Dear Governor Nikki Haley,

My name is Tracy Foster and I have been trying to apply for my daughter's SSI benefits for the past three years with no success. This is a child that I adopted and she was sick at birth. My daughter is currently on fifteen different medications including an injection that she receives weekly. She is being treated for juvenile Arthritis, Lupus, Chronic migraine headaches, Anemia, Allergies, Asthma, Depression and Anxiety.

At this time I was hoping that there was some way that you could tell me what else I could do to get this process started and completed? I am a single mom and I have done everything I can do to get this process started. If there is anything that can be done, please feel free to contact me.

Thank you,
