

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

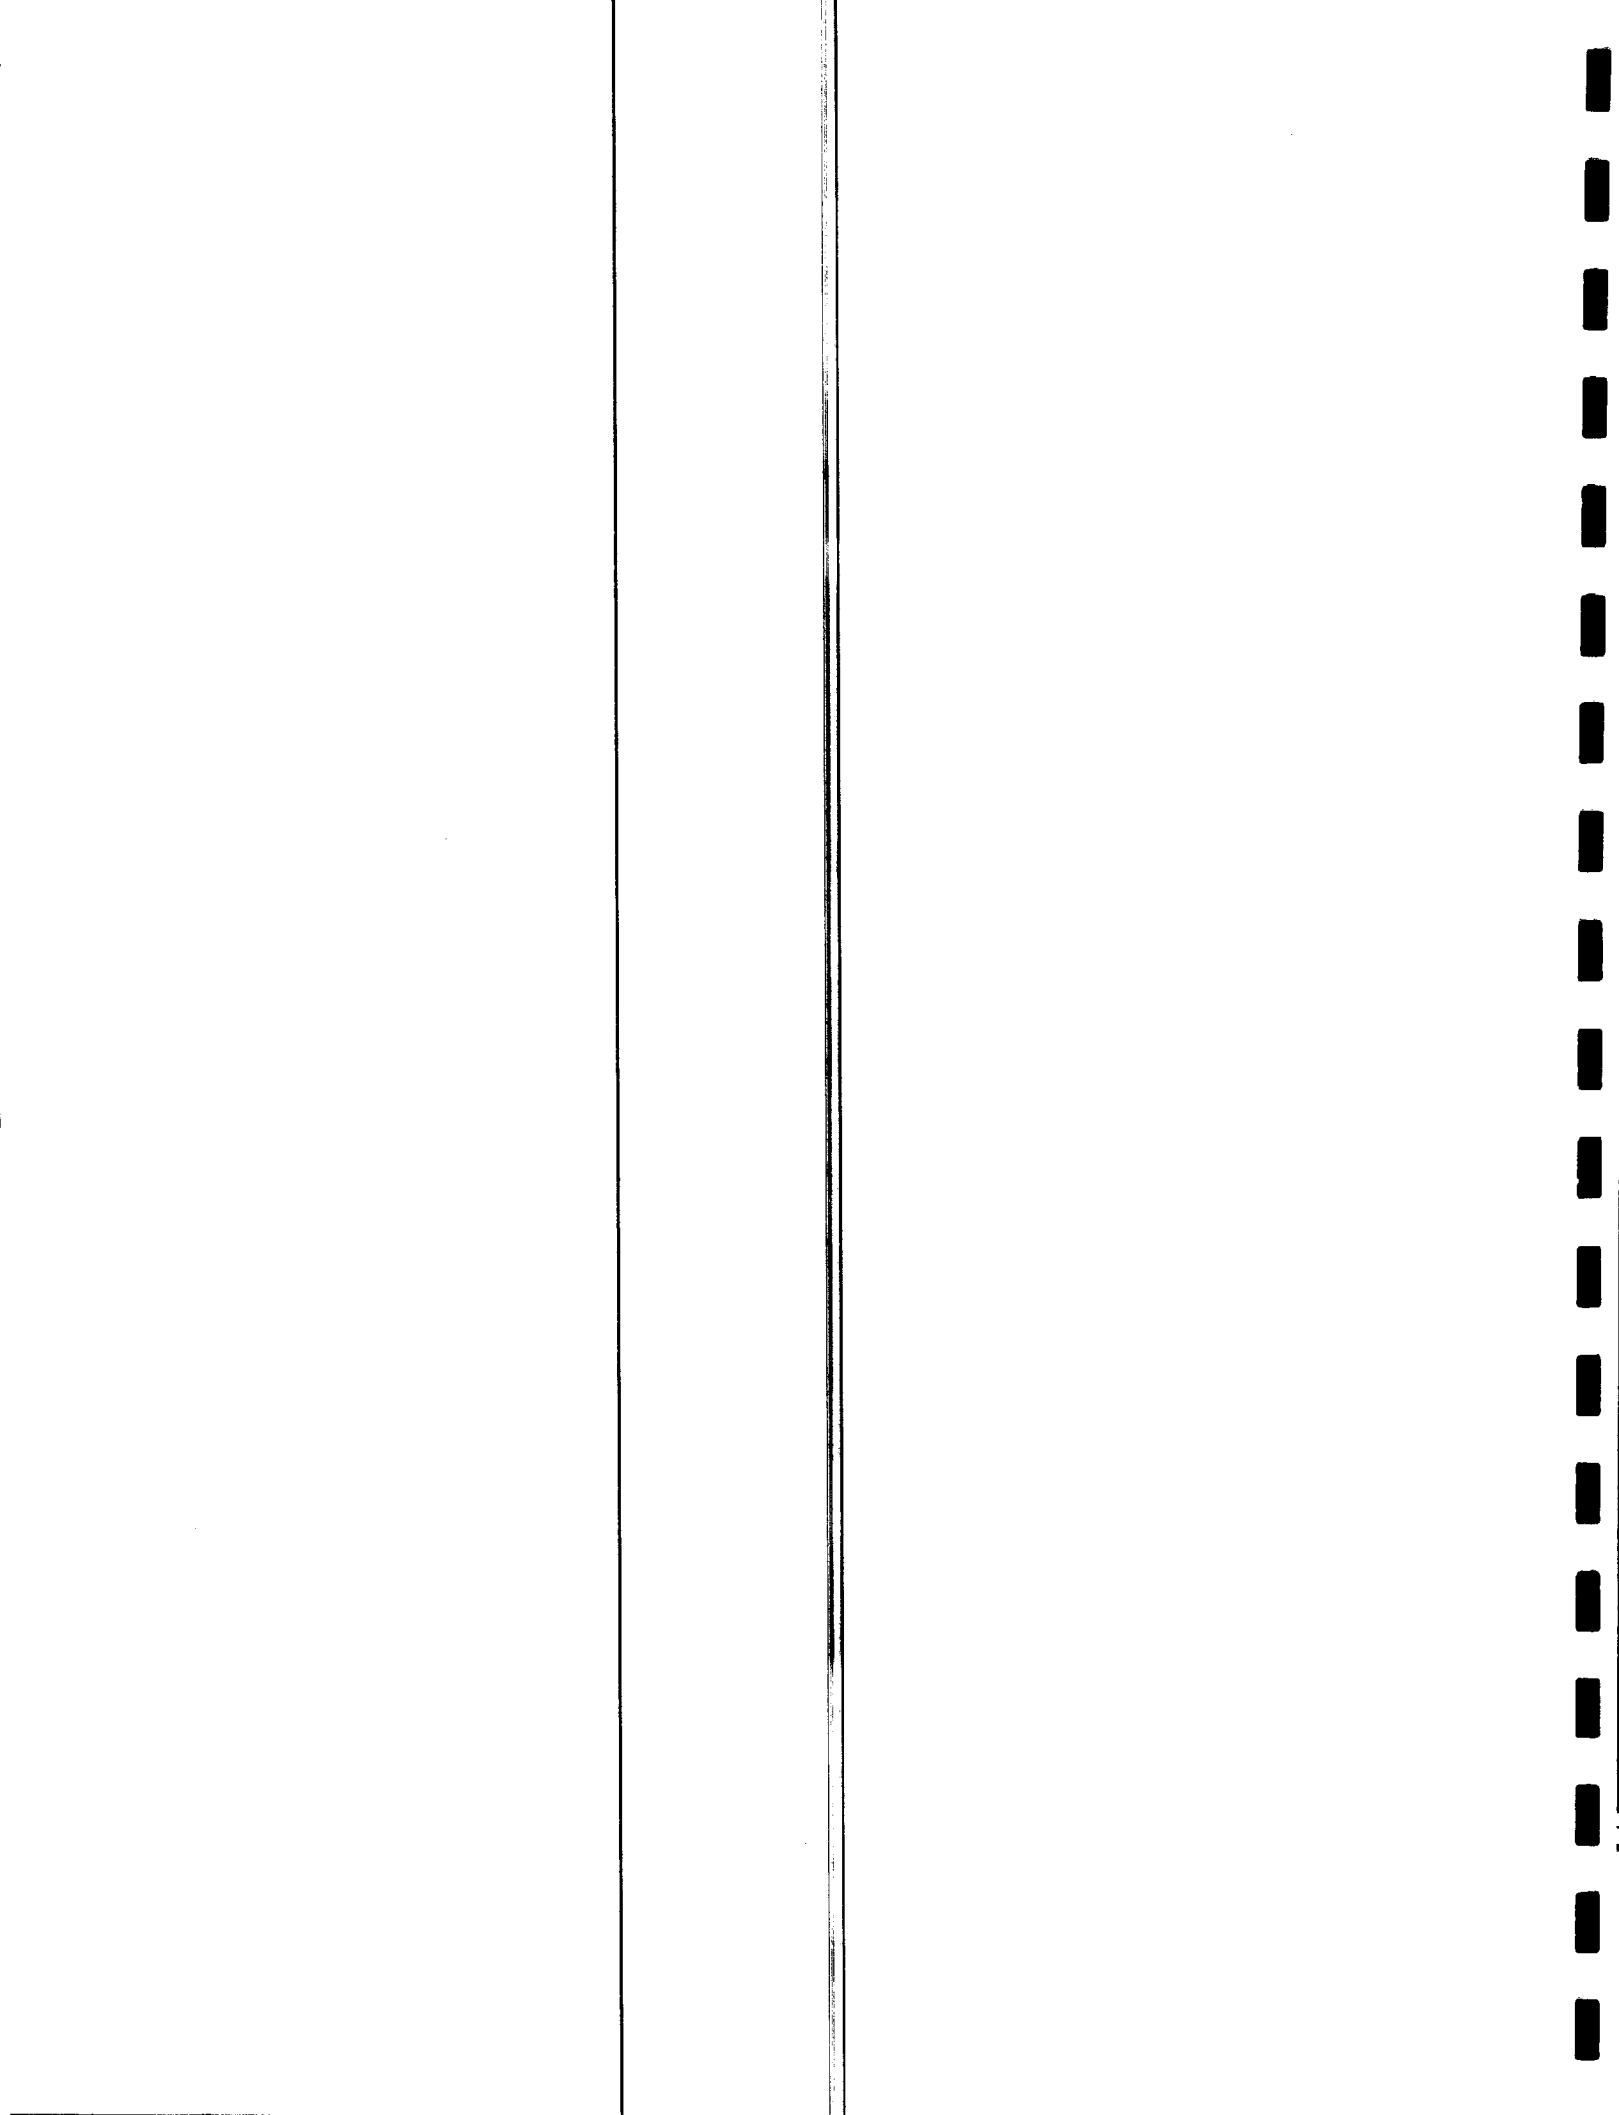

Dear Governor Haley:

The state of South Carolina is having the Republican primary election on February 20, 2016 and the Democratic primary election on February 27, 2016.

The question that confronts the citizens of South Carolina and the entire nation is who should become the next President of the United States.

While there are many candidates running for the office of President, none have the qualifications of our presidential candidate. And that is why you are receiving this letter and the attached material.

The attached material will inform you about intelligent life that exists beyond the Earth. They have traveled to our planet to assist us. As bizarre as that might seem. Their mission is to transform the Earth into a world without wars were mankind lives in peace. Advanced methods in economics will produce new economic systems

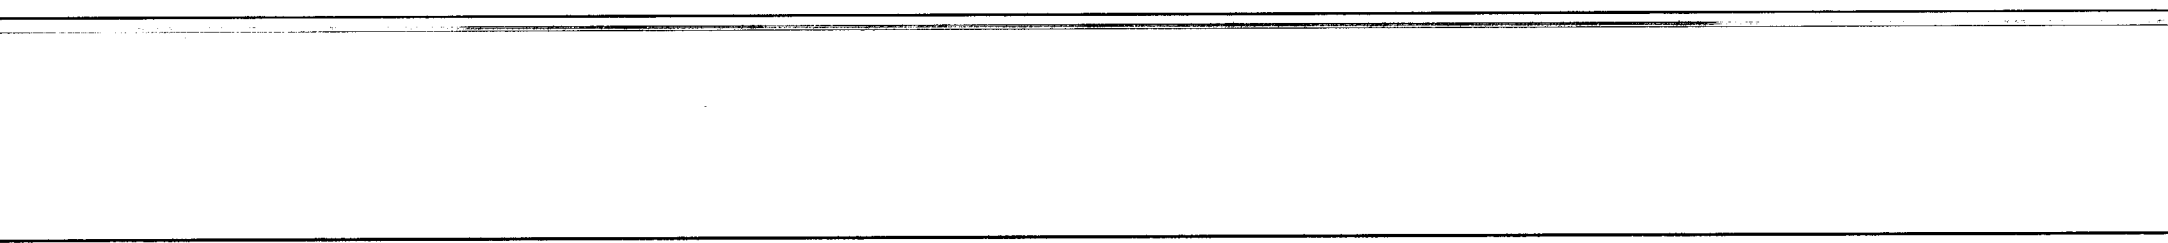

that will uplift humanity out of extreme poverty and create a world where middle class civilizations are abundant throughout the globe. A World Government will be established to administer the planet Earth. Human civilizations on this planet are not capable of achieving global harmony, administering the planet's resources and managing the affairs of the planet's human populations. Certain cataclysmic events are forthcoming if changes are not implemented.

