Subject: Savannah River Site

Swati and Austin,

Some of our members who do work on the Savannah River Site have talked to me about the fact that DOE is working on a couple RFPs for the work at the site. They think that it would be helpful for the Governor to take an interest in what DOE is doing related to the future of contracts at the site. None are asking for help specifically for them or their company they are just concerned that our site takes a back seat to other sites around the country.

Would yall would be interested in pulling together a group of the contractors to get their take?

What is interesting is that most of the contractors do work at all of the sites so there really isn't gain to the company's overall bottom line but the South Carolina leadership at these companies say it directly affects SC.

They seem to think that other state's are doing this and it would help for Nikki to ask questions of Moniz and DOE

now while the RFP's are being drafted.

Let me know.

Subject: FW: DOE Releases Request for Information/Sources Sought for Savannah River Site Liquid Waste Services

Ted,

Thanks for lunch today. The discussion was very helpful to me.

Here is the RFI information regarding the Savannah River Liquid Waste contract I mentioned.
