Allow the Midwifery Advisory Council to write LM regs in South Carolina

Kristyn Leonard Columbia, SC

Kristyn Leonard

Columbia, SC

Supporters

The South Carolina Board of Health and Environmental Control (DHEC) is attempting to rewrite the current Licensed Midwife (LM) regulations with inclusions that are not evidence based nor in the best interest of the patient.

These include but are not limited to:

- *Not allowing a LM to attend a birth after 41 weeks gestation. Gestation can vary greatly and putting such an early arbitrary date helps no one.
- *Not allowing a LM to attend a VBAC (vaginal birth after cesarean). This one really makes me angry as a c-section mama. Midwives scope of practice includes the care of low risk pregnancies and attendance of low risk births. DHEC is essentially saying that THEY know better than ME or my DOCTOR if I am low risk or not. That is not their call to make. They don't know me or my history, a history of cesarean alone does not make me high risk. Informed consent is critical, but I have the right to choose what risks I am comfortable taking.
- *Not allowing a LM to administer antihemorrhagics until AFTER a very heavy blood loss. Again, this is DHEC saying they know better than the midwife in the situation what is best for the patient. This is simply not true.

Here is what I can gather about the DHEC board using their own website:

"Don Amsler, Chairman; CEO of a construction company

2:56 PM

12/9/15 2:5

Mark S. Lutz, Vice Chairman; administrator at an OBGYN office, holds an MBA in Organizational Development
Ann B. Kirol, DDS, Secretary; Dentist
R. Kenyon Wells; owns a medical supply company
Charles M. Joye, II, P.E.; CEO of an engineering firm
L. Clarence Batts, Jr; chemical engineer
John O. Hutto, Sr, MD; cardiologist
William Lee Hewitt, III; owns a real estate firm

While I have no doubt these are good people who together can solve many issues, birth is not one of them. Not one of these board members are equipped with any sort of formal training on childbirth, especially not out of hospital birth. And on top of that they have NO RIGHT to make medical decisions for me or anyone else for that matter. Period.

DHEC continues to put politics above people and it has got to stop. It is those who bear children who are the consumers of birth services; whether they be at a hospital, at a birth center, or in our own homes is OUR decision to make. No one else's. The women, and men, who actually work with home birth and birth center patients are the ones who know the nuances of out of hospital birth best. We, the undersigned, assert that the Midwifery Advisory Council are the ones who should be writing the regulations.

Letter to
South Carolina DHEC
Governor Nikki Haley
Allow the Midwifery Advisory Counsel to write LM regs in South Carolina

Comments

Name	Location	Date	Comment
Samantha Mahon	Virginia Beach, VA	2015-12-05	Women need option in childbirth! It's a HUMAN right!
Rachael Miller	Minot Air Force Base, ND	2015-12-05	My labor my choice, not yours.
Rachael Figueroa	Columbia, SC	2015-12-05	I am a homebirth mom. I used a licensed midwife in the state of SC. She was amazing and helped me bring my baby into the world naturally and safely. It was a magical experience and I'd like to be able to do it again. Please don't take that away from me and all the other moms who want to use midwives. Midwives are standard maternity care in every country but the US. We should be striving for that, not moving farther away from it.
Audrey Montgomery	Columbia, SC	2015-12-05	I support a woman's choice to her own medical decisions.
Brianna Barker	Madison, AL	2015-12-05	I'm signing because I live in a state where women's rights to choose where and with whom are nonexistent. Women flee the state in labor, paying their money's in another state. I crossed state lines in labor and I am a VBAC mom. I have seen the restrictions placed on birth by politics and good ol' boys clubs guarding their monopoly... I've seen them say it's for our safety. But I've seen that these restrictions make our birth MORE unsafe. The women who feel they have to come in pushing... The women driving hours for evidence based care. The women second guessing a needed transfer for fear of hostility. Lack of collaborative care. Do not do this and slip down the slope to where we are. I stand with my sisters for the rights of birthing women.
Bethany Roberts	Auburn, AL	2015-12-05	I want my midwife to be able to do things in my best interest that are evidence based and NOT be forced to go to a doctor because someone limits the practice of a well trained and perfectly capable midwife.
Pam Martin	Oxford, AL	2015-12-05	I believe that women have the right to choose how they birth their babes.
Jessica Ford	West Columbia, SC	2015-12-05	It is our body. It should be our choice. Women should be the ones deciding how, where, and with whom present they give birth.
Leah Cornett	Stafford, VA	2015-12-05	Women should have the option to how they want to birth.
Deanna gordon	Heber City, UT	2015-12-05	Women deserve the options. They have the right to choose where and with whom they deliver!
Leigh Miles	Aiken, SC	2015-12-05	Midwives are a well regulated group of professionals. Why is a non-medical, public policy group trying to place regulations on their scope of practice? That scope is defined by their national certification. These regulations are outside of DHEC's purview. Furthermore, midwives are an integral part of birth care in nearly every other first world country. They improve patient outcomes, decrease medical costs and interventions, and provide a level of personal care that an obstetrician can't hope to match. Why are we sidelining these providers? Hear us, please, and let these midwives do their job, without placing undue burden on them.
Kristy Bocox	Ladson, SC	2015-12-05	Women deserve the right to birth where, when, and with who they want.
Ashley Price	Kershaw, SC	2015-12-05	It's a woman's right to choose how she gives birth. So long as she makes an educated, informed decision and understands the risks associated with her choice, then it is her choice.
Angela Tatum Malloy	Fayetteville, NC	2015-12-05	I had midwives with 3 of my 5 births and one of those births was at 42w5d postpartum. My best births were experienced with my midwives and my worst in the hospital without my midwife. A women needs to be allowed to choose how her birthing experience will be and who will attend that birth.
Holly Chapman	Concord, NC	2015-12-05	Women should have the choice of where and with whom they deliver.

Name	Location	Date	Comment
Kathleen Aita Houpt, D.C.	Bluffton, SC	2015-12-05	I wanted to protect women's right!
Jane Dobreski	Columbia, SC	2015-12-05	Women have the right to make decisions for their own bodies
Melissa Dunbar	Spartanburg, SC	2015-12-05	I'm singing because a midwife saved my baby. Every women/family should have the right to choose the birth that's right for them. Long live the freestanding birth enters and home birth!
Brittany Jones	Augusta, GA	2015-12-05	I support a woman's right to birth how she feels is best.
Taryn Gibson	Taylors, SC	2015-12-05	I believe in a woman's right to informed consent and to choose how she wants to birth.
Hanna Chitwood	Spartanburg, SC	2015-12-05	It should be a right to birth where I want, how I want, in accordance with the guidance of my personal healthcare professional, which happens to be a very experienced and knowledgeable LM.
Carrie Nazzaro	Columbia, SC	2015-12-05	Women who want a natural, unmediated childbirth deserve to receive care from someone who understands and supports their decision. Whether that birth is at a birth center, at home, or in a hospital, having an experienced, knowledgeable midwife is extremely beneficial. Putting more restrictions on midwives would be to the detriment of so many women in this state.
Mary Williamson	Easley, SC	2015-12-05	I'm signing because I have used a midwife with 2 births and know how educated and passionate they are about the health and well-being of mom and baby. I should choose who knows me best in the event of birthing my child.
Sarah Collins	Myrtle Beach, SC	2015-12-05	I'm signing because I have experienced two hospital births and one home birth. My home birth was THE most amazing experience of my life. It was calm, gentle and stress free. I used a licensed midwife in SC and received far more personal care from her than I did with my two hospital births. Please allow the Midwifery Advisory Counsel to write the LM regulations in South Carolina!
Mara Lubic	Columbia, SC	2015-12-05	I'm a woman, mother of two and possibly a VBAC mother in the future. I feel our rights as mother's and birth are being forced out of our own hands!
Kathy Perkins	Travelers Rest, SC	2015-12-05	Women, like all of creation, know how to give birth and need power to make the right choices for themselves. Give women the right to birth when and where and with whom they feel safe with. Abort, which is very unnatural, has less interferences by regulations even when doing things illegally and for profit.
Patti Sisk	Spartanburg, SC	2015-12-05	It is a just cause. Women can choose how they want to have their babies. Midwives, and their colleagues provide for their patients, unborn children included, with more respect, concern, and care.
Becky Wood	Travelers Rest, SC	2015-12-05	This is absurd. I would never allow this to any of my children or grandchild..
Allison Benner	Simpsonville, SC	2015-12-05	I was truly blessed by my experience with my midwife during the birth of my second child. They are trained and give sacrificial time to the healthy births of many children today.
Julie Lyall	Mauldin, SC	2015-12-05	I had my daughter with a midwife at 41.5 weeks, she was perfect and healthy. SC women should have the right to choose who provides them care during childbirth. Each woman's birth is unique, regulating them like this is senseless and damaging.
Daniel Montgomery	Summerville, SC	2015-12-05	I agree with the statement.
Beth Mitchell	Bluffton, SC	2015-12-05	I actually choose the conventional methods of birth for myself but definitely feel any decisions on such a matter should be made by the mother unless proven scientific reasearch gives cause for major danger by an LM being present which I find hard to believe could ever come up in this case. We are giving the miracle of life to the world and politics has no place in this matter!

Name	Location	Date	Comment
Ellyn Reeder	Greenwood, SC	2015-12-05	Less policies mean less restrictions mean less interventions mean less complications mean healthier moms and babies!
Pam Montgomery	Summerville, SC	2015-12-05	After watching my daughter's home birth, with the midwife in the relaxed atmosphere, it was priceless. They know what they were doing and have had the training. They are the ones that need to do the writing .
Melissa Windon	Greenville, SC	2015-12-05	Taking away women's options to birth is not going to help the already questionable birthing system. Women need to be allowed to birth with a midwife in the home and midwives need to have the privileges to accommodate those mothers adequately. These new regulations seriously threaten a woman's right to give birth the way that she wants to. Hospital births are relatively new having started only becoming the norm in the last century. Please don't threaten the births of mothers across the state and do not pass these proposed regulations.
Kristy abney	Bluffton, SC	2015-12-05	I had two amazing home births assisted by a certified, licensed midwife. Please don't diminish our rights.
Andrea Trumbull	Запожжя, Germany	2015-12-05	I'm sick of my freedom being taken away.
Vanessa Ramey	Murrells Inlet, SC	2015-12-05	My Grandmother was a nurse way back in the day when a nurse actually cared for their patients. She lamented the demise of nurses as their jobs turned them into drug administering and charting machines. These new regulations are changing midwifery in much the same way. My understanding of midwifery has always been that it focuses on the woman's body knowing how to make a baby and birth the baby. We aren't supposed to intervene unnecessarily. These regulations will change midwifery into something other than what it is, much the same way nursing has changed to something completely different than Florence Nightengale or my grandma knew nursing to be.
Amanda Hucks	Greer, SC	2015-12-05	I had a safe natural birthing experience in a birthing center and believe everyone should have that right. Our bodies are capable of more than we give them credit for and we don't need as much medical intervention as have.
Rebecca LeBoeuf	Irmo, SC	2015-12-05	Consumers deserve to have a voice in their birth choices.
Kelly Barrell	Bluffton, SC	2015-12-05	Women should have the right in where and how and when to give birth
Terri Elder	Inman, SC	2015-12-05	Women have the right to make choices about their body, their baby and their birth.
Lauren Hanson	Reidville, SC	2015-12-05	Women deserve to labor and birth how they choose without government intervention.
Jamie Vincent	Raleigh, NC	2015-12-05	I had a c section with my first baby because she was breech. I was hoping to one day get to birth naturally at home with on of her siblings, but with these new regulations that would be impossible.
CHRISTINA Parker	York, SC	2015-12-05	These proposed regulations are unsafe and unwise. Regulations concerning midwifery care should be written by those familiar with midwifery. Womens health matters! Birth, matters.
Pamala Wilson	Pineville, NC	2015-12-05	If these regulations are passed it will only eliminate licensed midwives in SC and create safety issues for mothers and their babies.
sarah roop	Greenville, SC	2015-12-05	I believe in midwives
Megan Howe	Beaufort, SC	2015-12-05	Stand up for woman's rights. Sign this now. "DHEC is essentially saying that THEY know better than ME or my DOCTOR if I am low risk or not. That is not their call to make."
Holly Smith	Spartanburg, SC	2015-12-05	Love my midwives!

Name	Location	Date	Comment
Molly Antos	Matthews, NC	2015-12-05	I could not have gotten through the unmedicated, all-natural birth of my first child without my amazing midwife. After 30 hours in labor, I'm sure the results in a medical setting would have been quite different, so I am eternally grateful to have had an advocate that helped me and my husband see through the birth plan we had our hearts set on. I believe in what they are trying to do and a woman should be able to choose when and how she has her baby.
Wendy Kelly	Bluffton, SC	2015-12-05	I believe DHEC is overstepping the bounds of their purview and attempting to make changes that will negatively impact women's rights and health.
Claudia Süpner	Germany	2015-12-05	Because I'm a midwife too and here in Germany happens the same thing with not evidenced facts!
Andrea Berry	Jensen Beach, FL	2015-12-05	I am a VBACitivist!
Lori Downs	Austin, TX	2015-12-05	I believe women should have the right to decide for themselves the type of care they want for them and their growing bump!
Mika'l Qualis	Wake Forest, NC	2015-12-05	I believe in midwives and the difference they make in child birth. My first three were born in hospitals and a traumatic experience. My last two were born in birthing centers and some of my most precious memories. This should always remain an option for birthing momma's!!!
Phillip Martin	Columbia, SC	2015-12-05	A woman should have a right to choose her own form of medical treatment in regards to her birth. Midwives are wonderful caregivers. They should be allowed to treat their patients as their training permits.
Sedalia Phankhaysy	Spartanburg, SC	2015-12-05	The continuous act of placing politics before people has got to stop! My body, my choice!
Amity Anderson	Killeen, TX	2015-12-05	The proposed guidelines are not evidence based. Licensed midwives are highly trained in out of hospital birth, and are the best ones to collaborate on determining regulations.
Regina Garcia	Ogden, UT	2015-12-05	It's actually not your place or your business to tell women where, when, or with whom to give birth. Even if you are a care provider specializing in childbirth, you have no right to comment on another professional's "patient". This is an arrogant, selfish, dismissive, and oppressive censorship of autonomy and choice. This is an attack supporting a troubling agenda that would have us believe a pregnant person is dimwitted and incapable of making intelligent and educated health choices. This is a group of people trying to lay claim on another person's child and make life choices, medical choices, based off of whim and personal preference, myth, fear, and profit, with no legitimate scientific truth or context applied.
Ashlie Moon	Taylors, SC	2015-12-05	If it wasn't for my midwife I would not have had the beautiful and easy birth I had. Stop making giving birth a medical emergency. It is a natural thing that women do everyday and can do without a doctor telling her what they think needs to happen.
Mary Foley	Howard City, MI	2015-12-05	I had midwives at my last child's birth.
Keirsten Crawford	Greer, SC	2015-12-05	I want medical decisions about where and how I give birth to be between me, my midwife, and my doctor. DHEC should not impose regulations that are not evidence based and may not be in the best interest of me, the patient.
Rachael Gelardi	Greer, SC	2015-12-05	I want the right to legally deliver at home with a midwife like I did with my last baby.
Laura Berg	Greenville, SC	2015-12-05	Having a natural birth at 41 weeks, 2 days, was only possible because of my LM. Take politics out of this, and let the MAC do their job, please.

Name	Location	Date	Comment
Karla Costner	Woodruff, SC	2015-12-05	Home birth will end in SC if this regulation is passed. OBs will not back midwives for fear of losing their admitting privileges at local hospitals. I have had 6 children, two of which were home births. We want our right to choose where and how we birth!!!!!!
Grace Olvera	Greer, SC	2015-12-05	DHEC is declaring the ultimate war on women by not allowing the Midwifery Advisory Council to rewrite the provisions and regulations for LMs in their own profession and expertise. DHEC wants to take away a woman's constitutional right to give birth how she wants, and these regulations by DHEC will make it next to impossible.
Kathleen Bishop	Greenville, SC	2015-12-05	I am a doula and home birthing mom. I have done extensive research on both hospital and out of hospital births. I know my options and the risks are far greater for me in the hospital. If we spent more time and money educating women about the birth process and their options we would have far better outcomes for mothers and babies everywhere.
Jen Kaczynski	Columbia, SC	2015-12-05	Because these rules do not make any sense based on what we know works well in other countries. It's not logical and is clearly an attempt to eliminate choice for women.
Jennifer Ashley	Tulia, TX	2015-12-05	I'm signing this because babies! Because mothers! Because I'm a mother to three babies! And mostly because a mother should have the right to choose how her child comes into the world.
Jolene Bradey	Hobbs, NM	2015-12-05	No one should have medical freedom taken away because a board of bureaucrats have decided it will better line their pockets and those of their friends to deny mothers the right to choose their birth paths.
Kristin Dennison	El Paso, TX	2015-12-05	I'm a home birth mother as well. The state has absolutely no business limiting my options for care. These types of regulations presume mothers and midwives aren't capable of making informed, evidence-based decisions and that is beyond insulting. Mothers, as patients of either a Licensed Midwife or an ONGYN, are entitled to Informed Consent (or refusal). To place restrictions such as these effectively strips women of their right to informed consent by using the law as compulsion. I implore you to act in the interests of all women's human rights as well as Liberty in general, and reject the proposed legislation. Thank you for your consideration and respecting the autonomy of intelligent, informed women all across the state.
Jeanette Chomic	Trufant, MI	2015-12-05	Women should have options for child birth. I delivered my first child with the help of a midwife in South Carolina.
Alexis Walker	Bluffton, SC	2015-12-05	There weren't always hospitals to have babies in! Let the mothers birth the way they are comfortable!
Carrie Elisabeth Trent	Columbia, SC	2015-12-05	I believe woman should have birth rights
Emily Peebles	Columbia, SC	2015-12-05	I wouldn't have traded my midwife's care for anything!
Jessica Martin	Laurens, SC	2015-12-05	I had my daughter in 2010 with a midwife in a birthing center. This was an amazing experience as a first time mom & cannot imagine having to be forced into a hospital setting merely because a 'guess date' was wrong. Keep Emergencies in hospitals & keep midwife's doing what they do (catching the babes of low risk mamas) in homesc& birthing centers
Kristin VandenBerg	Howard City, MI	2015-12-05	Because everyone women has a right to chose where her baby comes into this world, & who is encouraging her along the way
Lisa Lee	Dillon, SC	2015-12-05	I am a vbac Mom and I used a midwife to help me deliver my baby, it was a hospital birth because of current DHEC restrictions about vbac Mom's. This needs to stop, we are losing way too many Moms and babies .

Name	Location	Date	Comment
Sarah Barrett	Charleston, SC	2015-12-05	LM-attended births are lower cost, lower stress, and better for mom and baby in low-risk situations.
Allana Robinson	Edmonton, Canada	2015-12-05	Women have a right to make their own decisions about their care during birth. Midwifery care is safe, much safer than hospital birth. Allow people who know birth to legislate birth.
Christie Johnson	Union, SC	2015-12-05	When should be able to birth where they feel safe and comfortable.
Tracy Biring	Greer, SC	2015-12-05	After three wonderful births with a midwife, I know these brilliant folks can handle their own.
Amanda Bright	Seneca, SC	2015-12-05	I was proud to live in this state and see that I actually had birth options here, but I delivered my daughter at home two months ago at 41.5 weeks and that right would have been taken from me had this measure been passed.
Samantha Cyr	Middletown, CT	2015-12-05	I had a fabulous homebirth by a midwife & she was much more confident in knowing what she was doing than more OBGYN's I worked with as a certified surgical technologist
Ivy Parrish	Summerville, SC	2015-12-05	Safe reasonable standards should be written by those medical professionals. Women should have the right to choose who and where they would like to deliver. The current regulates they want to put into law would restrict me from a homebirth and I am considered low risk.
Kate Cropp	Nashville, TN	2015-12-05	Midwifery care should be governed by a board of midwifery. Midwifery care has been proven time and time again to be safe for low to moderate risk pregnancies. Midwifery care keeps health care costs down.
Monica Solomon	Sumter, SC	2015-12-05	I'm signing because we as women should be able to decide the way to birth our babies into this world. We know what's best for our babies as well as our bodies.
Georgia Hembree	Greenwood, SC	2015-12-05	Choice should be with the people. There is way too much government interference already.
Beverly Threatt	Greenville, SC	2015-12-05	I have had 3 beautiful healthy grandchildren and my daughter choose a midwife to deliver all three..
Beth Davis	Greenville, SC	2015-12-05	I'm signing because I truly believe in midwives. I gave birth to my second daughter at the Greenville Birth Center and I wouldn't change it for the world.
meghan fusaro	inman, SC	2015-12-05	It's not the governments decision to make.
Sarah Walton	Reno, NV	2015-12-05	Women deserve options and it is proven that homebirth can be as safe, if not safer than hospital birth. 1 out of 4 women experience trauma during birth. That is one million women in the USA a year. This often boils down to not feeling cared for, included in decisions and being treated poorly by staff. We deserve to birth in a place we feel safe and for some of us, that is our home. We deserve access to respectful care and for some of us, that is with midwives.
Elaine Bartley	Hodges, SC	2015-12-05	I have had six successful home births. We need people who are knowledgeable about midwives, birth centers, and home births to be in charge of writing these regulations. They will have the best interest of the mothers and babies.
Kristie Norwood	Lugoff, SC	2015-12-05	As a Doula who supports a mother's choice I feel they have a right to choose where, with whom, and how to deliver. The assumption that all babies arrive at 40 weeks is not science based and rarely happens.
Bailey Moore	Charleston, SC	2015-12-05	My body, my care, my choice :)

Name	Location	Date	Comment
Mackenzie Ruppe	Forest City, NC	2015-12-05	<p>Individuals have the right to make decisions for themselves as long as it doesn't effect anyone else negatively. We should not have these rules pushed onto us. These rules do not change anything for the better. For thousands of years, women have delivered their babies with midwives and these rules have not been needed. Please understand the definition of freedom. Thank you for your time. God bless you all.</p> <p>Mackenzie Ruppe</p>
Molly Ortiz	Lowell, MA	2015-12-05	This legislation is awful!! We need MORE midwives and access granted to them, not less and more restrictions!
jessica johnson	East Wenatchee, WA	2015-12-05	I used a midwife and I am furious over this. Women need to have a Choice! Licenses midwives are amazing
Leigh Anne Hauntsman	Piedmont, SC	2015-12-05	This takes more rights away from the mother whom should always have the right to make her own informed decisions !
Patricia Heitkamp	Morrison, CO	2015-12-05	I'm signing because everyone deserves to have a variety of safe birth choices that fit their values and needs. Please sign and share! Home birth is not for everyone, but it is for some and it's important that choice is protected!
Rachel Coughlin	Commerce City, CO	2015-12-05	I'm signing because I grew up in SC. I'm part of a thriving community of birth professionals who know the value of midwifery, home birth etc. Support all ALL MOMS!
Meg Holt	Port Royal, SC	2015-12-05	I cannot believe we are still fighting this agenda!
Johanna Brewster	Amberg, WI	2015-12-05	Our family had the freedom to enjoy a home birth with an amazing, competent midwife in South Carolina with my son. I fully support this petition. Please friends, consider signing this.
Melissa Wiseman	Sumter, SC	2015-12-05	If a woman is allowed the freedom to abort her child, then she should be allowed the same freedom to decide by whom, where, and how her child will be birthed. If DHEC feels the currently regulations must absolutely be rewritten, it needs to be by a panel of health care providers that actually know something about birth.
erin freeman	Spring Lake, NC	2015-12-05	Our health care should be decided by us. Not you. If you feel so strongly about being able to control others rights you should go to other countries instead of America where we fight for our rights.
lisa vaughn	Waynesboro, GA	2015-12-05	Because where and how a woman decides to give birth should be up to her and she should be safe in whichever choice she makes.
Amanda Phillips	Greenville, SC	2015-12-05	Women deserve choices!
Tiffany DuPuy	Simpsonville, SC	2015-12-05	I'm signing because I used a midwife and birthing center for the birth of both of my children. I wouldn't so it any other way!
Christa Willoughby	Irmo, SC	2015-12-05	Midwifery is important and, from my own personal experience, far exceeds the level of care offered by OB's. Allow women to decide what's best for our own bodies and don't cripple those attempting to assist us!
Sabrina Wilson	Taylors, SC	2015-12-05	We can let them take away a woman's right to control her birth scenario. Mind you, if the argument about it being her body gives her the right to abort a child, it being her body ought to give her the right to be in charge of her child's birth and have a midwife that she trusts and who knows her history and situation.
Nicole Waters	Columbia, SC	2015-12-05	I have used a midwife and will do it again. It is not other people's right to determine how I safely bring my child into the world. If I would have gone to the hospital, I would have had a c-section. I was able to have my baby in the safety of my own home and have a happy healthy baby.

Name	Location	Date	Comment
Ellen Samaha	Longs, SC	2015-12-05	For a state that doesn't like to over regulate, slow to make change, the "first to leave the union", etc. this is unacceptable and saddened me greatly. I had my child as a home birth with a midwife and that was my right as a mother and citizen. The government doesn't need to put these restrictions on our lives - how we choose to take of our bodies is up to us as females. Please don't make us cross the border to have our babies or leave the state, because I will move in order to protect my rights. Protect a woman's right to decide how to bring the life she's been carrying into this world.
Danielle Sorrells	Simpsonville, SC	2015-12-05	My homebirth was magical.
Addie Evett	Landrum, SC	2015-12-05	I am signing because I am a doula who has personally witnessed better birth outcomes, when the mothers are given the option to make decisions for themselves. America has one of the highest birth mortality and cesarean section rates among the first-world countries. This is because our standard of care involves routine interventions. Personally, I would like to be a mother one day, and I demand the choice to choose between a Obstetrician or a Midwife. That should be standard of care.
Audrey LeFebvre	Land o' Lakes, FL	2015-12-05	Every mother deserves to birth where she feels safest. Government shouldn't be stripping mothers of this right.
Emily Evans	Pawleys Island, SC	2015-12-05	Women deserve a choice.
Zoe Valette	Kalamazoo, MI	2015-12-05	I support a woman's right to access the best care for her situation.
R Gardestig	Columbia, SC	2015-12-05	Women deserve a voice in how they give birth. We deserve rights, options, and the freedom to choose. Our voices matter..
Terri Crow	Dania Bch, FL	2015-12-05	What right does anybody have to tell an expecting mom how and where and with whom she can have her baby! I am in shock that this has even been considered!
Christen Han	Columbia, SC	2015-12-05	My home birth was the most incredible experience of my life thanks to my midwife. These changes would impede her doing what she knows to safely do.
kyrie zender	Cartersville, GA	2015-12-05	Women need midwives!
Leah Green	Emporia, KS	2015-12-05	I believe women should have choices for their birthing experience.
Toni Sumner	Fort Lauderdale, FL	2015-12-05	Women desperately need this kind of support
Julia Buchanan	Colorado Springs, CO	2015-12-05	Every woman should have the chance to have a midwife and also chose where and how to welcome the new wonderful bundle of joy, midwives answer so many questions, take time for you. In my birth country the insurance pays for a midwife for everyone. Midwives have been around pretty much since humans have been around, their knowledge is passed on for many generations. They should do exactly what they were doing for thousands of years, not step aside so rich people can get richer. Women need Midwives, their knowledge can not be lost.
Loretta Bernhardt	Sumter, SC	2015-12-05	I had my first son at 42 weeks. This is very common in first time mom's. Women deserve the right to choose! Laws ate meant to protect peoples rights, not diminish them!
Katie Salvador	Fort Meade, MD	2015-12-05	I have used midwives for all 5 of my births. It is a right women should have, to choose who attends their birth and where they want to birth.
Valene Kirkland	Bellevue, NE	2015-12-05	Because if we are making decisions about woman's health, we need to make those decisions based on evidence, not on what a construction worker, dentist, medical supply CEO, and real estate agent thinks!
Kirsten Iovan	Wilmington, NC	2015-12-05	midwives are highly skilled at offering these services to the women they serve. They deserve to be recognized as the trained individuals they are.

