Hi Chaney

Wanted you to have the updated SolarCity press release that will go out tomorrow. The CEO of the company is doing an interview with Jon McDermott of the p&c today which will run either tomorrow or Thursday in the paper. The new facility will open in goose creek at the end of the month. As I mentioned in yesterday's note we would love a quote from the Gov like she did for sunrun or if she tweets about it like she does with many announcements.

Thanks
Ben
