Date of Submission	8/23/2017

Disclaimer: The Committee understand the amount the agency budgeted and spent per goal and objective are estimates from the agency. The Committee requests that the estimates have a logical basis, which the agency can explain, as to how it determined the amounts provided.

**INSTRUCTIONS:**

Please copy and paste the information the agency submitted in its 2016 Restructuring Report, then update this information to reflect the funds available and funds spent through the end of fiscal year 2015-16. If the agency was unable to completely fill in this chart when submitting its 2016 Restructuring Report, this is an opportunity to provide a complete submission. Further details regarding Part A and Part B in this tab are on the next page.

**Part A: Funds Available this past Fiscal Year (2015-16)**

Please enter each source of funds for the agency in a separate column. Group the funding sources however is best for the agency (i.e., general appropriation programs, proviso 18.2, proviso 19.3, grant ABC, grant XYZ, Motor Vehicle User Fees, License Fines, etc.) to provide the information requested below each source (i.e., state, other or federal funding; recurring or one-time funding; etc.). The agency is not restricted by the number of columns so please delete or add as many as needed. Any grouping of funding sources should be easily understandable and clear through Part A and B how much the agency had available to spend and where the agency spent the funds.

**Part B: Funds Spent this past Fiscal Year (2015-16)**

a) The agency's objectives and unrelated purposes are listed based on the information the agency provided in the Restructuring Report. The agency will see there are new rows between "objectives" and "unrelated purposes." These new rows allow the agency to list money it spent this year that was for previously committed multiple year projects. The intent is to separate what the agency spent toward its current objectives and what it spent toward objectives and projects from previous years, which took multiple years to pay off. If the agency believes the new rows are not useful in illustrating how the agency uses its funds, the agency may leave them blank. However, if they assist the agency in more clearly showing how it uses its funds, please utilize them.

b) Please add any information needed in the new rows (i.e., "Money previously committed for multiple years") and make any revisions necessary to ensure all unrelated purposes are listed. An "unrelated purpose" is money the agency is legislatively directed to spend on something that is not related to an agency objective (i.e., pass through, carry forward, etc.).

c) Finally, review and revise the amounts spent from each funding source on the agency objectives, money previously committed for multiple years and unrelated purposes so it reflects how much the agency actually spent on each and fill in the information requested in the remaining rows. Please provide the total of all the values from the different funding sources for each row.