Name	Location	Date	Comment
Aimee Smith	Hilton Head Island, SC	2015-12-05	As a woman who will hopefully have children in the next couple of years, I want to be able to have a midwife attend to my birth, with no limitations put on them or myself. I have a close friend who had to "hide" her home water births with her midwife from the governing officials in her home state, and I cannot fathom why it should even be an issue in this day & age. Keep politics out of my medical decisions!
Autumn Cook	Woodruff, SC	2015-12-05	All babies deserve the best care possible it is what's fair to them and what they need that matters.
Hope Figuero	Rock Hill, SC	2015-12-05	I'm signing because I want other women to be able to have a choice in where they birth. I had a LM and had both my boys at home. The care I received was excellent.
Angela Huber	Simpsonville, SC	2015-12-05	I am a former and current midwife patient as well as a csection mom. this all impacts me directly and I would like to be able to make these choices for myself with informed consent, instead of the government making these choices for me.
Marcy Goetz-Tham	Denver, CO	2015-12-05	I'm signing because these imposed regulations are arbitrary and not evidence based.
alicia mcmahon	lancaster, SC	2015-12-05	I received far better and safer care from my LM during my homebirths than I did with my hospital birth.
Meaghan Bird	Beaufort, SC	2015-12-05	If this passes it essentially makes home birth less safe. We deserve the right to birth where and how we want. It's a basic human right.
Mary Marston St John	Fort Mill, SC	2015-12-05	Birth plan choice is a human right that is often made after extensive research and thought. Please allow this choice.
Cassidy Mock	Quantico, VA	2015-12-05	Nobody should be allowed to tell a woman how she can birth her baby. Its her body!
Patricia Neys	Renton, WA	2015-12-05	I'm signing this because all women have the right to choose the birth they want with the guidance of their care provider, not a group of board members.
Britney Kennedy	Cary, NC	2015-12-05	I'm signing because midwives deserve all the rights!!! I had a midwife at both my births and it was the best decision I made.
Carrie Kemp	Travelers Rest, SC	2015-12-05	I'm signing because I have delivered with both an OBGYN and a midwife. The OBGYN was a nightmare. Disnt allow anything on my birthing plan. Never let my husband ct the cord, knew I wanted to breastfeed, but took the baby to the nursery for almost 2 hours until I demanded my son. With the midwife, my husband pretty much delivered my second son with midwife supervision and cut the cord. Such a better experience overall. Going with midwives again. Due in 10 weeks with my 3rd and final child.
Scarlett Hemkersman	Columbia, SC	2015-12-05	I have had 5 home births with very competent midwives. Their profession needs to be protected and not run and regulated by the medical industry.
Cathy Warn	Lexington, SC	2015-12-05	I have had three home births. The mom and her personal physician know best not a government agency!
Emily James	Newberry, SC	2015-12-05	I value birthing naturally with specialized care that only a midwife can provide. A doctor only usually sees a birthing mom at delivery. Midwives walk with us the entire journey. Don't take away our ability to birth the way we were designed surrounded by women who walk with us, love us, and support us through it all. Women birthing at home surrounded by a "tribe" is normal. Having had that experience, it grieves my heart that there are people who are trying to take away the natural rights of a pregnant mom who really just wants the best care she can get. And that care lies in the hands of midwives.

Name	Location	Date	Comment
Cassandra Kaseman	Boiling Springs, SC	2015-12-05	I am a mom who had delivered with midwife with all four of my children and I would not want it any other way and the midwives know what they are doing and need to be able to decide between the midwife and the mother what is best for the mom and the baby with no one else telling them how to do it
Amber Pack	Clover, SC	2015-12-05	I have the right to make my own medical decisions on my pregnancies.
Alyssa Milne	El Paso, TX	2015-12-05	I'm signing because women can make choices for themselves. This is Draconian.
Scarlett Hernkersman	Columbia, SC	2015-12-05	Around the world midwives are a standard practice. We have one of the highest infant mortality rates of developed countries. Midwives let more natural approaches be made.
Jennifer Creech	Elgin, SC	2015-12-05	When I have kids one day, I don't want any law dictating to me how to birth MY child. I think everyone should birth the way they want to.
Liss Englund	Borlänge, Sweden	2015-12-05	Midwives are used in basically every delivery in Sweden. The infant mortality even under doctors care is lower in Sweden than the US. Maybe they are the ones that need to be looked at for it to be safer for mom and child? And why aren't people allowed to make their own decisions I wonder. Educated choices are the best!
bette edgerton	durham, NC	2015-12-05	I think more input from Birthing practitioners that have the knowledge about birthing should be making these regulations. Women should have ability to make their own choices.
Elizabeth Kirby	Bellevue, NE	2015-12-05	My labor, my choice.
Keith Stocker	Winnsboro, SC	2015-12-05	My wife and I had both of our children at home using a LM. Before that my mother had several children at home. I know this is safe from experience alone. If the people at DHEC would look at the statistics they would see far fewer problems from home births than hospital births. From this point alone, if they were actually interested in health, the DHEC board should be looking more closely at hospital births than LM births.
megan McLaurin	Etna, NY	2015-12-05	I am not saying that hospital births don't have their place, but I think they should be more interested in handling what they do best which is emergency type situations. I'm signing because I gave birth to my son in a state where midwives are licensed, able to care for women up to 42 weeks into gestation and able to attend home birth VBACs. A woman attempting a VBAC can make her own decision about where she wants to give birth. Hospital births come with their own set of risks and the evidence does not support a woman being forced to have a hospital birth simply because her prior pregnancy ended in a cesarean. Not allowing a homebirth midwife to administer antihemorrhagics until AFTER a heavy blood loss is a dangerous protocol. Midwives need to be able to use their judgment and make these calls as the situation demands it. The Midwifery Advisory Council is in the best position to be able to write the rules regulating midwifery in South Carolina. They know the risks, what they need to provide the safest and highest level of care, and what the needs are of their clients. Please respect the midwifery profession, science, and the amazing care midwives offer and defer to the Midwifery Advisory Council's opinion on these regulations. Thank you.
Katherine McBrayer	Sachse, TX	2015-12-05	I'm signing because no one should be able to tell a woman how or where she has to give birth! It's her body and her choice!! Keep business men out of it!!!
Kate Stallings	Bethlehem, PA	2015-12-05	As a mother who chose to have a home birth, I believe women deserve the choice on how they bring their child into the world. My midwife was very knowledgeable and a huge help in delivering and caring for my baby boy!

Name	Location	Date	Comment
Christina Szrama	Louisville, KY	2015-12-05	Midwife-attended births are statistically safest for mom and baby. I love my midwives and don't want to be cared for by anyone else!
Joseph Loman	Greenville, SC	2015-12-05	I support having the choice for safe birth center and home birth options.
Heather Bergevin	West Columbia, SC	2015-12-05	Being capable of accessing a good midwife is crucial for women!
Laurel Wright	Duncan, SC	2015-12-05	Every woman should have the right to informed consent.
Samantha Reynolds	Irmo, SC	2015-12-05	And I'm going to be writing again to the state board
Cynthia Belote	Dalzell, SC	2015-12-05	I'm signing because I believe that an expectant mother be allowed to choose where she gives birth and with whom she chooses. Midwives are just as educated yet more understanding of what a woman experiences in the throes of labor. A woman giving birth should not be subjected to the tinny sounds, the overly-sterile smells, and the "do it this way" to bear down. Midwives know when a "gotta go now" event is imminent. They consider the feelings, the wishes of the mother into account as each birth is different. Midwives allow the mother to experience "natural" labor progression and childbirth in an unconstricted environment. Let the Midwives do what's best for the mother and yet-to-be born baby!
Kristen Myers	Bluffton, SC	2015-12-05	Childbirth is an amazing thing and the rights of Mommies need to be protected.
Sanaz K	Toronto, Canada	2015-12-05	Lower maternal and infant mortality and morbidity in the care of midwives!
Natalie sacks	Salt Lake City, UT	2015-12-05	Midwifery influence and care is crucial to women's health and birth rights in a day where corporations and profits rule our civilization.
Lindy Kerr	Inman, SC	2015-12-05	Nobody has the right to tell me where to birth my baby. It's my choice. Midwives are awesome!
Rebekah Rhodes	Fletcher, NC	2015-12-05	Women need choices and freedom on where to birth and with whom they choose to attend there birth. Home birth is a safe option. Let women choose!
Gary Johnson	Fort Mill, SC	2015-12-05	More control, more manipulation, less freedoms, no choices. To top it all off, America is being destroyed by ignorance in positions of authority. If we continue on this path nobody will trust doctors anymore. Get educated folks, the system is deteriorating. Birth is not an illness.
Rae Alderette	Columbia, SC	2015-12-05	Women should be able to make educated decisions about where, and with whom, they give birth. The regulations should be written by people who know birth, not DHEC.
megan miller	Oceanside, CA	2015-12-05	Because the government needs to keep their filthy nose out of other people business. Also midwives are essential to having healthy natural births. They keep and old traditional way alive. It's proven to be less stressful on baby and mother. It's a option that women should have. It's a right! There's no need to take anymore away!!!!!!
Kandyce Croft	Idaho Falls, ID	2015-12-05	Midwifery is a safe option and fully evidence based. Mothers using midwifery are far less likely to have complications and problems compared to their OB using peers. Especially compared to mothers with the same maternal health and pregnancy health. Midwifery is the best option for mothers with a healthy pregnancy and should have less restrictions so they can best serve their patients, not more restrictions made by well meaning but ill informed government that will only hurt more women than it will help.
Sharon Wells	Summertown, TN	2015-12-05	Midwifery is a very safe option as birth providers. SC has had good outcomes with licensed midwives. They are Certified Professional Midwives and use the NARM nationally recognized examination for direct entry midwives, who practice in out of hospital settings, as the SC licensing examination

Name	Location	Date	Comment
Megan McKenzie	Olympia, WA	2015-12-05	I was traumatized when I gave birth in South Carolina and figured out I was in a state that ignores national standards and recommendations by healthcare providers!!!
Jessica Sellers	Simpsonville, SC	2015-12-05	Midwives, who are highly trained and experienced, do important work in our state and to limit their ability to practice limits their patient's ability to make informed choices about their bodies and births. As a recent patient of an amazing midwifery practice, I am extremely thankful for their care.
Erin Galloway	Boiling Springs, SC	2015-12-05	I researched out of hospital birth voraciously before having both of my children at an independent birth center and I want everyone to have that same right. It IS a right. Look at the statistics before you make snap judgments on what is safe and what is not.
Vanessa Vargas	Cary, NC	2015-12-05	No man should choose what a woman wants for her family. No one who never experience the beauty of birth and pregnancy have a say. You are a man. Mind your dick, and we mind our uterus. This is our medical decisions, not yours.
Madeline Deviney	Temecula, CA	2015-12-05	Because midwives are so important for women to have the births they want and deserve.
Melissa Powell	Pendleton, SC	2015-12-05	I support a woman's right to make informed choices about her own medical care with the help and support of qualified professionals. For many pregnant and birthing women, those professionals will be midwives in a homebirth setting. It is vitally important that those midwives have the autonomy to act as they deem most appropriate for each individual person and each birth. The Midwifery Advisory Council is the body best able to set guidelines that will inform and support midwives in caring for pregnant and homebirthing women.
Debbie Nell	Ramsgate KZN, South Africa	2015-12-05	This is a violation of a womans right to choose
Catherine Koehn	Columbia, SC	2015-12-05	As a licensed midwife I am very concerned about the limiting language in the proposal. SC should be on par with a national standard of what midwifery is.
Elizabeth Randolph	Greer, SC	2015-12-05	There are ridiculous issues with this revision that will take the option of safely birthing with a midwife from many people.
Amie Parham	Easley, SC	2015-12-05	I want all women to have evidence-based care and to be able to use a licensed midwife without asinine restrictions. Stop making policies regarding care that you don't know anything about! Please let midwives have a say in what midwives can do!
Autumn Dark	Great Falls, MT	2015-12-05	I just had my first home birth (at 42 weeks & after two heavily medicated hospital births) and it was positively indescribable!!! I think everyone should have the option if they want it with out heavy and ridiculous restrictions.
connie wiesner	Rutherfordton, NC	2015-12-05	Because I feel so strongly about this. Midwives delivered my second child and it was the most wonderful delivery experience ever. I want to be able to use the midwives again when we have our third child in the future
Angie Martin	Winston-Salem, NC	2015-12-05	We need midwives!
Shanae Martinez	salt lake city, UT	2015-12-05	I believe mothers should have a choice were they deliver there babies and by whom.
John Bellino	Travelers Rest, SC	2015-12-05	I want myself and other women to have the right to choose what happens to their own bodies. It is wrong that a woman only be given the right to choose in the case of killing her child but no right as to how they are born!

Name	Location	Date	Comment
Greaton Sellers	Simpsonville, SC	2015-12-05	My wife recently had an out of hospital birth at a birthing center. We should not be limiting the ability of licenced professionals to provide services to their patients who are also being reviewed by OBGYNs during the process of their pregnancy who aid in determining low risk pregnancies for out of hospital births.
Karrah Engelbrecht	Columbia, SC	2015-12-05	I'm signing because when it comes time for me to start a family I would like to choose whether I will be at home or in a hospital. To also have the choice to do it naturally or have a natural birth.
Holly Kravetz	West Chester, OH	2015-12-05	Having a midwife with my second birth was life changing. Every women deserves this chance.
Rebecca Shelton	Lexington, SC	2015-12-05	It's our right to choose!!
Miranda Fell	Columbia, SC	2015-12-05	I am a proud supporter of home birth options and midwifery care. Midwives should have the right to decided how their practices are regulated.
Sharon Johnson	Calgary, Canada	2015-12-05	My daughter in law is the most kind an generous mid wife and highly trained in her field.
Brooke Barbee	Lexington, SC	2015-12-05	I'm tired of choices being taken away more and more. And choices being made regarding child birth should not come from people who are not involved in the process. Nobody should make medical decisions for me on my behalf that I don't have any say so in. Especially when it comes to birthing. Period. The government and politics are over reaching way too far and we need to gain control back!
Averi Pickop	Harker Heights, TX	2015-12-05	This is taking away mothers natural rights on how to give birth. This is infringement.
Vona Shodja	Myrtle Beach, SC	2015-12-05	I believe women have the right to choose their care & how they birth their babies. Midwives are an essential component of empowering women and families with the prenatal care and birth process. There's
Vyana Magee	San Francisco, CA	2015-12-05	This should not even be on the table for discussion. Certainly an un(birth)educated person should not make laws about something they don't understand. Medical research and scientific evidence (which our culture at large CHOOSES to disregard) supports the work of midwives and low risk at home births. This is our right as women, as mothers, as people to choose our health care and what is right for our unique situation with our medical professionals.
Jessica Benson	Provo, UT	2015-12-05	We, the undersigned, assert that the Midwifery Advisory Council are the ones who should be writing the regulations.
Jennifer DeMarco	North Attleborough, MA	2015-12-05	Women have the right to choices for their births. They should not be forced into a micro-managed, intervention filled, hospital birth.
Wendy Freeze	Leesville, SC	2015-12-05	I'm a student midwife in SC.
Alexandrea Mayhew	Reno, NV	2015-12-05	Midwifery is a vital part of birth work that the men listed above should have no say in
Allison Lane	Neeses, SC	2015-12-05	We need more birthing options.
Jennifer Hart	Rincon, GA	2015-12-05	I believe in a mother's right to choose the appropriate birth setting for herself and her child.
Susan Seigler	Lexington, SC	2015-12-05	Women should have the options to give birth at home with midwives without the midwives being limited in the care they can provide by ridiculous regulations.
Carie McDonough	Mauldin, SC	2015-12-05	As a birth worker I believe my client's rights are incredibly important. Part of those rights include that of choosing a midwife as their care provider.

Name	Location	Date	Comment
Theresa Blase	Reston, VA	2015-12-05	I think each woman and family should be able to make their own decisions about how they have their babies and who helps them through this beautiful process.
Jennifer Hutto	Islandton, SC	2015-12-05	I'm signing because, I delivered my daughter at a birth center with the most amazing team of midwives. It was truly the most empowering experience of my life! They helped me through every contraction, they wiped of the sweat and tears. They coached me through every step. They educated me on so many things that never crossed my mind. They answered every question with ease and certainty. I will NEVER deliver in hospital, not after this perfect experience. God bless midwives!
Tiffany Jennings	West Columbia, SC	2015-12-05	I am a current nursing student and believe in the competency of midwives to care for pregnant mothers through birth, within their scope of practice.
Ashley Carver	Iva, SC	2015-12-05	I'm a second time mom who's about to have her first VBAC. After much research, I find that having a midwife be my primary care giver during this time will be my best bet at an unmedicated normal birth. I feel like she gives me the confidence that my OB never could. VBAC mothers in SC already are required to give birth in a hospital in case something goes wrong (which according to medical research is already at a low risk.) Please don't limit what sort of delivery I'm allowed to have.
Gabrielle ouzts	West columbia, SC	2015-12-05	Midwives play a valuable role in the birthing process!
Suzanne Bixby	Pickens, SC	2015-12-05	I believe women have the right to choose the best option for them and their babies.
ariana sabre	Torrance, CA	2015-12-05	I'm signing because every women deserves to have a caring birthing staff who she trusts around her and the type of birth she desires.
Stephanie Baker	Blountville, TN	2015-12-05	I believe midwifery is a practice we need to be embracing and not running from. I have had 2 healthy baby boys at home with a certified nurse midwife. It was an awesome experience where my body was in charge of the process. That is my hopes for women, to know that they are powerful and capable. Yes, medical intervention is sometimes necessary and for that I am grateful that it is available. This is about women having choice!
Kirsten Richardson	Charlotte, NC	2015-12-05	I support and need midwives
Beverley Bouchard	Fredericksburg, VA	2015-12-05	Women should make birth choices after discussion with their care provider
Timika Watkins	Dalzell, SC	2015-12-05	Birth should be up to the woman we didn't have the government involved in the birthing process way back when. Inunderstand things can be difficult however this is why Midwives are trained appropriately.
Sierra Orr	Columbia, SC	2015-12-05	I had my first home birth in SC 4.5 years ago with a licensed midwife and the experience was life changing. I would hate if other healthy, low risk women, were not given the opportunity to choose for themselves where they wanted to give birth. These new regulations not only punish trained professional midwives and mothers who choose them who are members of your fine state but the new generation of children being born! From an economical view, which is really the bottom line in government legislation, midwives and homebirth families save the state so much money! It is so ignorant to try and do away with a practice that not only saves money but produces healthier babies and mothers which will lead to healthier populations of people.
Terri Bushman	Columbia, SC	2015-12-05	I think it's important.
Julie Huff	Moncks Corner, SC	2015-12-05	I should have the right to vbac, with a midwife, if it is the option I choose with my next baby!!!

Name	Location	Date	Comment
Jessica Richmond	Coeur d'Alene, ID	2015-12-05	Women deserve the respect to choose what is best for them when it comes to hearing children. Midwifery care is more full circle than an OB on a hospital and most home midwives are way more responsive and knowledgeable to things that could "pop up" as concern during labor vs a hospital birth. This is just a way to control, not help.
Andrea Gifford	Buford, GA	2015-12-05	I'm signing because women's bodies are a powerful thing and they know what to do when a baby is "ready" to come. It imposing and a women's rights issue to tell a mother when she has carried for "too long". Due dates are more of a guessing game anyway. OBGYNs rarely know the exact time of when a baby was conceived. I believe women have a right to carry their OWN children how they please.
Savannah Haddock	Brigham City, UT	2015-12-05	I have preferred Midwives to doctors. I like being in charge of MY birth and MY body! The government needs to stay out of things like this. Doctors are not the only answer! This SO ridiculous! It's all about control and money! Pathetic.
Naomi May	Charleston, SC	2015-12-05	Families deserve the right to choose who performs their medical care and midwifery is shown in numerous cases to have safer outcomes for a mother and long term health benefits for babies. Please do not take away our right for medical choice!
Adrienne Fitzgerald	Columbia, SC	2015-12-05	I had a midwife for the birth of my little girl (at 42 weeks because my original OB changed my due date during my last trimester). My midwife was an outstanding practitioner and made my birth experience not only bearable but wonderful! I went into labor just 4 days after the original due date estimate to a healthy 7 lb girl.
E Lo	Pensacola, FL	2015-12-05	NO ONE should restrict a mother's right to birth where she feels safest!!! These men and women have NO business whatsoever involving themselves in family and birth matters! For the whole entire state of millions of women?! The gall and stupidity of these ignorant and misinformed tyrants!!!
mandy Stewart	LEXINGTON, SC	2015-12-05	Every woman should have the right to make decisions regarding her own birth.
Whitney Hempsey	Myrtle Beach, SC	2015-12-05	It is absolutely insane that DHEC, who has virtually no understanding of childbirth safety, is not allowing MAC to be involved in the writing of the new regs. Limiting births out of hospital to 41 weeks, disallowing VBACs, disallowing the use of antihemorrhagic medicine until after heavy blood loss, it's just not workable at all and will effectively end legal homebirth in SC. We used to be on the cutting edge of birth legislation and now we are so far behind the times it's crazy. And to top it off, all of the evidence makes it very clear that these regulations will NOT protect women and babies. You can look at other states that don't have these kinds of restrictions and see that they have BETTER neonatal and maternal outcomes. Makes you wonder what the motivations could possibly be to go so far to make birth more UNSafe in SC.
Megan Shylte	Beaufort, SC	2015-12-05	I'm signing because I am a mama of 7, 2 of those babies born at home and with incredible and knowledgeable midwives! My midwives have been much better at caring for my children and I than any Naval doctor ever was with my other 5 pregnancies! I also am a Doula! I believe a woman should not be hindered to birth the way God intended and only receive medical intervention when absolutely necessary NOT just because some uneducated people are not willing to learn or are scared or because of insurance purposes! Birth is natural and should not be about how much money can be made! It should be about how we can make every birth as natural as possible!
Amanda Kilby	Goose Creek, SC	2015-12-05	I recently gave birth at a birth center with a CNM. The level of care and respect was amazing! This should continue to be an option.

Edith Brandt	Goose Creek, SC	2015-12-05	I loved my birth center, midwife-attended birth and I want every mom and baby who is healthy and low-risk enough to have the birth options they desire. Restricting options is not for the benefit of the patient, and that is the priority we need to keep in mind!
China Facchini	Myrtle Beach, SC	2015-12-05	We need more choices, not choices taken away from us. Why can't the focus be on training and development of a strong out of hospital birth program in SC?
Morgan Duffy	Myrtle Beach, SC	2015-12-05	Evidence based care is what South Carolina deserves!
Ola Levitin	Richmond Hill, Canada	2015-12-05	I am a midwife in Ontario, Canada. When midwives are given autonomy, equipment and medications, an out of hospital birth becomes a safe option for women with low risk pregnancies. Administering Oxytocin as prophylactic part of active management of 3rd stage of labour is a decision made by a midwife and the woman considering all her risk factors. I urge SC lawmakers to look at the Ontario model which is extremely well integrated with the hospital system and allows for seamless transfers to hospitals when needed. Look at the College of Midwives of Ontario for our scope, indications for consultation and transfer to physician, pharmacopeia, equipment mandatory for a home birth, lab tests we can order, etc. We have excellent safety outcomes and high satisfaction from birthing mothers. www.cmo.on.ca
Vanessa Roskam	Simpsonville, SC	2015-12-05	I had a wonderful, very safe birth with a midwife. I
Kayla Ahlemeyer	Myrtle Beach, SC	2015-12-05	Thos would put moms and babies at risk.
Heather Crowe	Irmo, SC	2015-12-05	I had my son at home with a sc midwife and I would like that option to continue to be available to me. Birth is done safely with midwives all over the world.
David Shytte	Beaufort, SC	2015-12-05	I believe in natural birth unhindered by uneducated people who don't give the options to women because of their own opinions. My wife and I have had two home births. They were much more rewarding and safer than the previous 5 that we had in a hospital. If a woman has a right to abort than they definitely have the right to chose how they give birth.
Mindy York	Aynor, SC	2015-12-05	To give support to SC midwives!
Jacqueline Sequoia MD	North Augusta, SC	2015-12-05	I am a board certified Family Physician and I choose midwife-attended homebirths for my own pregnancies. The maternity regulations need to be written by experts in homebirth midwifery care.
Marla Walter	Myrtle Beach, SC	2015-12-05	I would like to have the option of a home birth or midwife care
Hannah Himes	Alexis, NC	2015-12-05	I agree strongly
Suzann Martinez	Lexington, SC	2015-12-05	I tend to have hospital births but have always chose to use a midwife. For one they have better bedside manner and seem to care for me and unborn child than a doctor. Of course just my opinion. But I'm not willing to let dhcc to take my right to have a midwife that easy.
Jennifer Carison	Wyoming, MI	2015-12-05	I had an amazing homebirth with a CPM 5 years ago and I couldn't have asked for better care and commitment. I trust my midwife with my life and the life of my children.

Name	Location	Date	Comment
Elizabeth Searcy	Socastee, SC	2015-12-05	I'm signing because the DHEC knows nothing about birth & cares only about money, NOT the safety of birthing moms & their babies.
Alicia Wheeler	Garrison, UT	2015-12-05	Midwives are amazing at what they do and it had been my privilege to deliver both of my babies with them. They are wonderfully knowledgeable and truly passionate about their patients. Please allow every mother in SC the opportunity to choose for herself where and who is best to assist her in the miracle of birth.
Kelsey McCoy	Murrells Inlet, SC	2015-12-05	I'm signing because of the excellent prenatal care and delivery I received at the hands of midwives
Candice Miller	Summerville, SC	2015-12-05	I would be lost without my midwives delivering my son who made it possible for me to have the childbirth experience that I feel is best. We have a right to choose and this is our choice.
Brittney Morgan	Lexington, SC	2015-12-05	I believe in the freedom of natural birthing :)
Elysia Fannin	Greenville, SC	2015-12-05	I had a midwife delivered natural birth at 42 weeks with no issue. They were able to work with me to prevent me having to get induced or having a c-section.
Yeadon Smith	Summerville, SC	2015-12-05	My wife and I have had all our children at home with midwives. DHEC should leave this decision up to the mothers and their doctors and midwives.
Tracy Gilbert	Beaufort, SC	2015-12-05	At least 1/3 of the women in South Carolina do not have access to even basic prenatal care. Such regulations will only limit that more. We need greater access by more women for more babies to come safely into the world. Consider, please SCDHEC, writing regulations that really help all women and children, not just the ones who can get to a hospital.
Elliot Echlov	Columbia, SC	2015-12-05	Both our daughters went 41+, and our midwives were extremely caring and informative the whole way through. When my wife suffered some post-partum complications with our first, they were on top of things from the beginning and followed up constantly to ensure there were no other issues. Our midwives didn't pressure us into any interventions unless they were medically necessary, and helped us to have the deliveries that were best for mother and baby. Denying their involvement in writing appropriate regulations would be like letting criminals write law.
Cassandra Charles	Sheridan, WY	2015-12-05	Midwifery is essential in continued knowledge and care of pregnant women.
Monica Mabry	San Antonio, TX	2015-12-05	I'm signing because it's my body my baby and my God given right to choose the type of birth that I want. Other countries and even other states have great success with midwives and so can we if given the proper support. These policies are not supportive in any way and this will become a woman's rights issue very quickly.
Kelly Nichols	Greenville, SC	2015-12-05	I feel this is an important issue. Women should be allowed to make educated decisions about their birth and be attended by whomever they choose.
Mary Chorey	Columbia, SC	2015-12-05	I believe that women should have power to choose their birth situation.
Jessica Little	Columbia, SC	2015-12-05	I want my birth to be my choice, as well as all other mothers.
Erin Hicks	Piedmont, SC	2015-12-05	I had a wonderful midwife-attended birth and it is my right to choose to do this again if I have another child.
Elizabeth Hamel	Houston, TX	2015-12-05	I'm signing because it's every woman's right to choose the type of birth she wants. Licensed Midwives have extensive training and experience.
Farren Knott	Marietta, GA	2015-12-05	This is not their decision to make. I demand that the women of this state receive evidence based care!

Name	Location	Date	Comment
Evelyn Ries	Skyland, NC	2015-12-05	It's important that women have choices on where they want to birth their child and with whom. LM are very special people!

