Washington, SC 20515

I am a retired Air Force veterans. Recently moved from Chapin, SC to Indian Land, SC. WE here in Indian Land need a US Post Office. We have a name and zip code 29707. I understand there are about 10,000 residents living in the Indian Land area. Fact: 29707 is assigned to Indian Land but operates out of Fort Mill, SC Post Officer 29715. There is a gas station on highway 521 that takes packages when not busy with gas customers. Local grocery stores sell stamps, costing 50 cents more for a book of 20.

During the Christmas holiday I went to mail a package at Fort Mill Post Office. I stood in line about 20 minutes behind about 15 others. Since then I went there to mail another package and there were 13 in line, I waiting while only one clerk worked behind the counter, a he, he answer phone, and spoke with other Post Office workers, guess he was a supervisor.

WE NEED: we need a post office on highway 521. It need not upset what Fort Mill Post Office does with rural route. Indian Land post office could be located in a small building, maybe with box rentals for income. Just sell stamps. One employee with a part time helper.

WE need it now, I am sure there is a ton of regulations to go through, unions to consult. But if you want to help the people you represent get us a Post Office, today is better than tomorrow. I WILL work there for free to hold down cost, I have one year experience as a postal worker in 1970 in Lynchburg, VA.

Please don't let special interest get involved, just get us a post office.

William A Chick
