Texas overhauls open data portal, prioritizes commonly requested info

The state's IT department is unveiling a new look for its open data offerings and putting a premium on proactively making data available that was once only accessible via a public records request.

Has Pokemon Go spawned a new way of boosting civic engagement?

Commentary: Last month 9,000 people took to San Francisco's streets to hunt for the mythical creatures from the smartphone game. The city's CIO suggests governments find a way to put that engagement to use.