Since DHEC requires that I obtain my credentials by using evidence based organizations developed with competency based education guidelines, why does DHEC not want to allow me to use the education that they require me to obtain?</p> <p>If DHEC accepts my education and skills training provided by NARM and NACPM as being the standard for midwifery care in South Carolina, why are they trying to re-write our Core Competencies, Skills and Abilities? Not only is it not DHEC's job to re-write midwifery standards that have been recognized by national certification organizations; they are not qualified to make those decisions.</p>
Jessica Ackerman	Columbia, SC	2015-12-05	I have had two beautiful babies via midwife...with no pressure to get episiotomys or rush for a c-section. I was able to labor in a way that I see fit. If abortion is a woman's choice....so should a woman's birth.
Kelly Burton	Murrells Inlet, SC	2015-12-05	Midwives are a treasured part of the birthing process and have been for centuries. Women should have freedom of choice in their births!
Kristine Alvarado	Beacon, NY	2015-12-05	Women deserve OPTIONS!
Eric Nazarenko	West Columbia, SC	2015-12-05	<p>Our first son was born in a local birthing center about 2 and a half years ago. It was much more relaxing and less invasive than a traditional hospital setting. Our second son was birth less than a month ago at home. Both were delivered by midwives and both are happy, healthy, and safe. We decided to choose midwifery because of the natural approach and because we knew we wouldn't be led into the cycle of drugs and ultimately surgery (cesarean section).</p> <p>SCDHEC should consider the many other countries around the world that primarily use midwives and have less complications during the birthing process than the US does. The Netherlands would be a good place to start.</p>
Josephine Barnes	Conway, SC	2015-12-05	Because Mom's should have a choice in how they birth.
Andrea Lamont	WEst Columbia, SC	2015-12-05	Women should have access to empirically based care. Women should have choices. Women and children deserve better than the medicalization of birth.
Bonnie Anderson	Simpsonville, SC	2015-12-05	Women have a right to this choice.
Ashley Arcos	Palmer, AK	2015-12-05	I believe in the work midwives do and think every woman should have the choice to birth their child any way they chose.
Kelly Skaggs	West Columbia, SC	2015-12-05	I was under the care of licensed midwives, and my daughter was born 10 days late. As a first time mother, I can't imagine the added stress of being told that the ladies who nurtured me through forty-one weeks of pregnancy would not be present to care for me in labor.
Janelle Staviski	ann arbor, MI	2015-12-05	I am a mother. I have birthed a child. And every women deserves the right to decide their own birth process. Period.
Karen Summers	Cameron, SC	2015-12-05	Choices in child birth are the right of the mother!

Name	Location	Date	Comment
Jordan Weldon	Flowery Branch, GA	2015-12-05	I would say this was an ancient way of thinking motivating this but the profession of midwifery is ancient. This bill and those behind it are seriously misinformed. A woman should have the right to decide how she wants to give birth to her child. Regardless to those promoting this bill's belief, midwives have the ability to perform births, home or hospital, safely and a women should have The right to make that decision for herself.
Cynthia Glenn	Simpsonville, SC	2015-12-05	<p>This regulation is poorly written and embarrassing. Leave the writing of regulations to the specialist in midwifery care and regulations: The Midwifery Advisory Council!</p> <p>Here a good question: Who wrote this garbage? And why did DHEC ask them to write it instead of going to their own council??? It is the Department's (DHEC's) RESPONSIBILITY to go to MAC for regulation revision.</p> <p>DHEC Regulaion 61-24 P. DEPARTMENT RESPONSIBILITIES.</p> <p>1. Midwifery Advisory Council.</p> <p>a. The Commissioner of DHEC shall appoint a Midwifery Advisory Council which shall meet at least annually for the purpose of reviewing and advising the Department regarding matters pertaining to the training, practices, and regulation of midwives in South Carolina.</p> <p>DHEC requires that Licensure as a midwife shall be by certification by NARM or other Department approved organization(s) (such as NACPM). Since DHEC requires that I obtain my credentials by using evidence based organizations developed with competency based education guidelines, why does DHEC not want to allow me to use the education that they require me to obtain?</p> <p>If DHEC accepts my education and skills training provided by NARM and NACPM as being the standard for midwifery care in South Carolina, why are they trying to re-write our Core Competencies, Skills and Abilities? Not only is it not DHEC's job to re-write midwifery standards that have been recognized by national certification organizations; they are not qualified to make those decisions.</p>
Lesley Tipton	North Charleston, SC	2015-12-05	I'm signing because it's important for women to have natural birth choices.
Amanda Scott	Rock Hill, SC	2015-12-05	I am currently pregnant and want the right to safely birth my baby at home.
Nicole Imlas	Summerville, SC	2015-12-05	My body, my choice. The whittling down of birth options available to woman is shameful.
Analucia Brown	West Columbia, SC	2015-12-05	I had a home birth and would be extremely unhappy if my home birth options were further reduced!
Ricci Harvey	Vernal, UT	2015-12-05	I believe each woman has her own right to choose who takes care of her and her baby through pregnancy and birth
Aaron Brown	West Columbia, SC	2015-12-05	My wife and I had a midwife-attended birth. We were at 41 weeks, and the anti-hemorrhagics were needed and helpful. We hope to continue to be able to use a midwife, and find these restrictions unnecessary.
Aaron Brown	West Columbia, SC	2015-12-05	My wife and I had a midwife-attended birth. We were at 41 weeks, and the anti-hemorrhagics were needed and helpful. We hope to continue to be able to use a midwife, and find these restrictions unnecessary.

Name	Location	Date	Comment
Lane Henderson Joiner	Newberry, SC	2015-12-05	I was attended by a midwife during my pregnancy, and she was knowledgeable about caring for women and babies. As a consumer of birth services, it is my preference to receive the personal, individualized care that only midwives can offer. Most births are not an emergency, and should not be treated as such. Unnecessary interventions lead to more problems for mothers and babies; midwives play a huge role in decreasing the amount of these interventions, and should be commended (rather than punished) for keeping mothers and babies out of intensive care units!
Jessica White	North Charleston, SC	2015-12-05	because 2 of 3 children were born using midwifery care and were the BEST EXPERIENCES!
wendie cowherd	Cazenovia, NY	2015-12-05	I do not support these changes.
Narcisa Hinds	Brooklyn, NY	2015-12-05	I want the right to choose my options for childbirth.
Kelsey Mostert	PRovo, UT	2015-12-05	I'm signing because I am from SC and I also have a degree in Human Development, which includes studying different birth methods. The first two points are unnecessary and should be based on the mother and the baby not on generalizations. I can not address the third point as I have never studied antihemorrhagics. However, I'm inclined to believe that like most medical things it should be addressed based on the patient not a generalization.
Alicieont Garrett	Elgin, SC	2015-12-05	Doctors know best, not DHEC. They can keep out of my personal birth process.
Olivia Harris	Bainbridge Island, WA	2015-12-05	Midwifery is SO important to modern maternal care.
Chloe Coulthard	Australia	2015-12-05	When will we ever understand reproductive freedoms?
Jacquie Fase	Rockford, MI	2015-12-05	Both of my grandchildren were delivered by a LM at the Charleston Birth Center. Beautiful facility! Far less stressful for the new parents (and the old grandparents) a much healthier environment than a traditional hospital with its plethora of germs. By creating laws such as this that limit the rights of women you plunge us backward a century or more to deliver our babies at home.
Devon Smith	Greer, SC	2015-12-05	I've had 6 children, all but one attended and delivered by midwives and feel deeply that women should have ALL medical options and TOTAL autonomy over their own bodies and health decisions.
Danelle Aw	Charleston, SC	2015-12-05	Two babies, two homebirths, both earthside safe and sound in Charleston, SC. My midwife care far exceeded the OB care I received at the start of my first pregnancy. Switched at 20 weeks to midwife. Neverlooked back.
Anna Campbell	Taylors, SC	2015-12-05	I had noth of my children at home. I felt safe and taken care of by my midwives. Please do not strip their rights to take care of birthing women effectively. We have every right to have our children at home and feel safe.
William Yeargin	Piedmont, SC	2015-12-05	I am signing because I think that every human being has the right to informed consent regardless of their medical condition. It is pretty ridiculous that you have the right to decide to end a fetuses life before it is even born and it is ok, but god forbid anyone let you make a medical decision that involves you and your baby. Not to mention my wife used a midwife and she was 41 1/2 weeks when she went into labor and it was the most amazing experience for the both of us. Please, please, please do not take this away from us.
joyanna wood	GREENVILLE, SC	2015-12-05	I love my midwives!
Lauren Clark	Myrtle Beach, SC	2015-12-05	DHEC has to look at the country's maternal death rate and see that limiting women to the point where they must give birth in a hospital is not helping anyone, giving birth at home is not the problem. While rewriting regulations that involve birth there should be someone who knows a good bit about it aka an obgyn, midwife, etc.

Name	Location	Date	Comment
Liz Re	Spokane, WA	2015-12-05	It is a woman's right to choose how she wants to give birth. Midwives are an educated alternative to the medical rape that happens in hospitals
Kristy Moore	Rembert, SC	2015-12-05	Im signing this because I trusted more in my midwife to help me make informed decisions about my child birth than I did the OBGYN, I saw before I switched! I believe every parent should have options when it comes to the birthing process. It should be a natural, comfortable setting, not one that makes you feel like you are being a herded cow. I love my midwife and do not believe they should be unable to practice on their own. I will never see another OBGYN when it comes to my prenatal care, unless it is vital to the well being of my child!
Michelle Iecount	Saint Simons Island, GA	2015-12-05	My next birth will be at home! Using a midwife this time.
Amber Robinson	Newberry, FL	2015-12-05	I've had three VBACs. Two were delivered by midwives and were the best experiences ever! The one delivered by an OB was because Florida does not allow midwives to work with vbac moms. I hated this! And would be so upset if SC adopted this.
Laurel Wolcott	Spartanburg, SC	2015-12-05	I plan to have a home birth with my next child. I am beyond infuriated that this board of non-medical professions thinks they know best, and are essentially limited the scope of midwifery practice to such a degree that I and my child could actually come to great harm due to regulations, not due to a competent skilled midwife.
Lindsey Hesketh	Travelers Rest, SC	2015-12-05	I support midwives role in birth
Paola Tapia	Charleston, SC	2015-12-05	Women deserve birth care options. I deserve the opportunity to birth at home under Midwifery care.
Nicole Tribble	Easley, SC	2015-12-05	I had a homebirth and it was best experience of my life!
Henry Stephens	Simpsonville, SC	2015-12-05	Everyone deserves the choice of a midwife!!!
teresa ward	Columbia, SC	2015-12-05	I have the right to birth a child I make in my own body the way I see fit.
Sarah Kelly	Spartanburg, SC	2015-12-05	People have the right to choose their own care.
Kali Wright	West Columbia, SC	2015-12-05	My first child was delivered by a midwife she was absolutely amazing! I would never choose any other path other than a midwife !
Ashley Price	North Charleston, SC	2015-12-05	My mother only gave birth to her oldest of five in a hospital. The rest of us were born with the help of the same amazing midwife that my mother knew and trusted! My sister had a wonderful birth experience with a midwife, and I intend to do the same! No one but me and my husband should be able to decide how our children are born!
Candice Smith	Burlington, NC	2015-12-05	I support our midwives and womens right to give birth at home!!!!
Lauren Wattam	Deseronto, Canada	2015-12-05	I am a Midwife and we are qualified skilled birth attendants that are more than capable of providing care to postdates clients, VBAC clients and normal labours in all birth settings. I support certified Midwives around the globe in expanding and maintaining their scope of practice if they are providing evidence based and woman centred care.
Shannon Milligan	Greenville, SC	2015-12-05	DHEC has indicated in the past that they desired to see SC be aligned with the national standards of midwifery. However, the regulation revision being published is not according to national standards nor is it evidence based. The Midwifery Advisory Council should be allowed to do its job as an educated group of care providers.

Kat Carson	Bonneau, SC	2015-12-05	I believe in midwives!!

Name	Location	Date	Comment
Courtney Jump	Gaston, SC	2015-12-05	I feel that the point of midwifery is that once a doctor deems a pregnant woman low-risk, she is free to choose a more natural birthing environment than those offered by an obstetrician in a hospital setting. To put so many of these new restrictions on midwives will inadvertently lead to more restrictions on mothers. It isn't right, fair, or American to take our choices away like this.
Nicole Nelson	Toronto, OH	2015-12-05	I believe that women should have the opportunity to use a midwife if she is not high risk

Kathlyn Mase	Seneca, SC	2015-12-05	SC moms and babies need midwives, working with women, providing home and birth center births. The best birth outcomes in the world are on countries that rely heavily on midwives...the countries that rely primarily on OB Gyns do not fair nearly as well.
Brenda Myers	Orlando, FL	2015-12-05	I believe that it is my right to chose how my children enter the world.
Shelly Jones	Columbia, SC	2015-12-05	Midwife-led care improves quality and safety for both maternity and newborn. Cochrane Review. Keep our state moving forward not backward. http://www.ncbi.nlm.nih.gov/m/pubmed/20434086/
Electra Hutchison	Tega Cay, SC	2015-12-05	I love in SC because the laws on homebirth midwives are right where I am comfortable with them. This would ruin that and make me seriously consider moving away to a state now in line with allowing me to make my own decisions for my body, baby and birth.
Sarah Cronin	Columbia, SC	2015-12-05	Everyone should be able to choose for themselves and medical care
Teresa Anderson	Seneca, SC	2015-12-05	I had a great home birth right here in South Carolina 13 years ago!!!
Amy Fulmer	Simpsonville, SC	2015-12-05	I am currently expecting my 2nd child to be delivered by a midwife. Midwifery is a great choice for low risk women like myself. This model of care has shown great success around the globe and is gaining popularity here. Please allow women to continue with the licensed prenatal care of their choice.

Stephanie Greer	Charleston, SC	2015-12-05	I want my midwife with me at my child's birth at MUSC. They are more attentive that doctors and can give mothers more time and support which statistically leads to less c sections and complications resulting in healthier births.
Kelly Shepard	Nashville, TN	2015-12-06	Of m friends who are dulas and birth experts, as well as women and mothers.
Jessica Pace	Kernersville, NC	2015-12-06	I'm a two time home birth mom and believe that Midwives help change the world through the care that they give. We should stop trying to change the way they practice this time-honored profession.
Elizabeth McConnell	Awendaw, SC	2015-12-06	Keep politics out of medical decisions
Emily D'Elia	Mint Hill, NC	2015-12-06	I believe in birth choice.
Christy Gant	Dalzell, SC	2015-12-06	Women should have the right to birth however and wherever they wish.
Shirley Townsend	Columbia, SC	2015-12-06	SC must not limit this safe, natural method to deliver a baby. There is no evidence for these restrictions.
Sandra Layne	Sumter, SC	2015-12-06	Women and men should be able to have a choice how the wish to delivery.
Jennifer McKinney	Fort Mill, SC	2015-12-06	Women should be able to choose birth options in this great country of freedom.
Anna Stalnaker	Blythewood, SC	2015-12-06	I'm signing because a woman should have certain rights during pregnancy and childbirth. Certain restrictions that are being proposed violates those rights.
Danii Gantt	Irmo, SC	2015-12-06	I want the choice!

Name	Location	Date	Comment
Brittanie Valentine	North Charleston, SC	2015-12-06	I am a soon to be 1st time mom. I believe it is a woman's right to choose how and who will be present at birth; whether it be at home, birthing center or hospital. Birth is a completely natural event not something to be made into a medical procedure by those who know little about the field. Let us decide the details of the single most important event in our lives.
Angelica Kiesinger	jamestown, NY	2015-12-06	It's a woman's right to determine how she wants to give birth! Midwives have the required training needed.
Heather Schiefer	Spartanburg, SC	2015-12-06	I'm a VBAC mom who's wish is to babble to have my last child at home with a midwife. In SC that is currently illegal. His illegal for me to make an informed decision about where I deliver MY child and who attends. You should not be able to force mothers to deliver in a hospital.
Lauren Johnson	Greer, SC	2015-12-06	Our bodies, our birth. DHEC is not trained in low risk pregnancy and delivery which is evidenced by proposed regulations which are not evidence based.
Amber R	Dalzell, SC	2015-12-06	With out Midwives my two healthy beautiful girls wouldn't be here !!
Betsy Alger	Augusta, GA	2015-12-06	As a former resident of SC, a former licensed midwife's apprentice (LMA) in SC (on sabbatical now), and a four-time homebirth mother myself, I believe that these new regulations will make homebirth with midwives a less safe option for women at the very least. Anything that is not evidence-based and stands to make birth less safe while removing options for women is not acceptable - especially in a state that is supposedly in favor of less government intervention in private citizens' personal lives. There isn't much that is more personal than the way a woman gives birth, yet the state of SC wants to infringe upon the mother's brth choice options as well as all but disregarding the SC-licensed midwives' professional training and experience.
			Mothers need to retain their decision-making autonomy in birth options. Midwives/their consulting physicians need to retain autonomy when it comes to making medical decisions regarding the health and wellbeing of their individual pregnant clients and their babies. A group of people without knowledge of or experience with out-of-hospital birth should not be writing regulations pertaining to the practice of out-of-hospital midwives.
Bethany Duram	Simpsonville, SC	2015-12-06	I birthed my baby with two intelligent, competent Licensed Midwives here in South Carolina. More regulations as well as regulations imposed by those who are not experts will not make births safer. Let us leave the decision making to those with the comprehensive knowledge necessary for safe birth-- the midwives.
Christine Thompson	Columbia, SC	2015-12-06	Midwives rock!!
Dawn Langley-Brady	Augusta, GA	2015-12-06	As a Master's prepared nurse, I know women not only need to choose what method of delivery is best for them, but using evidence-based practice helps to ensure the best outcomes for patients! Come on SC - its time to change a lot of things, but placing restrictions on LMs is not one of them.
Rebecca Creel	Columbia, SC	2015-12-06	I will be using a midwife for the birth of my son for many reasons, but in short because woman who work have better outcomes.
Danae Jensne	Vancouver, Canada	2015-12-06	Birth matters!
Brenda Myers	Orlando, FL	2015-12-06	26 years ago when I was having my daughter we had little right. Some of us requested change. We had to demand that our requests be put in our medical files. South Carolina do the right thing for the babies and moms of our state.

Name	Location	Date	Comment
Emily Yeargin	Piedmont, SC	2015-12-06	I gave birth 1 1/2 weeks late with a midwife! My baby came into the world naturally and I couldn't have done it with out my midwives.

Cory Ellerbroek	Round Rock, TX	2015-12-06	Limiting birth options only hands the patient
Deborah Rhodes	Ilkley, United Kingdom	2015-12-06	Midwifery care reduces maternal & perinatal death rates - fact. VBAC perinatal death rates are equal to those for a first time birth (RCOG) so in perspective not high risk. Women have the human right to choose their care provider, where they give birth & how they give birth. Use the evidence to inform practice & get out of bed with the hospitals, insurance & pharmaceutical companies. This must stop.
Reatha Pavey	Valdosta, GA	2015-12-06	It's the right fight
Heather Fangman	Marshville, NC	2015-12-06	It's important that regulations regarding midwifery be made by people trained for and experienced with out of hospital birth, and that these regulations be based on the best available evidence.
Rachel Arrington	Charlotte, NC	2015-12-06	I'm signing this petition because women should have a right to give birth wherever they feel is comfortable and safe for the mom and baby. No one should interfere with that right.
Jenee Ohrvall	Fort Worth, TX	2015-12-06	I believe in providing access to CPMs in each state in America.
Amber Kusmier	Easley, SC	2015-12-06	Without midwifery care I would have never had the option for a VBAC. I also believe we as consumers should have full choice of our care provider.
Courtney Lanciot	Sherrills Ford, NC	2015-12-06	Women deserve to have the right to birth how they want to! CPMs are well trained and experienced and are an asset to birth!
Brittney O'Brien	Bluffton, SC	2015-12-06	I'm signing because I gave birth to my 4th baby at home with an amazing SC LM/CPM. He was my largest baby, 10lbs 8oz, and he was born at 42 weeks, just like my 3rd. I was told by every dr and hospital midwife before my homebirth that my body didn't work right and that I just couldn't have a baby without interventions. They were wrong. Their "failure to progress" which led to pitocin augmentation and other interventions, was really just a "failure to wait". My 5th and 6th babies (twins) were born by cesarean and I would love to have the opportunity to have another amazing, perfect, empowering, safe and wonderful homebirth, but the regulations need to change in order for me to do that. The midwives and those using midwives should be writing the regulations, not construction supervisors, dentists and office managers.
Jacquelyn James	Lexington, SC	2015-12-06	I believe that all women should be able to choose where and who should assist them in the birth of their children.
GayLing Fox	Gray Court, SC	2015-12-06	I want women to have the right to chose where and how they have their birth.
Regina Brooks	Davidson, NC	2015-12-06	Women deserve birthing options which include birth centers, hospitals, AND home births; whether they are attended by Doctors, Licensed Midwives, or Certified Nurse Midwives.
Alexis Mittan	Boulder Creek, CA	2015-12-06	I had a birth with my midwife at home and it was lovely, I can't imagine it any other way! Please don't stop this magic from happening!
Abigail Nichols	Camden, SC	2015-12-06	Midwives have delivered my 2 children, and I absolutely believe that midwifery care is an evidence based solution to our nation's appalling maternal health issues.

Name	Location	Date	Comment
jordyn pritchard	charleston, SC	2015-12-06	I'm signing because midwives are a valuable and important aspect of our healthcare and provide great services for women. They should be able to perform, unsupervised, all manner of services to the full scope of their qualifications.
Jennifer Kaylor	Sheppard AFB, TX	2015-12-06	As a birth doula I believe midwives are of huge importance in our community
Andrea Sands Holland	Farragut, TN	2015-12-06	Because it should be a woman's right to choose
Melanie Buck	Summerton, SC	2015-12-06	Moms and babies should come before hospital/doctor profits!
Lindsa Anthon	Austin, TX	2015-12-06	Every woman deserves access to a safe and legal homebirth and access to a birth professional who uses evidence-based care.
Audra Lassiter	Lancaster, SC	2015-12-06	I delivered both my sons with a midwife and only a midwife. Why take away a woman's right on how she wants to give birth?
Christina Neely	Sumter, SC	2015-12-06	I'm signing because I was a high risk mother all three of my pregnancies, yet I believe it is a woman's right to choose which caregiver should assist in delivery. Also the administration of anti-hemorrhagic a should be within the scope of a midwife in order to save lives.
Kelly Housaman	Bluffton, SC	2015-12-06	I am signing because birth should be a natural process and woman should be empowered to trust their own bodies. In a normal labor and delivery there is no need for medical intervention. Mid wife's are specifically trained for these births and have the expertise to guide a laboring woman. They also know when medical intervention is needed and understand the value of an expert care team. When I birthed my second baby naturally I was only in the hospital for 60 mins and the Dr was only there to catch the baby. After delivery I was poked prodded and woken up by nurses trying to take blood and check my uterus when it was convenient for them. If I ever have a 3rd I for sure will be using a birth center or at home birth and mid wives are the only way I can achieve that goal. Let's move forward with woman's health and not backwards.
Sharon Carmichael	Moore, SC	2015-12-06	I had 9 successful vbacs and after moving to SC I was forced to have my 11th baby in a hospital. It was completely unnecessary and I believe should be a personal choice.
Caroline Sigmon	Columbia, SC	2015-12-06	I had two hospital births because that's what I felt I needed but know many women who had healthy babies at home. This is not your choice it's ours!
Victoria Loughman	Myrtle Beach, SC	2015-12-06	Why do things have to change?! Let mothers make their own choices!
Tracy Hicks Johnson	Cayce, SC	2015-12-06	I don't agree with the changes.
Megan Sells	Bluffton, SC	2015-12-06	I believe women have the right to have different professional options for how they birth.
Gary Buck	Summerton, SC	2015-12-06	Midwives delivered 2 of my 3 children, and it is such a fantastic experience. I'd recommend it to anyone. In fact, my wife is considering a career change to become one.
Emily Kritt	Williston, SC	2015-12-06	A midwife who I never met before arriving at the hospital in labor saved my baby.
Geri Merrill	Greer, SC	2015-12-06	4 out of my six births were by midwives. By far a better birthing experience.
Ofelia Bacaro	Miami, FL	2015-12-06	I am moving to SC soon and so is my daughter who is pregnant.
Jeff Aita	Bluffton, SC	2015-12-06	Woman should have the right to decide how to give birth
Kaitly Watkins	Rohnert Park, CA	2015-12-06	I believe in a woman's right to have whomever she chooses attend and assist with birth.
Joanne Gottschall	Charleston, SC	2015-12-06	I am a Licensed Midwife these regulations don't allow me to provide the best evidence based care to my clients.

Name	Location	Date	Comment
Joe Boggs	Spartanburg, SC	2015-12-06	I believe women have the right to choose and home birth is actually safer.
Lenley Eidson	Lexington, SC	2015-12-06	Because I believe in the woman's right to choose how to bring her baby earth side.
Kelly Benamati	Greensboro, NC	2015-12-06	It's the right thing to do
Elizabeth Bradway	Vineland, NJ	2015-12-06	I'm supporting to keep options open for all Americans to birth with freedom of choice.
Whitney Olsen	Tempe, AZ	2015-12-06	I'm signing because hospitals are not always safer and better for moms and babies. Had I birthed in the hospital, my son and I would have unnecessarily been separated for a minimum of three hours after birth for him to be "observed" because he was wide-eyed and alert, and that's our local hospital's policy. Instead, we were able to perform skin-to-skin to regulate his temperature, breathing, and heart rate; establish breastfeeding (still going strong at 21 months); avoid a stressful packing-up and driving-home; be separated from diseases and organisms such as MRSA's and E. coli heavily present in hospitals and L&D and significantly impacting mothers and babies in hospitals nationwide; and many more benefits. It would be devastating to see mothers who wish to deliver at home disallowed from this beautiful, safe practice. Thank heaven for the hospitals for those who need it, but thank heaven for home birth for those who desire it.
Alexandra Shaw	Chapin, SC	2015-12-06	I'm signing because I believe births attended by midwives lead to fewer interventions and safer deliveries for both mother and baby. I am from SC, worked in Nashville TN at Vanderbilt for 3 years under amazing midwives who even delivered my own son. Our birth story would have been drastically different had we not had a midwife. I believe firmly that evidence, rather than convention and tradition, should drive decisions involving health care. Midwives are crucial to the betterment of women's health and healthy L&D outcomes
Stacy Sikula	Lancaster, SC	2015-12-06	Midwives are a necessity. Choice is necessary.
Priscilla Coleman	Rincon, GA	2015-12-06	Going through my own natural experience I can say that limiting a mother on her own body as they do in a hospital would infuriate me. No mom should have that choice taken away.
VALERIA TANCO	summerville, SC	2015-12-06	I am an uncomplicated vbac patient that wants to birth at home
Karen McAlhaney	Williston, SC	2015-12-06	Midwives are able to do the job!
Danielle Morris	Newberry, SC	2015-12-06	I believe this is vital to successful midwifery in the state of SC!
Alexa Waggoner	Hampton, VA	2015-12-06	This hits close to home. As a homebirther and as a Carolina girl.
kali Mitchell	summerville, SC	2015-12-06	I want the right to birth the way I want to!
Saskia Steidel-Brown	Pueblo, CO	2015-12-06	Women have the right to birth their little angels the way they feel is right for them. It's time to end the unhealthy mindset of seeing birth as a terrible and scary event. It's a celebration of life. Midwives know this! Let's honor our midwives and by doing so ourselves and our children!
Angela Nevill	Charlotte, NC	2015-12-06	Women need birthing rights!
Erin Jones	Marietta, GA	2015-12-06	Both of my children were delivered by midwives. I am so glad I had the option. Every mother should have that option,
erin accardi	oak ridge, TN	2015-12-06	I had a vba2c with a midwife, and it was the most professional I was treated out of all of the births I've had. I felt safe and in competent hands, and there was a doctor in the room should anything have gone awry.
Kimberly Reigert	Bluffton, SC	2015-12-06	Because I believe all mothers should be able to have a choice!

