Dear Governor on

the bridge there should be plate-steel welded on the top of the plates with those square bumps on it so ~~on~~ cars can get traction. The plates should have a space between them so water can go thru. There should be a step welded on the top of the sides so people can stand on it and look and dive off and a fish-and what ever. ^{12"}wide

Please put a ~~and~~ notice in the classified section of the state's main newspaper: Wanted: Ideas to stop poverty in S.C. and a phone number

Have you ever considered running for President of the U.S., People love you and I know you would give the other side some quality competition. Did you know good luck ~~isn't~~ something that older people do but a science. It took me ~~about~~ 3 years to figure that out. In the future they will be a diploma

Please put a ~~ad~~ ad in the classified section of on it.
the newspaper. Wanted: Ideas to make ~~car~~ cars
and trucks ~~and~~ apt Roads
and bridges safer in S.C.
and a phone #.

~~Love~~ Love you

Sincerely
Michael May
