never got a response! Hemp is God's most useful seed/plant gift to our planet and HIS Family needs to redress the lies and deceit by major Corporations that are harming our planet.

I have contacted all Politicians, Sheriffs and other Citizens trying to educate Citizens about the Billions in environmentally sound jobs and small businesses created with Hemp. We did pass the Hemp Law in South Carolina last year on production. The Citizens of South Carolina deserve to have untainted land, water and air while taking the poisons and chemicals out of everyday used products. A new beginning from the EARTH to MANUFACTURING without any carbon footprint killing our children in the future.

Cathy Shannon (Shannon Heating & Air) and myself need MENTORS in our endeavor with Hemp for Mother Earth. I do have a plan and ways to bring Billions of Dollars to South Carolina if you'll would listen to new creative ideas to help Citizens. Change is upon us and God has sent a message through me to you. Will you help?

Hemp for Mother Earth.....Common Sense, Insight, Imagination, Ingenuity & Integrity Too....

[hempformotherearth@yahoo.com](mailto:hempformotherearth@yahoo.com)  
(803) 771-4308

University of South Carolina  
Ray Tanner & All Sports Coaches  
Rice Athletic Center 310A  
1304 Heyward Street  
Columbia, South Carolina 29208

Dear Athlete Director & Coaches,

Would you'll be willing to give me an appointment to discuss the following matters?  
Hemp for Mother Earth is something I started in Federal Bureau of Prisons in 2005 trying to educate folks on getting hemp going in United States and Haiti! I would like to make Haiti the showplace in Western Hemisphere using all earth grown materials????

My IDEAS are sound and achievable with help from your entrepreneurship sponsorship of athletes!

Hemp will be the next Bull Market on Wall Street. Hemp Plastic, carpet, cloth and cardboard is in high demand in auto industry. Hemp building material leave neither carbon footprint nor will it mold are mildew as time passes.

I've sent information to Nikki McCray concerning cannabis/cannabinoids/oils to CURE CANCER. The study at U.S.C., Prahash Nagarakkii, should be enough to explore God's natural way of CURING DISEASES! We don't need the additives in Cannabis Oils; this only produces side effects and major profit for Big Pharm.

I have more IDEAS that respect Mother Earth and Government will give GRANTS to explore new effects on reduction of poisons and chemicals in food, air, water and ground.

Why not be FIRST in Nation as a college to fully explore Commercial Hemp as a Sports Community effort? Harris Pastides has received positive FACTS on hemp since 2008 but refuses to acknowledge my letter(s) and e-mails! COMMON SENSE, INSIGHT, IMAGINATION & INGENUITY are needed in our leaders for the betterment of earth and all living matter! Has anyone else giving you a Billion Dollar earner in investment for OUR Sports teams to lead the way in education and future homegrown and manufactured jobs? Commercial Hemp got unanimous support in Senate and will be on Senate Floor this year to become LAW!

Respecting God's most useful seed/plant to our planet will reduce the effects of global warming and provide healthier lifestyle for all. Doing things that's not even realized yet will set the Sports Entrepreneurship Program far ahead of other Colleges and Universities! This is not a joke and with help; I'll achieve God's directive to me in 2005! The choice to help me is yours' ..... Thanks!!

Sincerely,  
Ricky Loftin
