hey there! I know this may seem like a great task, but can you tell me what dates you have available if any, from April to may? excluding may 16th weekend. I typically go to work before anyone is open and get off work, when everything is already closed. also, if you have time this weekend sometime, can someone show us around the place? I live in NC and my fiancée is moving from SC to NC. and we've decided to get married in SC. but living up here trying to find a venue there is a task. no one wants to really work around my work schedule to try to let me see the venues. we only visit SC on the weekends to see his family and to check on his grandads house. then it's back to NC to work for the week.Or if you could send me all of your info on the venue to my email. It's Tinaandliz@gmail.com.... But I really hope while we're in SC this weekend, we might find time to go see it.
