He noted that council had agreed several years ago to place into one bond issue financing not only for a new Law Enforcement Center but for a new multi-purpose agricultural building as well. Councilman Agan addressed this by saying that since council voted on the bond issue, some snags have come up and the county's bonding capacity is not what we thought it was and went on to say that the county would like to use money left over from the bond issue for the law enforcement center to fund the agricultural building.

ABBEVILLE COUNTY COUNCIL  
REGULAR MEETING  
SEPTEMBER 11, 2000  
(CALHOUN FALLS CITY HALL)

PRESENT: Chairman Milford, V. C. Dove, Councilmen Calhoun, Forrester, Agan, Burnett, Gunnells, Director Allen, Attorney Pruitt

The meeting was called to order at 7:30pm with prayer given by Mayor Waller.

First item on the agenda were public hearings on the following:

- a. Request from Bell South to rezone approximately .25 acre located approximately 1000 feet of the east side of Hwy.28 (North Main Street) and Hwy. 28 By-Pass from General Commercial to Light Industrial to allow for a Cellular Tower. Gary Pennington from the Law Firm of Pennington & Lott, L.L.P. addressed council by saying that he represented Crown Castle South as Agent for Bell South Carolinas PCS, L.P. who proposes to construct a Telecommunications Facility consisting of a 300-foot tower on the subject property. He presented documents, maps and testimony by colleagues in favor of the request. It will be a self-supporting lattice type tower and will be constructed to accommodate a minimum of four wireless communications providers. The users of this tower may also install equipment cabinets or buildings at the base of the communications tower to house equipment. The tower will be set back approximately 1100 feet from SC Hwy. 28 and will represent an attempt to cover the northern portion of Abbeville and highways branching out from that area and it would not endanger historic properties. Chairman Milford asked how far the tower was to some ones property which Mr. Pennington replied about 250 feet. He went on to say that if the tower falls, it probably would not fall in a straight way but would crumble, so that it would fall within the 100 by 100 foot area leased for the tower. As for the land use plan the county adopted, he noted that it was not set in stone. The land use plan had indicated that this area would be targeted for residential development and that Communications towers can coexist with residential development. Mr. Pennington went on to talk about the importance of wireless communications to the county and said that more than 100,000 calls were made to 911 from wireless phones every day. He also indicated that the county has allowed zoning changes in the past for other cellular towers and he hinted that there could be legal action against the county if the request were denied.

Councilman Agan stated that he was concerned with the 52.3 mills being enough to generate the funds that we are going to need. He also pointed out that what some council members were calling a surplus of money from last year was not a surplus at all. After further discussion Councilman Agan stated that we had not had a workshop to set the millage and that the Finance Committee had not been called together or any other council member. He felt that there should be a workshop and that the numbers should be gone over in detail. He said he would vote against it, since we are not prepared to know what our finances will be next year. ABBEVILLE COUNTY COUNCIL  
REGULAR MEETING  
OCTOBER 9, 2000  
DONALDS

PRESENT: Chairman Milford, V. C. Dove, Councilmen Agan, Burnett, Forrester, Burnett, Gunnells, Director Allen, Attorney Pruitt

The meeting was called to order at 7:30 pm with prayer.

First item on the agenda was approval of September 25<sup>th</sup> County Council Meeting Minutes. Councilman Agan made a motion to approve minutes that was seconded by Councilman Forrester and passed unanimously.

New Business:

- a. Approval of bills for payment. Councilman Burnett made a motion to approve bills that was seconded by Councilman Forrester and passed unanimously.
- b. Fire Truck proposal for County Fire Commission. Fire Marshall, Jim Sosebee stated that this was an ongoing project since July and they have sent out a bid package that detailed the type of truck they wanted placed in the county and it was a clone of the truck that was placed in Station 11. Seven bid packages were sent out and the bids ranged from \$142,000 a truck up to \$316,000 for a pair, which was approximately \$32,000 difference on the pair. Once the changes were made and corrections, the final bid for each truck was approximately \$152,000. They had projected \$150,000 for each truck, and they scaled it down to that price. Slagel's Fire Equipment out of Columbia was the low bid and met the total specs and the spec package was about 44 pages. They have taken numerous finance plans and the plan that best suits their needs and is the lowest rate they can find was four annual payments that would begin in December 2001 and is BB&T with a total interest charge of about \$34,000 over the four years. This would put them at making payments of about \$84,000 a year, which is in the scope of their budget for the two trucks. Attorney Pruitt stated that we needed to have 1<sup>st</sup> Reading on an ordinance to approve the lease-purchase agreement with BB&T for two fire trucks. Councilman Gunnells made a motion to have 1<sup>st</sup> Reading that was seconded by Councilman Burnett and passed unanimously.
- c. Peter Strickland to address Abbeville County's Hiring Process. Mr. Strickland stated that his wife had applied for a job at the Abbeville County Farm. She did not get the job which went to someone that he felt was less qualified. He noted that they had just moved from New York about four months ago and that his wife had considerable law enforcement experience. She was already working at the county farm and she had applied for the job. He just wanted some answers and wasn't there to step on anybody's toes. Council indicated that they would look into the matter.

- d. Approval of lease agreement with BB&T for LEC kitchen equipment. Director Allen addressed council by saying that this was the route they decided to go with in deciding the budget for the jail. He had Mr. Pruitt to review the lease agreement and he forwarded it to Mr. Theo Dubose. After talking with Mr. Dubose and the Architect, there were two items that would have gone against our borrowing capacity because they are fixtures that are attached to the building and, therefore, would become real estate and they were in the amount of \$5,045. They were the hood and fire protection equipment within the kitchen area so they had to pull them out of the lease agreement. He requested council to enter into an agreement with BB&T for \$104,631.74, with an interest rate of 5.6 for 5 years and a payment schedule broken down. Chairman Milford said that we have got to have the hood but are we not premature in purchasing the rest of the equipment now. Mr. Allen stated that we had agreed to do this and two month ago we accepted from American Equipment Enterprises and they have already ordered the equipment. After further discussion, Councilman Burnett made a motion to have 1<sup>st</sup> Reading to approve the lease agreement of \$104,631.74 with exception of the hood. Motion was seconded by Councilman Agan and passed unanimously. Councilman Agan made a motion that items 11 and 13 fire protection system and range hood in the amount of \$5,045 be paid out of Law Enforcement Funds Motion was seconded by Councilman Burnett and passed unanimously.
  
- e. Mayor Buth Sain and Tracy Carter to discuss Community and High School track. Mayor Sain addressed council by saying that there were three high schools in Abbeville County and all of them have track teams but none of them has a track. He asked for the County's financial assistance in developing a community and high school track in Due West and said that the track would be used by Dixie High School and when not in use would be available for use by the Due West Community. After further discussion, Council welcomed him to come back in January when we will have tax money coming in. Mayor Sain said he would like the County to contribute as much as \$7,000 to the project.
