Subject: Adult Ed Letter

---

Keep paragraphs 1 and 4 as they are, except on line 1, make it "Adult Education" instead of "Adult education."

Strike paragraphs 2 and 3 and insert:

Our Adult Education programs provide critical skills to the unemployed and underemployed who are striving to develop the expertise they need, so that they can find jobs with which they can support themselves and their families. For this reason, South Carolina is now participating in a pilot project with ACT, called the Certified Work Ready Communities (CWRC) initiative. This program will help match businesses' vacant positions with potential candidates who have the capacity to do that work. Through CWRC, our Adult Education program will also be able to identify individuals who need additional training in order to be viable applicants for future positions. This initiative will improve workforce education in South Carolina, and will help us attract and retain businesses.