Name	Location	Date	Comment
Kaleena DeLand-Zepeda	Naples, FL	2015-12-06	Every mother should have a choice in how she receives prenatal, delivery, and post-natal care for herself and her child(ren). The government shouldn't be allowed to make the sole determination on pregnancy and birthing care by making it illegal to have access to midwifery care.
Erin Cloer	Rocky Mount, NC	2015-12-06	I have experience with a doctor and a midwife and believe in the benefit they provide.
Rebecca Seeger	Simpsonville, SC	2015-12-06	While I am not a mom that has ever used a home birth, I have used a certified nurse midwife in a hospital setting. I think it's important that women are allowed to make informed decisions as to where and how they are going to give birth. I looked at many different factors and researched several options and found one that made me feel most comfortable. I have several friends and relatives who have used birthing centers and home births with varying degrees of success. And the one thing that is a common theme among their stories is that they looked at all the factors of their situation, used their common sense, referenced their LM and made the best choice for them and their baby. You cannot regulate every situation for every birth. Allowing people to make their own informed decisions is important. I also find it ironic that the list of board members regulating these birthing laws have little to no experience with the field.
Christina Nawrocki	Lombard, IL	2015-12-06	All 3 of my children were safely and happily born at home under the care of an amazing midwife.
dawn messore	vineland, NJ	2015-12-06	Women should have choices for low intervention birth. Physician in-house is enough for a VBAC.
Sandra Dickson	Rock Hill, SC	2015-12-06	The care I received from midwives was incomparable. All woman have the right to choose who provides their care, where they'll receive that & that it be safe.
LaDonna Yoza	Charlotte, NC	2015-12-06	I have worked with women birthing at home as well as those in hospital. Safety begins at home and without this option more families will have to move or birth in fear or interference or unneeded surgery.
jessica borsick	PIEDMONT, SC	2015-12-06	I want to VBAC and I think it's ridiculous women can have an abortion but your going to tell me how I can birth my baby!
Nicole Gilmore	Wagener, SC	2015-12-06	I believe women should have the right to choose their birthing method!
Maggie Maurer	Summerville, SC	2015-12-06	All four of my children were born with the assistance of a midwife. The only birth I've observed by an OBGYN was manipulated into the path he wished the birth to take through unnecessary medical intervention, disregarding the wishes of the laboring mother. A dentist, an engineer and a real estate developer should not be included in the writing of the scope of practice guidelines for midwives.
Maria Mayer	Columbia, SC	2015-12-06	A woman should have the right to choose the best method for her body and her birth plan.
Jacque Raftery	Sierra Vista, AZ	2015-12-06	I'm signing this because the oppression of reproductive rights of women in our country has gone too far. Too remove access to safe birthing at home when it is an appropriate choice for mom and baby to increase the profits of hospitals is abhorrent. Midwives are an essential part of women's health care around the world and should be viewed so in the US as well.
Gerry Bates	Easley, SC	2015-12-06	My mother is studying to be a midwife and I would like to have a home birth
Jennifer Elliott	North Augusta, SC	2015-12-06	This should be the choice of a mom. I have never had a midwife. That was my choice. As a mom of 4 babies - I would consider it my right to choose who takes care of me and my baby at birth.
Sheena Criswell	Rock Hill, SC	2015-12-06	Safe Home Births with a LM is my right as a woman! I have a right to choose!

Name	Location	Date	Comment
Carrie Jacobs	Summerville, SC	2015-12-06	Women have a right to birth children the way they want as long as it's safe!
Amber Breeze	Greer, SC	2015-12-06	I am about to have my third midwife attended home birth. Women should be able to choose any safe option for birth that they prefer. When you limit the options of the midwife, you limit the options of the mother. Please do not make child birth more difficult than it already is!!!
Jessica Rimmer	Greensboro, NC	2015-12-06	I have been a part of many births as a doula and I fully believe that the care that midwives offer is just as good if not better than doctors. In some cases a doctor would be best but I fully believe that in some cases that a midwife can provide a completely different outcome than a doctor.
Libby Peacock	Killeen, TX	2015-12-06	I have now had two wonderful births with midwives. These ladies are trained and EXPERTS in what they do! Women should have a say in who delivers their babies. What happened to our bodies, our choice?
Kristen O'Reilly	Charlotte, NC	2015-12-06	The way a woman births her child should be her choice
Sherry Bailey	Fountain Inn, SC	2015-12-06	My daughter had 3 boys all at home with a midwife present. It was a wonderful experience for all. Had an emergency arouse steps were in place to have the births at a hospital.
Amanda Simpson	Liberty, SC	2015-12-06	Every woman should have the wrote to choose what works best for them! I did not use a midwife with my 1st child and the hospital experience was AWFUL. We had a midwife with our 2nd child and the birth was by far more helpful, relaxing and way less stress!
Alesia Stevenson	Catawba, SC	2015-12-06	I've had two out of hospital birth and felt my midwives knew exactly what they were doing. Please let them do what they are trained to do!
Jacqueline Marshall	Columbia, SC	2015-12-06	For patient rights.
Mary Butler	Beaufort, SC	2015-12-06	I am signing this because all mothers to be need access to good prenatal care for their babies and themselves. The goal should be healthy babies and mothers.
Theresa Neuburger	Piedmont, SC	2015-12-06	Both of my boys were delivered by midwives in Pennsylvania. I was considered high risk due to low platelet counts and gestational diabetes with my second son. Both were delivered in the hospital with no complications at all. I was disappointed that midwives weren't available to me when we moved to SC and my daughter was born here. Although my nurse at the hospital and my OB/GYN was fabulous, I still wished I would have had the nurturing of a midwife. They were just as competent and even more cautious when there were concerns. Midwives are an absolute asset the the birthing community.
Elizabeth Steele	Hattiesburg, MS	2015-12-06	I was born and reared in the Lowcountry. I am an educated, informed consumer who has chosen to birth twice at home with midwives. DHEC putting ridiculous stipulations on what a woman is "allowed" to do with her birth is nothing but trouble! Stop the over regulation of birth! Women want to be able to make informed decisions for themselves.
Melissa Kinard	Beaufort, SC	2015-12-06	I work in Labor and delivery and value our midwives
Jennette Willoughby	Myrtle Beach, SC	2015-12-06	I delivered both of my children at home in 2014 and 2015 and experienced excellent care from my licensed midwife. I strongly feel this should be an option and the tools they can have to address complications should not be restricted from the current rules. This would simply serve to increase the chance that instead of complications being handled by the midwife in a swift and immediate fashion, valuable time would be lost as the patient waits to receive the interventions after they transfer to the hospital. Do not handicap midwives by taking away their tools.

Name	Location	Date	Comment
Tara Kennard	Charlotte, NC	2015-12-06	I believe everyone should have the right to choose how and where they want to have their baby.
Elizabeth Hall	Cayce, SC	2015-12-06	Both my babies were delivered by midwives. They were amazing and gave us a level of prenatal care that far exceeded what we experienced with the OB office we visited with our first pregnancy. It would be a shame if women no longer had the choice of using a midwife for their prenatal care and delivery.
Joyce Tedder	Charlotte, NC	2015-12-06	There aren't enough words allowed here to express how important it is for women to have the choice to birth where they feel most comfortable. Midwives offer something so special to pregnant women, that no doctor could ever offer. We will continue to birth the way we want. Don't criminalize midwives in the interest of industry and campaign funding. We all know that's what's behind laws like this.
Cheyenne Doling-Tye	Oviedo, FL	2015-12-06	Midwifery shouldn't be squashed like this, by allowing this insane over regulation to occur it will actually be opening the door to less educated midwives who will work around the rules as a selling point.
Jane Long	Columbia, SC	2015-12-06	I'm signing this petition because I have had 3 daughters with the help of midwives and they have benefited my pregnancies and deliveries in an enormous way. I wouldn't have found the same level of care and personal attention at a standard OB/Gyn's office.
Debbie Pulley	Lilburn, GA	2015-12-06	These new regs are definitely not evidence based care. You are going the wrong way South Carolina!
Colby Foster	Sugar Land, TX	2015-12-06	I am signing this because going 40-42 weeks is normal and healthy. I had two of my children safely at home after 41 weeks.
Anna Glodowski	Charlotte, NC	2015-12-06	Women should have a choice.
Tiffani Dillingham	Summerville, SC	2015-12-06	I support midwives and their careers, as I would do for anyone else. I couldn't have done my natural birth I've always wanted without my amazing midwife. She knew more and specialized more in the rights women should have during pregnancy and labor. Women should have the choice whether they want a doctor or a midwife who extensively trains in one specific subject.
Jessica Hannah	Taylors, SC	2015-12-06	I feel that every woman should be able to make her own choices regarding her pregnancy, if she trust to have a birth naturally with a midwife I do not think there need to be regulations based on medical research and opinions of doctors. Instead there needs to be communication between the midwife and doctores, but ultimately the woman should be able to make her choices as long as it is healthy for her and baby.
James Payne	West Columbia, SC	2015-12-06	Midwives are important!
Sienna Flanders	Plainfield, VT	2015-12-06	I believe in a person's right to choose what is best for them and their family
Jan Arias	Atlanta, GA	2015-12-06	I have a daughter in SC who was harmed by the current regs.
Shelbie Shaw	Kansas City, MO	2015-12-06	Keep midwifery legal!
Tamara Merriweather	Anderson, SC	2015-12-06	I had a far better experience with my births via midwife than at the hospital. These regulations are clearly in favor of "bigger" business of hospitals and doctors.
Ashley McNamee	Rock Hill, SC	2015-12-06	I believe all mothers should be given ALL options, not forced in to having the birth a board sees as "safest". Some women will still choose a hospital, and that is their right. However, that should not infringe upon my right to choose not to use a hospital.
courtney whitting	West Columbia, SC	2015-12-06	I strongly agree with all if the above

Name	Location	Date	Comment
Ellen Gross	Anaheim, CA	2015-12-06	Women have the right to decide where, how, and with whom they will give birth. This is just like the suffragette movement of the 1900s. We will win this fight.
Michele Zollars	Anderson, CA	2015-12-06	LET CONSUMERS CHOOSE!
Lauren Shannon	Johns Island, SC	2015-12-06	It is a woman's right to choose her birthing experience!
Jamie Vera	Richmond, KY	2015-12-06	We had a mid wife and loved her
Amy Norenberg	Hoyt Lakes, MN	2015-12-06	My first homebirth was in SC, and it was a wonderful experience. I am getting ready to have my 4th homebirth, and my birth in SC holds fast as my best out of them all, far surpassing my hospital births. Women do not need hand-holding for deciding how to birth. Nor do we need new, such strict regulations that we actually have no choice left at all. Many of the new regulations don't even make sense, and have great potential to cause grave harm to a birthing mother. Respect us as intelligent and thoughtful people who do want what is best for our babies. We are finding that with our midwives. When you put a chokehold on our midwives, you are insultingly "Big Brother-ing" in a scope so wide, it is alarming. Let us have our smart, educated, compassionate midwives. Respect birthing mothers as intelligent, caring, and thoughtful. Respect our right to make choices.
Daphney Cordeiro	Simpsonville, SC	2015-12-06	I should have the freedom to choose a Licensed Midwife to medically walk me thru labor and delivery at home. Please reconsider these legislative efforts which would greatly affect freedoms in the type of care women would get with any future births. There is more than enough evidence and regulations in place which make the natural and beautiful event of birth be able to be safe, at home, under the loving care of a nurse midwife. Thank you.
JEFFERSON SOUTH	Australia	2015-12-06	I know midwives in South Carolina
Haley Clayton	Lexington, SC	2015-12-06	I'm signing because my health and decisions regarding my birth are up to me and my doctor or midwife, and them alone. Keep the government out of my birth plan.
Kaitlyn Hoverman	Hopkins, SC	2015-12-06	We should have a choice how we want to bring our children into the world. If it is some how ok for someone to choose to end the life of their baby, those of us that value our children's lives should be able to choose how we feel is best for them to enter this world.
Doug Ward	Los Gatos, CA	2015-12-06	We are suppose to be living in a free country not a country that wants to control our every move
Jennifer King	Columbia, SC	2015-12-06	I value the midwives in our state and for a woman to choose her birth attendant and how she gives birth. Birth is NOT a medical emergency in most cases and should not ever be treated as such. I am proud, honored, and happy to have had TWO healthy beautiful children born at home with the assistance of licensed midwives in South Carolina.
Morgan Ritter	Columbia, SC	2015-12-06	Women have the freedom to choose where and who attends they're births.
Heather wade	Rock Hill, SC	2015-12-06	I think every woman has the right to choose where and who helps her have her baby. When the government can take my pregnant belly over for a couple nights so that I can sleep peacefully on my stomach, or if they want to feel the pain of Braxton hicks, or labor itself then it should be up for discussion but until then absolutely not!!!!
Heidi Livingston	Ewa Beach, HI	2015-12-06	I have had two successful vbacs and my last was a home birth! My midwife was amazing and every woman deserves the right to choose how she births her babies. Our bodies were made to deliver naturally and midwives are the best at nurturing a healthy and safe environment for delivery.
Heather Deslauriers	Mooresville, NC	2015-12-06	It is the right thing to do, midwives are amazing!

Name	Location	Date	Comment
Carolyn Brewster	Brevard, NC	2015-12-06	It's reasonable!
Shelly Collie	Kernersville, NC	2015-12-06	I birthed both of my babies under the care of midwives and it was the best experience and everything I'd hoped for.
Amber Frascone	Phoenix, AZ	2015-12-06	Choosing the best birth option for yourself shouldn't be for anyone else to decide.
Veronica Templeton	Boiling Springs, SC	2015-12-06	<p>Women should not be told what kind of birth they're "allowed" to have. It's been proven that due dates can be way off and it's totally within normal range to gestate for 43 weeks. Some midwives are the only option for VBACs. VBACs are also proven to be better all around for both mom and baby over a repeat cesarean section when the pregnancy is low risk. Birth is not a medical process. It is a natural process. Yes, medicine can be life saving when it is needed but there are more situations than not where medical interventions were not necessary and an unnecessary cesarean was the end result.</p> <p>Midwives are crucial to allowing the birth process to remain a natural process. The cesarean rate in the US is 33%; the rate can be higher at local levels. Yet in midwife run birth centers and the like, the repeat cesarean rates are much, much lower. Please, do not dictate women's rights to choose the birth they want. Do not make laws and rules to control the process. Stop putting higher standards and stricter regulations on midwives than you put on OB/GYNs. An OB/GYN can cut women open all day long and nobody bats an eye. This should not be up to a board of members. It should be up to the women who are giving birth. A woman should not have to fight harder for a VBAC than a cesarean section.</p>
Heidi Larsen	Morgantown, WV	2015-12-06	I was severely abused by hospital staff during my second pregnancy. I am completely uncomfortable with maternity care within a hospital due to the trauma. Even my hospital VBAC left me shaken simply because of the setting I was forced into. I am an educated woman. I research everything before deciding what is best for me and my family. I know what my body is capable of better than anyone else. It is my body. It is my baby. It should be my choice how to birth. These regulations are atrocious and demeaning to women.
prisila reilly	martinez, GA	2015-12-06	Enough said.
Natalie Conrad	Greenville, SC	2015-12-06	I totally support Midwives and what they do!
Cindy Smith	Charlotte, NC	2015-12-06	I believe women should be able choose who they want to assist them in childbirth.
diane carrick	cape may court house, NJ	2015-12-06	Please sign and sharw. Midwives are not doctors. They are much much more.
Andre'ya Rogers	Warner Robins, GA	2015-12-06	I'm signing this petition on behalf of women in the state of SC who needs midwives to assist them in any kind of birth.
sarah kruse	greenville, SC	2015-12-06	DHEC get the hell out of health care
Jeannette Segerson	Burnham, ME	2015-12-06	everyone should have the right to a safe birth space including at home with a midwife
Vanessa Venter	Johannesburg, South Africa	2015-12-06	<p>I believe that women should have a choice in how and where they birth and the medical care they receive.</p> <p>Further more, midwives are trained medical professionals, capable of delivering a baby safely and trained to see potential problems before they arise and become a medical emergency.</p>
Kim Moore	Fort Mill, SC	2015-12-06	I'm signing because at the point you take my choices away we have a dictatorship.

Name	Location	Date	Comment
Christy Dulaney	Mount Sterling, OH	2015-12-06	I want all mothers to have the choice to have a home birth. The state shouldn't dictate where a woman has to birth her baby.
Jessica Valko	San Diego, CA	2015-12-06	I'm signing because I'm currently living in California but we hope to eventually move back to SC. I had a very unnecessary unplanned caesarean so my next baby will be a hbac and I hope the one after that will be too. Normal gestation is 37-42 weeks so there is no reason for the 41 week cut off. Midwives are important and how the rest of my babies will be brought into the world.
Ashleigh Ritchie	Sumter, SC	2015-12-06	I had midwives during my birth. They took care of my needs far more than a nurse or doctor would have. Such a beautiful experience
LeeAnn Lawie	Muskegon, MI	2015-12-06	With fewer options women feel forced to possibly make the riskier then instead. Birth matters. With a better birth we begin our better earth.
David Fullz	Morehead, KY	2015-12-06	Anything to keep the Feds uninvolved as much as possible. I trust midwives w this issue
Jenefer Fraser	York, United Kingdom	2015-12-06	Midwifery care has great outcomes and women should be able to choose their provider
Mena Simonsen	Australia	2015-12-06	I am a nurse and agree with what this petition is aiming for.
CHRISTINA Parker	York, SC	2015-12-06	My last baby was born at home with an amazing midwife who we love dearly. She provided me with better care than I have ever received by any OBGYN in the state of SC (I've been pregnant 11 times). To further restrict or limit her "without cause or knowledge" is absurd. Clearly, regulations should be written by those who are familiar with out of hospital birth. NOT people in Columbia who are being manipulated by lesser quality medical providers (OBGYNs) for political purpose. If you want a hostile, less safe birth environment and women choosing illegal birthing options then by all means, continue to attempt to pass these ridiculous regulations.
Lindsey Immig	Madison, WI	2015-12-06	Women's right to choose how they birth their baby
Gina Rickaby	Abbotsford, Canada	2015-12-06	Midwives are important!
Eleanor May-Johnson	Southampton, United Kingdom	2015-12-06	it is crazy that regulation should stop women from having choice over their bodies and their births. Show me the evidence that homebirth is any less safe than hospital births!
Carissa Hemphill	Tulsa, OK	2015-12-06	Im signing because vbacs and home births are safer than a rescheduled c section.
Tammy Schlievert	Hertford, NC	2015-12-06	I had a midwife with all three of my kids (in Ontario, Canada). I wouldn't have had it any other way. My last one was a home birth and perfect on every way. My first was at 42 weeks. It was also an amazing birth. If this law had been in effect, I wouldn't have been able to do either. Please don't take rights of the mother away. I'm in SC now, so this hits home.
Megan Douthitt	Columbia, SC	2015-12-06	Not all healthy births happen in a hospital. Midwives are invaluable and should be encouraged to practice.
Lorraine Santacroce	Keene, NH	2015-12-06	It is the right thing to do. Parents should be able to have a midwife at birth if they choose to.
Joy McKnight	Florence, SC	2015-12-06	I truly believe my midwife saved my daughter. I exhibited to signs of distress was brushed aside and dismissed my my Dr. But my midwife, because she knew me and knew something was wrong pushed the Dr back. I wound up delivering by c section two days later because my daughter was in distress. A different Dr told me she would have been still born had she not been caught.

Name	Location	Date	Comment
Julie DeFrancis	Woodstock, GA	2015-12-06	Women should be entitled to give birth wherever and with whomever they please as their birth attendant. Women deserve the right to make choices about their own bodies and medical decisions. It is not up to the government to make these decisions for women.
Jenney Babin	Broussard, LA	2015-12-06	The birthing rights of women are important to me and it's a cause I feel passionate about. Might not affect me directly but I care about community, in a broader sense.
Marie Hall	Conway, SC	2015-12-06	When a woman chooses someone she feels safe with she will be relaxed during her pregnancy and delivery making it an easier birth. Stress causes more problems. This one stress is preventable. Let the parents choose please.
Pamela Signor	Greenville, SC	2015-12-06	Midwives are amazing!! Please don't limit our choices as women for how and with whom we can have our births. Our bodies are well designed to do this and midwives know this more than anyone!
Emily Marlar	Danville, IN	2015-12-06	I'm signing because midwife assisted home births are a safe option for low risk mothers, and should be permitted in all states!
Christy Greer	Gaithersburg, MD	2015-12-06	I believe that those writing medical regulations should be qualified medical professionals in the specific field. The current people seeking to establish new regulations are not qualified to do so. Furthermore I do not believe new regulations are needed.
Jennifer Sweeney	Mt Morris, MI	2015-12-06	Women should be allowed to choose where and with who they birth.
Madison Fitzwater	Belle, WV	2015-12-06	Midwives are the MOST important thing in the birthing community. More women need this option.
Sara Melone	Merrimack, NH	2015-12-06	A woman's birth is HER business, her choice. She should have the choice to manage HER body, HER birth and the care of HER baby with her midwife or care provider without the hindrance of bureaucratic red tape tying their hands.
Janell Fonseca	Spokane, WA	2015-12-06	You have no right to take away a women's choice on how to birth their children.
Emily Padgett	Columbia, SC	2015-12-06	The quality of care I received with a licensed midwife in South Carolina was far superior to the tandem care I received from an OB/GYN. My midwife knew all the ins and outs of my history, nutrition, and pregnancy. With this knowledge, she was the person most qualified to attend my baby's birth. My daughter was 12 days overdue and with the proposed regulations my incredible homebirth would have been illegal.
Alyssa Klein	Barclay, MD	2015-12-06	Have you seen the stats? Midwifery and doulas make a huge difference in the birth experience both health wise of baby & momma also mentally. Taking this right away to any women is not acceptable!
Allyson Russell	Cape Coral, FL	2015-12-06	because all women deserve evidence-based care, and the ability to choose where to birth with a support team they can trust.
Michelle Gillian	Waco, TX	2015-12-06	Women have control over their bodies and they have the right to choose how they give birth.
Erica Heinsman	Silver Spring, MD	2015-12-06	Women deserve to have choices in childbirth!
Cyndi Rosenblatt	Hanahan, SC	2015-12-06	I've had two homebirths in SC. One was attended by a SC LM and the other was unattended. The first one was much safer than the second, but I would risk another less-than-ideal outcome before I would walk into a hospital in labor. Restricting options is not in anyone's best interests.
Tiffany Boles	wheeling, WV	2015-12-06	A mother has the right to have the birth she wants. It's sad that in 2015 we have limited women's rights so much in this area.

Name	Location	Date	Comment
Tara Hogan	Clyde, NC	2015-12-06	I'm signing because all of the research is showing that women who choose midwifery births have better outcomes. It's in the literature if you take the time to look. When examining the United States infant mortality rates we rank way below even some Third World countries. We are tied with Iran in the rankings for maternal mortality and it's safer to have a baby in places like Turkey, Bahrain, and Slovenia, South Korea, Serbia and Kuwait. Technology does not necessarily imply that we will have steak for births.
Rachel Manning	Ashland, KY	2015-12-06	Women should be able to birth where they feel comfortable. And midwives should be able to help these women in which ever setting they chose.
Melissa Gillian	Piedmont, SC	2015-12-06	I had my third birth with a midwife. It was the most empowering and unbelievable experience I've had during labor. No one gets to make decisions about my body and especially not my birth other than me and my doctor! I notice that most of the people trying to get this done are men. Leave our births alone!
Sharaine Cone	Woodruff, SC	2015-12-06	I had a home birth with a midwife, I loved it..Doctors losing money is really the big issue and the fact of more government control. Stop the nonsense....
Heather Christy	Tacoma, WA	2015-12-06	ALL mothers should get to decide where and how they birth. All women who choose to be midwives should be able to do what they love where they want to.
Jennifer Sanchez	Hazleton, PA	2015-12-06	Informed consent should not be trumped by politics
Candice Brasington	Conway, SC	2015-12-06	I loved my midwife! She was better than any doctor or nurse I had!
Tamara Drechsler	Columbia, SC	2015-12-06	It's a woman's right to decide her birth plan. I believe if you take away the choice of midwives and/or birth centers there would be a lot more unassisted home births which can potentially be dangerous if not well informed. I know for a fact unless medically necessary I will not be having a hospital birth so if you take the option away to have a midwife I will be having an informed unassisted home birth. Giving birth is such a beautiful and natural event in a woman's life and a woman should have the right to choose if not it will be setting our state back many years and will force woman to seek out care in different states that allow choice.
Rachel Clark	Spartanburg, AL	2015-12-06	I believe women should have the freedom to choose where they birth and with whom. I believe birth works. And I believe OOH midwives are the very best at what they do. As a woman who used to live in SC but now lives in a state where a CPM/LM could be arrested for proving care, I am standing with my sisters in SC. Don't go down this slippery slope. Here women drive hours to get across state lines to have the birth they are trying for, which is infinitely more dangerous for mom and baby. Let the people who are actually involved make these decisions, not people it won't likely ever affect.
Lucie Bryant	Dade City, FL	2015-12-06	I am a student midwife And have had 6 homebirths. Homebirth is safe under the supervision of a trained midwife.
Mandy Kidwell	Ashland, KY	2015-12-06	Women should have the right to give birth in the manner that they choose.
Meghan Sandrock	Tiffin, OH	2015-12-06	I am a home birth mama and share the same fears of birthing in a hospital. I've had two amazing birth experiences and truly believe Midwives are the reason. Birth needs to be more about the mother and baby rather than an agenda. That will only happen if women are able to birth the way they want to and if midwives continue to support them. Midwives are highly trained to make educated decisions regarding emergencies and the statistics prove the safety of birthing at home. This option should not be taken away.
Tayett Partin	Willow Spring, NC	2015-12-06	Midwives are an important and powerful option for women.

