Message:
Governor Haley,

I would appreciate our state following the actions of Texas Governor Greg Abbott on the subject of pastors having to recognize the preposterous mandate given by our government on same sex marriage.

While I would have loved to see our state to have been the first to step out and do this, I am content to see us follow suit. We are as believers, which our nation was founded on, are swiftly becoming the enemy of our beloved country. Why, because we believe and stand for an Almighty and Supreme Being who is in authority and has set the precedent of what our standards are to be to live fruitful lives. We then opened our arms and hearts to all those who would like the opportunity to share in this freedom and they have gradually formed groups to take ours from us and to desecrate everything we stand for. Our nation has become one that I hardly recognize any more and I am only 62 , what will my grandchildren have to face. I implore you to read Governor Abbott's decree and let South Carolina, my home and beautiful state, maintain at least this much dignity!

Thank You,
A Concerned Christian,
Shirley Hanson
