What's that in the ocean you see? Why it's a humpback whale spotted from the Myrtle Beach State Park pier! Two humpbacks were spotted over the weekend at the park. Sometimes during the winter months, these creatures can be seen along the SC coast. What a cool sight to see!

Dale Williams We started seeing something and people looking then saw the spray they were shooting from their whole. I heard a lady in the pier store talking Saturday morning but didn't know what she was talking about. My camera isn't strong enough for me to get pictures that far off so I didn't get pictures
at 11:31:58 on 11/30/2017 UTC

Jane Cunningham Derrick They are awesome to see. I saw them when I took an Alaska cruise years ago. Memorable experience.