Please consider the following and then read the attached information.

It is imperative that our presidential candidate succeed in winning the primary elections in as many states as possible in order to obtain the presidency of the United States. We can easily win the general election in November 2016 but we wish to shorten the process or gain recognition in the primary elections process.

In order to win the primary election in every state our Independent Presidential Candidate must have his name on the ballot in each state and he must have access to the television and newspaper media in each state. His limitless innovative solutions and remarkable economic concepts in advanced economics will win every election. The problem to overcome is getting his name on the ballot in each state and getting access to the television media in each state. This can be accomplished by informing the Governor of each state and the state officials that there is an urgent need to provide global leadership that will transform this planet and provide a better world. If the planet Earth continues on its present course this

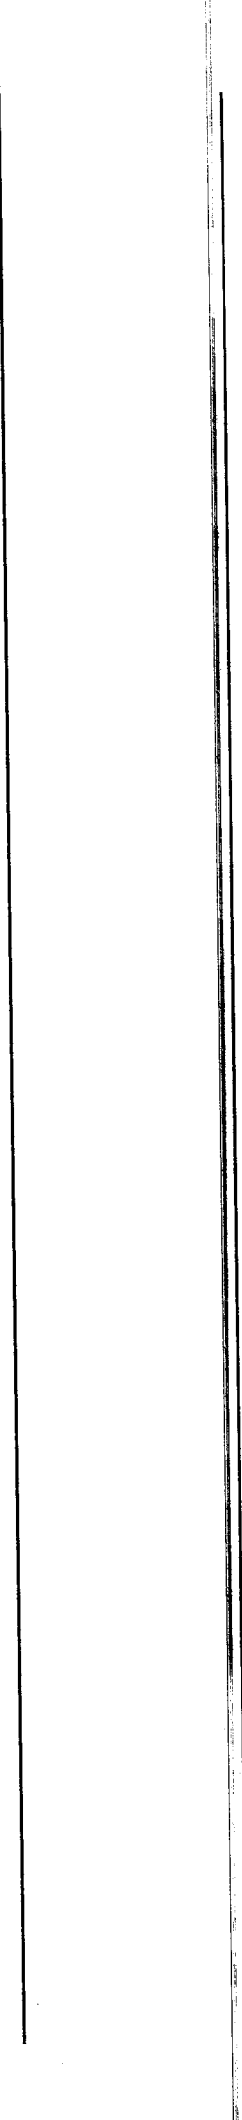

planet could become uninhabitable and the human species will diminish to a smaller population.

Please consider the possibilities and help if you can.

Send correspondence to the address below.

# NEW HAMPSHIRE DEPARTMENT OF STATE

William M. Gardner  
*Secretary of State*

Robert P. Ambrose  
*Senior Deputy Secretary of State*  
David M. Scanlan  
*Deputy Secretary of State*

January 11, 2016

Robert Wollner

Dear Mr. Wollner:

We have received your letter indicating that you will be a write-in candidate for President of the United States on the New Hampshire Presidential Primary Ballot.

There are no fees or forms required to run a write-in campaign. All votes for you will be tallied at the local level on election night then sent to this office for a state-wide tally. All results will be on our website [www.sos.nh.gov](http://www.sos.nh.gov). Please note that it may be a week or so before write-in results are available.

Sincerely,

A handwritten signature in cursive script that reads "Karen Ladd".

