Subject: Step up and protect clean water and wildlife

Feb 8, 2016

Governor Nikki Haley
Office of the Governor
1205 Pendleton Street
Columbia, SC 29201

Dear Governor Haley,

I expect you to do everything in your power to protect wildlife habitat and clean water.

From attacks in Congress on the wildlife-friendly Clean Water Rule, to recent decisions by state leaders allowing the release of toxic wastewater into rivers, to agencies failing to protect watersheds from contaminated run-off--America's waters have never been at greater risk!

You have the tools you need in the Clean Water Act, Clean Water Rule and other existing laws for protecting habitat and clean water.

I am calling on you to stand strong on behalf of wildlife and clean water--and not give way to interests with ties to the agricultural and fossil fuel industries that want basic clean water protections halted or pushed aside.

Thank you.

Sincerely,

Mr. William McCullough
