This looks like a great resource so far.

Swati, Becca, what do y'all think?

I've attached a screenshot of a page Brian and and I were already working on yesterday with info Becca sent us. I think it's actually a good start towards what the Governor wants on this Team SC page. One page directing people to all of the correct places for help within our cabinet, and a few other outside agencies.

We can finish cleaning this up and go live now, and add info along the way as more services become available.

What do y'all think?