Name	Location	Date	Comment
Stephanie Russell	Chattanooga, TN	2015-12-06	I'm signing because statistics show that among low-risk populations, homebirth is safest. A due date is just an estimation, so there shouldn't be a "cut-off date." I had a homebirth after cesarean, and my midwife was incredibly knowledgeable and dealt wisely with complications that arose. Every woman and baby deserves that opportunity.
Lorranda Bonner	Duluth, MN	2015-12-06	I had a homebirth and it was beautiful and I believe an pregnant women should have the right!!! No one should ever take that away from them!!! I'm sorry but to the people on the board you have no experience professionally in pregnancy, childbirth, or postpartum this is NOT your call to make nor if this your right!!!! If I were you I would look up recent studies that the medical community in England released about how low risk pregnancy should be at home not in a hospital!
Frances McKeague	Saint Peters, MO	2015-12-06	Women should be able to choose how they want to birth their babies! We are not wards of the state, and neither are our precious little ones!
Debra Roe	Olive Hill, KY	2015-12-06	We should have the right to give birth where we want to
Elizabeth Yang	Goose Creek, SC	2015-12-06	My mother had healthy homebirths, I had healthy homebirths (healthy overdue homebirths; 41+ weeks), I intend to have more. The new regulations are not evidence based. They further alienate women who have chosen the life affirming option of home birth. The legislation reads as if it were designed to discourage home birth families and their midwives by increasing bureaucratic red tape and paperwork as well as micromanaging situations that are best handled based on the information in the moment as assessed by care provider the client has chosen and trusted. And the language empowers physicians and those in competition with midwives to disallow and discourage the consumer who pursues a home birth. The legislation disrespects the client - care provider relationship in which together they discuss risks and options and find the best course of action based on unique needs. In the end, I don't understand why the government is allowed the power to stop it's citizens from seeking and receiving the care of their choice as it pertains to our life affirming birth options.
Alexis Rodriguez	Norwich, CT	2015-12-06	I had my first homebirth in June 2015 and it was the most amazing experience of my life. I'm currently living in CT but had plans to move to SC. I may have to rethink those plans now.
Ashley Hardwicke	Fort Bragg, NC	2015-12-06	Women deserve to have a choice when it comes to birthing.
Brittany Keeler	Fletcher, NC	2015-12-06	I believe women should have a choice in how they birth!
Crystal Hochstetler	Laurens, SC	2015-12-06	Please do not put any hindrances in my right to use a midwife who will actually take care of me vs my experience with the nurse in my hospital birth, who just tried to make her job as easy as she could. Believe me, I know I don't have unlimited medical resources using midwife, which is why I was sure to research my midwife before I chose her and make sure she had experience and a good track record. She has been delivering babies for years and she is well aware of the risks if something goes wrong. My best and healthiest birth was most definitely the one with a midwife.
Rene Collie	Kernersville, NC	2015-12-06	I think this is a great way to deliver a baby, after seeing both my grandbabies delivered this way. This this was around when I had mine.
Lorraine Faulds	Columbia, SC	2015-12-06	I believe women should have all the choices available to them when it comes health choices,
ashley rice	Goose Creek, SC	2015-12-06	I'm a mother of two. My first child I was cared for by an OBGYN, my second I was cared for by midwives. My second pregnancy was much better, there was a personal connection with the midwives that I didn't have with the OBGYN during my first pregnancy

Name	Location	Date	Comment
Katelyn Kimbrell	Fort Mill, SC	2015-12-06	I'm signing because I deserve the right to choose birthing with a midwife
Clarissa Caprario	Haddonfield, NJ	2015-12-06	I'm signing because I loved the care my midwives provided for me. Far better care and love than any doctor could give.
Amy Leland	Greenville, SC	2015-12-06	I am a midwife and I disagree with the revisions made by DHEC.
Breanna smith	Lexington, SC	2015-12-06	I absolutely loved my midwife
Mary Ann Saxton	Franklin, TN	2015-12-06	I had a beautiful healthy home birth of a baby that was past due. Midwives save lives, moms and babies.
Austin Casby	Bluffton, SC	2015-12-06	I believe in midwives.
Martha McCarley	Hartsville, SC	2015-12-06	I was born at home with a midwife and would love to be able to have the choose of a midwife when I have children.
Tananda Mariano	Goose Creek, SC	2015-12-06	It is a true and terrifying fact that DHEC is run by politics these days. They have no place deciding what is acceptable at someone else's birth!
Mary Ann Durbin	Marengo, OH	2015-12-06	I'm a woman, I'm a mom and I'm a midwife. Women need midwives....all types of midwives.
Cyndel Jones	Knoxville, TN	2015-12-06	Women have the right to science based, safe birth choices, and for many women this includes home birth with a midwife. And these restrictions are NOT science based but are designed to limit women's medical choices and make home birth more dangerous not less. Home birth, under the right circumstances, is perfectly safe and more often then not a wonderful experience for mother and baby. Attacking women's rights to birth choices is one of the TOP feminist issues in the developed world.
Tracy McGregor	Savannah, GA	2015-12-06	Having access to safe midwife care is very important for every mother!
Sandi Smith	Greenville, SC	2015-12-06	I had 3 safe, gentle, and empowering out of hospital births and I want to make sure my daughters have the same opportunity to choose where they will have their babies,
Kwajalein Cleveland	Goose Creek, SC	2015-12-06	I am a student nurse midwife. As mentioned, none of the board members of SC DHEC is a trained professional in childbirth and therefore for these regulations to be passed is insane. Evidence based research has shown the safety and low absolute risk of VBAC and the optimal outcomes from midwifery led care. Women and there families should have an inform choice about on of life most changing event they will experience in childbirth. We as CNMs and LMs should continue to fight the fight to maintain these women and family rights. "Listen to women."
Kristin Ferrara-McAngus	Columbia, SC	2015-12-06	While I tried natural and tried VBAC, I did end up with cesarean sections. My midwives were there for all of it though, and I would want the same thing again!! Do not take midwifery away from us. It needs to be our choice, and I choose MIDWIVES.
Carolyn Scott	summerville, SC	2015-12-06	I'm a consumer of Licensed Lay Midwives in SC and support their practice. Their statistics prove they're good for SC.
Shirley Morrison	Anderson, SC	2015-12-06	Midwifery is a viable alternative for healthy pregnant woman and the baby. It's our body were should have choice. Look at all harm and disease that happens to mother and child on hospital situations. Meddling in something good her.
Virginia Gross	Smyrna, GA	2015-12-06	Women should be able to make their own choice about the very intimate process of birthing their children
Malcolm Pitman	Greenville, SC	2015-12-06	We used the midwives for our first child and they were absolutely great. And we're using them again with our second.

[illegible]

rebecca hess	Charleston, SC	2015-12-06	<p>Midwives are angels. My first child was born in a hospital, and it was traumatic. My second child was born at home with a midwife, and it was the most spiritual, empowering thing!</p> <p>Our bodies were made to deliver babies. Doctors are taught. Midwives leave the mom in control, like it should be. Doctors take total control, and due to their own selfishness or fear of malpractice suits, they do a lot of things for their own sake, which, in turn, takes a toll on the mom and baby. Midwives are respectful and loving, in a quiet and calm environment. Doctors are not always respectful, and hospitals are chaotic and cold.</p> <p>My homebirth with my midwife was THE. MOST WONDERFUL EXPERIENCE OF MY LIFE!!</p> <p>My midwife is my angel, and I will forever stand by her to fight for her and for other women like me. Please don't take this away from those who want experiences like this.</p>
Holly Richardson	Mobile, AL	2015-12-06	Midwifery is important! Women deserve to get the births they want!
Anja Kirby	Taylors, SC	2015-12-06	I am for my rights as a mother and future user of midwives. I also know for a fact that after cesarean vaginal birth is possible and safe. I would like to keep my rights to choose and to trust in a midwife for my pre and post natal care
Karen Christine Muster	Manning, SC	2015-12-06	I believe that any organization that is dictating medical policies there should be a board certified physician in that specific speciality involved. In this case, more than one, including several licensed midwives.
Rose Watson-Ormond	Carrboro, NC	2015-12-06	Women deserve the right to birth wherever they choose, with whomever they choose. Midwives are evidence-based and need to be able to exercise their full scope of practice to encourage the best outcomes for mothers and babies.
Liza Mattson	Bluffton, SC	2015-12-06	I believe you have the right to choose for your body and your child what you deem the best for them.
Marlowe Miller	Mechanicsville, VA	2015-12-06	Because I believe!
Anne Hirsch	Seattle, WA	2015-12-06	Women have the right to birth where and with the attendant they choose - trying to tell midwives when to administer antihemorrhagic medications is just plain wrong -- they are trained. They know what they are doing.
amber wilkins	Farmington, MI	2015-12-06	Midwives are amazing!!!
Nicole Alexander	Fayetteville, AR	2015-12-06	It's not up to anyone else what we do with our bodies!
Nicole Garrett	Sumter, SC	2015-12-06	<p>I am the mother of three. My first child was born at a hospital and last two at home. My first birth at home I had a second degree tear and rather than having my trusted midwife perform the sutures I had to leave with my minutes old baby to be sutured at a hospital. I am confident my midwife could have performed that duty allowing me to remain home to convalesce instead journeying to a hospital to wait in a waiting room, bleeding holding a newborn, and journeying home. Please don't take away more from my midwife and in a very real sense my own rights to choose for my body what is right. If I have the right to terminate the life of my unborn child I should also be allowed the right to choose to have my child at home with a midwife proficient and equipped to safely birth my child.</p>
Hannah Hafley	Mount Juliet, TN	2015-12-06	Women should have options for natural childbirth
Armand Dielleen	Flacq, Mauritius	2015-12-06	I'm signing because I believe in midwives job
Jessica McKenzie	Pinewood, SC	2015-12-06	<p>I have two ladies that I love, whom are outstanding mothers. They have had multiple children at home with great success. Name	Location	Date	Comment
Stacey Kozlowski	Layton, UT	2015-12-06	When I lived in SC and gave birth to my baby girl in Feb 2014, all the doctors told me I had to have a c-section. I have endometriosis and that would have caused more scar tissue my body to have a c-section. My midwife was the only one to help me deliver a healthy baby girl vaginally without tearing. I had the best recovery and could not have done it without her!
River Greer	Sunset, SC	2015-12-06	Both of my children were born with a certified midwife. I loved my births.
Joni Sands	Charleston, SC	2015-12-06	I'm signing because it's important for Moms to have safe options for birth, namely home birth and licensed midwives. Taking away these options leads to increased infant and maternal mortality. Let's keep Moms and babies safe! Protect their rights!
Megan Smith	Knoxville, TN	2015-12-06	I support every woman's right to birth choice!
Norma Bourne	West Columbia, SC	2015-12-06	My granddaughter was a healthy, happy midwife birth. This option is vital.
Jennifer Kenway	Mauldin, SC	2015-12-06	I am a mother who had a wonderful experience here in South Carolina with a local LM. My birth experience was truly beautiful, and I was empowered to make my own choices as to how I delivered my son. My LM was knowledgeable and informative, and always kept both my health and the health of my baby at the forefront. She was reasonable as to our expectations of labor and delivery, and went over any emergency or transfer measures which would be used in case of a drastic need. My husband and I moved to South Carolina BECAUSE we could experience the birth we wanted here - the Army was going to send us to MA, where we could not deliver and raise our child as we wished. SC has better laws - at least RIGHT NOW - and that's why we want to choose a LM for the birth of all our future children. South Carolina, DO NOT take away MY RIGHT to decide how I give birth to my child! That is NOT the call of legislators to make - it is ONLY the call of the mother and her medical care givers. Period.
Amanda Elliott	Greensboro, NC	2015-12-06	I believe in safe and peaceful birth.
Kristen Gross	Simpsonville, SC	2015-12-06	I am signing because every woman deserves the right to choose where and who and how they deliver. Even though I myself do not choose this way, I believe it is the woman right to choose.
Jessika Cooper	Columbia, SC	2015-12-06	Women should have the right to choose if they want their baby's birth done by midwife or OB.
Curtis Post	evansville, IN	2015-12-06	I support the choice of a woman to have a midwife involved in her birth!!!
Joan Murray	Chapin, SC	2015-12-06	My niece was born via midwife and she is perfect!!
Robert Hauck	Pickens, SC	2015-12-06	Like sunshine, clean water and air and animals.....some things are just too precious to lose.
Mariel Rua	Charlotte, NC	2015-12-06	I think women should have the right to keep birthing at home with a licensed midwife.
Jenna smith	Simpsonville, SC	2015-12-06	I believe women should be able to choose to give birth at home.
Natalie McMichael	Lilburn, GA	2015-12-06	I am fully supportive and confident of the work midwives do and the need for them. I used two midwives for the birth of my son and wouldn't have had it any other way.
Amanda chipps	Greenville, SC	2015-12-06	I had a midwife for my first child and will only go back to one instead of the hospital due to I was most happy with my experience
Hannah Love	Greenville, SC	2015-12-06	I have had two birth center water births and believe this option should be available to all women who make this choice for their own bodies.
Alyse Aiken	Greer, SC	2015-12-06	I'm sick of having my body regulated by a bunch of people who have no clue about normal birth!!!!

Name	Location	Date	Comment
Teresa Carroll	Columbia, SC	2015-12-06	<p>How a child enters the world is sacred and nothing short of a miracle. The mother is in partnership with God in creating and growing a new baby. Keep South Carolina at the front, where others may follow. It really is a good place to be.</p>
regan zeller	Anderson, SC	2015-12-06	I love my midwife. She is talented, trained, experienced, knowledgeable, compassionate and should be delivering babies in the state of SC
Lindsay Davis	Anderson, SC	2015-12-06	<p>Because women should always have a choice in how she wants to have her baby delivery experience ! And I trusted my midwives</p> <p>experience an knowledge in birthing all three of my babies. The horror stories I hear from a hospital so far over throw anything heard from a midwives office!</p> <p>Your also more then a patient number! My midwife will always be apart of my birthing stories!</p>
Natalie Young	Keytesville, MO	2015-12-06	I used midwives with all three of my births, two of which were at home.
Vanessa Peterson	Greenville, SC	2015-12-06	Midwifery is a beautiful CHOICE that I as a woman want to be able to make. I want this choice for my daughter and other women should be allowed the opportunity to give birth with a midwife.
Anna Ivy	Greenville, SC	2015-12-06	<p>I am a mother of three, soon to have my forth delivered by a nurse midwife who I love. It upsets me the right to choose how I want to deliver my child into the world is left up to an organization and not me and my husband. Please stop discriminating against midwives and let them serve us and give us the desired births we want to have!</p>
Dusti Dionne	Simponville, SC	2015-12-06	<p>I'm signing because I feel it's a women's right to choose her birth plan. As a mother to six children and only one being delivered by a midwife...I wish I would have chosen her every time. She was there through everything and let me go through labor as I wished. Never pushing anything on me. Women deserve a choice.</p>
Amber Miller	Chesapeake, VA	2015-12-06	A midwife has delivered all 3 of my babies and I received more hands on care with them than any of the OB's I saw. These proposed regulations are crazy, allow the LM's to practice as always.
Megan Bowen	Greenwood, SC	2015-12-06	<p>I'm signing because it is a woman's right to choose how she wants to bring life into this world. No one should tell women how to give birth. It's a very personal choice for each woman, and it's our right to give birth in a safe environment.</p> <p>Hospitals are not right for everyone, and midwives make it safe for those who choose a different path.</p>
Deanna Young	Rochester, NY	2015-12-06	My experience with Amy, our midwife was a million times better. Less stressful
Erin Hudson	So Boston, MA	2015-12-06	I'm signing because every woman has the right to choose how she gives birth.
Miranda venegas	Greenville, SC	2015-12-06	<p>I'm signing this petition because I know first hand the importance of material choice of birth options and I trust in the education and experience of my LM to guide her to make the appropriate decisions per each individual birth. Putting restrictions on midwives in the ways included in these legislative changes will take away a mother's freedom and increase stress on all parties involved. I will do what I can to keep my rights. As a woman and as a mother, only my doctor and my midwife should be included in the details of my birthing experience.</p>
Elizabeth Brotherton	Greenville, SC	2015-12-06	<p>I have had three natural, non-medicated, births with nurse midwives at Freestanding Birth Clinics. All three babies were very healthy and the prenatal and postnatal care was superb! Do not take this option away from families.</p>

Name	Location	Date	Comment
Jennifer Green	Virginia Beach, VA	2015-12-06	I am a midwife in VA and every woman should be able to have access to the Midwifery Model of Care.
Elizabeth Johnston	Columbia, SC	2015-12-06	Women should have the choice of using a midwife provided there are no extreme circumstances that would require hospitalization. For centuries, children have been born without being hospitalized.
Sommer Meadows	Simpsonville, SC	2015-12-06	I have had two healthy midwife attended births in a birthing center and my choice to birth where and with whom I please should be respected.
Hannah Sidebotham	Simi Valley, CA	2015-12-06	Families should have the right to choose
sonya arrington	Columbia, SC	2015-12-06	My grandsons...moms should have the option. ..my daughter s experience in the hospital with drs was horrible yet second time with the midwife was beautiful. I work on the medical field. Ive seen several situations where a midwife or nurse practitioner is nice.as long as they are regulated and registered. ..why !!!!????
Amanda Wells	Pocatello, ID	2015-12-06	Because women everywhere deserve evidence based care, and many SAFE options to birthing, not LESS, which is what this kind of regulations end up imposing.
Regina Gay	Easley, SC	2015-12-06	I loved my birth center experience with my midwife -- for both of babies!
Heidi Edwards	Sacramento, CA	2015-12-06	I believe home birth is an important issue, it is far better for mother and baby to be in a safe environment with competent attendants. Midwives have the mother and baby's interest in mind more than a hospital's concern of lawsuits and convenience.
Emily O'Hearn	Charleston, SC	2015-12-06	It is a basic human right to be able to birth your baby where you want to.
jessica segobiano	Centreville, VA	2015-12-06	Midwifery is an art of child birthing. It helps women to birth the way mother nature intended without much of the unnessessary interventions. It also helps to reduce c section rates and midwives help advocate for women. It is a shame to even think about taking these rights away. Women were created to birth children. Trey should have to right to birth their child with minimal intervention and with a trained professional
Rosemary Townsend	Darwen, United Kingdom	2015-12-06	Birthing a baby is natural. Medical intervention is not!
Elizabeth Waggoner	Simpsonville, SC	2015-12-06	I believe in midwives! They have made all the difference in my life. Without them, we would have opted not to have children.
Stephen Waggoner	Simpsonville, SC	2015-12-06	Women deserve the right to birth in their own way!
Jacob Engle	Simpsonville, SC	2015-12-06	We had our first child at the hospital and had an awful experience. Our last two children we had at a birthing center with a midwife and where very happy.
Erin Devereaux	Goose Creek, SC	2015-12-06	Because I want women to have the choice to have a home birth or even have a midwife period.
Dianne Giles	Greenville, SC	2015-12-06	I agree that none of the commissioners have the medical qualifications to make the changes they propose.
Kathryn Boling	Piedmont, SC	2015-12-06	I am a mother of two and am expecting my third child which will be delivered by a very capable midwife in a birthing center. It is my right to decide how I give birth to my child! It's despicable that the government is trying to take that right away by implementing unnecessary regulations that would put privately practicing midwives out of business! I support SC midwives!
Alex R.	Goose Creek, SC	2015-12-06	Women need more options not less. Regulations should be based on evidence based practices not arbitrary numbers put out by people who lack serious knowledge of pregnancy and birth.

Name	Location	Date	Comment
Kay Johnson	Duluth, GA	2015-12-06	The national certification should be the guidelines for scope of practice. Under-utilizing trained and experienced health care providers is a waste of tax payer money.
Anita Leihy	Greenville, SC	2015-12-06	I want my children to have the right to choose who attends the birth of their children and where they give birth! I'm also a student midwife and had my children at home.
Timothy Stark	Clemson, SC	2015-12-06	No doctor took better care of my wife than the two midwives she had.
Janine White	Greenville, SC	2015-12-06	I believe women should have a choice in how they want to welcome there children into this world. Comfort, relaxation, and security are key in keeping down stress during child birth. Midwives are the best option to help with that.
Jamie Button	Poughkeepsie, NY	2015-12-06	I'm signing because every woman deserves to give birth in the safety of her home under the watchful eye of a Licensed Midwife.
Beth Harley	Wadmalaw Island, SC	2015-12-06	The Midwives know so very much about birthing...they deliver babies honestly. they know best what they need to succeed.
Mark Wilson	Simpsonville, SC	2015-12-06	Let's keep the government out of something it has no business trying to take over and/or regulate.
Teena slawson	Easley, SC	2015-12-06	It's a freedom of choice to choose a midwife. One of my best friends chooses one and believe me she got excellent care!
Rebecca Argot	Staunton, VA	2015-12-06	Because I want women to choose the birth place of their choice
Erin Boylan	Fountain Inn, SC	2015-12-07	I'm signing because I had a wonderful midwife to help deliver my son and I couldn't imagine having my other children any other way.
L Hanna	Auburn Hills, MI	2015-12-07	Keep choice available
Cheryl Campbell	Columbia, SC	2015-12-07	I'm signing because I am a woman and I believe women have the right to choose in this area of their health as in others.
A. Ard	West Columbia, SC	2015-12-07	Mid-wives are literally angels sent from heaven, without them so many women wouldn't get the birth they want. Mid-wives are many women's voices in the labor room.
Tammy Brock	Oak Park, IL	2015-12-07	I had a home birth at 42 weeks in SC with a licensed midwife and had a wonderful experience. Please stay with evidence based care regulated by people who know birth outside of the hospital.
Shannon McNear	Goose Creek, SC	2015-12-07	As a former SC resident who has given birth several times at home, I care deeply about women's birth choices and their ability to access good health care while having a home birth. The current regulations are outdated, and it makes no sense to block those who know birth the best from helping shape new ones.
ruth tullius	Aiken, SC	2015-12-07	I am signing because I believe we should have the right to choose not someone who does not even understand what a midwife really is.
Amanda Simonsen	Lugoff, SC	2015-12-07	Loved my midwives during my two pregnancies and the births. They even helped me through a miscarriage. I wouldn't get pregnant without knowing I could have a trusted midwife help me throughout my pregnancy and the birth.
Lois Young	Greenville, SC	2015-12-07	Women must have the right to choose alternatives to hospital delivery rooms!!
Caitlin Devan	Clover, SC	2015-12-07	I'm signing this petition because I gave birth with a midwife at a birth center and had a beautiful experience. I believe it is a parent's right to choose how and where to give birth.
Jessica Pakkala	Greenville, SC	2015-12-07	I'm signing because this option should not be taken away for women. I had both of my children win a midwife and it was one of the best decisions I ever made

Name	Location	Date	Comment
Kelly Hankey	Raleigh, NC	2015-12-07	I gave birth to my daughter 18 years ago with the help of a mid-wife. I could not imagine having a better birthing experience. Every woman should have the right to choose how she births her children into this world.
Maria Jordan	Anderson, SC	2015-12-07	The government doesn't have the right to tell me how I'm going to give birth. When the statistics on babies and mothers living are better than the hospital, and you want to take that away, something is terribly wrong with you.
Colleen Schumer	Pickens, SC	2015-12-07	It's not the State's job to decide what is 'safe' for me. I'm an educated woman and am responsible for making decisions for myself. I find it ironic that abortion is 'my choice' but choosing a midwife isn't? Stay out of my uterus in this.
Carlos Martinez	Asheville, NC	2015-12-07	My children were born with a midwife, and that was a blessing to us! Better treatment than a hospital and more personal. My son was born thanks to Dr Leland from Greenville SC
Valerie JABLONSKI	Ann Arbor, MI	2015-12-07	I believe in the knowledge and training of midwives. They understand what to do when a decision needs to be made.
Mercedes Rivera	Miami, FL	2015-12-07	I care, giving birth can not be regulated. These professionals are very qualified, it's the parents' right.
Jen Salvatore	Pittsburgh, PA	2015-12-07	I had the privilege of having a midwife support me throughout the care and delivery of my daughter. ALL women should have this choice!!!
Leandra Cail	Charlotte, NC	2015-12-07	I had a beautiful home birth with a wonderful midwife! Women deserve the choice.
Victoria Sullivan	Seneca, SC	2015-12-07	I love my midwives! Greenville Midwifery is amazing and so are the ladies who work there.
Natalia Schifini	Reston, VA	2015-12-07	I believe doulas and birthing centers are important!
Carmen Williams	Charleston, SC	2015-12-07	The natural birth is better for baby and Mom, natural better than the cold approach of an impersonal hospital room with all those lights and taking the baby away from Mom.
Anne Gulick	Columbia, SC	2015-12-07	Please help to foster a cooperative and respectful relationship between doctors and midwives, both of whom have much to offer South Carolina women. Arbitrary cut-off dates and regulations of midwives do not further positive health outcomes for women and children!
Susan Boylan	Marietta, SC	2015-12-07	It's the natural way women have given birth for ages and now so much safer and peaceful for the whole family. I wish it had been an option when my children were born!
Jacqueline Harling	Pendleton, SC	2015-12-07	I'm signing because as a MOTHER my opinion matters!!!
Marsha Dwyer	Mebane, NC	2015-12-07	Every woman should have the right to birth her child the way she wants.
Alyssa Cure	Taylors, SC	2015-12-07	I believe in a woman's right to the type of birth she wants to have.
Kristina Hayes	Anderson, SC	2015-12-07	I am a mother. I believe all mothers should be able to choose how they bring their children into the world.
Molly Neely-Burnam	Cairo, GA	2015-12-07	I believe midwife-assisted homebirth should be a choice for all.
Brenda Kingrea	Liberty, SC	2015-12-07	We women NEED midwives to attend our births!!

Name	Location	Date	Comment
Thomas Hess	North Charleston, SC	2015-12-07	<p>I believe a mother should have the right to decide where to birth her child. Child birth in hospitals is a relatively modern practice and should by no means be the only option for any expectant mother.</p> <p>Due dates, at best, are arbitrary guesses as to when a child was conceived. To put a cap at 41 weeks is too close to the margin of error for a 40 week gestational period.</p> <p>Improve licensing standards for LM's, but don't put them out of job. I see an air of bias towards the financial benefit of a hospital in the DHEC board and their occupations. I ask that they do their job to serve the people of South Carolina, and not their own best interests.</p>
Kelly McKiernan	Wallingford, CT	2015-12-07	I believe EVERY woman deserves a midwife as their care provider; whether they are 42 weeks or trying for a VBAC or even both!!
Renee Zinn	Rock Hill, SC	2015-12-07	I believe we, as women, should have the right make our own decisions regarding the where, the how and with whom when it comes to childbirth.
Diane Absher	Greenville, SC	2015-12-07	I believe woman should be able to decide who and how they want to have their children.
stephanie tursi	rock hill, SC	2015-12-07	Some of the proposed regulations are arbitrary and baseless and severely limit both the practice of midwifery and the autonomy of birthing families.
Lena Barley	York, SC	2015-12-07	Our two children were born with midwives in attendance. All women should have free choice in how and where and with whom to give birth.
Chelsea Shira	Norfolk, VA	2015-12-07	Women deserve to be given informed consent about their birth options and rights
Stephanie Napier	Japan	2015-12-07	I am from South Carolina and my best friend has had two midwife-assisted home births. I was amazed at how smoothly they went compared to the hospital births of other friends. A woman should have the right to choose home birth or hospital birth, and home births can be just as safe (if not safer than!) as hospital births, as long as the midwives are properly trained and supported by the rest of the medical community.
Kasey Ellis	Beaufort, SC	2015-12-07	I have had two (very educated and researched) home births with an licensed MW in SC. These regulations are not giving us evidenced-based care. They are attempting to pull us farther from it. If these regulations are passed, you are taking away my choice to make an educated decision about my and my child's medical care. Unfortunately, DHEC is not qualified to be formulating these regulations. Please consult Midwives and evidence-based care practices for the next draft.
Keith N Chris Courson	Sumter, SC	2015-12-07	Life comes with no guarantees of results, as we know because of our 3 miscarriages. Home birth was our carefully-considered choice for our 5th and 6th births. Birthing decisions are not made in isolation, and enough safeguards are already in place to ensure reasonable safety. Do not put further constraints on South Carolina's midwives.
Shena Field	Greenville, SC	2015-12-07	I believe in the amazing benefits of Midwifery and the ability for women to birth their child in the method of their choosing.
Marie Diaz	highland, NY	2015-12-07	I know many friends who have gone to school and training at LEAST as long as doctors. I am not comfortable with people of your qualifications writing regulations when you have no medical training. The mothers in that state have the right to have the choice of how their birth is decided not a construction owner, engineer or secretary.