# UNITED STATES GOVERNMENT

## Department of National Security

Intelligence and National Defense

*Washington D.C.*

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

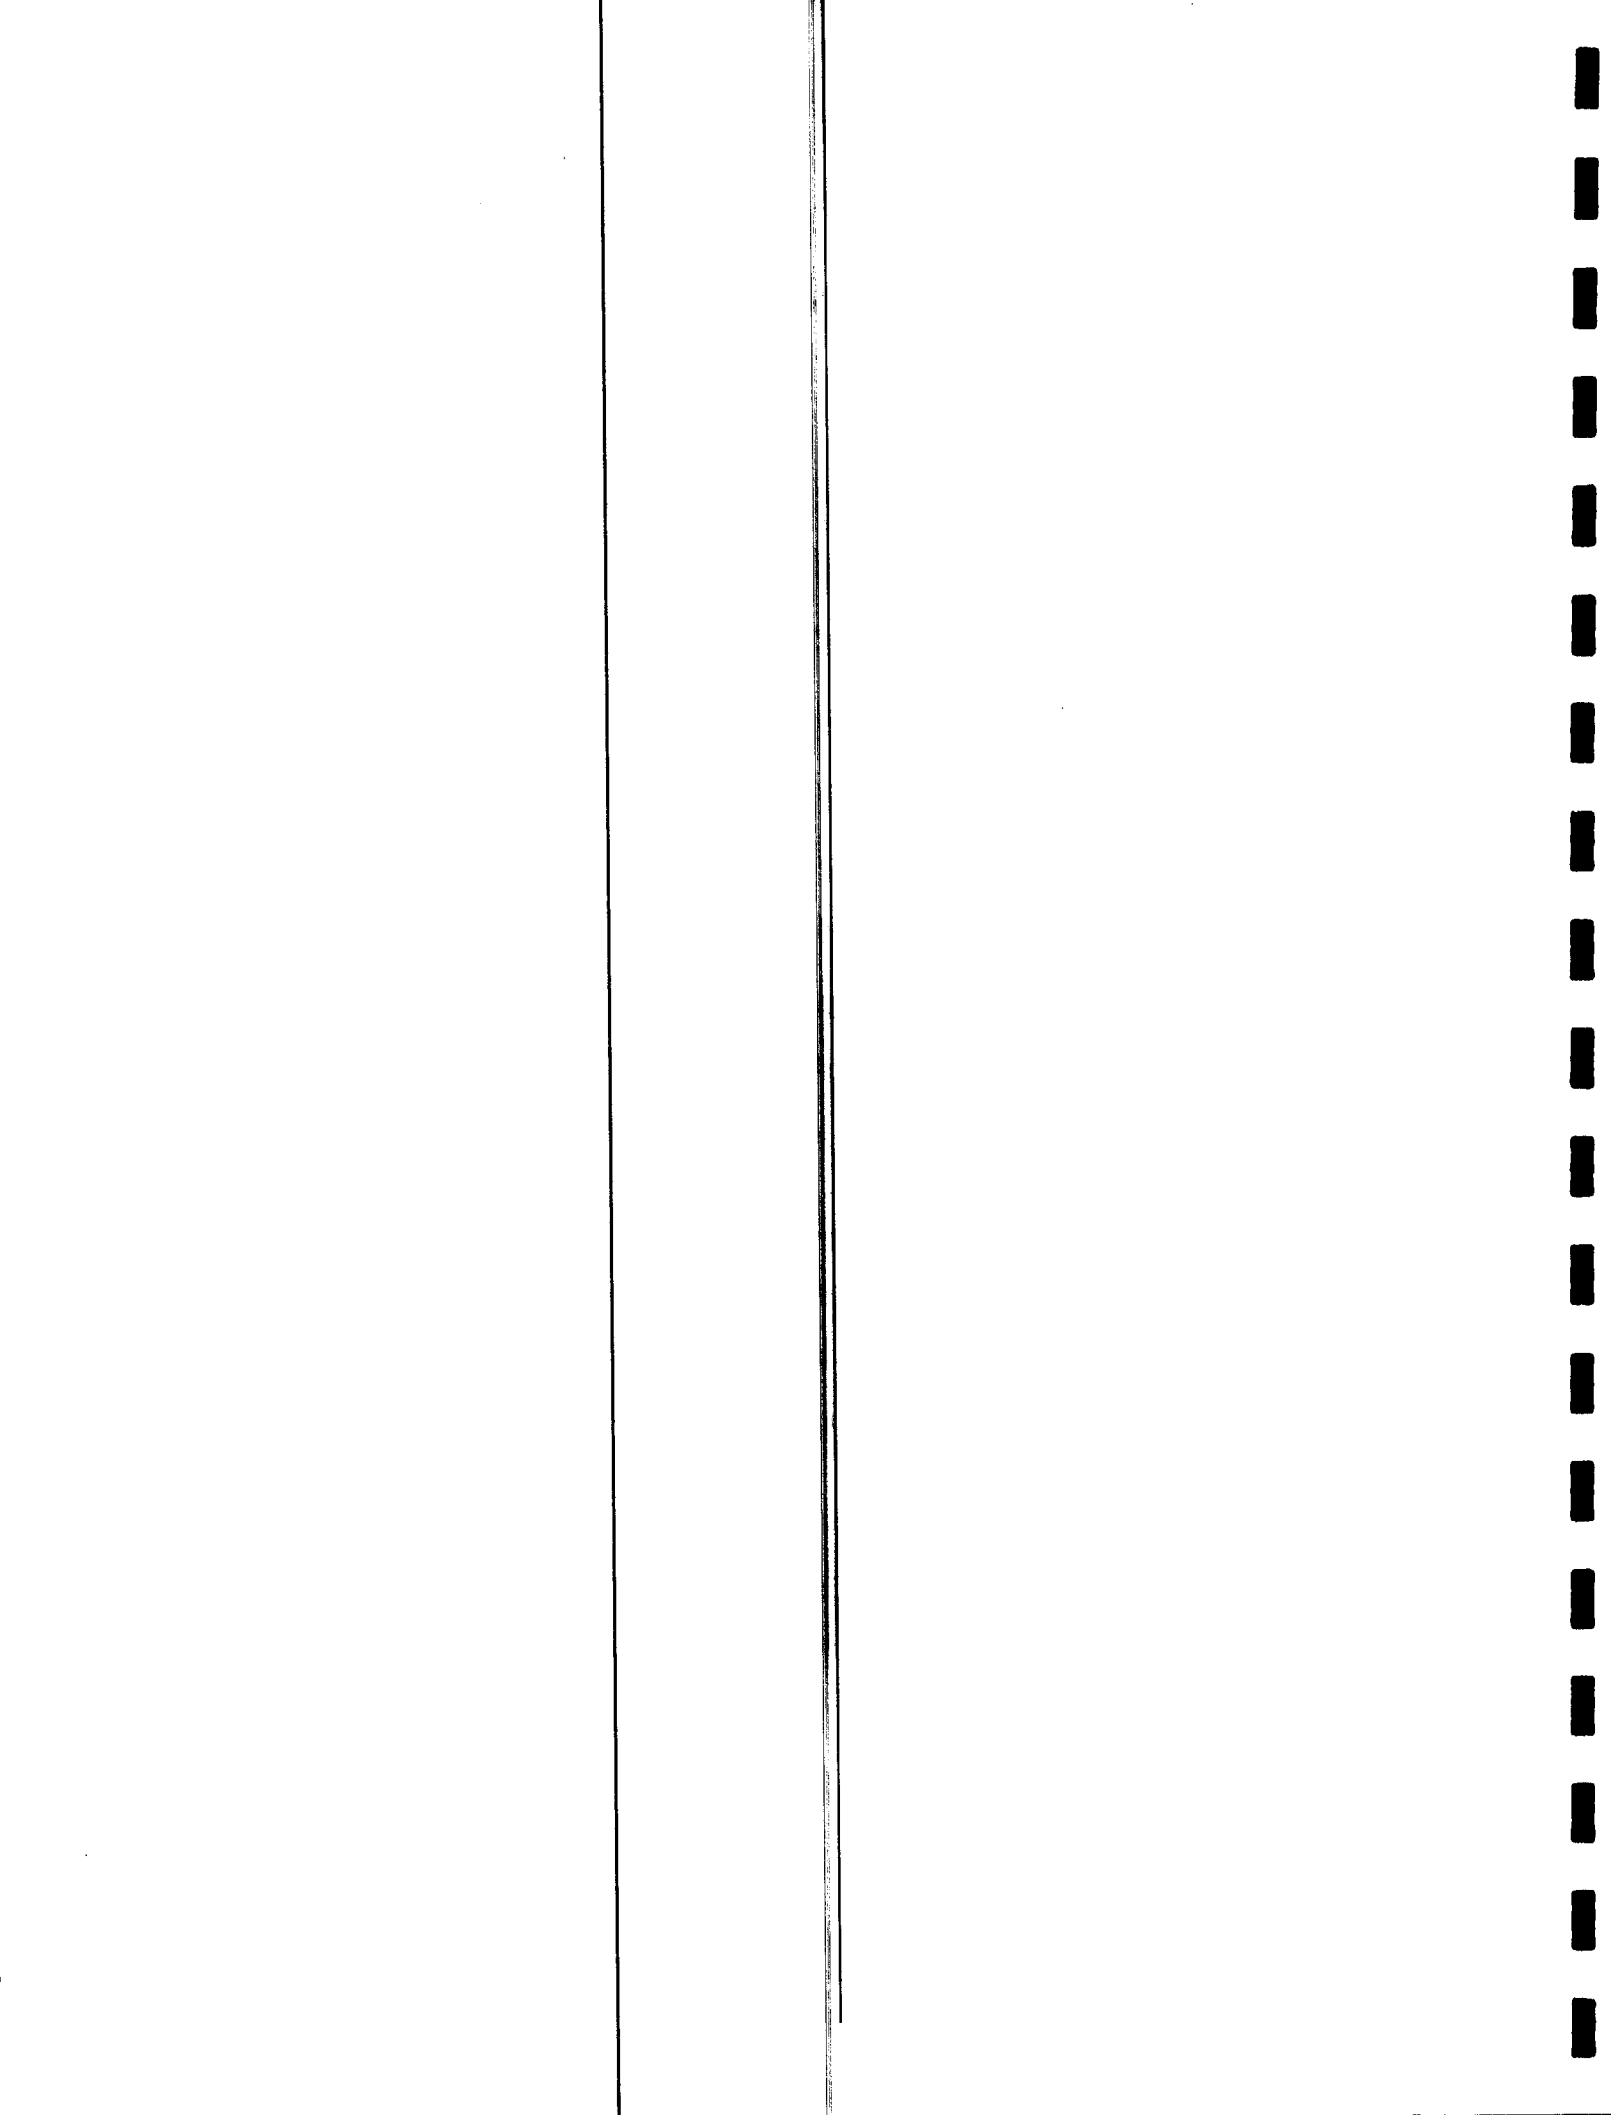

Dear Governor Haley:

You are being contacted regarding a matter of national security.

In order to safeguard the nation and provide assurance that the nation's safety is ensured the Department of Defense and the Department of Homeland Security are informed and well-advised and the nation is safe from danger, attack or harm.

Recently the National Space Agency discovered the existence of a spacecraft not far from the Earth that was observing our planet. The Air Force was notified and was able to establish a weak, limited communication with the spacecraft. NASA and the astronauts on the international space station were observing the spacecraft.

Through a faint communication with the spacecraft the Air Force technicians learned the spacecraft's mission. The spacecraft is from a distant solar system in our galaxy. The information received reports that they are seeking out and mapping the locations of life supporting planets in this region of the galaxy.

Information received from the spacecraft reveals that the Sun in their planet's solar system has reached extinction level. When a Sun reaches extinction level life can no longer exist in that solar system. Spacecraft from their planet are searching through the galaxy looking for life supporting planets to move their human populations to. Their planet is now imperiled from the threat of their Sun's extinction.

In order to continue their human civilization the inhabitants of their planet are seeking out new worlds. Fleets of spaceships are roaming the galaxy mapping the locations of life supporting planets. They must abandon their planet or they will perish with the extinction of their Sun. In their search through this section of the galaxy one of their spaceships discovered the planet Earth.

Before the spaceship left our solar system it transmitted us information about their planet and their effort to find a new world to live on. The enclosed booklet reveals that information. A copy is being sent to you along with this letter. Please be discreet about this sensitive information. It is restricted and confidential.

One day our Sun's nuclear fuel supply will become exhausted too and we will have to seek out a new planet to move to. In about five billion years. Because a Sun's nuclear fuel supply becomes exhausted over time, human civilizations in the universe are forever moving.

When a Sun expires it will become one of three things. A white dwarf, the Sun no longer produces heat and light. A red giant, the Sun swells up and becomes giant in size, all the planets in the solar system are vaporized. A supernova, the Sun will either explode or

will collapse in upon itself and become a black hole with enormous gravity that sucks in everything around it.

Sincerely,

H.D.P., Director  
Department of National Security

cc. Department of Defense  
Department of Homeland Security

The planet Earth is too small of a planet to hold our large human population. We decided to seed the planet Earth with humans. Human seeding, as it is called, consists of leaving small bands of humans on planets that are void of human life. We seeded the Earth with various kinds of humans. Humans who are black (Africans), humans who are white (Caucasians), humans who are yellowish (Orientals). Small bands of humans from our planet were left on the Earth to grow and develop and to become a global human enterprise. And it worked. The Earth is now abundantly populated with the human species.

## **THE HUMAN SEEDING PROGRAM ENDS**

After seeding 1000 planets with humans and transporting most of our planet's population to the new world in another solar system, the human seeding program ended.

## **TIME PASSES ON OUR NEW WORLD**

As time passed on our new world, in our new solar system, our people began to wonder what became of our people who were part of the human seeding program. Did they survive. What sort of a world evolved. Was the human seeding program a success or a failure. We contemplated the many circumstances that could develop from human seeding. Considering human characteristics and the darkside of man, his capacity for warfare, brutality, violence and evil, we considered if returning to each planet to look in on them would be a possibility. It was decided that 100 fleets of starships would make the journey to look in on each

planet and report their circumstances. The fleets of starships departed on their journey.

## **THE STARSHIPS RETURN WITH THEIR FINDINGS**

### **THEIR FINDINGS WERE AS FOLLOWS**

On many of the planets no humans were found. The human seeding program had failed. Perhaps they did not survive the hostile environment of the planet. Or perhaps they were killed by savage hungry animals. Possibly disease or starvation took them.

On other planets human civilizations were discovered that had evolved and prospered. The human seeding program was a success on those planets. We had pride in our accomplishment.

On other planets man's negative characteristics prevailed. Terrifying and frightening circumstances were evident. An evil world had evolved where the darkside of man spawned morbid behavior. For example. See the Planetary Survey Report for the planet Earth that follows.

## **HUMAN SEEDING PROGRAM**

### **PLANETARY SURVEY REPORT – PLANET NUMBER 742**

The facts of this Planetary Survey Report show that planet number 742 (also known as Earth) of the planetary Human Seeding Program, has evolved in a negative, adverse and unsatisfactory manner. Constant wars and bloody human combat on the Earth have caused massive loss of human life. Human civilizations have been unable to resolve their differences in a peaceful manner. Global starvation, hunger and

disease are apparent. Inadequate economic systems are functioning. Human greed and indifference are rampant. Human civilizations consist of hundreds of different languages, currencies and customs. There is no unity or harmonious structure. The planet consists of individual sovereign nations. There is no global governing body to maintain universal law and order. Sovereign nations are permitted to engage in open warfare and commit bloody human massacre. Evil men are permitted to gain control of sovereign nations and inflict monstrous and horrifying acts upon its citizens, while the world's leaders and other nations ignore and disregard such occurrences. Crime, drug usage, child abuse, alcohol overindulgence and other negative aspects are the consequences of societies that are rooted in greed and self-interest, with violence, prejudice and wickedness. Many of the planet's cities consist of shocking poverty with living conditions that are unimaginable. Mankind has not advanced in new and beneficial economic systems that will provide worldwide prosperity. Poverty is rampant in slums, ghettos and other human quarters. The planet Earth, (planet number 742) is a demonstration of a failed human civilization that has evolved in a negative, unfavorable manner where man's negative characteristics prevail and flourish.

## **THE HUMAN SEEDING PROGRAM IS REACTIVATED**

It was determined that the Human Seeding Program would be reactivated. The following measures would be undertaken.

## PLANETS WHERE NO HUMAN LIFE WAS FOUND

It was determined that a second attempt at human seeding would be undertaken on planets where no human life was found. Better methods would be provided to ensure their survival.

## PLANETS WHERE PROSPEROUS, SUCCESSFUL HUMAN CIVILIZATIONS WERE FOUND

Planets where human civilizations were discovered that had evolved in a prosperous and successful manner, those planets would be left alone to continue evolving on their own.

## PLANETS THAT EVOLVED IN A NEGATIVE MANNER

Planets that evolved in a negative manner would receive assistance. Starships would journey to those planets and help them with their evolution process. Because the inhabitants of those planets are, our own people, people from our planet who travel to those planets on starships can walk amongst them without being noticed. They look like us and we look like them.

## **A STARSHIP LEAVES FOR THE PLANET EARTH**

A starship is readied for the journey to the planet Earth. Leaving its spaceport, the starship begins its journey at 60 times the speed of light.

## **THE STARSHIP ARRIVES AT THE PLANET EARTH**

Upon arriving at the planet Earth the starship enters the Earth's atmosphere at night to avoid being seen. The starship will be concealed at the bottom of the ocean in a deep ocean basin where the water pressure is so great that no ocean craft on Earth could reach that depth. After dropping the starship's crew off near a large city, the starship travels on autopilot to the assigned deep ocean basin and remains stationed there.

## **ESTABLISH ORDINARY LIVES**

The starship's crew proceeds into the city on foot and spends the night at the Salvation Army shelter for the homeless. There they get a bed and a good meal. The next day they begin their lives as ordinary people by looking for work, establishing a residence and blending in with ordinary people. Since they look like other people on the Earth, no one can tell the difference. The starship's crew are no better off than homeless people, since they have no money and no belongings. The job search efforts that the starship's crew undertake yields them steady work and an income. They are ordinary people living ordinary lives. No one knows they are from another planet and have traveled here on a starship.

**NOTE:** The time that the starship crew arrived at the planet Earth is not the present time. They arrived in the year 1846. In the year 1846 things were quite different than they are today. The starship's crew arrived at a time when human civilizations on the Earth were

and plentiful in the human mind that led to substantial human progress, over a one hundred year period.

The inhabitants of the planet Earth are not aware that human civilizations do not remain in a primitive state for thousands of years, then all of a sudden, remarkable advancement occurs rapidly and swiftly and in only one hundred years time their civilization is hurled into a highly advanced futuristic world. That does not happen. Then how did the planet Earth advance so rapidly in science and technology in only 100 years?

## **THE PLANET EARTH TAKES A GIANT LEAP INTO THE FUTURE. THE CIVILIZATIONS OF EARTH ARE RAPIDLY ACCELERATED IN SCIENCE AND TECHNOLOGY**

The crew of the starship arrived at the planet Earth in the year 1846. What they discovered was a world that was primitive and backward. Living conditions were crude. The following story tells how they transformed the Earth and accelerated it in science and technology. Why would they help people living on another planet, on another world. The reason is logical. Our human civilization was spawned from their Human Seeding Program. You might say, we are relatives. A human connection exists between us. They were sent here to help us. Helping us to advance is part of their mission.

# **THE PLANET EARTH IS ACCELERATED IN SCIENCE AND TECHNOLOGY**

## **SUBLIMINAL MESSAGES**

In the 1950s the phenomena of Subliminal Messages was discovered and developed. Subliminal (dictionary definition) existing or functioning below the threshold of consciousness.

In the 1950s scientists and researchers discovered that the human subconscious mind can receive and comprehend information subliminally. The human conscious mind is very slow at comprehending information. The human subconscious mind (sometimes called the unconscious mind) has remarkable abilities for receiving and comprehending information at enormous speeds.

The phenomena of Subliminal Messages was tested in a movie theater. During the movie the word Pop Corn was flashed across the screen. The speed at which the word Pop Corn was flashed on the screen was so fast that the human conscious mind could not read it, or even see it. But the human subconscious mind, which can read and comprehend information at great speeds, picked up the word Pop Corn being flashed on the screen. By continually flashing the word Pop Corn on the screen they were programing the human subconscious minds in the movie theater. Pop corn sales were astronomical. They sold so much pop corn that they ran out of pop corn.

