Subject: Obama and his brotherhood.

Folks, unless we start another revolution (which we should not rule out), social media, email, contacting your representatives, contacting the press, and word of mouth are the best tools we have to let the country know just how bad things are and just how devious Obama and this administration is. He has done more to bring this country to its knees during his time in office, especially in the last two and a half years. Think about it, he has nothing to loose now and everything to gain. He and his administration has to be EXPOSED !!!!!!! THEY ARE THE MUSLIM BROTHER HOOD, THEY ARE THE TERRORIST. The future of our country depends on it. And PLEASE, don't ask me how do we do that. I just explained to you how we do it. We type, make calls, email, and we speak the TRUTH. !!!!!!!!!!!!!!! Get your heads out of the sand and grow a pair and exercise your right of FREEDOM OF SPEECH. Throw political correctness out of the window. We are NO LONGER a country of racism except what Obama, his administration, Sharpton, and Holder have brought back in. That is their ploy to make us fight against ourselves while they take our country away from us while we are not paying attention. SO, PAY ATTENTION. !!!!! Look at all the things he has done to us. He just vetoed the keystone pipeline that would have created jobs and keep oil prices down, and that's just a drop in the bucket compared to all the other scandals he and the administration have perpetrated on our country. That should scare the hell out of you. PLEASE, PLEASE, do your part, do what ever you can to spread this message far and wide. THE PEOPLE OF THIS COUNTRY HAVE A RIGHT TO KNOW. THE TRUTH WILL SET THIS COUNTRY FREE AGAIN. !!!!!!!!!!!!!!!!!!!!!!!
