Action Required
Blocked by mail flow rule

How to Fix It

The email admin at meredith.onmicrosoft.com has created a custom mail flow rule that blocks messages that meet certain conditions, and it appears that your message has met those conditions. Check the text above for a custom message from the email admin that may help explain the reason why your message was blocked and how you might be able to fix it (for example by modifying the contents of the message to remove prohibited words, or sending the message from a different email account).

If you're still unable to fix it, then consider contacting the email admin at meredith.onmicrosoft.com to discuss what to do. While they're unlikely to remove or relax their rule, if you have a legitimate need to deliver your message they may offer guidance for how to do so.

Was this helpful? [Send feedback](#).

More Info for Email Admins

This error occurs because a custom mail flow rule has been set up at meredith.onmicrosoft.com that has blocked the original message. This is not a system or service error.

In some cases the sender can change the message so it will no longer trigger the rule. But depending on the rule's conditions it's possible that the only way to deliver the message is to change the rule itself - and only the admin at meredith.onmicrosoft.com can do that. While it's possible the rule is unintentionally flawed or is more strict than the admin intended, it may be that it's working exactly as they want it to.