Name	Location	Date	Comment
Glynnis Farnwald	Hartsville, SC	2015-12-07	It is vital that mothers be able to make informed and educated decisions regarding childbirth. Empower women to own their birth decisions and experiences.
Laura Konichek	Prairie du Chien, WI	2015-12-07	I was in on both of my sister's births in South Carolina with a midwife and both times they were amazing and professional! My sister got the birthing experience she wanted and was comfortable with her midwife. Alex was absolutely amazing and educated!
Glenda Williams	Mount Pleasant, SC	2015-12-07	I believe in advanced practice nurses that have the knowledge and experience to perform their jobs
Jonathan Field	Greenville, SC	2015-12-07	I believe a woman can choose to have her child where she wants.
Megan Sandera	West Union, SC	2015-12-07	Because I have had 3 out of my 4 births with midwives and they have been invaluable to my health as a mother and the health and of my babies. In addition women have the right to choose how and with who's help they want to bring their babies into this world.
Laura Lee	Virginia Beach, VA	2015-12-07	Women deserve the right to choose!
Evangelos Dimas	Westminster, SC	2015-12-07	Taking the option away from the parent is stripping people from the feed on of choice.
Kayla Mabery	woodruff, SC	2015-12-07	It is important to me to have a choice of birthing options. I had a terrible hospital experience with my first child and two wonderful births afterwards with my midwife at her birthing center. Please don't limit the options for those who want to take charge of their health and birthing paths. Please, let us choose for ourselves!
Sarah Hock	Gaffney, SC	2015-12-07	Midwife delivered my baby. Best birth experience ever. If it's good for the rest of the world and my grandparents, when they have babies, then it's good for all. Don't take the birth experience away from moms
Casey Eaton	Collinsville, IL	2015-12-07	Women shouldn't be told how they can birth.
Elizabeth Black	Grand Canyon Village, AZ	2015-12-07	My first child and only child was brought into this world by a wonderful group of ladies at Greenville Midwifery almost a year ago today. They showed me what it was like to be a natural, birthing mother NOT a patient with a condition to be fixed. I've been empowered by this special women and would be heartbroken not have them by my side in future births.
Faith James	Pickens, SC	2015-12-07	I want the freedom to choose a midwife when I have children.
Anne Nathanson	Greer, SC	2015-12-07	I gave birth to 3 children, 2 of them were delivered with a midwife attending. I had wonderful birth experience with midwives, and delivered healthy babies. I believe midwives are key to healthier moms and babies. They spend more time teaching moms about their health and baby's health. Also my family has a long line of midwives, My grandmother immigrated to the United States from Italy in the early 1900s. She was a midwife. I had a aunt from England who was a midwife. I have a sister who has been a midwife for 20 yrs. She works for a hospital and has brought many healthy babies into this world. I hope my daughter will have a choice as to who will someday help her bring her future children into this world.
Laura Kannon	Rembert, SC	2015-12-07	I had my daughter at a birthing center with a licensed midwife and then my three sons at home with midwife assistance. Midwives helped me have safe and wonderful births, and I believe they should be allowed more legal rights such as the right to suture if need be and the ability to assist w/VBACs.
Glenda Cobb	Fort Mill, SC	2015-12-07	Midwives are wonderful! I believe that the way a woman brings her child into this works should be her choice. Midwives make that a much safer choice. That's my idea of pro choice

Name	Location	Date	Comment
Kristin Lange	West Rutland, VT	2015-12-07	I used a midwife for two healthy births.
Sarah Schwieger	Layton, UT	2015-12-07	Although I don't live in the area, I'm signing to support the idea that if a woman has had a low risk pregnancy, having a baby at home is an excellent choice! Many, many studies have proven this point.
Olivia Etheredge	Summerville, SC	2015-12-07	I had a wonderfully safe, well informed labor and birth in a birth center in SC. I felt more informed and knowledgeable than all my friends and sister with regular hospital births.
Ashlyn Simpkins	Ridge Spring, SC	2015-12-07	I plan on having a home birth when I get to that point in my life. I feel it's wrong to have this taken away and I can't give birth the way I please.
Samantha Alba	Sumter, SC	2015-12-07	My second was delivered by a mid wife and they're awesome
Michael Trolly	Ottawa, Canada	2015-12-07	My wife studied in SC, and was horrified to see this. We had a homebirth (our first baby, too), and were very pleased with the experience, and have recommended it to others. Our baby was born almost two weeks late, and was delivered safely, with no complication. If regulations such as are being proposed here were in place when our son was born, my wife would have been forced to deliver in a hospital, regardless of whether that had been truly necessary in her case or not. Midwifery today is at the cutting edge of pregnancy and childbirth care, and it needs to be further expanded, rather than arbitrarily limited.
Katelin Carter	Lyman, SC	2015-12-07	I believe that all mothers should have a choice and freedom in their labor and as a future mother, Lord willing, I want the freedom to choose as well.
Bridget Rourk	Valdosta, GA	2015-12-07	Moms deserve to birth however they feel most comfortable and should not have safe and evidence-based options taken from them! Our bodies, our babies, our choice!
Brandon Carlson	Taylors, SC	2015-12-07	I believe in a family's right to choose how they want to bring a life into this world. If a woman can choose to kill an unborn child, a mother should have the right to choose hospital or alternative. My wife and I had our 2 girls with a midwife. It was a great decision for us!
Mary Leo	Nashville, TN	2015-12-07	Because I believe it would be damaging to humanity to not allow midwives to do it they do best, and that is to allow women to labor in the way they see fit, the way they were created to do, in a safe and loving and relaxing environment. Some babies just take longer than others.
Stephanie Pack	Greenville, SC	2015-12-07	Women's rights to their own bodies is diminishing daily. Women should have the right to choose how they would like to give birth to their children and how they would like to be treated in the process.
Sandra Fields	Charlotte, NC	2015-12-07	WHAT?! WHY?! They just want to make the money instead of someone else. Pathetic. Ethics always win, assholes.
Phyllis Smith	Seneca, SC	2015-12-07	It's a good thing!
Suellen Siqueira	Newark, NJ	2015-12-07	I'm a VBAC mamma as well and I don't agree with what they are trying to do
yulia shvalova	Pigeon Forge, TN	2015-12-07	They have right to be!
lisa byrd	West Columbia, SC	2015-12-07	I'm signing because I believe that DHEC should work WITH stakeholders (consumers, midwives and consulting physicians) to hammer out workable regulations based on safety, not against us. This proposal is dangerous and looks like an attempt to put midwives and their clients in precarious positions regarding risk.
Jacqueline Kuschner	Charlotte, NC	2015-12-07	te nwdia doesn't speak about the hospital horrors!! Those incidents are protected information. The US maternal mortality rate is soaring!!!

Name	Location	Date	Comment
Jacqueline Kushner	Charlotte, NC	2015-12-07	The media protects the in-hospital obstetrical maternal mortality rates and poor outcomes which are soaring here in the US!
Rachel Clayton	Charleston, SC	2015-12-07	I know that Certified Nurse Midwives can provide excellent, expert care in South Carolina and allow healthcare costs for childbirth to be reasonable. We have a right to choose our healthcare options and we choose to have midwives.
rick hawkins	athens, GA	2015-12-07	i'm a south carolina native!
Angel Finley	Greer, SC	2015-12-07	Women have the right to give birth how they want with who they want. I had a homebirth and it was amazing! My midwife gave me excellent care. Better than I ever had from a OB.
Jennifer Foret	Summerville, SC	2015-12-07	I gave birth at a birth center with midwives present. It was a beautiful experience. I trust them 100% when it comes to birth. I know if something would have put me or my baby at risk we would have been transferred to the hospital.
Samantha Barrera	Rincon, GA	2015-12-07	I support midwives, the right to home birth and the right to birth in a free standing birth center. I've had 1 child in a hospital and 1 child was a water birth at a freestanding birth center. Every woman should have the right to choose her birth professional and location of birth. Simple as that
Lori Monroe	Anderson, SC	2015-12-07	Women should have the RIGHT to choose a midwife to deliver their child!
Mary Raven	Greer, SC	2015-12-07	I want choices about how and where I am going to birth my baby. I don't want this choice taken away from me or other women. My siblings and I were all born healthy and naturally after 41 weeks. Arbitrary numerical standards set at the state level take the decision away from the woman, her doctor, and midwife.
Rebecca Dunlap	Anderson, SC	2015-12-07	I am signing because I am currently a nursing student applying to go to grad school to receive my Certified Nurse Midwife license. I want to ensure that midwives are trusted and respected for their knowledgeable and educated care they provide to women and their babies.
J.D. Wegner	Hickory, NC	2015-12-07	My daughter had a home birth and is planning another one. Why do these people want to fix what is not broken?
Cara Linder Linder	Lexington, SC	2015-12-07	I have delivered all 5 of my children with midwives. I did have one at 41 weeks, and would have been very upset if that was the only reason she could not deliver. The knowledge and experience my midwives have had not only saved my life in one delivery, but but also my infants. I actually only had one time that something didn't have a good outcome with any of my deliveries, and that was my one child born on a weekend, when a doctor was on call for my midwives group.
Tara McCoy	Conway, SC	2015-12-07	As a mother that delivered her last child with a midwife I strongly believe that midwives are professionals and should be given the opportunity to help shape regulations for our state.
John Haverland	Greer, SC	2015-12-07	I'm signing because natural births are the best. If it wasn't for the Greenville Midwifery, my wife and I likely wouldn't have even had that option, and we couldn't have done it without them!
Wendy Schonfeld	Clover, SC	2015-12-07	A Woman's right to choose
Theodore Balk	Central, SC	2015-12-07	The privacy and informed choices of a mother and her doctor should be of prime importance in decision making. Intervention by regulatory agencies should only occur when supported by evidence based data from informed sources, and only when there is a demonstrated public safety need for governmental intervention. That is not the case here.

Name	Location	Date	Comment
Victoria Kershner	Greer, SC	2015-12-07	As a vbac who couldn't use my beloved midwife because of laws afterward, I have already been impacted by the law and think midwives should have more independence in who they can see.
Brooke Atkinson	Locust, NC	2015-12-07	Women and families have a right to choose their health care provider and birth location. No one had the right to limit them. Birth choices are no one's business except the family.
Sandi Free	Charlotte, NC	2015-12-07	Women and families have the right to choose how they birth their children. Midwives provide excellent guidance and recommendations for the women they see, as well as give wonderful personalized care during and after labor for both mother and child. It costs the state less money on healthcare when midwives are allowed to offer their services, which frees up resources for those that do need medical intervention and hospitalization.
Lori Heffner Gibson	Rock Hill, SC	2015-12-07	I am a woman who has used to services of an SC Licensed Midwife and now I am an SC Licensed Midwife. Looking at this draft from both sides, and being well informed, I see nothing but the authors trying to wipe out SAFE midwifery and out of hospital birth as an option for families in SC. The researchers and writers need to turn to the state licensed midwives who have, on many occasions within the last year, offered to sit with them and write updated, evidence based and SAFE regulations for midwives. This is embarrassing.
melissa casper	martinez, CA	2015-12-07	midwives are so very important for women's health and safety. for their comfort of having a birth at home.
Steve Jenkins	Hoffman Estates, IL	2015-12-07	Mary is important to me and her options as a mother should not be determined by anyone other than her, her husband, and their medical staff.
Britini Griffith	Myrtle Beach, SC	2015-12-07	My birth my rights!
Andrew Heath	Columbia, SC	2015-12-07	I believe in midwives.
Adrienne Haverland	Greer, SC	2015-12-07	I LOVE my midwives!
Caitlin Gard	Rock Hill, SC	2015-12-07	I am signing this because I believe in it.
Kristina Paraschos	Myrtle beach, SC	2015-12-07	Women have a right to choose how and where to give birth!
Meghan Jones	Portsmouth, VA	2015-12-07	I'm signing because I agree that one one should make medical decisions for me except me. Nonone should be forced to have a baby in a hospital if they don't want to.
Jessica james	Hendersonville, NC	2015-12-07	I had a safe Homebirth and will do it again
April Smith	Boiling Springs, SC	2015-12-07	Women need to have the freedom to deal with their pregnancy, labor, and delivery as they see fit!
Hallie McKee	Landrum, SC	2015-12-07	I am a home birth mama of 6 children! 4 of them were vbac, And 3 at home! Don't tell me what my body can't do! And a construction worker, a business owner, and a secretary have no business telling anyone how and when to give birth!
David Hamilton	Phoenix, AZ	2015-12-07	Midwives are highly trained practitioners and families should be allowed to use whom they feel is the best fit for their family. Midwives have been around a lot longer than "Doctors"...just sayin'
Christy Frier	Concord, NC	2015-12-07	Women have the only right to choose how the give birth.
Sara Daw	Greenville, SC	2015-12-07	I agree and support at home births and women's right to choose an at home birth
Emalie Gibbons Baker	Lusby, MD	2015-12-07	Women's right to be informed of the risks and benefits and to choose their place of birth must be upheld.

Name	Location	Date	Comment
Khristina Kitchen	Columbus, NC	2015-12-07	Woman should have the freedom to choose whoever they want to assist them in birth!
Amanda Hynes	Myrtle Beach, SC	2015-12-07	We deserve the low-tech birthing options that are proven to result in strong healthy moms and babies.
Emily Gray	Grayson, GA	2015-12-07	I gave birth to three of my four children after 41 weeks of gestation. All were healthy (one at 16 days late.) If I had not been allowed to go past dates with my LM midwife, I would likely have ended up with a C-section when my body failed to dilate. Let our LMs do their job! (In France, it has been normal to consider the gestation period as 42 weeks!) Stop bullying us about our birth experiences. Hospital birth and hospital regulations are NOT what we want! Look at the statistics. US hospitals are not the safest place to give birth. This is why we chose LMs.
Sherri Rodriguez	Evans, GA	2015-12-07	When addressing issues of public health, lawmakers should ALWAYS ensure that they PROTECT parental rights, religious liberty, and freedom of conscience...parents, not government bureaucrats, should make these decisions for their family.
marie rodriguez	Goose Creek, SC	2015-12-07	women should have the right to choose
tammy stephens	Chesnee, SC	2015-12-07	I am a childbearing age mom that has extreme concern about these new regulations. I am saying NO to this and asking that they be sent back to the "drawing board".
Rebecca Hildebrandt	Rock Hill, SC	2015-12-07	I had my baby at a birth center and want the option to have a baby outside of the hospital available to other women.
Ashlie Sanders	Surfside Beach, SC	2015-12-07	I have had 2 beautiful, peaceful, and injury free home births. It was a much safer and gentler alternative to a hospital birth. My first child was injured at birth when born in a hospital. I support the midwives of SC and think it should be the choice of women as to how we give birth and where. This is a basic inalienable right we should have to have the right to labor and birth at home with such skilled and knowledgeable midwives. Midwives should be consulted and allowed to advise such regulations in SC.
kassie anderson	Farmington, UT	2015-12-07	I care about a woman's right to choose her health care provider and her birth setting. Women should have the right to make choices they feel safe with and should never be forced to give birth where they don't feel comfortable or safe.
Olivia Miller	Woodruff, SC	2015-12-07	I am a woman of childbearing age in SC. I have given birth twice through a licensed midwife, and I am preparing for my 3rd homebirth with a licensed midwife. I have also given birth 7 times in 3 different SC hospitals. I believe it is a woman's right to choose where and with whom she would like to give birth. My homebirths are some of the sweetest memories for our growing family. Please don't take this option from women!
Valorie Warth	Taylors, SC	2015-12-07	This is a violation of rights for citizens of the United States of America. Have standards, fine, but please do NOT take away rights.
Ann Marie Hilliard	Anderson, SC	2015-12-07	I'm signing because I believe it is wrong for the government to decide who delivers my baby.
Rachael Doss	Greenville, SC	2015-12-07	I used licensed midwives for the births of both my children - one in 2009 and one just this year. I cannot understand why our culture is insistent on treating pregnancy and birth as an illness. Midwifery is a beautiful service that allows women, who do recover medical care and screening, the option to give birth at home in a safe, calm, familiar environment. Please allow those who have studied and practiced this art input on the regulations and safety measures so women have access to a variety of safe birthing options based on their needs and preferences!

Name	Location	Date	Comment
Jennifer Cain	Greer, SC	2015-12-07	Every woman should have the right to choose where and with whom she gives birth. These new regulations have no basis in research or best practice standards. Let the Midwives Advisory Council set their standards of practice in a safe and evidence based manner, for the good of all childbearing couples in SC!
Christa Rushing	Monroe, NC	2015-12-07	I'm a home birth mom, and a birth center birth mom. I don't want other women to lose the right to experience birth that isn't medically altered. We deserve the right to choose how we birth and what interventions take place.
Angie Sizemore	Beech Island, SC	2015-12-07	I have friends that do this and want to support them
Sarah Green	spartanburg, SC	2015-12-07	I used a midwife about three weeks ago to birth a healthy baby boy. It was a wonderful experience and I received wonderful care.
Anne Raven	Cambridge, MA	2015-12-07	I'm signing because I trust women
Amy Fleming	Columbia, SC	2015-12-07	I'm signing this because we should be free to give birth at home.
laurance kannon	sumter, SC	2015-12-07	All three of my children were delivered by a godly midwife--I am so thankful!
Dianna Watson	Conway, SC	2015-12-07	I experienced the extraordinary support of 2 incredible midwives for the birth of my 3 children. My husband and I felt so supported and loved throughout the entire experience, all 3 times. I was able to have my 2nd and 3rd babies completely naturally. It was so amazing to have access to them to determine when it was time to head to the hospital for my 2nd and 3rd babies - they were available via cell phone any time I needed them. What a blessing they both are!!
Sarah Arnold	Lake Wylie, SC	2015-12-07	EVERY. STINKEN. WOMAN deserves the RIGHT to chose HOW TO BIRTH HER BABY.
Linsie Aughtry	Oxford, MS	2015-12-07	I am signing because as a woman this is my choice to decide how I want to bring my future children into the world.
Christy Tramel	Roebuck, SC	2015-12-07	We should all have a choice to use a midwife or Doctor. The government does not have a right to say otherwise.
alexandria savona	Phoenix, AZ	2015-12-07	Birth is something parents do, not something to be regulated and done to parents
Janice Kennett	Gray Court, SC	2015-12-07	If a woman can choose to KILL a baby before its born, why would anyone tell her how she can give birth to it?
Gray Hayes	Eagle, CO	2015-12-07	I believe in the rights of mothers to choose their own healthcare, and because I believe, frankly, that both mothers and babies are safer in the hands of midwives than in the hands of doctors.
Stephanie Nunes	Spartanburg, SC	2015-12-07	Women should be able to choose who brings them through one of the most difficult things they will ever do.
Baylee Palmer	Anderson, SC	2015-12-07	I'm signing because my health is more important than DHEC's politics. And my health and what I feel best should be left up to me and a professional within their scope of practice.
Amber Eaton	Summerville, SC	2015-12-07	I'm signing because it's my right
Irene Raven	McHenry, IL	2015-12-07	My daughter lives in South Carolina and is planning a home birth as I had 30 years ago. All three births were one to two weeks late. All babies born without medication and all born in good health. But perhaps, most importantly, this is a decision to be made by the mother and father to be, and there medical support team. This is an overreach by the government into what should be a personal decision.

Name	Location	Date	Comment
Pat Burrell	Myrtle Beach, SC	2015-12-07	It is important that a state with such health issues and birth disparity have access to as many options as possible to improve the health of mothers and our smallest humans.
Kim Geiger	Greenville, SC	2015-12-07	I believe in natural childbirth at home
Lisa Ladwig	Greer, SC	2015-12-07	I'm signing because proposed regulations make options less safe for birthing women and their babies.
Elisa Lucas	Lexington, SC	2015-12-07	I am signing because I believe in the work the midwives do and also because we the people have the freedom to chose. It is unconstitutional for the government to be placing any restrictions on our midwives!
Jess Thompson	Summerville, SC	2015-12-07	DHEC has absolutely no right to decide what my birthing options can and can't be. My first baby was premature and we needed emergency hospital intervention. My second and third births were attended by CNMs who were expertly qualified to provide me with exceptional care and did just that. My birth center water births were wonderful experiences and I am looking forward to having my fourth child there next year. Absolutely no committee or organization has the right or power to tell a mother where, how, and with whom she is allowed to give birth. That is simply ridiculous.
Danielle Walker	Union, SC	2015-12-07	I believe midwives are important to many women and not allowing women to have one at anytime or reason during a pregnancy is unfair.
jackie born	Fayetteville, NC	2015-12-07	I support midwives . I don't think people who are not a medical professional. ,or from a different speciality should be making laws that don't have any expertise in
Mallory Brannon	Moore, SC	2015-12-07	I'm signing this because midwives are a vital part of many women's lives in South Carolina. They give the option for women to birth at home or in a birthing center and use a midwife to assist her birth. I want to use a midwife in a SC when I have kids and I would be extremely disappointed if they were not allowed to practice. Keep midwives in South Carolina!!!
Elise Gilmore	Easley, SC	2015-12-07	I think doctors and qualified midwives should be the ones determining the medical safety and limitations of moms. In many other countries, homebirth is the NORM and those countries have a lower C-section rate and healthier babies. A mom should have her choice of birthing in the comfort of her own home if she wants provided it will be safe for her and the baby.
Holly Dion	Greenville, SC	2015-12-07	Birth is a vary personal and individual event. Every woman ought to have the right to choose the birthplace and caregiver that best fits her needs. The regulations that govern midwifery practices should be made by those who are qualified in the field and who have the best interests of the mothers' foremost rather than a group of unqualified individuals (engineer, CEO of a construction company? Really!?). And in their hands lies the fate of future moms and their right to make their own medical decisions. It's our bodies, our children's bodies and lives who are at stake. I've had two natural births with midwives and greatly fear the almost unlimited control politics has on deciding if I can do it again. Let us not continue to fall further from excellent care, but press on to better and better care for our moms in this nation where we sing "the land of the free and the home of the brave." As fellow moms and caregivers, let us also not forget to petition the Lord to work on our behalf. Remember, "The king's heart is like channels of water in the hand of the Lord; He turns it wherever He wishes." Proverbs 21:1

Name	Location	Date	Comment
Rhonda Battle	Edgefield, SC	2015-12-07	<p>I had two VBAC home births at the ages of 41 and 43 with the most wonderful midwife on the planet. I wouldn't have traded that for any amount of unnecessary medical intervention. Birth is a natural and private affair and many women prefer giving birth in their own homes with a caring and experienced midwife. Families should have the right to make the choice they know is the best.</p> <p>Rhonda Battle, Edgefield, SC</p>
karla mcduffie	arlington, VA	2015-12-07	I believe in choice. Institutional birth is an option. Some may prefer the more controlled environment of home with assist of a trained professional. Their record of safety is impeccable. Their standards are very high.
Jocelyn Rodriguez	Concord, NC	2015-12-07	I am a homebirth mother who doesn't want to be limited by these ridiculous regulations. I trust my midwife more than this governing board.
Bethany Hall	Travelers Rest, SC	2015-12-07	<p>I had two healthy births after 41 weeks! Normal gestation can go to 43 safely. This bill is not Evidence based.</p> <p>And evidence based choices are what my daughter deserves for her future.</p>
Amanda DiPietro	Irmo, SC	2015-12-07	<p>I'm signing because I gave birth at home two years ago yesterday and cannot imagine not having that option again. While my first choice was a birth center, the powers that be already shut them down and I was forced to choose the option farther from medical care. Luckily I had an amazing midwife and a birth with no complications requiring a doctors interventions. To regulate birth without any understanding of the experience blows my mind. We should be encouraging mid-level healthcare providers in a day and age where healthcare is a luxury, not restricting the scope of their care. Physicians at the local hospitals do not even understand the detailed care given by midwives. The resident physician I saw while briefly hospitalized at 32 weeks insisted that midwife care would not include monitoring among other completely false claims. My OB personally trained this resident and is the head of OB/Gyn at USC and she along with her associates allowed me to become dangerously dehydrated while sick with a virus that would have led to preterm labor had my midwife not admitted me. If trained physicians who are responsible for training other physicians can make these mistakes under the protection of liability insurance, surely my uninsured midwife can make educated decisions about my care better than a construction worker, secretary, dentist, salesman, engineer, cardiologist or real estate agent. Allowing the Midwifery Advisory Council to write regulations is the most logical and safe choice.</p>
Rachel Winchester	Anderson, SC	2015-12-07	Women have the right to choose midwifery care, and the decisions made for women's health care should be evidence based.
Chloe Bradley	Broomfield, CO	2015-12-07	I'm signing because this is not anyone's choice but the mothers. Highly developed countries all allow midwifery and here in the states we are so commercialized right down to our own health care.
Jennifer Mester	North Charleston, SC	2015-12-07	It's my right to birth how I see fit for myself, my unborn child, and family.
Sharon Dockery	Travelers Rest, SC	2015-12-07	I believe it should be my choice, having that option I was able to realize how awesome it was when I had my third child at home.
Claudine Covington	Liberty, SC	2015-12-07	<p>Amy Leland is the best midwife South Carolina has ever had! I have received nothing but the best care from her or any midwife I used for seven home births. It would be a backwards step to restrict midwives in their work.</p>
Patricia Simmons	Pickens, SC	2015-12-07	I believe women should have an option.
Lauren Foster	Mauldin, SC	2015-12-07	I believe in natural childbirth and believe that midwives are just as qualified to be caregivers. As a mother, I believe our birth experience should be ours to choose.

Name	Location	Date	Comment
Jennifer Penar	Woodruff, SC	2015-12-07	I'm sick and tired of DHEC intentionally trying to take away my birth options! These new regulations are anti-women, anti-babies, anti-choice, anti-evidence-based-birth... basically the only thing it is "pro" is pro-OB/GYN/Hospital-lobbyist MONEY!
Tiffany Craig	Simpsonville, SC	2015-12-07	It should be the woman's right to choose her birth provider and determine her own birth plan.
Elizabeth dean	Loretto, TN	2015-12-07	All women have right to choose how, when, and where to give birth!!!!
Lynn Chapman-Stern	Narrowsburg, NY	2015-12-07	This is ridiculous. A group of non obstetrics provider's making these up. Get the appropriate pro's involved, aka other midwives with the appropriate background.
Moriah Nelson	Ukiah, CA	2015-12-07	Midwives are important. Everyone should have the option of a safe home birth if that's what they choose.
Christin Sukaryan	Landrum, SC	2015-12-07	I am signing because midwives work with a mother, not in spite of her. Let adults make their own informed consent about the birth experience they want.
Hannah Leary	Walhalla, SC	2015-12-07	I support midwifery.
Tori Van Pelt	Greer, SC	2015-12-07	I support Midwives, and believe women should have the right to use one if they choose to do so.
Jill Wilson	Greenville, SC	2015-12-07	I believe that women should have an option
Rebecca Adams	Rock Hill, SC	2015-12-07	I had a midwife during the birth of my daughter and I wouldn't have changed a thing.
Heather Davis	Fountain Inn, SC	2015-12-07	I have 9 children, and the last five have been born with midwives. The new regs DHEC is trying to write are truly ridiculous.
Amber Thompson	Okatie, SC	2015-12-07	It should be a woman's right to choose how and where she wants to give birth. If there us no freedom this country is no longer America!
Katen Meima	New York, NY	2015-12-07	Women deserve to have the care that they choose!!
Wyatt Willoughby	Myrtle Beach, SC	2015-12-07	My wife had two wonderful at home births. Our LM was well trained and handled both births very professionally including the preventative administration of antihemorrhagics that were deemed necessary given bleeding my wife experienced during her first home birth. Soon-to-be parents don't need people who are are not specialist in this area and who are not present during the birth giving instructions when a competent professional is already in attendance.
Areli Keeney	West Columbia, SC	2015-12-07	A midwife delivered 2 of my 3 children. I am grateful to have had the opportunity to deliver in a peaceful, supportive atmosphere. Please do not deny women the right make an informed decision about how to bring their babies into the world!
Zarah Casto	Nevada City, CA	2015-12-07	I had all 4 of my children safely at home with midwives and my mother had 8. Midwives are trained to safely deliver babies at home, and will not put a mother and baby in danger.
ashley reina	strathmore, Canada	2015-12-07	Midwives are fabulous for low risk pregnancies and actually cheaper on the medical system. Give people the choice!!
Jenelle McElveen	Columbia, SC	2015-12-07	I'd like to have the option to rely on the unique skills of a midwife when I have children.
Nicole Thames	Chandler, AZ	2015-12-07	Midwife delivered both my babies! Wouldn't have had it any other way! Love tom Chappell

Name	Location	Date	Comment
Lesa Zenauskas	West Columbia, SC	2015-12-07	Open your eyes!!!! Get your head out of the sand. You ARE NOT protecting the Mommas and Babies of SC, you will be harming them. Best Births are Home Births. Women have a choices with their bodies and WHERE and HOW she births should be at the top of the list. DO NOT RESTRICT the loving, caring and educated hands of our Midwives!
Nadine Gammon	Greenville, SC	2015-12-07	Having had a 42 week baby with midwives, attending VBAC's as a doula and being pregnant, this is very frustrating to me. Let the midwives please do their jobs!!! They are the hardest working, most trustworthy group of people you will ever find to deliver babies.
Stacy Kobe	Fort Mill, SC	2015-12-07	I support midwives and a woman's choice to give birth at home!
Ashley Wren	Aiea, HI	2015-12-07	I believe women should have the choice to choose their birth experience. If there is not greater risk to mom or baby then why shouldn't they get to choose. These are memories they will have for the rest of their lives.
Katherine Hanson	Central, SC	2015-12-07	These decisions belong to parents and they always have. It doesn't make sense to give people the right to abort their unborn child, but not the right to decide how to birth their child.
Chinmayo Forro	Anchorage, AK	2015-12-07	I am signing because I see how Alaskan families have benefited for so many years of the options of out of hospital births with State Licensed Midwives. Freedom of choice is a must if we pretend to live in a Democratic country.
Andrea Beard	New Zion, SC	2015-12-07	I love my midwives!!!
Vonnie Green	Wiscasset, ME	2015-12-07	I have children living in South Carolina who would be using midwives when their babies are born. I had a c-section for my first baby, then went on to have 6 VBAC deliveries, all with midwives (one in a hospital, 5 at home). The only problems I had at birth were with the hospital deliveries.
Tommy Samaha	Little River, SC	2015-12-07	We had our last three sons at home. They are ALL normal!!! Homebirth is our right and should not be subject to any legislation.
Eva Kristen Roof	Gilbert, SC	2015-12-07	Can we not just embrace natural birth? Must EVERY SINGLE THING within our "society" be scrutinized and become a political circus? Our country has gone to crap. Leave the midwives, doulas, expectant mothers and NATURAL birthing alone. The government has us all so controlled, like cattle. It's so sad.
michelle leitner	Hopkins, SC	2015-12-07	I believe in midwifery. I believe in the woman's right to choose.
angela williams	columbia, SC	2015-12-07	Women should continue to have multiple options for their birth settings.
Randi Phillips	Englewood, TN	2015-12-07	I'm signing because I want to be able to deliver with a midwife.
Sybil Scolta	Taylors, SC	2015-12-07	I used a midwife.
Gayle Van Scoy	Greenville, SC	2015-12-07	5 of my 10 grandchildren have been delivered by a midwife
Corrie Mims	Kingstree, SC	2015-12-07	This is so important. We need midwives to have the freedom to care for us appropriately and we need midwives!
Denise Draime	Irmo, SC	2015-12-07	I was one of the original Doulas at Lexington Medical Center and worked with many Midwives. Women should have the right to choose them.
Juliana Valencia	Simpsonville, SC	2015-12-07	Every woman should be free of how to have
Laura Davis	Sumter, SC	2015-12-07	It should be an option!
Anna Marsceau	Easley, SC	2015-12-07	I believe in women's rights to choose where and with whom they give birth. I personally have chosen to birth with a midwife. I am thankful I had the right to choose who I wanted to help bring my baby into the world, and I would like to have that right for any other children I may birth in the future.

