Message:

Mrs. Haley. I am sending this on behalf of my step-son, Robert Tracey Evans. Tracey recently was released from Spartanburg County Detention on August 4, 2015. Before he was released, he gave his heart and soul to Jesus Christ due to a minister having services there on Sunday July 19, 2015. This was no "Jail House Religion"; He actually came out a totally changed person. We are so proud of him. He is no longer on Meth or any other drug. God completely changed his life. Since being released, we, his Dad and I, have been trying to help him get every thing back on track. He had a doctors appointment in August and got confirmation that he has a slipped disk in his lower back and thanks to Access Health, he is going to get the services needed for that. Long story short, he needs aggressive dental work, all remaining teeth pulled and a set of dentures. His dad and I have spent all we can and I can't find a dentist willing and able to do the dental work, and pay little to none for the work. We are officially on our last rope. He is getting discouraged due to all the closed doors. His ex-wife signed off on the child support due to her, the kids are grown now, so he can get his license back. We have been calling DSS Special Collections. They referred us to a Mr. Robby Kyner, an employee with them for three (3) weeks, left several messages with absolutely no response. Last week I started asking for his, Mr. Kyner's supervisor, and one thing after another, we were not given the chance to even leave a message for him or her. Excuses of she is on vacation, or she is out of the office. It is so aggravating. Please help.  
Sincerely,

Jackie Evans-Please note, I am not just looking for freebies, I just need some help getting the dental work he needs and his drivers license back.
