The Honorable Nikki R. Haley
Office of the Governor
1205 Pendleton Street
Columbia, South Carolina 29201

Dear Governor,

Several times each year I enjoy my road trips from my home in Charlotte through your lovely state to visit family in Florida.

I was pleased to see the road improvements being done on Interstate 26 and hope one day we all can see the widening of I-95.

My reason for writing is to ask you to please do something with the vending operations located in the South Carolina rest areas. There has to be a better solution than forcing people to get on their knees to stretch and reach through the bars to retrieve their purchase. Fortunately I am not handicapped as if I was I would not be able to use the vending machines.

I appreciate that the operators of the vending machines are concerned about thefts but they also should be concerned about safety and comfort of consumers that want to utilize the machines. Perhaps the bars could be unlocked during daylight hours to allow easy access during the prime travel time.

Thank you for listening & continues success.

Respectfully

A handwritten signature in black ink that reads "Steve Grew". The signature is written in a cursive style with a long, sweeping underline.