Name	Location	Date	Comment
Summer Page	Columbus, NC	2015-12-07	I feel it's a woman's decision to choose where she gives birth to her child. As long as it is done safely at in the best interest of the child and mother then I don't see why it would be an problem or anyone's business!!!
Lora Collins	West Columbia, SC	2015-12-07	The ones judging birth know nothing about it. One is in construction, engineering, and other unrelated. They don't know what they are talking about.
Erin Villanueva	Inman, SC	2015-12-07	Home birth is an amazing and natural thing that I would want to do with my children.
Catrina Woodard	Greenville, SC	2015-12-07	All when should be able to birth their babies how they wish.
Crystal Bailey	Georgetown, SC	2015-12-07	I'm a RN and have been in the medical field for 19 years. been working with midwives for over 10 years. I personally would never deliver with a doctor, unless it's a c-section. Doctors want to control labor process. It's a natural process, and midwives allow the time a woman needs to deliver with minimal intervention.
Robin Aristides	Fort Mill, SC	2015-12-07	I believe in the rights of pregnant women.
Cara Cox	Columbia, SC	2015-12-07	I'm signing because I had my baby at home with a Licensed Midwife and everyone should have the right to have their children in a safe and comfortable environment with appropriate help and support!
Caitlin Beidler	Phoenix, AZ	2015-12-07	A midwife delivered my baby and it was very positive. I travel for extended periods between Arizona and South Carolina and I would want that option in both places!
Jessica Barboza	New Bern, NC	2015-12-07	Because my water birth was safe and amazing with zero pressure to medicate or stick my baby with needles or hook her or me up to monitors.
Danell Fowler	Rowland, NC	2015-12-07	I am a labor nurse and I could not imagine my practice without midwives.
Cathy Gilbert	Manning, SC	2015-12-07	I believe that midwives are able to attend all kinds of births and should not be over-regulated by government agencies.
Jerrica Tillie	North Charleston, SC	2015-12-07	we should have Midwives
Catherine Goodman	Columbia, SC	2015-12-07	I believe in evidence based care for all women during pregnancy and birth.
Rebecca Murph	Gastonia, NC	2015-12-07	I believe women have used midwives for centuries and they deserve the right to make that choice.
Janet Hill	Greenville, SC	2015-12-08	This is trampling women's right to choose!
Alycia Bowles	Oceanside, CA	2015-12-08	I'm not a mother, and I don't know if I ever want to have children, but I do know I'd want the choice on how I wanted to bring them into the world and I believe every woman deserves that same right.
Gladys Hutson	Waxhaw, NC	2015-12-08	No one should have the right to take away this freedom!!!!
sasha knight west	Blacksburg, SC	2015-12-08	I believe it should be every parents choice to birth where they feel comfortable!
Hannah Taylor	Monroe, NC	2015-12-08	I am a big supporter of home birth.
Kenneth Bolt	Enoree, SC	2015-12-08	My wife had a VBAC at 41 weeks with a midwife and it was the best decision we could have made. Everyone else told us a natural birth would be impossible. If it were not for the midwives, we would have had no other option.
Sadie Weaver	Columbus, GA	2015-12-08	I used to live in SC and I have friends there and used a midwife there!
Marilee Blonquist	Greenville, SC	2015-12-08	Women should have a right to choose when it comes to birth options. It is wrong that women have the right to abort their babies, but could be limited in their rights to choose how they give birth.
Hannah Schenk	Myrtle Beach, SC	2015-12-08	Every woman should have the right to choose how to deliver her child.

Name	Location	Date	Comment
Charlene Beck	Louin, MS	2015-12-08	I have worked with SC midwives for years. They are the best for normal deliveries. A midwife helped deliver my grandson and I would not have wanted it any differently.
Amy Rutledge	Wadesboro, NC	2015-12-08	I believe in a woman's right to choose how and where she wants to birth.
Shauna Mazique	Florence, SC	2015-12-08	women have the right to choose what type of provider she uses in her healthy low-risk pregnancy. DHEC needs to work with licensed midwives to set regulations, not make things harder.
Rachel Hall	Blythewood, SC	2015-12-08	I am a physician who supports birth choice, midwives, and natural birth. We are causing a lot of the complications we claim to be protecting against by declaring hospital birth, with a physician to be the only safe way to labor and deliver. Well screened candidates for midwife care and delivery have better outcomes than low risk, hospital managed births. We need to take stock in birth statistics, research and evidence from other countries like Great Britain.
Shanika Pichey	Cayce, SC	2015-12-08	Not going to tag anyone specific but I will say this: whether or not you want to have children of your own or chose to have them in a hospital, I encourage to sign this petition because when you take away the midwives you are taken away a woman's (or couple's) choice on how they chose for their baby to enter this world.
Stacey Millner-Collins	Columbia, SC	2015-12-08	I'm signing because the most empowering experience in my life was the birth of my 10lb. daughter at home! Birth is not a disease and women should be given agency over what they do with their bodies and their births.
Amber Annis	Talbott, TN	2015-12-08	This is near to my heart because while living in SC a licensed midwife delivered both of my babies at home. She helped keep me informed but stayed impartial to my decision making. She was extremely professional and my husband and I were very impressed at her reaction to a serious hemmorage I experienced after my first birth. She is an amazing individual and I would hate to think that this choice would be taken from any woman interested in using a midwife.
Kathryn Labelle	Columbia, SC	2015-12-08	My first birth was in a birth center with he aid of a midwife. I gently birthed a 9lb baby with the support of my amazing midwife! The consultation and prenatal support my midwives provided was better than anything I've experience in a hospital setting.
Jason Harding	Sumter, SC	2015-12-08	My wife and I had our second child with a midwife. The experience was better and safer than when we had our first child with an OB/GYN.
Shannon Ashworth	Fountain Inn, SC	2015-12-08	freedom Of Choice
Amanda Gomes	Spartanburg, SC	2015-12-08	I had two hospita births followed by 3 home births. My home birth were simply amazing. I wish all moms had the confidence and ability to experience the same home birthing experience we did.

Name	Location	Date	Comment
Sarah Waylett	Taylors, SC	2015-12-08	As the experts in their field, the Midwifery advisory council should be leading and advising safe practices in midwifery, not uninformed lay people at a regulatory agency. While I am sure that DHEC desires safety and efficacy in birthing practices, these proposed changes will only ensure practices are LESS safe and MORE limited, effectively taking a huge step backwards in birthing practices. Let the experts decide best practices and SUPPORT midwives as a safe and excellent alternative or partner to hospital birth! We have excellent examples of successful midwifery practices working in coordination with a health system in Greenville, where I recently was able to have a successful VBAC in the hospital attended by a midwife! If you implement these proposed changes, rest assured that home birth numbers will continue (and likely rise), but without supervision and certainly with less support and potentially poorer outcomes. If you truly care about public health, you should listen to the expert midwives who truly desire the best for their patients.
Marguerite Mcleod	Columbia, SC	2015-12-08	Midwives save lives!
Elizabeth Berg	Greenville, SC	2015-12-08	My daughter had the best of care from a licensed midwife, and since she went a couple of days past 41 weeks, I am appalled that this proposal would make that impossible. Another daughter is planning on having a midwife for her baby's arrival coming soon. These are outrageous proposals.
Linda Moore	Lugoff, SC	2015-12-08	We need a choice
Cynthia Ciangiola	Hyde Park, NY	2015-12-08	I have seen these deliveries in motion ,it's very awesome
Stephanie Christofi	Columbia, SC	2015-12-08	I want my freedom of options as to who and where to give birth.
Tracy Lyons	Los Altos Hills, CA	2015-12-08	LM's are professionals that know what they're doing. Women are smart and can make informed choices for birth. Birth is a natural process that women's bodies were built for. Midwives are important community members and home birth is an important option for families.
Michelle Varian	Hollister, NC	2015-12-08	My sister-in-law has been a practicing mid-wife for over 30 years in S.C. I would trust her to guide the birth of my child any day!
Karen Dizney	Norfolk, VA	2015-12-08	Keeping natural birth supported is so important.
Lynel Lord	Glenville, NY	2015-12-08	I personally know amazing midwives, my mom is a certified doula, and I have attended 3 births at home with midwives. Don't stop a woman's right to choose where and how she brings life into this world!!!!!!
Mollie Beachum	Marietta, GA	2015-12-08	Midwifery led care lowers costs, decreases birth interventions and has equally good outcomes for mother and child when compared to hospital birth. There is no reason to regress in the process to creating safer birth with more choices for mothers.
Kristi Wright	Spartanburg, SC	2015-12-08	Families in SC to have the rights to licensed midwives for home and birth center births!
Kathryn Jones	Troy, AL	2015-12-08	I'm signing this because women should have the right to do what they feel is best for themselves. Many times, having a baby at home is for money reasons. They should not be forced to pay hospital bills for years to come when it could be avoided!
Tiffany Massey	Taylors, SC	2015-12-08	DHEC has no business imposing regulations that take away women's rights. Enough is enough! Blessed Births in Greenville provided the highest quality and standard of care for the birth of my daughter. We need more options..not less!!!

Name	Location	Date	Comment
Brisa Kapadia	Spartanburg, SC	2015-12-08	I have had 4 perfect out-of-hospital births with a CPM and an LM... I couldn't have asked for better care. Don't take away a woman's right to choose where and with what provider she births with, granted she is a good candidate for midwifery care!
Tricia Evans	Lexington, SC	2015-12-08	I believe if someone wants to use a midwife that is their right.
Cassie Huffman	Simpsonville, SC	2015-12-08	I believe a woman should have a choice in her birth plan. Ther has been midwives for thousands of years.
Jernell Simmons	columbia, SC	2015-12-08	I'm signing because I want families to have options.
LISA JILLANI	Charlotte, NC	2015-12-08	It is a woman's God given right to have her baby in the setting of her choice.
Tiffany Stewart	Murrells Inlet, SC	2015-12-08	I have had two amazing home births, one at exactly 42 weeks, and I wouldn't have it any other way. DHEC doesn't have any right to take away my birth choices when the states with the highest birth ratings ALL support midwives and homebirth, while the states with the lowest birth ratings (SC included) insist on forcing women into hospital situations when it is not necessary. This leads to poor or traumatic birth experiences, outrageously high c-section rates, unnecessary surgeries, and general interference with mother and child. The best birth experts in the world all agree if there is no problem, get out of the way of the woman's body. 40 weeks is not a magic number for many, many women, and if both mother and baby are well and fine, let gestation continue until it cannot. Every woman is different, and what right have these unqualified people to override the medical professionals who know the patient's specific history and are much better equipped to make a call like that??? I'm too angry to write clearly, but believe that we will get our birthing rights from the Supreme Court if we have to. Work with the midwives, or this will get ugly.
Pat Gregory	Moore, SC	2015-12-08	Everyone should have a choice when it comes to birthing their babies. Intervention is not necessary most of the time.
Mary Beth Campbell	Columbia, SC	2015-12-08	Women should have a choice!!!
Michaela Wagner	Buckeye, AZ	2015-12-08	I am a woman, a mother, and a midwife. the u.s. needs more midwives of all educational avenues and restrictive legislation this this makes it harder for childbearing women to access safe care.
natalya merenkov	Monroe, NC	2015-12-08	i love giving birth at home!! its so relaxing my midwife and her assistant made feel like a queen!! i felt very safe and they took care of the both of us very well!! i never gave birth at the hospital and hope i well never to, especially after the stories i heard about giving birth in hospitals!!
Rachel Snowden	Columbia, SC	2015-12-08	I believe in this service, it's important for mothers and babies.
April Robison	Gable, SC	2015-12-08	I'm signing because three of my four children were delivered by a midwife....they need to be left alone....
Josiah Magnuson	Campobello, SC	2015-12-08	Healthcare is better left decentralized where it can meet individual needs, and birth is no exception.
Jodi Hrbacek-Peterson	Anderson, SC	2015-12-08	I had water birth deliveries and it was an amazing experience that I think every women should have the opportunity to choose!
Suzanne Edora	Lexington, SC	2015-12-08	Midwives are essential for the advancement of a nurturing society. Stripping a mother's right to choose her own prenatal care teeters on the edge of a communistic stance. It's time to give the power back to the people, starting with a mother's right to choose care for herself and her child.
Jenni Stout	Blythewood, SC	2015-12-08	Everyone deserves the right to choose.
Lauren Stalvey	Gaston, SC	2015-12-08	I believe in each woman's right to choose where and how they will give birth, and who will be assisting.

Name	Location	Date	Comment
Chastity Harris	Fort Mill, SC	2015-12-08	We do not need states telling mothers how, where, and with whom they should deliver their babies. If a mother wants a out of hospital birth with a CPM/LM, that should be here choice, and hers only. Taking away a mother's right to choose who attends her birth or further limiting midwives is wrong.
Natalie Kurylo	Knoxville, TN	2015-12-08	There is plenty of clinical evidence supporting the use of trained midwives for homebirth. Women should have the right to make their own healthcare decisions without restriction.
Sarah Leone	Kernersville, NC	2015-12-08	The government needs to stay out of the decision a woman has a right to make about who when, and where she gives birth. Period. Not the government's place.
Tracie Broom	Cayce, SC	2015-12-08	I believe that the work of midwives is extremely important and should not be limited in this way.
Kimberly Vest	Camden, SC	2015-12-08	I believe it should be the choice of a mother to have a midwife assisted birth if it is safe for her and the baby.
Courtney Bradley	Saint Matthews, SC	2015-12-08	I have experienced hospital, birth center, and home birth. I have seen the professional and wise care of midwives exceed that of any hospital birth I have been in, or a part of. There is no reason DHEC should be doing this and taking patients rights away.
Christen Alley	Pacolet, SC	2015-12-08	My cousin
Veronica Palmer	Taylors, SC	2015-12-08	I'm signing because I believe the Midwifery Advisory Council knows best when it comes to birth. They should be the ones writing the regulations as they have the most knowledge of the practice.
Aubrielle Entrekin	Walterboro, SC	2015-12-08	I'm planning to become a midwife and these new regulations will effect all woman kind and baby kind negatively
Melanie Bates	Mountain City, TN	2015-12-08	I'm signing this petition because it's a woman's God given right to choose how and where she wishes to have her baby. We've been delivering babies for centuries without government interference so there's no need for government interference now.
Laura Rockow	Scotts Valley, CA	2015-12-08	Such a totally valuable resource, million times better than a hospital invasion birth!
Lacie Dickson	Concord, NC	2015-12-08	Women need more options and Midwives provide excellent care.
Rachel Culver	Liberty, SC	2015-12-08	I had a home birth this year at 41.5 weeks and my midwife was amazing!! This was my fourth delivery and the first non-hospital birth. My midwife was more intuitive and caring and knowledgable than any doctor who ever attended me! DHEC is overstepping their bounds on this one!
Bethany Vedder	Brooklyn, NY	2015-12-08	I believe in a woman's right to choose where and with whom to give birth.
joanna higgins	Prosperity, SC	2015-12-08	LM and CPM care and birth center services are desired and safe. Please don't take our options away from us!
Jenny Titus	Las Vegas, NV	2015-12-08	I'm signing because I believe in a mothers right to have safe home birth care.
Jeff Gossett	Greenville, SC	2015-12-08	I'm signing because of the ignorance of people that try to regulate things they don't understand. I wish people would participate in helping others defend their rights before someone comes and tries and take theirs.
Lisa Engle	atlanta, GA	2015-12-08	I care about BIRTH, human rights, human development, and human potential.
Brittney Teel	Gary, IN	2015-12-08	I wish I had the option of a midwife, but because of where I have to live I am not allowed to have the option of giving birth at home for any of my four children. This was an experience I have always wanted. I don't want another to loose their option for this like I did.

Name	Location	Date	Comment
Vicky Sanders	Greer, SD	2015-12-08	This is a freedom that every woman should be able to make. Mandating that Midwifery be abolished is violation of your freedom of choice and its asinine!
Mary Carlson	Cayce, SC	2015-12-08	We need a choice how we give birth
Rebecca Brown	Easley, SC	2015-12-08	A woman and her doctor have the right to choose.
Candace Boening	Santiago, Chile	2015-12-08	Only a mother and her doctor should make decisions in this situation. I approve of midwives!
Kristie ASHWORTH	Rock Hill, SC	2015-12-08	My daughters should have this option available.
Diane haverland	Greenville, SC	2015-12-08	Family should have the freedom to choose the type of birth experience that they want to have. Most of the time the midwifery experience is much more pleasant than one with the doctor.
Regina Irey	Greer, SC	2015-12-08	I had a midwife and I am so glad I did. Even though things changed beyond my control. I tried as hard as possible to have a natural delivery. My son decided he rather be comfortable in a transverse position after 2 doctor assisted manual turnings. He also was so active they could not keep track of him with the heart monitor. I felt so much more at ease with everything just having the midwifery there during my entire hospital stay. Please let the Mom decide on the way she wants to delivery her baby. Midwives really do have the Moms and Babies getting whatever it is they need.
Hope Meeks	Greenville, SC	2015-12-08	I am sick of having to fight for birth rights!
Heather Elting	Greenville, SC	2015-12-08	I knew I would deliver my second child via csection if I stayed with my OB group. There was never overt pressure to schedule it, but it was strongly encouraged and I was given statistics that do not accurately reflect the true risk of a VBAC or a repeat csection. My previous c-section was due to blood pressure issues, not labor and delivery complications. I chose a midwife, who caught my sweet VBAC baby boy safely in the local hospital. The beautiful delivery was a precious gift. Please do not take the choice away from women.
James Wolcott Jr.	Spartanburg, SC	2015-12-08	This petition and I stand for freedom, what this country is known for. Believing God knows best, this petition and I also stand for doing things the way God intended through nature, which includes keeping births as natural as possible, as midwives do.
Lacey Hill	Chapin, SC	2015-12-08	I'm signing because as a woman I should have the freedom to choose what's best for my body and my baby/family more than anyone else. If these new regulations pass then we have given our freedom of choice away to strangers. This is a slippery slope.
Sharayah Netzley	Surfside Beach, SC	2015-12-08	I have had a midwife deliver two of my three sons. I will choose a midwife over a Dr any day. Midwives are amazing!!!!
gretchen Woertendyke	Columbia, SC	2015-12-08	Because midwives make childbirth so much better for everyone involved
Tamarah Staschiak	Columbia, SC	2015-12-08	I support the science and art of midwifery as an often superior method to hospital based obstetrician and gynecology approach to facilitating labor and delivery.
Heather Terpenning	Taylors, SC	2015-12-08	i will possibly want to use a midwife when i am pregnant.
Amanda Seder	Valdosta, GA	2015-12-08	I believe in midwives! I believe women have the right to choose. Vbacs are more safe than a repeat surgery!
Dr. Rick Kirschner	Ashland, OR	2015-12-08	A midwife helped deliver my child. What has become of a people that places trust in drugs and surgery but dismisses the natural systems and interferes with the life cycle events that got us this far.
Megan Bishop	Spartanburg, SC	2015-12-08	I'm signing because we deserve the choice in our own care.

Name	Location	Date	Comment
Mechell Turner	Peachland, NC	2015-12-08	Too much politics in women's medical issues. I am a midwife, I am also a woman who is trained and aware of my own body. No wonder we are at the lowest point for infant mortality, no one seems to do the research.
Amanda Jones	Blythewood, SC	2015-12-08	I have had two pregnancies, and for all of my first pregnancy and for part of my second pregnancy, I was under the care of a licensed midwife, in South Carolina. The level of personal care provided by a midwife is unmatched. In fact, it was my midwife, not the OBGYN that I had been seeing, that caught my unborn baby's abnormal heartbeat, and sent us to the hospital for the help we needed. If it was not for the extra time and care taken by our midwife, the problem may not have been caught in such a timely manner. For that, I am forever indebted to my midwife. I believe a woman is capable of making her own decisions and choosing the best caregiver, for her own body and that of her unborn child. If updates are needed to the already extensive laws regulating midwifery, these should be developed and implemented by a midwifery oversight board of qualified individuals. Not a group of mostly men who are not OB/GYNs, licensed midwives, or in any other way qualified to make decisions about women's reproductive health.
William Conley	Murrells Inlet, SC	2015-12-08	It's the right thing to do.
Bernadette Countryman	Fernandina Beach, FL	2015-12-08	I am a nurse. My daughter delivered at Lexington. All of her care was by midwives.
Jim Davis	Travelers Rest, SC	2015-12-08	Choosing one's mode of health care is a fundamental right of the people. Interfering with it is a violation of Natural Law.
Kristi Walker	Inman, SC	2015-12-08	The government has no right to tell women how they can give birth or where. That's not their job or choice!
Amanda Pearce	Conway, SC	2015-12-08	Im sogning because i trust and feel more comfortable with a midwife over a ob any day. I birthed my daughter with a midwife and it was the BEST experience ive ever had with someone in the medical field. It is not up to a group of peoples jobs to tell me or any ones else whats best for them. We live in America where there should be all kinds od differentboptions available to us!
Sarah Griffith	Taylors, SC	2015-12-08	A woman should be comfortable, confident, and in control of where and how she gives birth, and who she has deliver her baby(ies)
Erin Hill	Spartanburg, SC	2015-12-08	When and where and with whom to give birth is MY choice. Obstetricians and hospitals have many wonderful things to offer, but they are not the only ones with something to give any more than Walmart is the only store out there with anything to give. There should be many retail options beside Walmart and there should also be many birthing options beside obstetricians. We do not need a dictatorship telling us what is best for us and "protecting" us from anything it imagines might endanger us. We are free adult women.
addie martindale	Columbia, SC	2015-12-08	We need midwives and women must have choices about how they chose to give birth!!!!!!!!!!!!
Brianna Loyd	Gaffney, SC	2015-12-08	What kind of medical care I receive should be my choice. I'm trying to conceive #3 after a chemical Pregnancy and 2 cesareans and I want a midwife and a water birth next time. I will not be told by noN doctors who don't know my medical history what I can do based on their opinions of what is safe. This is America and no one is taking my freedom from me ever again.
Emily Tanner	Sumter, SC	2015-12-08	I hope to birth with a midwife one day. This is an experience that I have always wished for because the care and quality that a midwife offers is something that I want to have here in South Carolina.

Name	Location	Date	Comment
Catherine Allen	Columbia, SC	2015-12-08	Midwives are shown to have equal or have better outcomes with a lower cost of delivery for low risk pregnancies which is the definition of value in healthcare delivery. Letting midwives practice to the scope of care is a way to lead to better care for mothers.
Rita Scott	Blythewood, SC	2015-12-08	I believe these decision should be made by experienced medical professionals who are involved in midwifery. Plus with the current problems with healthcare midwife births are a financial and physically sound practice
Harry Davidson	Jonesville, LA	2015-12-08	Support for mid wives
Susan Smart, LM	Chesnee, SC	2015-12-08	The proposed changes were not approved by the Midwifery Advisory Council and represent prohibitive requirements for the midwives and families that do not provide for safety but only serve to restrict the freedom of families to choose their care providers and place of birth. In addition, some of the changes are downright dangerous to mothers delivering out of hospital as Dr. Picklesimer on the Midwifery Advisory Council is trying to shut down the use of safe and useful antihemorrhagics for use by Licensed Midwives. Control issues, not safety. Shame!
Wendy Weast	Columbia, SC	2015-12-08	I'm signing because South Carolina (and everyone) needs midwives!
Billie Edmondson	Woodbine, GA	2015-12-08	We need more, not less, freedom to make our own decisions as mothers. As a VBAC mom, I can especially attest to the amount of stress these regulations, red tape and restricted access to evidenced-base care places much undue stress on a pregnant woman, her family as well as her unborn child. These proposed regulations are not going to improve care for women who have chosen and entrusted their care to a licensed midwife. They will only serve to hinder the care that midwife may provide, further restricting freedoms and rights to the patient. Ultimately, it all comes down to women making informed decisions, but if you are restricting their choices in this way, you are forcing a woman to make a decision between what is best for her child and violating policies/laws. A great mother will always choose the safety of her child, despite her respect for the law and policy. These regulations will force more women into unassisted births, especially vbac moms. That could result in a rise in maternal/fetal deaths. DHEC, do you want that blood on your hands? Does the government of SC, does Nikki Haley want that blood on her hands? Keeping options open for women at least allows them to make an informed consent for a safer birth for both mom and baby. Don't restrict mothers! Help them, allow midwives to help you with regulations and policy. Listen to them, they are the professionals!
Dawn Del Rossi	Chapin, SC	2015-12-08	I am a mom of 5 children, 4 of which were born at home. It was the most wonderful experience ever! My midwives where extremely knowledgeable and wonderful women. They know what they are doing, leave them alone! More women should be having home births. Birth is not political. DHEC needs to stay out of home births!!
Kayla Moon	Easley, SC	2015-12-08	I have a right to choose where I feel safe giving birth.
Redding Farlow	wilmington, NC	2015-12-08	I'm signing because my son wouldn't had a healthy vaginal birth if it wasn't for my amazing midwife that delivered him.
Katelyn Meredith	Anderson, SC	2015-12-08	I believe a healthy woman should have the freedom to birth at home.
Lauren Parrish	Holly Springs, NC	2015-12-08	It's my right!
Courtney Heuring	Mount Pleasant, SC	2015-12-08	I was a low risk birth Mom and delivered both of my children with CNMs. I am signing this petition so that other mothers can have the option to have these extremely talented women at their births in hospitals, homes and birth centers.

Name	Location	Date	Comment
Rebecca Quintana	Athens, GA	2015-12-08	Woman should have protected rights and support to choose where, how and with whom they give birth. It's a human rights issue!
Vivien Dyer	Lawrenceville, GA	2015-12-08	Medical needs are too personal and unique to be decided by a committee. "One size" never fits all, and often hurts many. Wanting to help and protect people is never an excuse for actually hurting many.
Megan West	Wagener, SC	2015-12-08	I'm signing because I live an hour away from the nearest hospital and having someone like a licensed midwife nearby is comforting for any pregnant woman as well as a safe alternative. Midwives are well trained and will do what is in the best interest of their patient.
Michael Jeffcoat	Lexington, SC	2015-12-08	It's an issue of FREEDOM and INDIVIDUAL CHOICE
Dominique Geer	Hilton Head Island, SC	2015-12-08	I delivered my child with a midwife and had an outstanding experience. If you want to do something that makes sense, have a requirement for nurses to do continuing education like teachers, realtors, even property managers do.
Crystal Stein	Anderson, SC	2015-12-08	I support healthy birthing options for women in SC!
Susan Neal	Inman, SC	2015-12-08	I'm signing because this is a choice families should be allowed to make.
Amber Ratliff	Simpsonville, SC	2015-12-08	I'm a mother. I cannot fathom not having the option of using a midwife. So many beautiful stories of incredible births! Don't remove the blessing and gift of midwifery from SC!!!
Juneann Miller	Grand Rapids, MI	2015-12-08	I had a midwife while living in SC in 2013 with my first child. I wouldn't trade that experience for anything!
Joseph Hendryx	Columbia, SC	2015-12-08	Midwives are awesome and pregnancy shouldn't be restricted to overmedicalized frameworks.
Thomas Fusco	Easley, SC	2015-12-08	DHEC, or the government in general, should have no say in one of the most personal and natural parts of life.
Eva Samples	Columbia, SC	2015-12-08	I gave birth only with a midwife. A natural birth where mother and baby are healthy does not need a doctor.
Jennifer Conway	Greenville, SC	2015-12-08	The proposed regulations will not allow midwives to practice in the state of South Carolina.
Roxanne Ervin	Marietta, SC	2015-12-08	Women should have the right to choose who provides their care.
Heather Kagey	Rock Hill, SC	2015-12-08	My sons were born with the help of a midwife and our experience was great. It should be the parents' choice in regards to who delivers their baby and how.
Christina Breland	Hattiesburg, MS	2015-12-08	it is the legal right if the parents to decide the birth they want.
Julia Nielsen	Fort Mill, SC	2015-12-08	Women should have the right to choose. To choose everything about their birthing experience. Everything
Michelle McGee	Easley, SC	2015-12-08	I'm signing this because I believe a woman has the right to choose how she gives birth and the phasing out of midwives and implementation of physicians instead is an illustrative historical event that shows misogyny and our compliance with that misogyny.
Amanda Elias	Fayetteville, NC	2015-12-08	I'm signing because my Midwifery care is like no other care I have ever received. It's outstanding, it's necessary, it's safe and preventative of unnecessary intervention.
Amy Savage	Easley, SC	2015-12-08	I believe families should have the right to choose different birthing options.
Jennifer Mathis	Canton, NC	2015-12-08	It is a woman's right to choose!

