Hey Christian,

Sorry that I have not responded but we were relocating the Finance department offices today and I have been buried under boxes. I looked over what you sent and that will work on our end. Let me know if you need anything else. Thanks!!

Brad,

Would this work? With these tables, we generally only go to the "II.B." level as opposed to "II.B.2" and so forth. I went back to the spreadsheet that contained your original request to restructure ETV's budget and lumped each of the objectives together for each budget program, using the category names that appeared in that spreadsheet. Thanks.

CLS

Josh,

Just wanted to thank you for our meeting on Monday afternoon. I am attaching an excel spreadsheet that "maps" our strategic goals and objectives to our new proposed budget structure. I did not have Christian's email but please forward to him as well. If either of you have any questions, please let me know.

Also, Mrs. O'Bryon followed up with John Crockett our VP for Engineering concerning First Net. John was appointed to the SC First Net Committee by former DSIT Deputy Director Tom Fletcher (now retired). In his capacity as a committee member, John attended a State and Territory Consultation meeting in Memphis during June, 2013. There is another meeting scheduled for November and ETV looks forward to being part of the initiative to provide emergency responders with the first

high-speed, nationwide network dedicated to public safety.
