Message:

I think that the tax assessor in Pickens County should be investigated.

We have been over taxed so new schools could be built all over the county. This has put a serious strain on Senior Citizens who have very limited funds. We are way past the age where we can be employees. This is forcing us to sell the homes we have lived in most of our lives.

We voted NO to this process and was told to Hell with us, they were going

To do this. My daughter has had to help me pay my taxes. Now i understand that they want to jack our taxes up again. My daughter is unable to continue helping me. This give SC and Pickens County a black eye! I would not advise anyone to move here.

I have tried to sell my house but there are so many new houses that no one is interested in buying a house built in 1952.

Dont shuck this off, please. We are suffering here and living in fear of loosing our homes to these uncaring people on the school board. They have no concern for the senior population who had their life savings that was stolen by Carolina Investors. It would be cheaper to die than live in Pickens County.
