An infographic with a brown top section containing a circular gauge chart showing 65%, 49%, and 53%. The text reads "65% of people use firewood: 53% for home heating, 49% for recreation, and many for both." Below this is a red box with the text "TRANSPORTING FIREWOOD CAN SPREAD PESTS." and "Trees in ALL 50 STATES AND 10 CANADIAN PROVINCES ARE AT RISK of attack by invasive species if people move infested or diseased firewood." The central illustration shows an orange truck with a firewood rack in a forest setting, with a sign that says "YOU CAN HELP BUY LOCAL FIREWOOD". At the bottom, it says "BUY IT WHERE YOU BURN IT.
