Subject: Budget Stuff

---

Before I forget...

1. I've updated the notes document to reflect all the meetings we've had so far (except Aeronautics, I guess, now that I'm thinking about it).
2. We need something XLS-y that will let us keep rough score of the GF and CRF changes we're envisioning, as we go through these meetings. Something for us to discuss Monday.
3. We need some answers from BEA on the Tobacco Settlement Fund questions. Also wanted to confirm what we've got / will get from them re: tax expenditures passed into law in 2012, along with the 3-year pass-through cut. Once we talk, I want to reach back to Frank to get whatever we don't have yet.
