Subject: RE: Swapping state funds between object codes

Carol,

It appears from the analysis that you sent to Greg that we have enough in personal services to cover us. It looks like we will not have to move funds from operating. I think that we just need to move between 0158 and 0171.

Marcia, are y'all going to be needing more personal services and less operating budget in state funds? The reason I am asking is I wanted to see if we could do some swapping between divisions. Such as, BPS has too much personal services and not enough other operating in state funds, etc.
