...Will one of y'all please send over background - for use in a hand out and press release - regarding the significance of the infrastructure/transportation funds in the state budget? (Dollar figures, where the funding goes, historical context, how it stacks up to what we sought in our executive budget and any other relevant information you believe the governor may want to highlight, etc. If possible, we'd like to have this in draft form by 4 PM Sunday. Let me know of any issues.
