

Dear Governor,

Valor Media, parent company of West Coast Publishing, is proud to present our latest product. We've created the first and only app that contains all military installations in the United States. This free app is for use by all active duty and retired military within your state. I have enclosed a copy of our Washington state military resource directory for your review. We have produced this free directory for 26 years and now we've taken this outstanding resource and created the most revolutionary phone and tablet app ever for our military. Please review pages 4-12 as an example of the letters from our governor as well as mayors from surrounding communities to welcome all our military. We would appreciate a welcome letter from your office. For your convenience, please submit your letter via email to my Office Manager, Shelly Hals at shelly@wamilitary.com. Our app will be released in early 2015 and we would appreciate the letter at your earliest convenience. We thank you in advance for your cooperation and contribution to this app. If you or any of your staff have any questions or concerns, please feel free to contact Shelly or myself at 253-503-7308.

Sincerely,

Kenneth L. Marsh, Jr.
President
