Subject: Natalias Bar & Grill Appeal

Natalie,

I am praying about your future as I type this concerning your appeal to city government. It is not often I share with others about how God gives me supernatural downloads concerning the future. I have shared this publicly only one other time with the MBACC Chamber president. The prophecy I gave him actually happened in court this year concerning a ruling against the Beaufort Chamber. He and his team have not yet experienced the ultimate outcome of that prophecy, but it will happen.

He has not given me clarity about what will happen to Natalias, but like Rahab of Jericho and Queen Hadassah (Queen Ester) in their day, it is not accidental that a girl from Honolulu is a part of this current drama. Do not be afraid. God has revealed to me that he does intend to bless you, regardless of what happens to Natalias. He is Lord. Abandon yourself to him and his son, Jesus. He is just now working all things out for your good, regardless of what the small local rulers decide. He will hold those local leaders accountable for their governing.

These councilmen see you as insignificant and unimportant in their plans. God sees you as significant. He put the dreams and plans for the very location your shop holds inside of you.

Here is what I do know:

2017 is the year of God's realignment.

I am telling you these things (that I never share publicly) so that you may know that GOD is Lord, and not these local business leaders - nor these local politicians.

- God is revealing to me that John Rhodes will not live to see the end of 2017. God will take him quickly as he took David Brittain, and in that same manner.
- The Chinese investments this city has hoped for will not materialize. These doors are already closed. Communications will break down and come to an abrupt end.
- Israeli investors are already aligning with one powerful local corporation. These two groups will come together as one and take a firm hold of Myrtle Beach's future growth. Local politicians and other local business leaders will entirely lose control of the process they worked to put in place. The process will interrupt and disrupt the meticulous plans these government (officials) groups have spent large amounts of time putting in place.
- The Israeli role in Myrtle Beach's future is key for international reasons God has not revealed to me as of yet.
- Multiple forces will come together to confuse and confound local city council leaders. November 2017 will be a time of great realignment.
- Some of these leaders will actually see God at work and also re-align their agendas to his will. A few proud leaders will be brought low.
- 2018 will bring a dynamic shift for bureaucracy inside the city of Myrtle Beach government. Look for several key positional changes. These changes will trickle down to

each department creating a new culture long term in city government's attitudes and the grace by which they govern.

- Finally, the role of media in America, that became prominent in the 1960 Nixon - Kennedy debates ended with the November election of Trump. The 2017 re-alignment will see media become more fragmented as trust alignments among average citizens will reshape that entire business model. The pushback of "Fake News" currently expressed by those trying to hold on to power, will come full circle and cause problems for establishment media corporations.

My own team will experience significant realignments that have already begun to take shape. I am not currently aware of how and who this is. However, I belong to GOD. My job is to bring his light into this community. I will never receive any glory for the work I have done nor that I will do. God, however, will be glorified and made known through this work. Myrtle Beach has a bright and important future just ahead.

What Jesus said of himself has also been true about me: **"A prophet is not without honor except in his own town, among his relatives and in his own home."** In humility, I have died to the knowledge of this truth some long time past.

It is not me nor the words I have published online that these men rail against. It is God himself they are fighting. While they see themselves as "Good People", they have set up systems of protection for themselves that protect them from having to live by faith in God. This, and the way they have treated those they govern are their great sins. They have put their faith in their donors, systems, and alliances without the consideration and inclusion of an all-powerful God in those plans. To show them he lives and that he is Lord, those very systems and alliances are just now becoming their own downfall.

GOD IS DOING THIS FOR THEIR GOOD as well as the good and future of this city. Do not make great anything I am telling you. God has known all of these things all along in advance. He is simply giving me a small glimpse into his future.

While many will read these words and see me as a kook or false prophet, I boldly state this so that those who do read this will know I said them in advance to show that God is Lord. Only his plans and his will become realized. Faith in him exceeds that of systems, donors, and dark alliances.

History, Natalie, is HIS STORY. We all are just playing our moment in time in God's Story. Count it as joy that he has picked you for such a key role in such a key time.

Sincerely,

David Hucks