Name	Location	Date	Comment
Brad Eldridge	JOHNSON CITY, TN	2015-12-08	Licensed Midwives are highly trained health care professionals. Research consistently shows superior outcomes from midwife assisted births, within their scope of practice, than births attended by other types of health care professionals. With evidence showing superior outcomes, their practice protocols should not be constrained or modified. They are out performing other approaches with the current scope of practice and regulations. They provide a unique and important set of skills, and provide families with choices for childbirth that no other professional is trained to do. This profession should be allowed decision making discernment. Health care is a complicated and challenging environment, and a professional is trained to function in that environment. Limiting a Midwife's choices is not in the best interest of providing safe options to families interested in home birth.
Mika Snead	Columbia, SC	2015-12-08	I plan on beginning a family in the near future. I would like to have viable options when it does come time for childbirth. SC families deserve to have these options and the most qualified people creating guidelines, not CEOs and or even well meaning people if they have no experience or extensive education on the matters.
Cassia Beckman	Kennesaw, GA	2015-12-08	<p>I am very disturbed by some of the proposed changes, especially by the medicine limitations requiring that a mother lose a great deal of blood before a midwife administers oxytocin and the fact that Vitamin K is not one of the allowed medications.</p> <p>Women delivering in hospitals are often given oxytocin preventatively, even without any extra blood loss. Midwives should not have to wait until the mom has already lost a great deal of blood before using it! Also, Vitamin K is administered soon after birth in a hospital and there is clear evidence to support this practice. Neither administration is difficult, both are beneficial when needed.</p> <p>Restricting midwives from being able to administer these as needed does not help women or infants - it makes birth more dangerous for them. Regulations should be created to protect, not increase danger.</p>
Marlene S Smith	Charlotte, NC	2015-12-08	I am signing because I think every parent has the right to birth their child in their own surroundings. Mid Wives know more about the birthing of a precious child than a lot of Doctors do.
Jessica Erwin	Honea Path, SC	2015-12-08	I used a midwife for our recent birth and wouldn't have it any other way! I would be so mad to know my options are taken away!
Natasha Hodges	Lexington, SC	2015-12-08	Every woman deserves a choice.
joanne hayes	Orrum, NC	2015-12-08	My niece really benefited from the help of the midwife that helped with the birth of her daughter
Annyston Patterson	Kingsland, GA	2015-12-08	I'm signing because women should not be forced to give birth a certain way. More rights need to be given to midwives and none need to be taken away.
Jessica Collado	Pelion, SC	2015-12-08	I'm signing because I believe in the right to choose my own healthcare. I don't believe some random group has my best interest at heart and regardless.....it's still my decision.
Brandi Merchant	Chesnee, SC	2015-12-08	Our doctor left us high and dry during delivery. No exam to determine position of child..... Women want childbirth to be special..... Not forced and hurry along. Midwives provide evidence base practice that is safe and becoming more preferred by our moms; after all they are mandated to have a collaborating physician....

Name	Location	Date	Comment
Cassie Marshall	Columbia, SC	2015-12-08	I believe in the help of a midwife. Gives comfort and support to women whom are wanting a more natural style of birthing. It also gives a woman someone to connect and trust with their pregnancy and birth experience.
Carolyn Yamamoto	Rock Hill, SC	2015-12-08	Midwives were a crucial factor in my first child being successfully born as a vaginal delivery.
Barrett Elder	Rock Hill, SC	2015-12-08	My 3 children were delivered by me, with the help of a midwife
karen collins	williston, SC	2015-12-08	I agree 100% with the views stated in the petition.
Aliceanne Woodby	Greer, SC	2015-12-09	I want to have a birth with no interventions
Rebecca Clusserath	Smyrna, GA	2015-12-09	My daughter was a VBAC delivery by a midwife following a c-section delivery of my son.
Ron E Huggins	Myrtle Beach, SC	2015-12-09	I believe in safe birth and the best of medical assistance..... I stand with the rights of birthing women.....
tasha grice	Spartanburg, SC	2015-12-09	i have had midwifery care several times and I loved it they do so much better than the clinic or doctors you get more time with than you ever did a doctor. they put more time love devotion into the patient and I feel like it is best to keep the same plan we have for midwives
Joyce Montejo	Varnville, SC	2015-12-09	Out of seven children, our last five were with midwives. I believe Mom's should have the right to choose in safe situations, but also knowing that the midwives I know, would never step into an area that was out of their scope of expertise and cause a mom and baby not to be in a safe situation.
Kathleen Kagan	San Tan Valley, AZ	2015-12-09	I'm signing to show solidarity with midwives everywhere, not just in Arizona!
Audra Van Romer	Greenville, SC	2015-12-09	Everyone should have a choice.
Angaleia Philips	Pomaria, SC	2015-12-09	3 of my four children were delivered by midwives and I absolutely believe every mom deserves to be in control of who they choose to deliver their child!! Midwives should always be an option for delivery of one's children in SC!! My most difficult, expensive and stressful birth was the hospital birth!!!
izora mcclure	banner elk, NC	2015-12-09	We need midwives to practice in SC and make their own decisions.
tammie moore	Hampstead, NC	2015-12-09	I had a midwife that cared and delivered my daughter, I truly believe they are a valuable asset to SC among other states.
Jason Woodby	Greer, SC	2015-12-09	My wife and I have enjoyed the benefits of having a midwife for the birth of our child and we want families (including ourselves) to have the right to choose midwife services whether at home or a birth center and not to have this option taken away through the back door of regulations, especially when the regulations have had no input whatsoever from anyone in professional midwifery.
Ben Watkins	Duncan, SC	2015-12-09	Midwives have helped my wife have two successful VBACs in SC. It would be terrible for the state to take that privilege away from us in the future.
Abigail Strain	Knoxville, TN	2015-12-09	I want to give birth with a midwife. They are very much dedicated to the interest of the patient, unlike the health care industry.
Caitlin Swingle	Bozeman, MT	2015-12-09	I was a c-section momma who desperately wanted to vbac but was informed that the midwives at my hospital were not allowed to attend me in one. I was essentially forced into a second c-section. I think moms deserve to be able to make decisions about what they want without worrying about what policy is.
Erin Ward	Manning, SC	2015-12-09	I love my midwife I would want no one other than her to deliver my baby !!!
Emily Huff	Powell, TN	2015-12-09	I'm signing this because a midwife delivered my VBAC baby last August. My midwife believed I could, so I did!

Name	Location	Date	Comment
janetfailing53@gmail.com m Failing	Williston, SC	2015-12-09	I had a mid wife deliver my last 3 babies and the experiences that had far out weighed any traditional hospital. They need to remain in control of what they(mid wife) feels is best for the patient and baby..
Summer Peebles	Anderson, SC	2015-12-09	It is my constitutional right to give birth how I want
Karen Owen	Kings Mountain, NC	2015-12-09	Women are capable of making their own healthcare choices and we do not need more legislation tying the hands of their chosen care providers.
Amanda jacobs	Holmdel, NJ	2015-12-09	I am wanting to become a licensed mid wife
Toni Hill	Tupelo, MS	2015-12-09	We need midwives!!
Michelle Bacaro	Greenville, SC	2015-12-09	I'm signing because I think the mother should choose who she wants at re labor. DHEC, you know nothing about birth and that's why I believe this isn't any of your business. You guys are annoying as it is with restaurants and places like that and even worse with this.
Laura Smith	North Myrtle Beach, SC	2015-12-09	I have had three healthy home births here in SC thanks to the fantastic prenatal care, experience and expertise of my midwife. Be responsible and intelligent on this most important issue affecting babies and mothers in SC. Gather the facts from the expert midwives on MAC. Do not treat this topic lightly. Many, many future women and babies can have better birthing experiences and outcomes based on evidence! Be wise and allow the experts to guide you.
Randee Sherrod	Spindale, NC	2015-12-09	I highly disagree with the reformation of the midwife practice in SC. Keep the midwives, the jobs, and the opportunity to birth naturally in a less stressful environment! We've been doing it thousands of years, it's a beautiful experience!
Jessica Purdy	Yucca Valley, CA	2015-12-09	A midwifes roll is so important in so very many ways!
Jennifer Frey	chicago, IL	2015-12-09	I used a licensed midwife to give birth at home and I want other women to have the same wonderful opportunity for a safe, natural, and healthy birth outside of the stress and bureaucracy of a huge hospital.
Laura Evans	Denver, NC	2015-12-09	I want to become a midwife
Irene Albritton	Columbia, SC	2015-12-09	I believe in women's rights to have options and to choose their own method of childbirth. a trained midwife is one of those options that our state should support, not take away.
Nicole Kozlowski	North Charleston, SC	2015-12-09	This practice has been around for centuries. As long as the woman and baby are healthy there is no reason a midwife should not be allowed as part of a birth plan.
Blanca Sizemore	Matthews, NC	2015-12-09	I am pro mid-wife!
Renae Owens	Seneca, SC	2015-12-09	I'm signing because there should be the choice to have your baby anyway you choose and if that is by a midwife than that is your choice.
Amy Wielkopolan	Murrells Inlet, SC	2015-12-09	We should have the choice
Bren Townsend	Taylors, SC	2015-12-09	After two c-sections due to breech presentations (no other issues) I was told by my OB that I could not attempt a VBA2C because it was risky, despite research showing that a VBA2C has essentially the same risk factor as a VBAC. Luckily I was able to change practices and found the amazing women at Greenville Midwifery. I was able to have the natural birth that I had been so longing for (at 41 weeks, +2 days). The new regulations proposed would have kept me from having a midwife-attended birth for arbitrary reasons. I am a well educated (doctorate degree), research-minded person and I'm so thankful to have had the opportunity to give birth to my third child naturally, with a team of amazing midwives. Please allow others in similar positions to receive this type of care if they do choose.

Name	Location	Date	Comment
Elizabeth Blackburn	North Charleston, SC	2015-12-09	Because I had 2 beautiful home births with a wonderful and capable midwife. Qualified personel should be making our rules, and not dhec board members. We have been fighting for women's rights for too long to slip backward now!
Jessica Hale	Charleston, SC	2015-12-09	My body, my right!
Savannah Wells	Pelzer, SC	2015-12-09	I'm signing because I did not want a hospital birth for any of my kids.
Casey Miller	Denver, NC	2015-12-09	Because women have a right to choose!!
Jim Rosiak	Taylors, SC	2015-12-09	I think that this is important
Crystal Clamp	Columbia, SC	2015-12-09	We should have the option of which trained professional attends our birth.
Lori Emmott	Fort Belvoir, VA	2015-12-09	My mom delivered me at home with a midwife, both of my sisters have had home births with midwives, and I myself have had 2 home births and 1 birth center birth with midwives.
Nina Windhauser	Greer, SC	2015-12-09	Where and how I give birth is my right to choose
Michelle Panchuk	Columbia, SC	2015-12-09	I gave birth at a free-standing birth center and received wonderful care. The research supports the safety of women with low-risk pregnancies giving birth out of hospital with trained midwives. Hospitals should not be regulating their biggest competitors.
Anne-Marie Fentiman	Danville, VT	2015-12-09	Our first child was born in South Carolina at a stand-alone birthing center, attended by two experienced, wonderful midwives. They showed competence the whole 9 months of pregnancy, and it was as stress free as any mom would like her birthing experience to be. I would like to help protect the right of SC women to have a similar experience with all low-risk pregnancies.
Brandon Kagey	Rock Hill, SC	2015-12-09	We have had midwives for both our sons. One in a birth center and one at home. The care was top notch and the experience amazing. There is no reason I should have to rush my family to the hospital just to give birth when it is perfectly fine to do it at home as we have before.
Melissa Aldrich	Taylors, SC	2015-12-09	Women need choices in care.
Jim Pelletier	Greenville, SC	2015-12-09	Its the right thing to do.

Throughout time, midwives have provided the majority of maternity care around the world, however, the late 1800s and early 1900s represented a time of change. The development of forceps in the mid 1700s, which were only used by physicians, introduced the doctor to maternity care.

Physicians were called to births when progress was slow or there were other problems, and thus their introduction to childbirth was in problem situations where the outcome was often poor.

At the same time, the medical profession was shifting its professional basis. Organized schools of medicine replaced apprenticeships as the preferred method of learning and obstetrics was included as an area of study.

Physicians in the U.S. organized the American Medical Association in 1847, which sought to promote the wellbeing of its profession.

Name	Location	Date	Comment
Kate Maroney	Columbia, SC	2015-12-09	My husband and I began to explore this option more before the birth of our son. My internist said it would be a healthy option for us since I was low-risk and because we thought minimal intervention would be best. However, DHEC started to force birthing centers to close their doors so we had to change our plan. Hopefully, this will be a healthy alternative again soon. Most parents, when they have ample information on all options, make the best decisions for their children, not an elected bureaucratic board of people with good intentions.
Dahlia Delaise	San Antonio, TX	2015-12-09	I know the wonderful benefits of having a midwife!!!!
CYNTHIA MARTIN	Cross Hill, SC	2015-12-09	I believe that if woman should have this rite to chose
Shannon Postell	Harleyville, SC	2015-12-09	Women should have more safe, affordable birthing option, not less. Reproductive freedom should include living babies! Women should have the freedom to choose where and with whom they give birth to their babies. The proposed regulations would limit the number of safe, competent care providers, thus limiting women's choices.
Kenneth Rogers	Myrtle Beach, SC	2015-12-09	By changing these regulations, you are taking away decisions away from informed and educated parents. It is a parent's responsibility to educate themselves on the benefits and risks of all pathways and we should be providing education for them to make that decision, not making the decision for them.
Barbara Long	Columbia, SC	2015-12-09	There is a professional place for midwives in the South Carolina community- they are important
Amber Thompson	Hyde Park, NY	2015-12-09	It's important
Ludivine Bouhier	Concord, NC	2015-12-09	I have had 2 wonderful children born naturally thanks to my AMAZING midwives and want to not only have this option in the future but other women to be able to make the same choice.
Sylvia Garza	Walhalla, SC	2015-12-09	I believe that midwives know how to deliver babies, the natural way, more so than doctors now a days. I want to have a choice and a voice when it comes to my body and baby.
Jolene Sowders	Hendersonville, NC	2015-12-09	Women should be able to, and will continue to, have their births attended by whomever they choose. This is not a role of the government.
kristen turner	Inman, SC	2015-12-09	I have had two hospital births and two births in a birth center with a midwife. Despite my hopes to birth naturally with no interventions or epidural, etc., I birthed our first son with all of the above and suffered an epidural injury where I had to undergo physical therapy to walk properly again. In that said situation, we were pretty much left to ourselves with a doctor NOT even looking at me until well over 24 hours of being in that hospital. It truly is a miracle both my son and I came out fine minus my walking issue. For our second son, I planned to birth at a birth center with a midwife, but upon becoming high-risk, I birthed at a hospital completely naturally with an amazing support staff of doctors and nurses. For our third and fourth, I birthed at a birth center with a midwife. The care and support I received from my midwife both during the pregnancy, labor, and beyond were nothing like I had experienced before. She taught me nutrition and looked at my whole person. Not to mention my labor was cut from 36 and 31 hours with both boys to 3 hours with both girls. The regulations proposed here will rob women of the opportunity to choose. All women should have the right to choose where they give birth whether that be birthing center, home, or hospital. Let's let those who actually work in the field create regulations that are evidence-based and strike the balance between keeping women and babies safe while allowing families to choose options that are not typical hospital births

Name	Location	Date	Comment
Liz Rose	Travelers Rest, SC	2015-12-09	I had 2 hospital Births but wish I had chosen a midwife. Pregnant women should be allowed to choose their own healthcare providers, including midwives, many of whom have more experience than some doctors
Christine Wieberdink	Augusta, GA	2015-12-09	<p>I am a CPM and Licensed Midwife in the state of SC. I was originally trained through NARMS Portfolio Evaluation Process and went on to graduate from a MEAC accredited school with a Bachelors of Science of Midwifery. I graduated Summa Cum Laude. I am the President of the Palmetto Association of Licensed Midwives. The comments on the proposed regulations indicate the extreme level of ignorance that exists among many doctors and even sister (nurse) midwives about the training and education of midwives in SC. To indicate that CPMs "do not have adequate training in female pelvic anatomy to recognize and repair complex lacerations" (sullivan and burgis, p. 55) is beyond insulting. Firstly, the midwives have requested repair of first and second degree lacerations only (not third or fourth degree which are complex lacerations). Secondly, every midwife I have had the privilege of working with is just as intelligent with just as much knowledge as I have.</p> <p>The Midwives Advisory Council exists to inform and advise on matters pertaining to the education and regulation of midwives in South Carolina, and is uniquely suited to do so, consisting entirely of members who have experience in the field of midwifery or obstetrics. Instead, these regulations are being written by people who have absolutely no experience in childbirth, much less out of hospital birth.</p> <p>These regulations will effectively be restraint of trade for the LMs in SC and must go straight back to the drawing board for the MAC to rewrite.</p>
Bob Smart	Chesnee, SC	2015-12-09	We're all tired of the medical groups squeezing their competition by changing facts to try and justify their wants. It's all about their bottom line and DEHC jumps at their every wish. We need individuals at DEHC who have enough overall knowledge and understanding of today's world and it's needs to make wise decisions.
Anna Humphries	Taylors, SC	2015-12-09	Women should have a right to choose how they give birth.
Jeb Hunter	Greenville, SC	2015-12-09	I dislike the way it writes the law.
Danielle Labar	White Lake, MI	2015-12-09	Every woman should be able to decide where she delivers and who delivers her family.
Tori Marshall	Fletcher, NC	2015-12-09	I had a fantastic home birth
Abigail Burnham	Millersville, MD	2015-12-09	I loved the care I received from midwives during my last pregnancy and they were just as careful as doctors to weigh the risks and determine if I was low risk enough to be handled by their practice and to deliver at a birth center. This law is just uneducated nonsense!
Heather Eckstein	Evans, GA	2015-12-09	DHEC needs to pay attention to what is happening in Arizona. Taking away the rights of women to choose where (and with whom) they birth will not sit well. Restricting access to competent midwives is the obviously intended outcome of these overly restrictive proposed regulations that are not evidence-based.
David Rudolph	Johns Island, SC	2015-12-09	It is my wife's right to choose where she gives birth.
Rhoda Brown	Johns Island, SC	2015-12-09	Midwives matter! Childbirth isn't a sickness and doesn't require hospital care for everyone. We need midwives and our children and grandchildren will need them too.
Ruth Cox	Tucker, GA	2015-12-09	I want a good midwifery option available if I move to SC or have a friend live there

Name	Location	Date	Comment
Andrea Simmons	Summerville, SC	2015-12-09	I am currently a registered nurse with plans to become a nurse midwife. Because South Carolina is not a huge supporter of midwifery I am forced to attend school outside of the state. It is a strong possibility that I may have to move to another state to practice as a nurse midwife. I desire to have children, and I will choose a midwife to attend my birth. I hope that South Carolina will have this option in place to support the women of this state.
Christy Lube	Greenville, SC	2015-12-09	Women's healthy is important!
robyn smith	Columbia, SC	2015-12-09	I believe midwives are an exceptional part of the health care team. They know the woman and child better than the strangers in the delivery room.
Jennifer Kanagy	Aiken, SC	2015-12-09	I had two midwife births and I do not think the option should be taken away from healthy, low risk mothers.
Hazel Douthit	Goose Creek, SC	2015-12-09	I believe parents should have safe choices in childbirth.
Chad Turner	Spartanburg, SC	2015-12-09	Because we have had 2 midwives births and believe that they are better than hospitals
Angela Crum	Greenville, SC	2015-12-09	Trying to get to a hospital has resulted in one birth where I nearly delivered on the side of the road, and barely made it into triage to birth, and a subsequent equally fast birth where I didn't even make it TO the car. My beautiful healthy baby arrived on the living room floor with only her father in attendance. I'm so thankful that for my following birth I had the option to hire a home birth midwife, so that SHE could come to ME safely and quickly. She was there when he was stuck - had I instead been driving across town when he crowned, we would have been alone outside, cold, and frightened. Don't take away a woman's right to choose her best birth option and provider.
Naomi Bindman	Woodford, VT	2015-12-09	Midwives are provide an essential alternative for birthing.
Jeff Pearce	Conway, SC	2015-12-09	It's a woman's choice and the option should not be taken away
Brandy MacDonald	Travelers Rest, SC	2015-12-09	I feel that midwives provide the best care to their patients. Furthermore, the patient should have the right to decide what type of birth they want to try for with the understanding that the healthcare provider may have to change the plan for safety issues. I have seen many women deliver past 41 weeks and deliver healthy babies. Also, I have witnessed VBAC mothers succeed with a midwife when a OB-GYN had told them they wouldn't. These mother fully understand the risk that then take and I believe it should be their decision to take that risk!
Catherine Chandler	Simpsonville, SC	2015-12-09	Personal and family experiences
Sheila DeLong	Amarillo, TX	2015-12-09	The state has no right to choose my healthcare for me.
Jill Rogers	Wassaic, NY	2015-12-09	I'm signing because midwives make all of the difference by empowering women to have the birth that they want & deserve.
Cheryl Junker	Athens, GA	2015-12-09	I'm signing because women deserve the right to choose care for themselves.
Treva Gabrish	North Augusta, SC	2015-12-09	I've had two of my children delivered by trained LM in South Carolina. I want other mothers to have the opportunity to access the quality care provided by the well trained LM's I have had the pleasure to use.
Ellen Krechel	Pawleys Island, SC	2015-12-09	I believe the national standards are sufficient and I stand by our midwives.
Rachael coker	Johnsonville, SC	2015-12-09	Mother's should have the option to have a midwife. We deserve to have our babies however we feel most comfortable if able.
Dawn Purcell	Sonora, CA	2015-12-09	Every woman deserves to choose her own qualified provider!
Stephanie Miller	Blackville, SC	2015-12-09	I used a midwife with both of my kids, home birth for the last one. It is a right I will fight to keep.

Name	Location	Date	Comment
Katherine McDowell	Odenton, MD	2015-12-09	I received midwife care and they were absolutely phenomenal; I wouldn't have changed a thing. What really counts is that women and their care providers make informed decisions to keep moms and babies safe. That can only be done through conversations between women and their providers, not by policies and laws.
Rebecca Crenshaw	Cordova, TN	2015-12-09	I am signing this petition because I believe these changes would not be in the best interest for the women and children that it would directly affect. I see no medical evidence supporting these changes and therefore can not support them myself, as a woman and mother.
Kayte Elliott	Wake Forest, NC	2015-12-09	I'm signing because I feel it's important to offer the best care for moms and babies. This care is not always in hospitals or with doctors (although I don't discredit what doctors and hospitals do). For centuries, women had babies at home with only the help of other women around. Women who had been trained to assist the mom in following the directions of her own body and her baby. Why would we want to do anything different?
Elizabeth Bennett	Poughkeepsie, NY	2015-12-09	I believe in a woman's right to have a midwife deliver their baby.
Nicky Vanvalkenburgh	Greer, SC	2015-12-09	I gave birth to two sons naturally, with the help of nurse midwives. I believe this DHEC inclusions are not evidence-based nor in the best interest of expectant women.
Abby Campen	Covington, GA	2015-12-09	Women need to have the right on whether or not they kill their baby through abortion, but they can't decide how the baby is born?! That's crazy! This law isn't about what's best for baby. If they were really concerned about that there would be no abortions.
Ellen Cannon	Alpharetta, GA	2015-12-09	I am from Greenville, SC. I have three children- all healthy. I believe women should have the right to choose midwives and the verbiage you're trying to legislate will limit when and how they are able to do that.
Suz Pervin	Williamston, SC	2015-12-09	my step daughter is a midwife and I believe they are important to our society as a whole - we should have that option.
Jessica Childers	Anderson, SC	2015-12-09	I have been using midwifery care for 3 years and it has impacted our daily lives!
Danna Ancrum	West Columbia, SC	2015-12-09	I am a Chiropractor in West Columbia. I understand the physiological changes that happens to the body naturally during pregnancy. A lot of which hospitals work in complete opposite of these natural processes and changes. Often times negating what the body and the baby are trying to accomplish. As a female who plans to have children of my own and also as a Doctor who educates her patients on the abilities and capabilities of the body, I would like to have someone rendering that care that has the same views and understanding of physiology as me. That would be Midwives!!!! Please do not take that right from me, my patients, or families all across the U.S.
Heather Van Galder	Greer, SC	2015-12-09	Giving birth with a LM is a choice. Limiting a LM in their ability to help a mom give birth is uninformed and ridiculous. They are trained professionals with standards that they follow. Don't take away their rights as professionals nor ours as women! My birth center experience was so much safer and better for my second baby than my first hospital birth. My first baby went into distress during delivery because of hospital professionals and their manipulations of birth. My second birth was so great for me and baby and my recovery time was drastically shorter!!
Sarah McClain	Chapin, SC	2015-12-09	The DHEC should not decide how a mother should give birth. Every mother has the right to decide how and who helps with their birth.

Name	Location	Date	Comment
Rebecca Christy	Greenville, SC	2015-12-09	I am a doula and this could potentially impact my livelihood. Also, midwife assisted births for low risk pregnancies have been proven time and again to have far better outcomes than hospital births. Removing this option could have a negative impact on our communities financially and medically.
Richard Frascone	st paul park, MN	2015-12-09	Because my daughter is a licensed midwife. And from some of her patients posts on facebook, they not only look happy but their words of gratitude and praise for giving them such a great experience shows me that my beautiful kind caring daughter is doing something that she believes in. Both my girls are well educated, one as you figured is a midwife the other a special ed teacher for those with their own learning challenges. I couldn't be a prouder dad. They both are amazing independent warm compassionate bullheaded outspoken take charge type women of this new millennium. So I guess I could of just said that the reason I support this is,,, cuz my daughter said so!!!
Jennifer Germain	Wasilla, AK	2015-12-09	I believe women should have the right to birthing options.
Kelly Martin	Summerville, SC	2015-12-09	I have been allowed the experience of having all 3 of my children in my own home. All women deserve the right to choose the birth that they feel is best for them and there baby.
Christina Tabor	Atlanta, GA	2015-12-09	Everyone deserves the choice of care provider and birth location.
Joel Garza	Salem, SC	2015-12-09	My wife and I chose the services of a midwife for our child. The care, attention, and treatment we received from our midwife was far superior to the three OBGYNs we talked to prior to making our decision.
Megan Bouknight	Columbia, SC	2015-12-09	I demand that I have the right to choose where to birth! Ob doctors are NOT right for everyone. Have you payed attention to the cesarean section rate? It's ridiculously high and I will not succum to being forced into surgery when it's not necessary!
katherine zemla	taylors, SC	2015-12-09	I'm signing because I want us to have the right to choose what we think is the best care for our situation. Taking away options that work well is not the way
Melinda Cigal	Augusta, GA	2015-12-09	Personally experienced excellent midwife care
