Subject: Training Resources for Dementia Care Providers and Volunteers

Attachments: ProviderTrainingResources 2015.docx

---

Dear ADSSP and ADI-SSS grantees and collaborative partners,

The National Alzheimer's and Dementia Resource Center is pleased to provide you with a new resource, Training Resources Compendium for Dementia Care Providers and Volunteers. The document is attached for your reference.

About the document:

Training is an important component for achieving dementia capability in long-term services and supports (LTSS) systems. Information and referral/assistance staff, options counselors, care managers, home care providers, other professionals, and volunteers can be trained on how to recognize and understand the unique needs of persons with dementia and their caregivers. The resources are free of charge and come from a variety of sources including government, academia, Alzheimer's disease centers, geriatric workforce education programs, and others. Access to the resources—either online or through the Resource Center—is noted in each of the descriptions. Other Related Resources sections include supplemental materials that can be used to extend the learning experience.

Thank you,

National Alzheimer's and Dementia Resource Center Team
