I am a little late trying to find these, so I'm hoping whoever sees this message can help. I discovered these SC Park patches about a year ago and found that they are hard to find now. I'm hoping that you or someone that works there may still have them boxed up somewhere. I am willing to trade or purchase (with finders fees 😊) for the ones I am missing from the attached picture.

Hi, Luke. The best thing you can do is check with the park office or park store at each park. It will be an "egg hunt" for sure, but hopefully you can find most of them.
