With no opposition, the item was added to the agenda under 'Other Business'.

**Chairman's Report**

Chairman Floyd addressed the Commission, reporting "where we are now and where we're headed, or should be headed, over the next year." The summary of that report is Attachment I (ATT I).

(ATT II.b)

**C. Consideration of CHE Consultants' Evaluations:**

1. Business
2. Foreign Language

**Recommendation 1:** The Committee recommends that the Commission approve the following recommendations regarding the review of existing academic programs in business:

that the programs listed on Attachment 1 of this report for which continuing approval is recommended by the Commission's consultants be granted such status;  
that the following programs be granted commendations of excellence, as recommended by the Commission's consultants:

- BS, MS, and PhD programs in Industrial Management, Clemson University
- Master of International Business Studies (MIBS), International MBA, and Professional MBA, University of South Carolina-Columbia;

that the following program be granted a provisional approval, as recommended by the Commission's consultant, pending a follow-up report to be submitted to the Commission no later than February 1, 2002, indicating the modifications made or in the process of being made to the program to enhance its quality:

- PhD in Business Administration, University of South Carolina-Columbia.

On behalf of the Committee on Academic Affairs and Licensing, a motion (Chinnes) was made, **seconded** and **carried** to approve the recommendations as stated above. (ATT II.c).

#### **D. Consideration of Proposal to Establish the S.C. Information Technology Institute**

**Recommendation:** The Committee recommends that the Commission approve the South Carolina Information Technology Institute for immediate implementation, provided that the Board of Directors is appointed at the earliest opportunity and completes development of the elements described above by June 30, 2001. (ATT III)

On behalf of the Committee on Academic Affairs and Licensing, a motion (Chinnes) was made, **seconded**, and **carried** to approve the recommendation as stated above. During the discussion period, Dr. Shi expressed hope that, once the Board of Directors is created, they remember that there are selected private colleges in the state that can make substantial contributions to this effort and are willing to do so. He voiced concern that the private colleges have, thus far, not been invited to participate in the discussions.

**6. Other Business**

House Bill 3201 (ATT VI) is a bill to add a CHE member to the Commission to represent Greenwood Genetic Center, funded by the Self Foundation. Representative Stille's subcommittee asked that the Commission take a position on this.

Dr. Barton pointed out that we have representatives of sectors, representatives statewide and representatives from congressional districts. He therefore recommended that this not be enacted. Dr. Barton agreed to inform Dr. Stille in writing of the Commission's position.

Mr. Ravenel asked about the State Lottery and how it may affect higher education institutions. Dr. Barton informed him of progress being made in that area and studies being done and that the report will be presented to the Commission when completed.

Chairman Floyd mentioned the public service initiative and indicated that there may be some recommendations at the next meeting. Dr. Jackson suggested a survey to find out what institutions are doing in the public service arena.

There being no further business, the meeting was adjourned at 11:45 a.m.

Respectfully submitted,

Betsy A. Gunter  
Recording Secretary