The United States Congress enacted laws prohibiting Subliminal Messages from being used on television, on the radio, in motion

picture theaters and other such places. The United States Congress allowed Subliminal Messages to be used for personal purposes. That allowed private companies to make cassette tapes that contained subliminal messages. Millions of subliminal messages were embedded on cassette tapes that programed the human subconscious mind. The subliminal messages were effective for most people. People's subconscious minds were programmed using the cassette tapes that contained subliminal messages. The cassette tapes contained millions of subliminal messages that helped people with their personal problems. Improved self-confidence, weight reduction, kick the smoking habit, improve your grades in school. The subliminal cassette tapes covered a great many topics. They sounded like ocean waves at the beach. Behind the ocean waves were millions of subliminal messages that the human conscious mind could not here. But the subconscious mind could understand and comprehend. The cassette tapes were most effective when played at night when people were sleeping. Because the human subconscious mind can receive and process vast amounts of data people could play as many subliminal cassette tapes as they wanted at the same time covering many different topics.

## **THE POWER OF THE HUMAN SUBCONSCIOUS MIND**

Perhaps you are familiar with Speed Reading. Speed Reading means reading a page at a time. Instead of reading a word at a time, when you have mastered Speed Reading you can read one page at a time very rapidly with better comprehension then when reading one word at a time. Speed readers can read each page as fast as they can turn the

page. The subconscious mind does the reading. The human conscious mind cannot read that fast. The conscious mind must read one word at a time.

Dr. Fists` memory course is sold on the Internet and on television. Dr. Fists` memory course teaches people how to memorize vast amounts of information. For example. A young man who worked at an Auto Parts Store learned about Dr. Fists memory course. He purchased the course. Using the methods shown in Dr. Fists memory course he memorized a brand new auto parts catalog that was just sent to the Auto Parts Store. Five copies of the auto parts catalog were sent to the store. He took one copy home. It did not take him long to memorize the entire auto parts catalog using Dr. Fists memory course methods. He worked late each night and on weekends memorizing. Soon he was impressing his boss, the other employees at the Auto Parts Store and the customers of the Auto Parts Store by quoting prices and giving details about parts in the new auto parts catalog. His boss asked him how he could do that. The new catalog just arrived at the Auto Parts Store a couple of weeks ago. An auto parts catalog consists of thousands of pages. Do not underestimate the power of the human subconscious mind. The subconscious mind operates 24 hours a day. It never sleeps.

## **THE PLANET EARTH IS ACCELERATED IN SCIENCE AND TECHNOLOGY**

The crew of the starship arrived at the planet Earth in the year 1846. what they discovered was a world that was primitive and backward.

Living conditions were crude. The following story tells how they transformed the Earth and accelerated it in science and technology.

## **THE STARSHIP CREW SUMMONS THEIR STARSHIP**

Upon arriving at the planet Earth in the year 1846 the starship crew enters the Earth's atmosphere at night to avoid being seen. The starship is concealed at the bottom of the ocean in a deep ocean basin. About the year 1903 the starship crew summoned the starship from the ocean depths. The starship crew went onboard.

The starship is equipped with technology that can send subliminal messages and subliminal communications to human subconscious minds. The science and technology needed to advance the planet Earth scientifically and technologically was contained in the starship's computers.

## **THE STARSHIP'S TECHNOLOGY BEGAN TRANSMITTING SUBLIMINAL MESSAGES TO HUMAN SUBCONSCIOUS MINDS**

The starship's technology began transmitting information to human subconscious minds on the planet Earth. The subliminal information transmitted was ideas for building and creating inventions. Because of the subliminal messages that human beings were receiving human beings began developing useful inventions of all types. Subliminal images received by human subconscious minds on the planet Earth inspired and motivated people to invent and create. A steady stream of ideas was transmitted to human beings.

People received information and ideas that they could develop. Not every person who received the information would develop it. It could be ignored or rejected. The starship's technology continually transmitted information until human progress took place.

## **HOW THE PROCESS WORKS**

A carpenter gets an idea for a new kind of hammer. It's different than anything I have ever seen, he says. He writes it down on a piece of paper and makes a drawing. I'll be wealthy from this idea, he decides. A year later he has still not done anything with his new kind of hammer.

A lady gets an idea for an umbrella. It's marvelous she says, it keeps the rain off you wherever you go. But she never develops her idea.

A school janitor gets an idea for a new type of broom. Then the idea for a tooth paste dispenser comes to him. But he never develops those ideas.

A man gets an idea for a garden hose. He spends his money and his time developing it. He starts a small factory producing garden hoses and soon has more orders than he can handle for garden hoses.

Ideas, contraptions, devices, apparatuses, gadgets and contrivances were being sent to humans, some of whom, would develop them.

Thomas Edison is seen tinkering with an invention.

Thomas Edison was chosen to be the recipient of subliminal messages.

check the personal writings and memoirs of Thomas Edison and you will find notations such as: "One doesn't have to think to get inspired. Ideas seem to come as though carried on the wind."

The wizard of Menlo Park, as Edison was called, was not a wizard at all. He was the recipient of information and ideas that were communicated to him through his subconscious mind. He received idea, after idea. The subliminal information didn't stop coming. Edison was able to develop many of the concepts he received.

Henry Ford (the automobile), Alexander Gram Bell (the telephone), the Wright Brothers (the airplane), De Forest (the radio), Marconi (the telegraph), Carrier (the air conditioner), Sikorsky (the helicopter), and many others were provided with ideas and information for inventions through subliminal messages. They were able to build their inventions successfully. Certain factors can forestall progress. A lack of adequate funding, the appetite to be lazy, a lack of determination, personal interests that are more important, and so forth. The same idea or concept might have to be sent to others.

As time progressed people on the Earth continued to receive ideas and information that led to progress. The result is the highly technological society we enjoy today.

The inhabitants of Earth did not suddenly and spontaneously leap into a futuristic world that consists of highly advanced technology in only 100 years. Human civilizations do not advance that rapidly. The rapid acceleration in technological development was provided by a more advanced human civilization. They are the source of the knowledge that

brought about advancement. Because the ideas that people received came to them through their subconscious mind, people believed that the idea was original with them. And they took credit for it. Which is okay.

Human advancement nevertheless occurred.

## **TRANSFORM THE PLANET EARTH**

Since the starship crew arrived in 1846 there has been many advancements in science, technology and other areas of human advancement. The primitive world of 1846 has been changed. The planet Earth still remains in a negative, adverse and unsatisfactory state. Certain unfavorable aspects are evident and are impacting global human evolution. Constant wars and bloody human combat on the Earth have caused massive loss of human life. Human civilizations have been unable to resolve their differences in a peaceful manner. Global starvation, hunger and disease are extensive and widespread and continue on year after year. Inadequate economic systems are functioning. The planet consists of individual sovereign nations. There is no global governing body to maintain universal law and order. Human greed and indifference are consequential in human civilizations. Human civilizations consist of hundreds of different languages, currencies and customs. There is no unity or harmonious structure. Many of the planet's cities consist of shocking poverty with living conditions that are unimaginable. The planet Earth is a demonstration of a failed human civilization that has evolved in a negative, unfavorable manner where man's negative characteristics prevail and flourish.

# HOW WILL THE STARSHIP CREW TRANSFORM THE PLANET EARTH

In order to transform the planet Earth and provide a better world it will require a global leadership role. A new leader will emerge. The human race will be lifted out of poverty with new economic systems. Global harmony and unity will be achieved as the planet Earth is transformed into a better world.

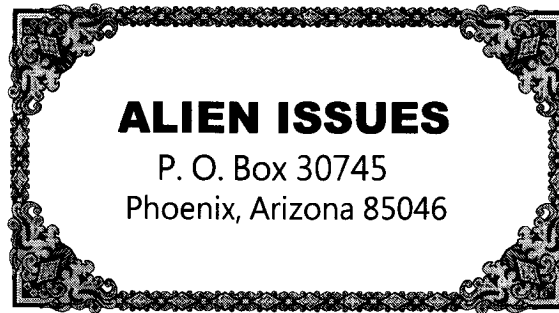

How will the role of global leadership be obtained. The starship crew has been waiting for the 2016 presidential elections to occur in the United States. During the 2016 presidential campaigns a new presidential candidate will emerge. The new presidential candidate will be superior to other presidential candidates. Other presidential candidates will fall by the wayside as America gains confidence in their new leader. An abundance of solutions for America's problems will emerge. The American people will foresee a booming economy ahead, unlimited jobs for the unemployed, higher standards of living for working people, a more efficient federal government, global peace and no more wars and unlimited approaches for solving problems and improving people's lives will be demonstrated on national television.

Other presidential candidates will have to forgo their presidential aspirations. Hillary Clinton, Bernie Sanders, Rick Santorum, Jeb Bush, Chris Christie, Ted Cruz, Mike Huckabee, Rand Paul, Marco Rubio, etc. cannot be president. The

presidential candidate who obtains the presidency of the United States will transform the Earth.

The new President of the United States will accomplish remarkable accomplishments as the planet Earth is transformed and becomes a better world. Keep a vigilant watch for the new presidential candidate who will dominate American politics and astound the entire world.

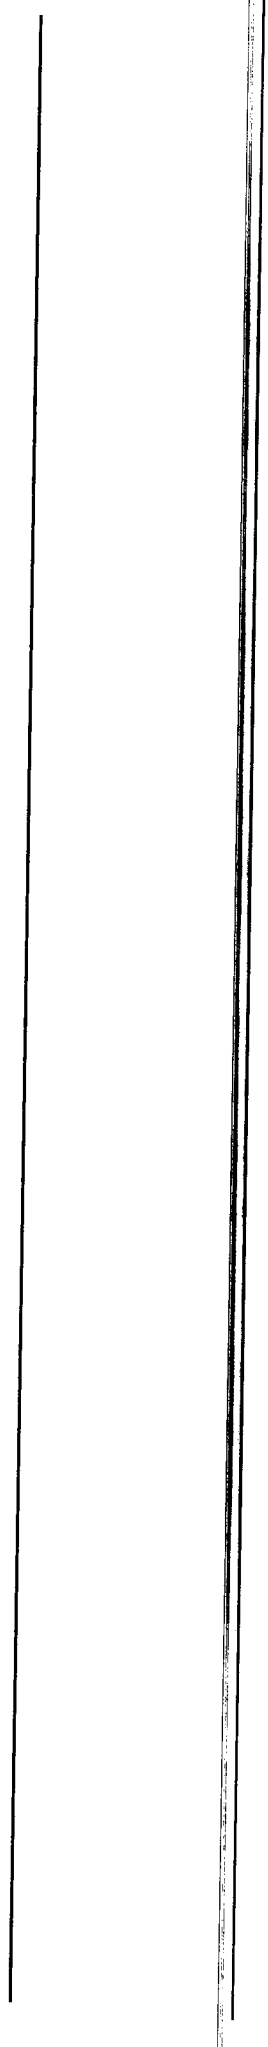

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

This letter is to inform you that it is our intention to secure the Presidency of the United States and to use that position to implement a World Government that will administer the planet Earth.

Our commitment is to end wars and bloody human combat on this planet. Our methods in advanced economics will uplift the human race and provide global economic prosperity. Our pledge is to ensure the survival of mankind far into the future. The human race will be uplifted and human evolution on this planet will be advanced.

