Outlaw Cigarettes in the state of South Carolina

Dear Governor Haley,

I am a constituent from Myrtle Beach, South Carolina and I would like to propose a law. My law would be to outlaw the smoking of cigarettes. I think cigarettes should be illegal because they don't only effect the smoker, but they effect the innocent civilians around them. 53,800 people die from second hand smoke every year in America. That number is way too high and would go down tremendously if we banned smoking. I know not everyone would be happy with the law, but it would save many lives and at least reduce the amount of people that smoke. Cigarettes kill more people than marijuana, so if marijuana is illegal, so should cigarettes. The punishment for this crime would be the same punishment for marijuana because it would be counted as a drug.

Most Sincerely,

A handwritten signature in black ink that reads "Bryce Adams". The signature is written in a cursive, flowing style.
