I have seen some pictures online of the camper cabins at dreher island. Now, I can't seem to locate the pictures online. Can you give me a link?

Thank you so much! We have one rented for this weekend, and I need a visual to let me know how to pack for our stay.

One more thing. The State Park website doesn't list fishing bait/tackle rental , but another website does. So, does the state park itself at Dreher Island rent fishing rods/bait?

Yes, Dreher Island State Park is part of SCDNR's tackle loaner program! You can borrow a rod & reel and tackle to fish with from the park store. Thanks!