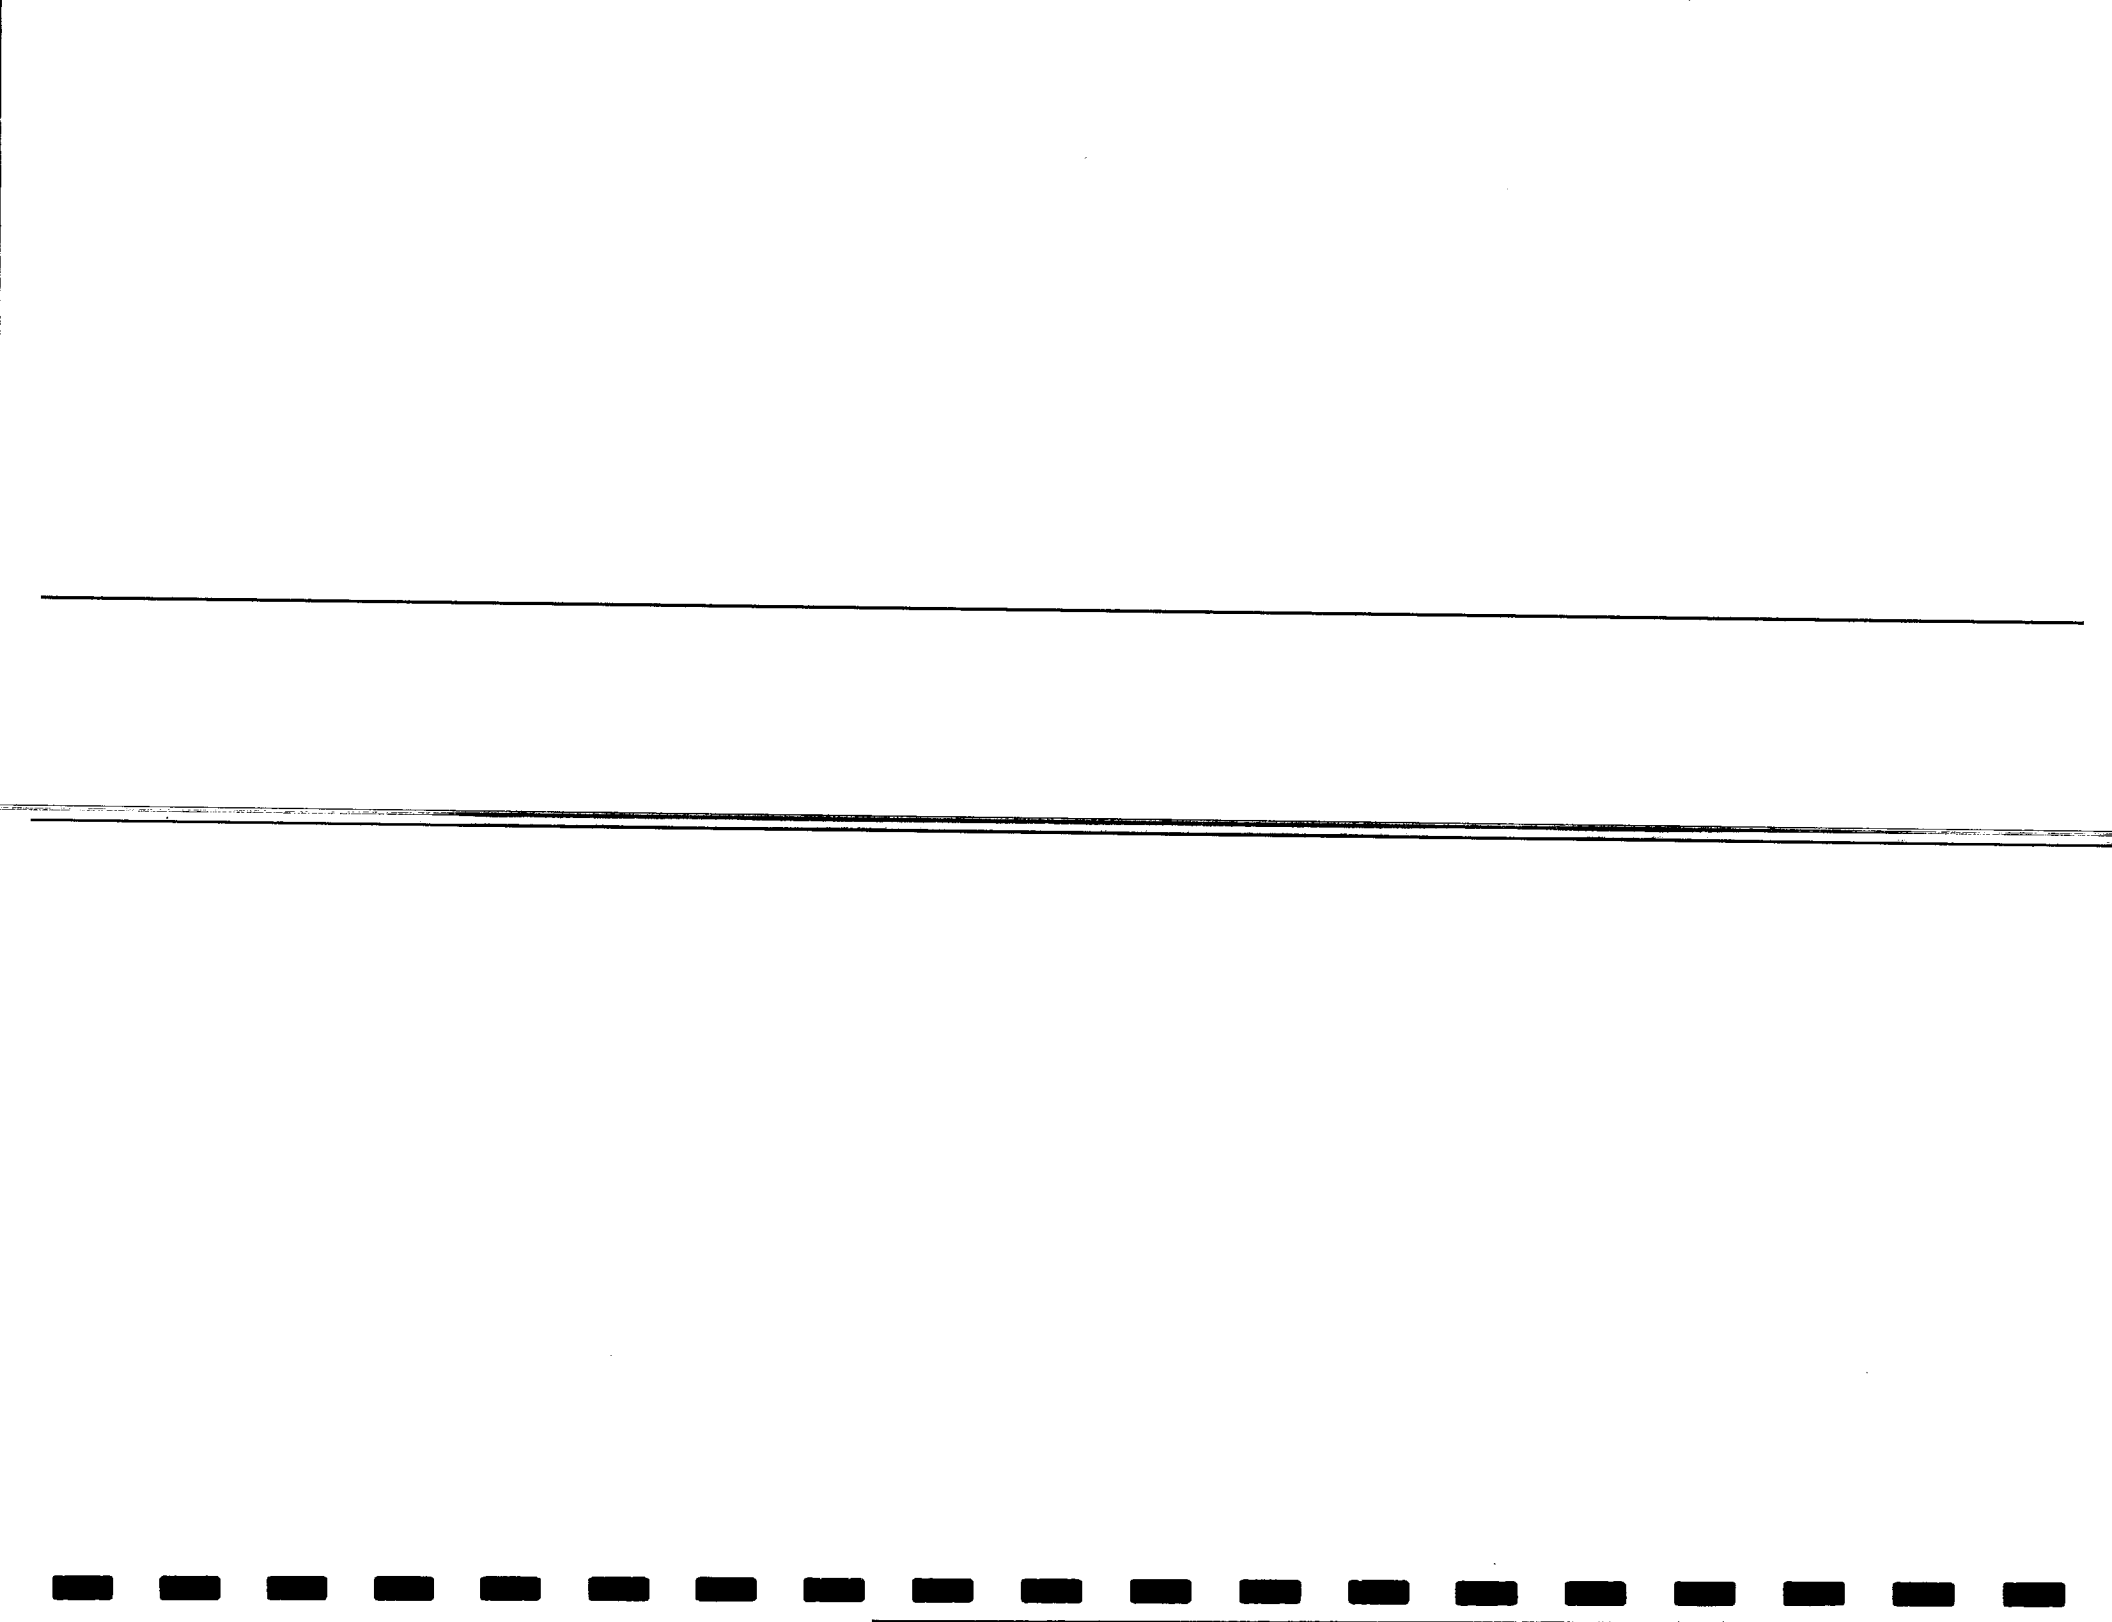

Your civilization is destroying your own planet. Depleting all the natural resources. Polluting and contaminating the air, the waters and the lands of the Earth. Many species of animals and ocean life have become extinct. Your planet is not being managed, it is being abused.

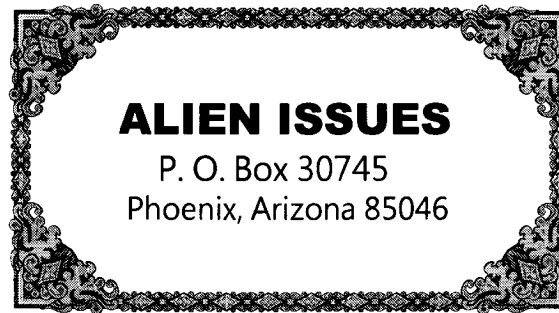

No presidential candidate, Republican or Democrat, can win against our presidential candidate. His remarkable and limitless solutions and concepts for solving America`s problems will prevail in the campaign arena. His superior knowledge in the science of economics will show how a booming, thriving economy can be

achieved in the United States. Like never before seen in American history. America will foresee a prosperous nation ahead with unlimited employment opportunities, booming businesses and corporations, a vast middle class society as citizens will be uplifted out of poverty and low standards of living into the middle class using new economic concepts. The only way our candidate cannot win is if our candidate is not on the ballot and does not have access to the television media.

