To Whom It May Concern:

I would like to recommend Matt Mancini as a candidate for employment. Although I have known him for many years, my professional involvement with Matt began in 2009 when he was hired by my law firm as a Legal Assistant. He remained in that position through 2011. During those two years, Matt was responsible for maintaining task records for all attorneys of the firm, document management, courthouse and client correspondence, and any other tasks that needed to be done from time to time.

Matt is able to work independently, and also works well with and for others. He performed all tasks given to him in an enthusiastic and timely manner. Matt has good communication skills. Matt was eager to learn more about legal practices. During his time with our law firm he of course grew in age and experience and capacity.

I feel confident that Matt Mancini has the intelligence, motivation and personality to be an asset to any professional organization.

Sincerely,

G. William McCarthy, Jr.
