Columbia, SC 29201

Dear Governor Haley,

As a voter, taxpaying constituent, and poker enthusiast, I am writing to ask you to support my right to play poker on the Internet. Licensing by qualified bodies would ensure that age verification measures are implemented, consumer protections are provided, and protections for those with excessive gaming habits are mandated.

Poker is an enjoyable game of skill, like golfing or chess. Poker is also a great American pastime. Presidents, generals, Supreme Court Justices, members of Congress, and Americans from all walks of life have enjoyed this game of skill for over 150 years. It is an honorable game that millions of Americans are proud to play.

If you support generating tax revenue WITHOUT increasing taxes and creating domestic jobs rather than outsourcing them, you will support the licensing and regulation of online poker. I hope that I, along with my over one million fellow Poker Players Alliance members, can count on your support.

Thank you for your consideration.

Sincerely,  
Gina Fanning