The Honorable Nikki R. Haley  
Office of the Governor  
1205 Pendleton Street  
Columbia, South Carolina 29201

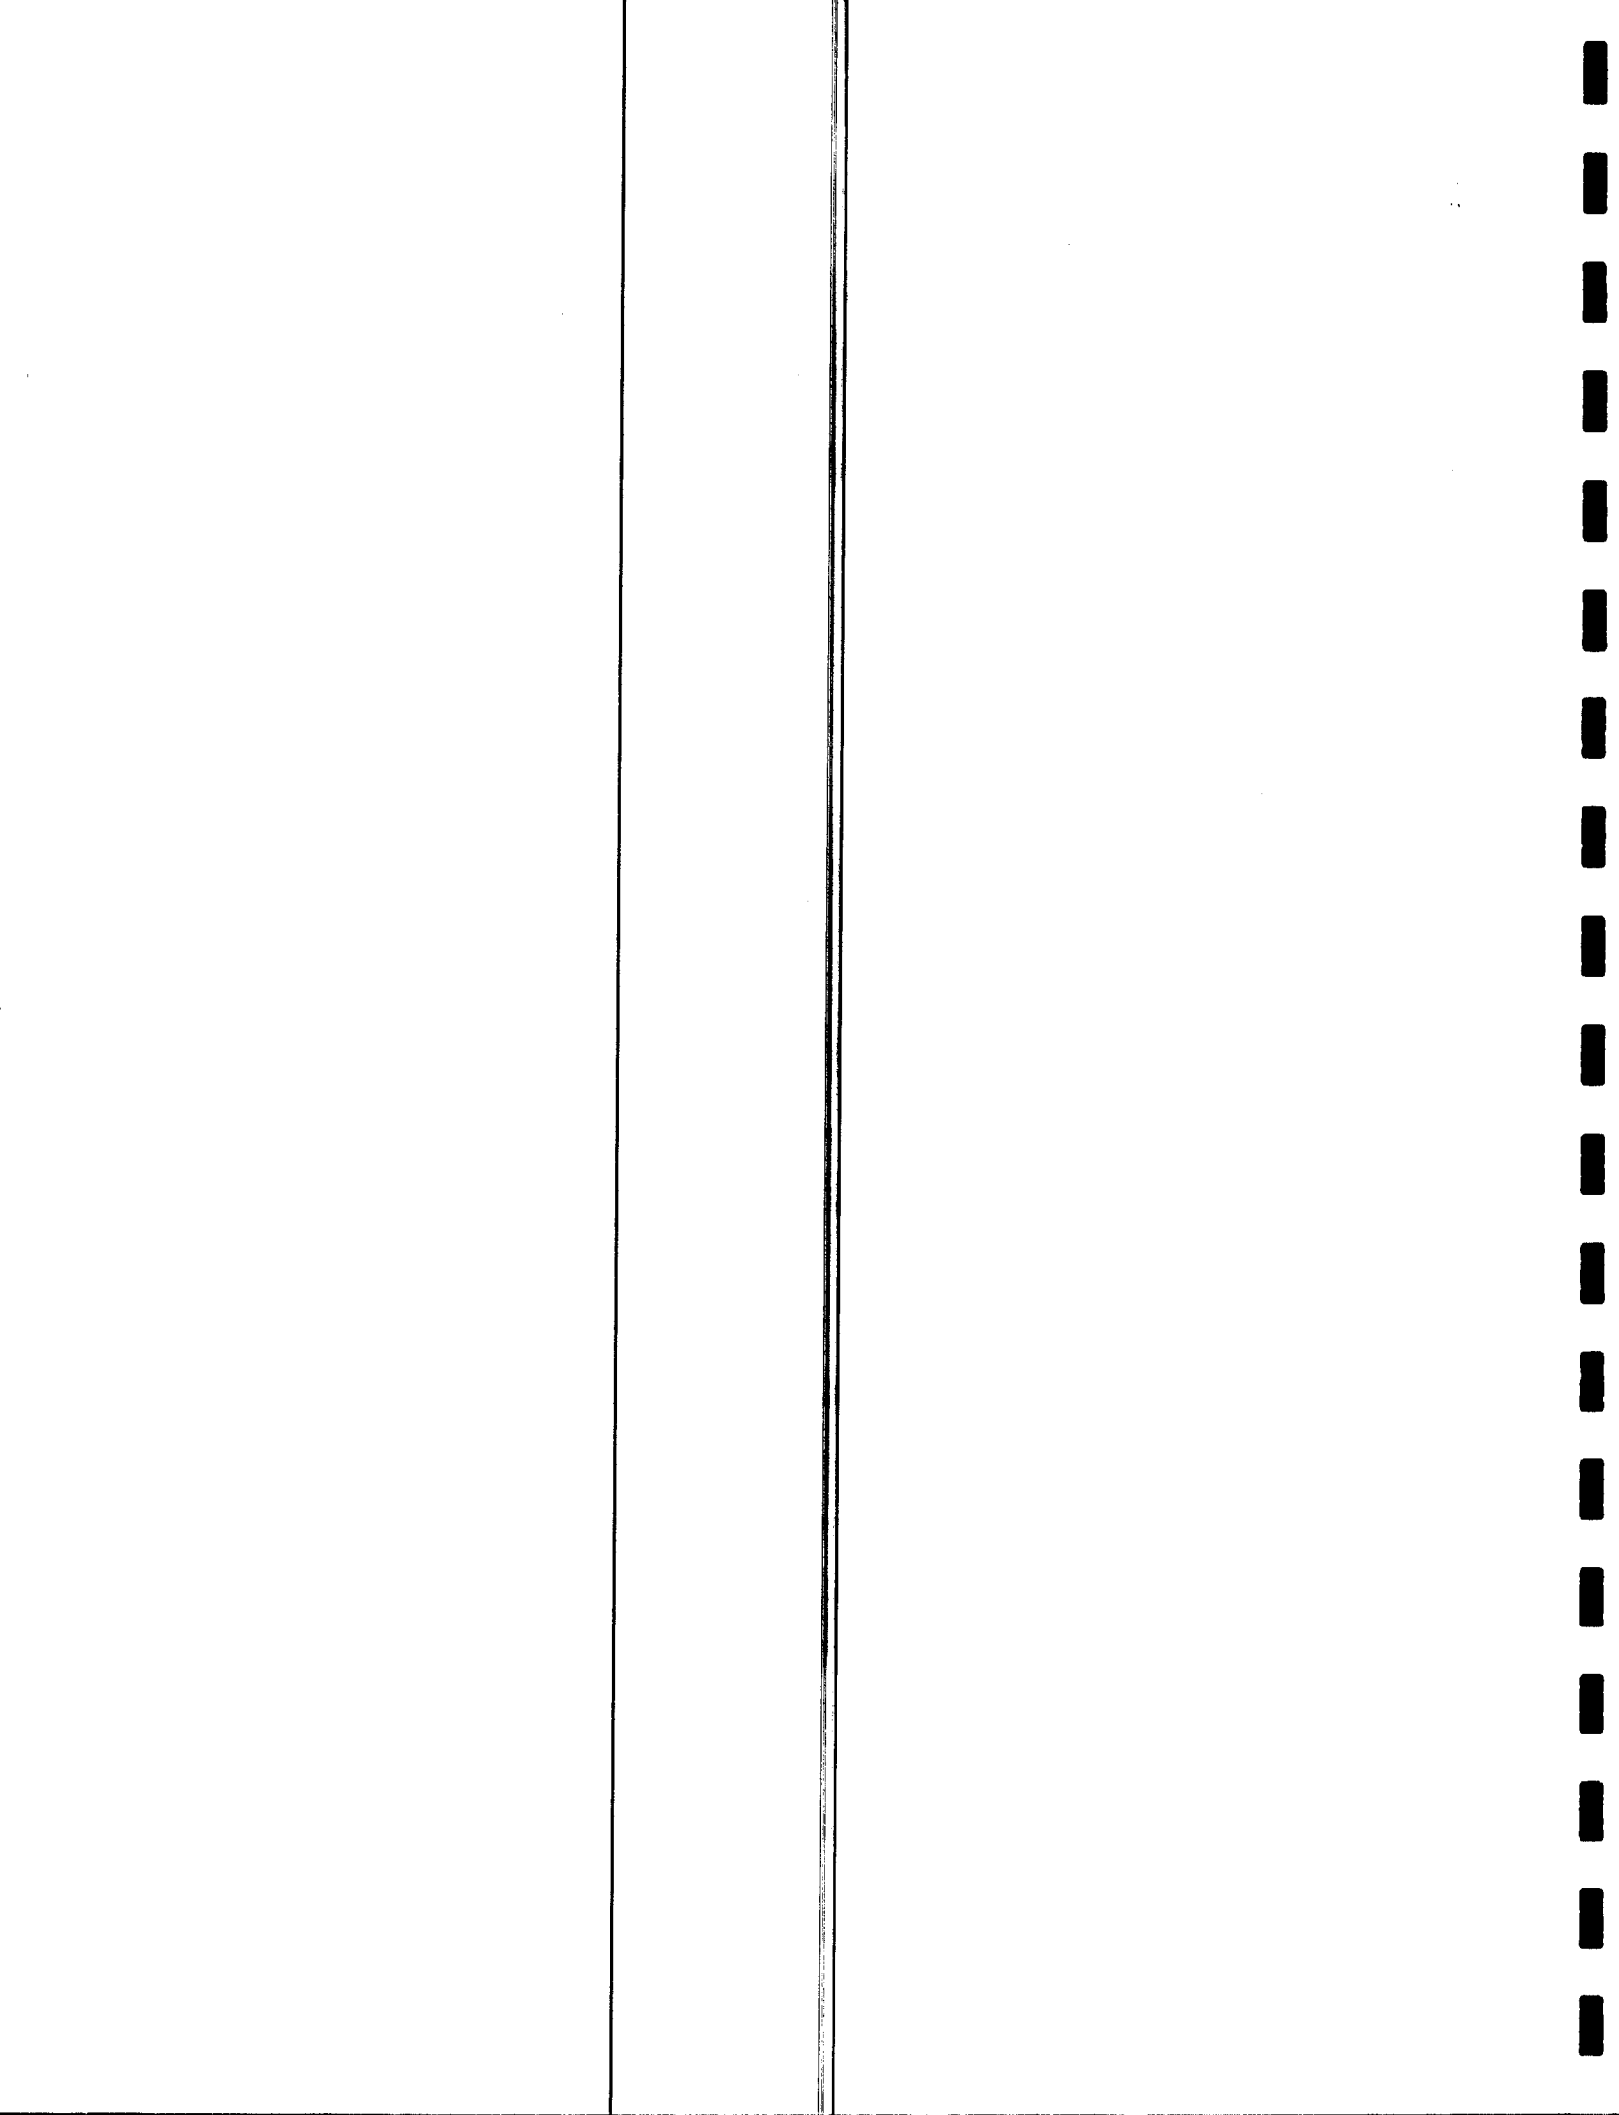

We are providing three concepts as a matter of interest. These concepts are part of our presidential campaign. As follows.

## **COLONIZE THE SOLAR SYSTEM**

In this concept we show your civilization how to colonize the solar system. When this concept is implemented astronauts will be living on many planets and moons in the solar system.

## **THE UNITED STATES AND CANADA BECOME ONE NATION**

In this concept Canada and the United States merge into one country. Soon after our presidential candidate has acquired the presidency of the United States an election will take place in two countries, Canada and the United States. Citizens of both countries will vote on the issue of merging the two countries into one very large country. If the citizens of both countries agree the United States Congress and the Canadian legislature will vote on the issue. If both legislatures agree the merger is undertaken. The Prime Minister of Canada will become the Vice President

of the United States. The citizens of Canada will become American citizens. The twelve Provinces of Canada will become states with Governors and state legislatures. Elections would take place in Canada to elect senators and congressman to the United States Congress. Canada`s military forces would become the military forces of the United States. The combined size of Canada and the United States that will have merged into one nation will become the largest country in the world. The new country would stretch from Mexico to the North Pole. Canada`s currency would be replaced with the U. S. Dollar. The name Canada would no longer apply. It would be called the Northern United States.

## **NEW HEALTH CARE SYSTEM**

### **SOME FACTS ABOUT THE PRESENT HEALTH CARE SYSTEM**

45,000 people die each year simply because they have no health insurance.

307,000 veterans have died awaiting Veterans Affairs health care. The VA inspector general report finds 307,000 vets died before applications were processed.

At least 210,000 patients a year die from medical mistakes in hospitals.

50 million people in the United States are without health insurance.

Many people forgo health care because of high deductibles and co-pays.

700,000 families go bankrupt each year just by trying to pay for their health care – even though three quarters of them are insured.

The five largest insurance companies make a combined profit of around \$12 billion a year.

The U.S. has the most expensive and least effective health care system.

## **THE NEW HEALTH CARE SYSTEM**

In this new Health Care System the general public pays the costs of the system. It is more logical that the American people should have their own Health Care System

and should pay the costs to operate the system. By removing profit-making from the Health Care System the costs of the system are lower. Under the new Health Care System America`s businesses and corporations will no longer provide health care coverage for their workers, state governments will no longer provide health care coverage for their state`s citizens or state workers, the federal government will no longer have to pay health care costs. The Veterans Administration with all its VA hospitals and facilities will be closed down. America`s veterans will receive their health care services from the national health care system. Other health care programs offered by the federal government will be closed down, such as Medicare which is the nation`s largest health care program. All American citizens will be provided with health care under this new health care system.

#### WHO WILL IMPLEMENT THIS NEW HEALTH CARE SYSTEM

Our presidential candidate will implement this new Health Care System when he takes office as President of the United States. The three trillion dollar health care system that presently exists will undergo many changes.

**Colonize The Solar System**

**Page 2 - 5**

**Canada and the United States**

**Page 6 - 9**

**New Health Care System**

**Page 10 -16**

# **Colonize The Solar System**

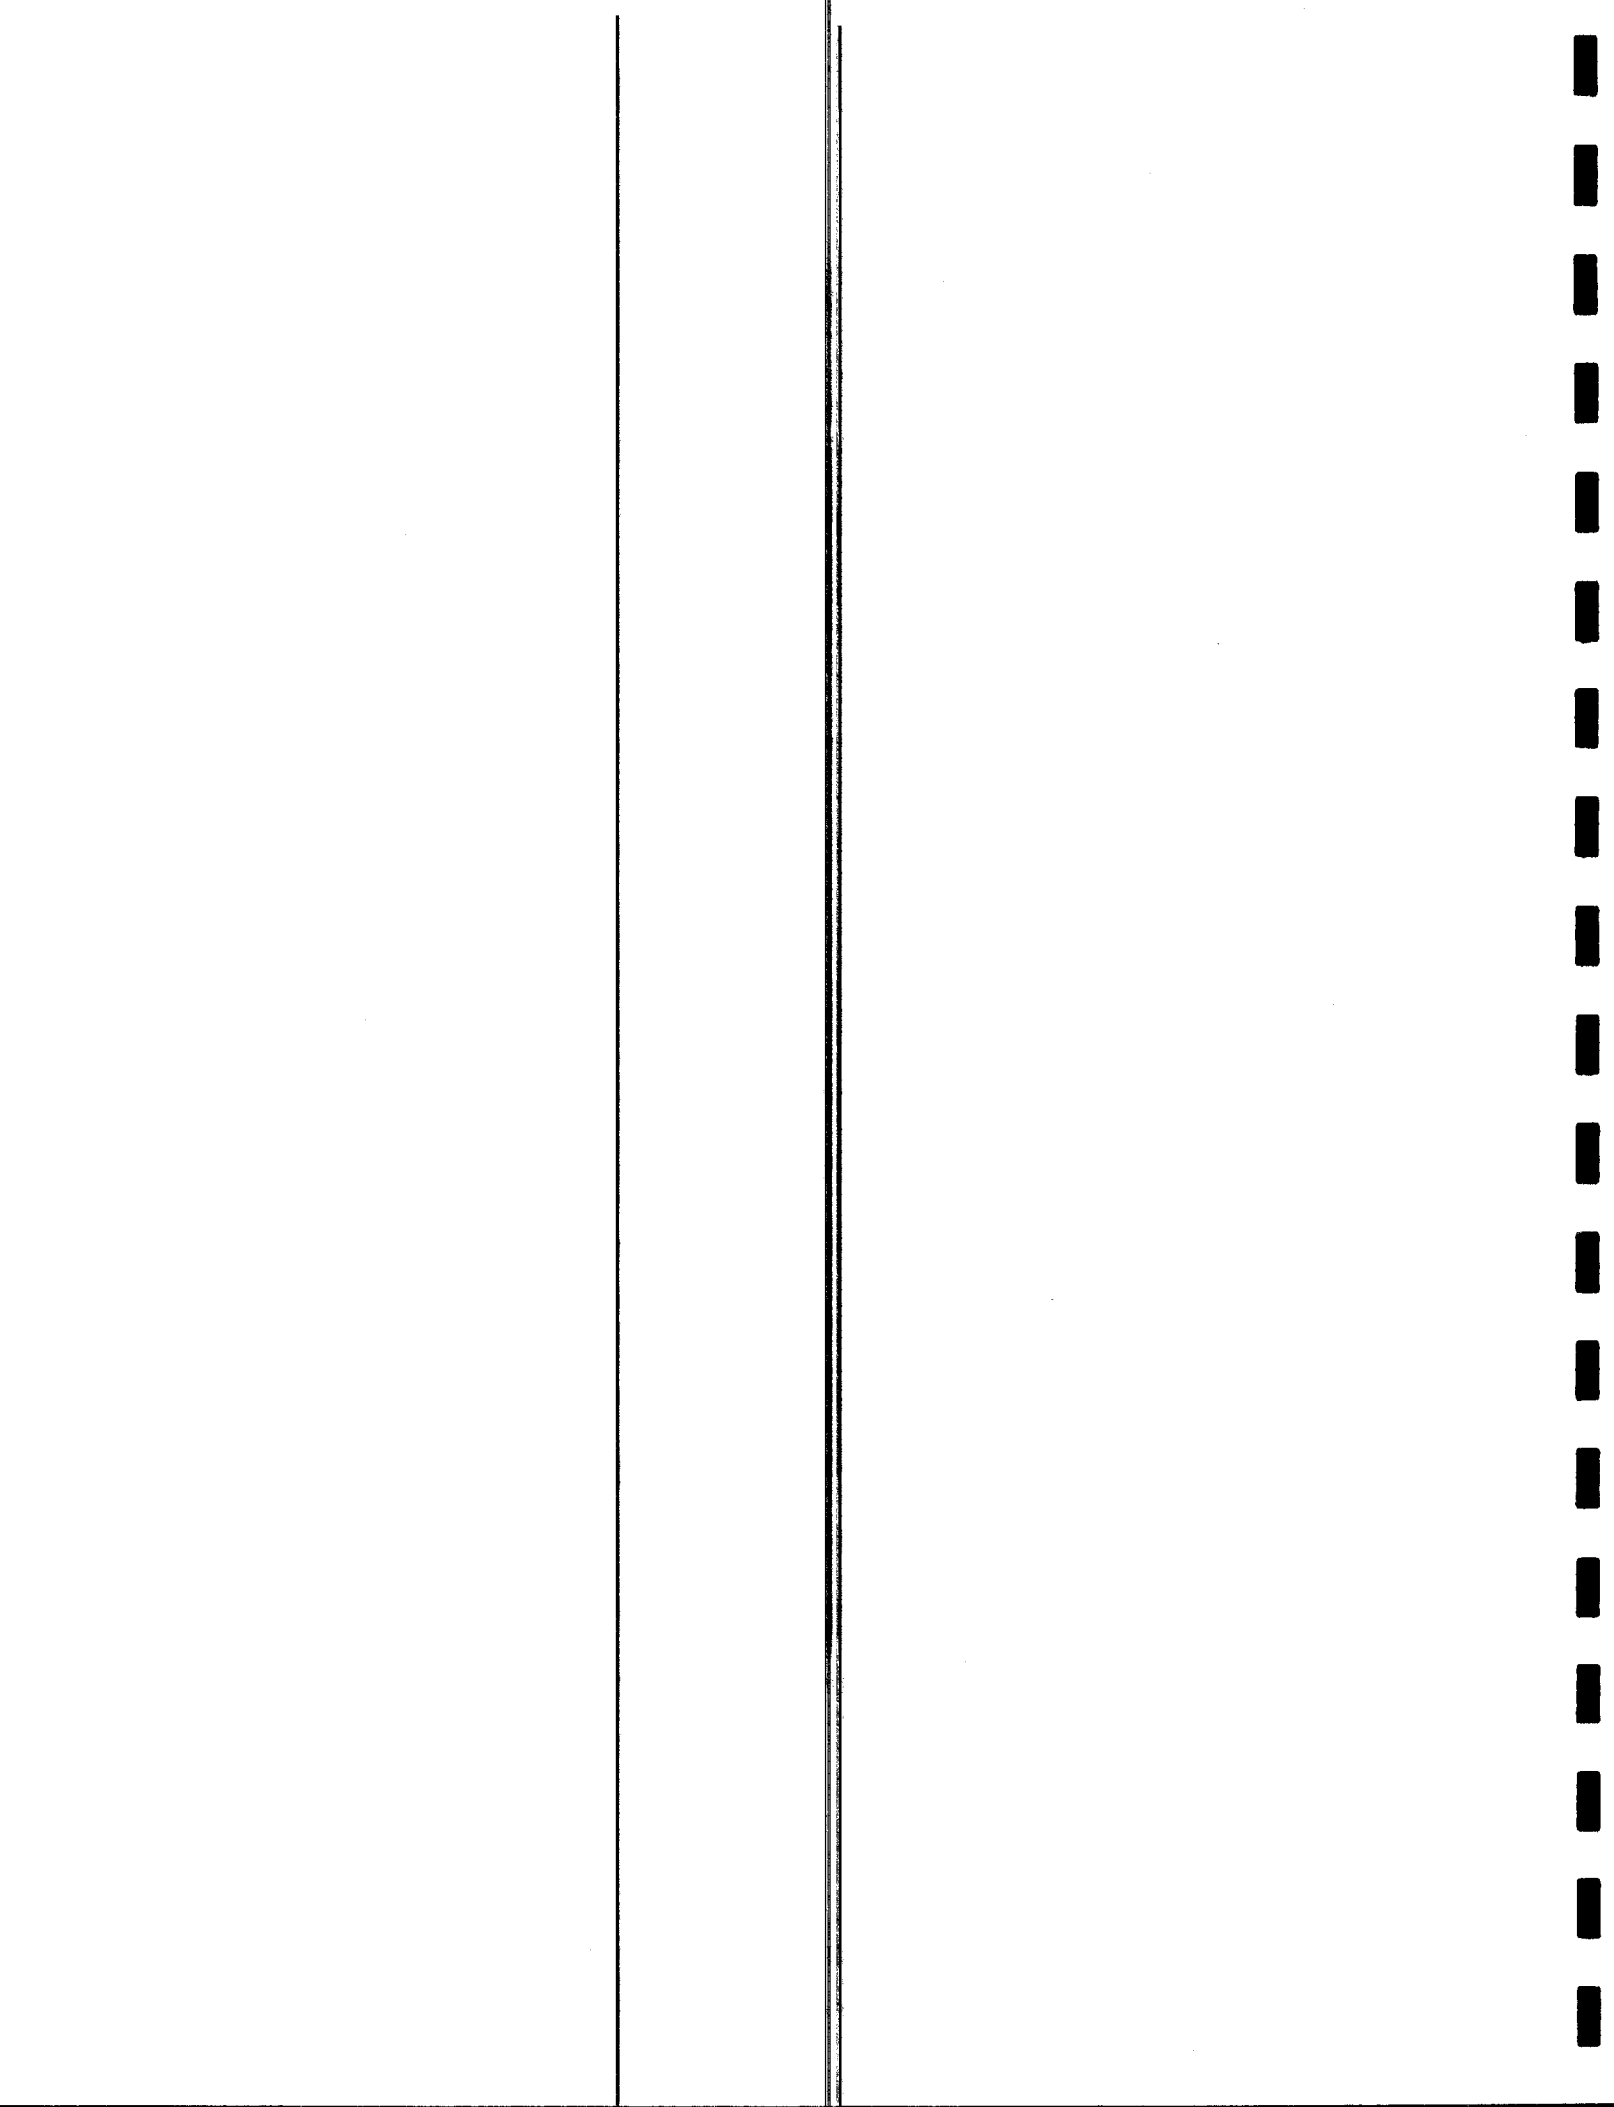

## **COLONIZE THE SOLAR SYSTEM**

Astronauts can live in small colonies on some planets and moons of the solar system. In order for that goal to be achieved this concept offers a plan. The plan requires that supply lines will be established for moving the essential necessities of life to the planets and moons of the solar system where colonies of astronauts will be living. Astronauts will live there for limited periods of time before being relieved and returning back to Earth. All the essentials of life will be provided for the colonies of astronauts. The plan requires the constant movement of essential supplies to the colonies where astronauts live.

## **AUXILIARY SPACESHIPS**

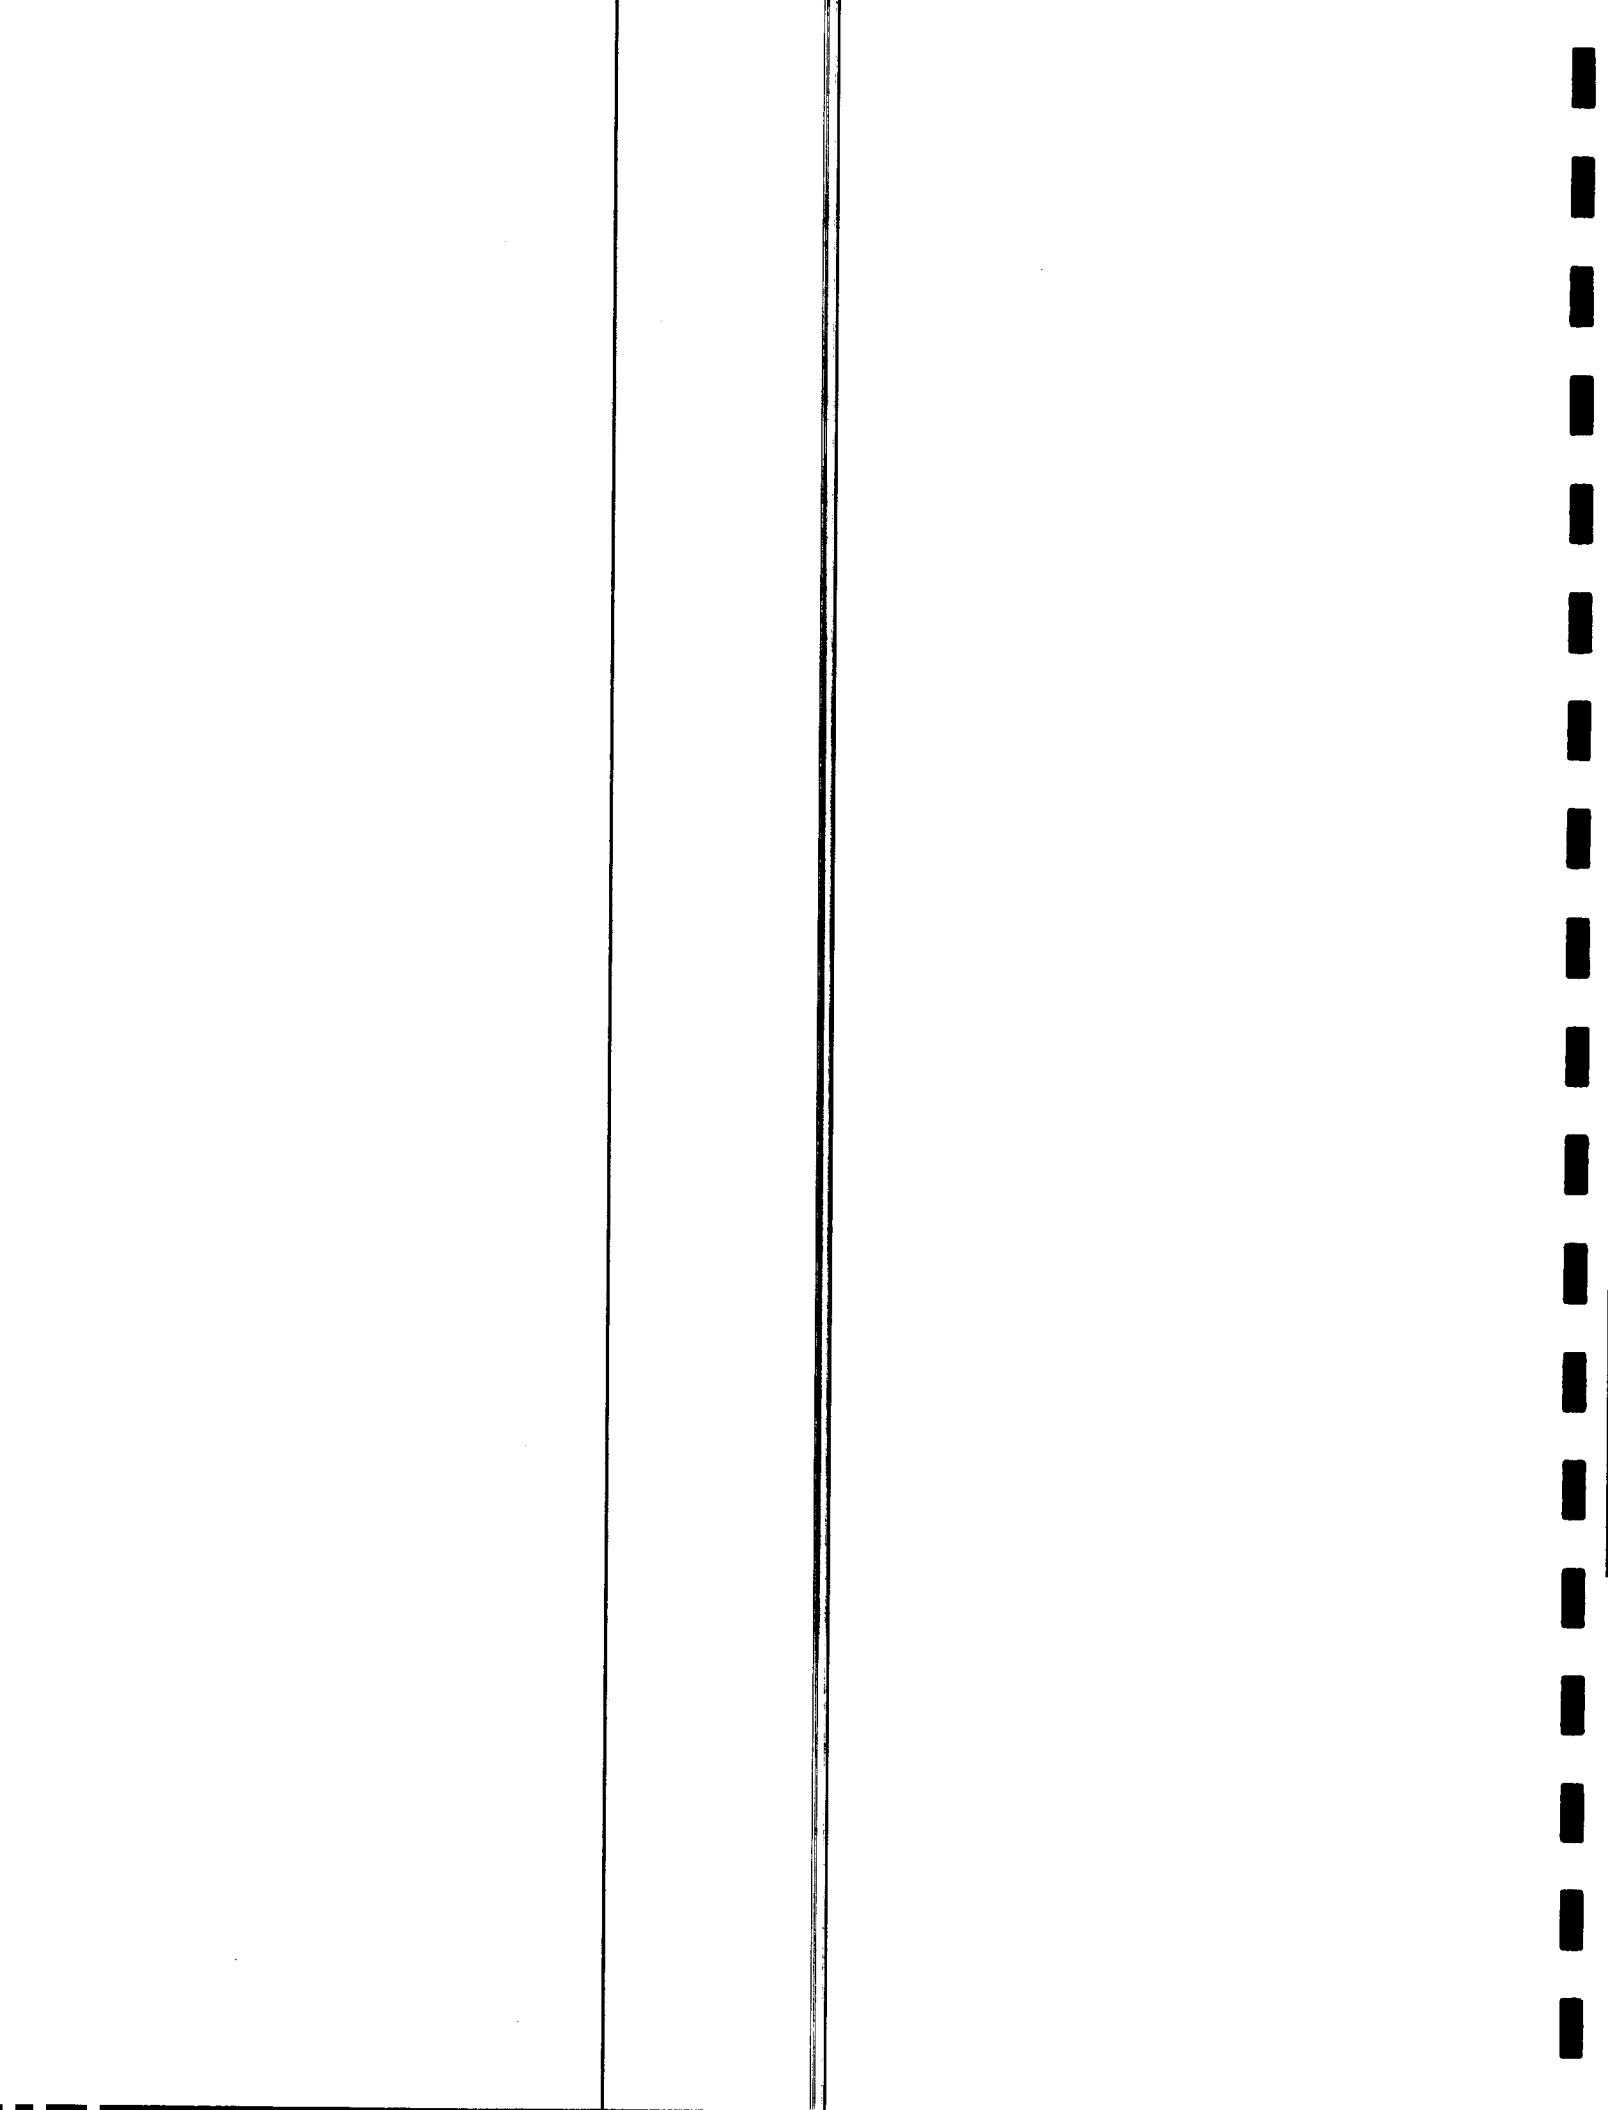

Fleets of Auxiliary Spaceships will travel back and forth to the planets and moons of the solar system carrying everything the astronauts need to live there. The Auxiliary Spaceships will land on the planets and moons with their cargo within them. They will remain there until their cargo is depleted. Then they will return to Earth to be replenished with a new cargo. Then they will return to the planets and moons where the astronauts are living. Auxiliary Spaceships are the supply vehicles for astronauts who live on the faraway planets and moons. The concept of this plan is that it is necessary to provide everything astronauts will need to live on the planets and moons of the solar system. The astronauts who live on those planets and moons will have all the comforts of home. Each Auxiliary Spaceship contains a different payload. What follows are some examples:

- ☒ Auxiliary Spaceships containing --- air for breathing.
- ☒ Auxiliary Spaceships containing --- a supply of fresh water.
- ☒ Auxiliary Spaceships containing food and drinks - may be refrigerated.
- ☒ Auxiliary Spaceships containing fuel for generators for electricity, fuel for spaceships and other needs.
- ☒ An Auxiliary Spaceship containing a complete living room area. Couches, chairs, television and DVD movies, everything a living room would have.
- ☒ Auxiliary Spaceship containing a septic tank for containing human waste.
- ☒ Auxiliary Spaceships containing misc. household items, toilet paper, Kleenex, soap, etc..
- ☒ Auxiliary Spaceships containing complete bedrooms for sleeping in.
- ☒ Auxiliary Spaceships containing propane gas or natural gas.

### **AUXILIARY SPACESHIPS ARE THE SUPPLY LINES**

Auxiliary Spaceships contain everything the astronauts need to live on the planets and moons of the solar system and will be traveling back and forth to keep the astronauts supplied with everything they need. Astronauts can live on the planets and moons because they are close enough to Earth that we can supply them with all the essentials of life. While it may take a year or two or even more to reach some planets and moons, the fleets of Auxiliary Spaceships may contain a five year supply of all essentials. The astronauts may be no different then people who might be living at the bottom of the ocean in a contained environment. Astronauts living on the planets and moons of the solar system will be protected from radiation and the harsh environment of the planet or moon by their space suits and their living environment. The Auxiliary Spaceships will be parked all around their living quarters to supply them with what they need. In some cases tunnels will be connected

between Auxiliary Spaceships so the astronauts can move around to get what they need. The floor of their living environment may be magnetic so they do not float around like the astronauts on the international space station. Their shoes would have metal on the bottom that stick to the surface of the magnetic floor. The human body was not made to be floating around. These astronauts will be pioneers who brave the elements. Just like the pioneers of the old west who traveled west and endured many hardships. As time goes on man will solve all the problems related to living on distant planets and moons. The astronauts on the international space station recycle their sweat and urine for new water. The astronauts living in the colonies of the solar system will have Auxiliary Spaceships parked on their planet or moon filled with water, air, septic tanks for containing human waste and everything you can imagine. This allows them to survive in comfort.

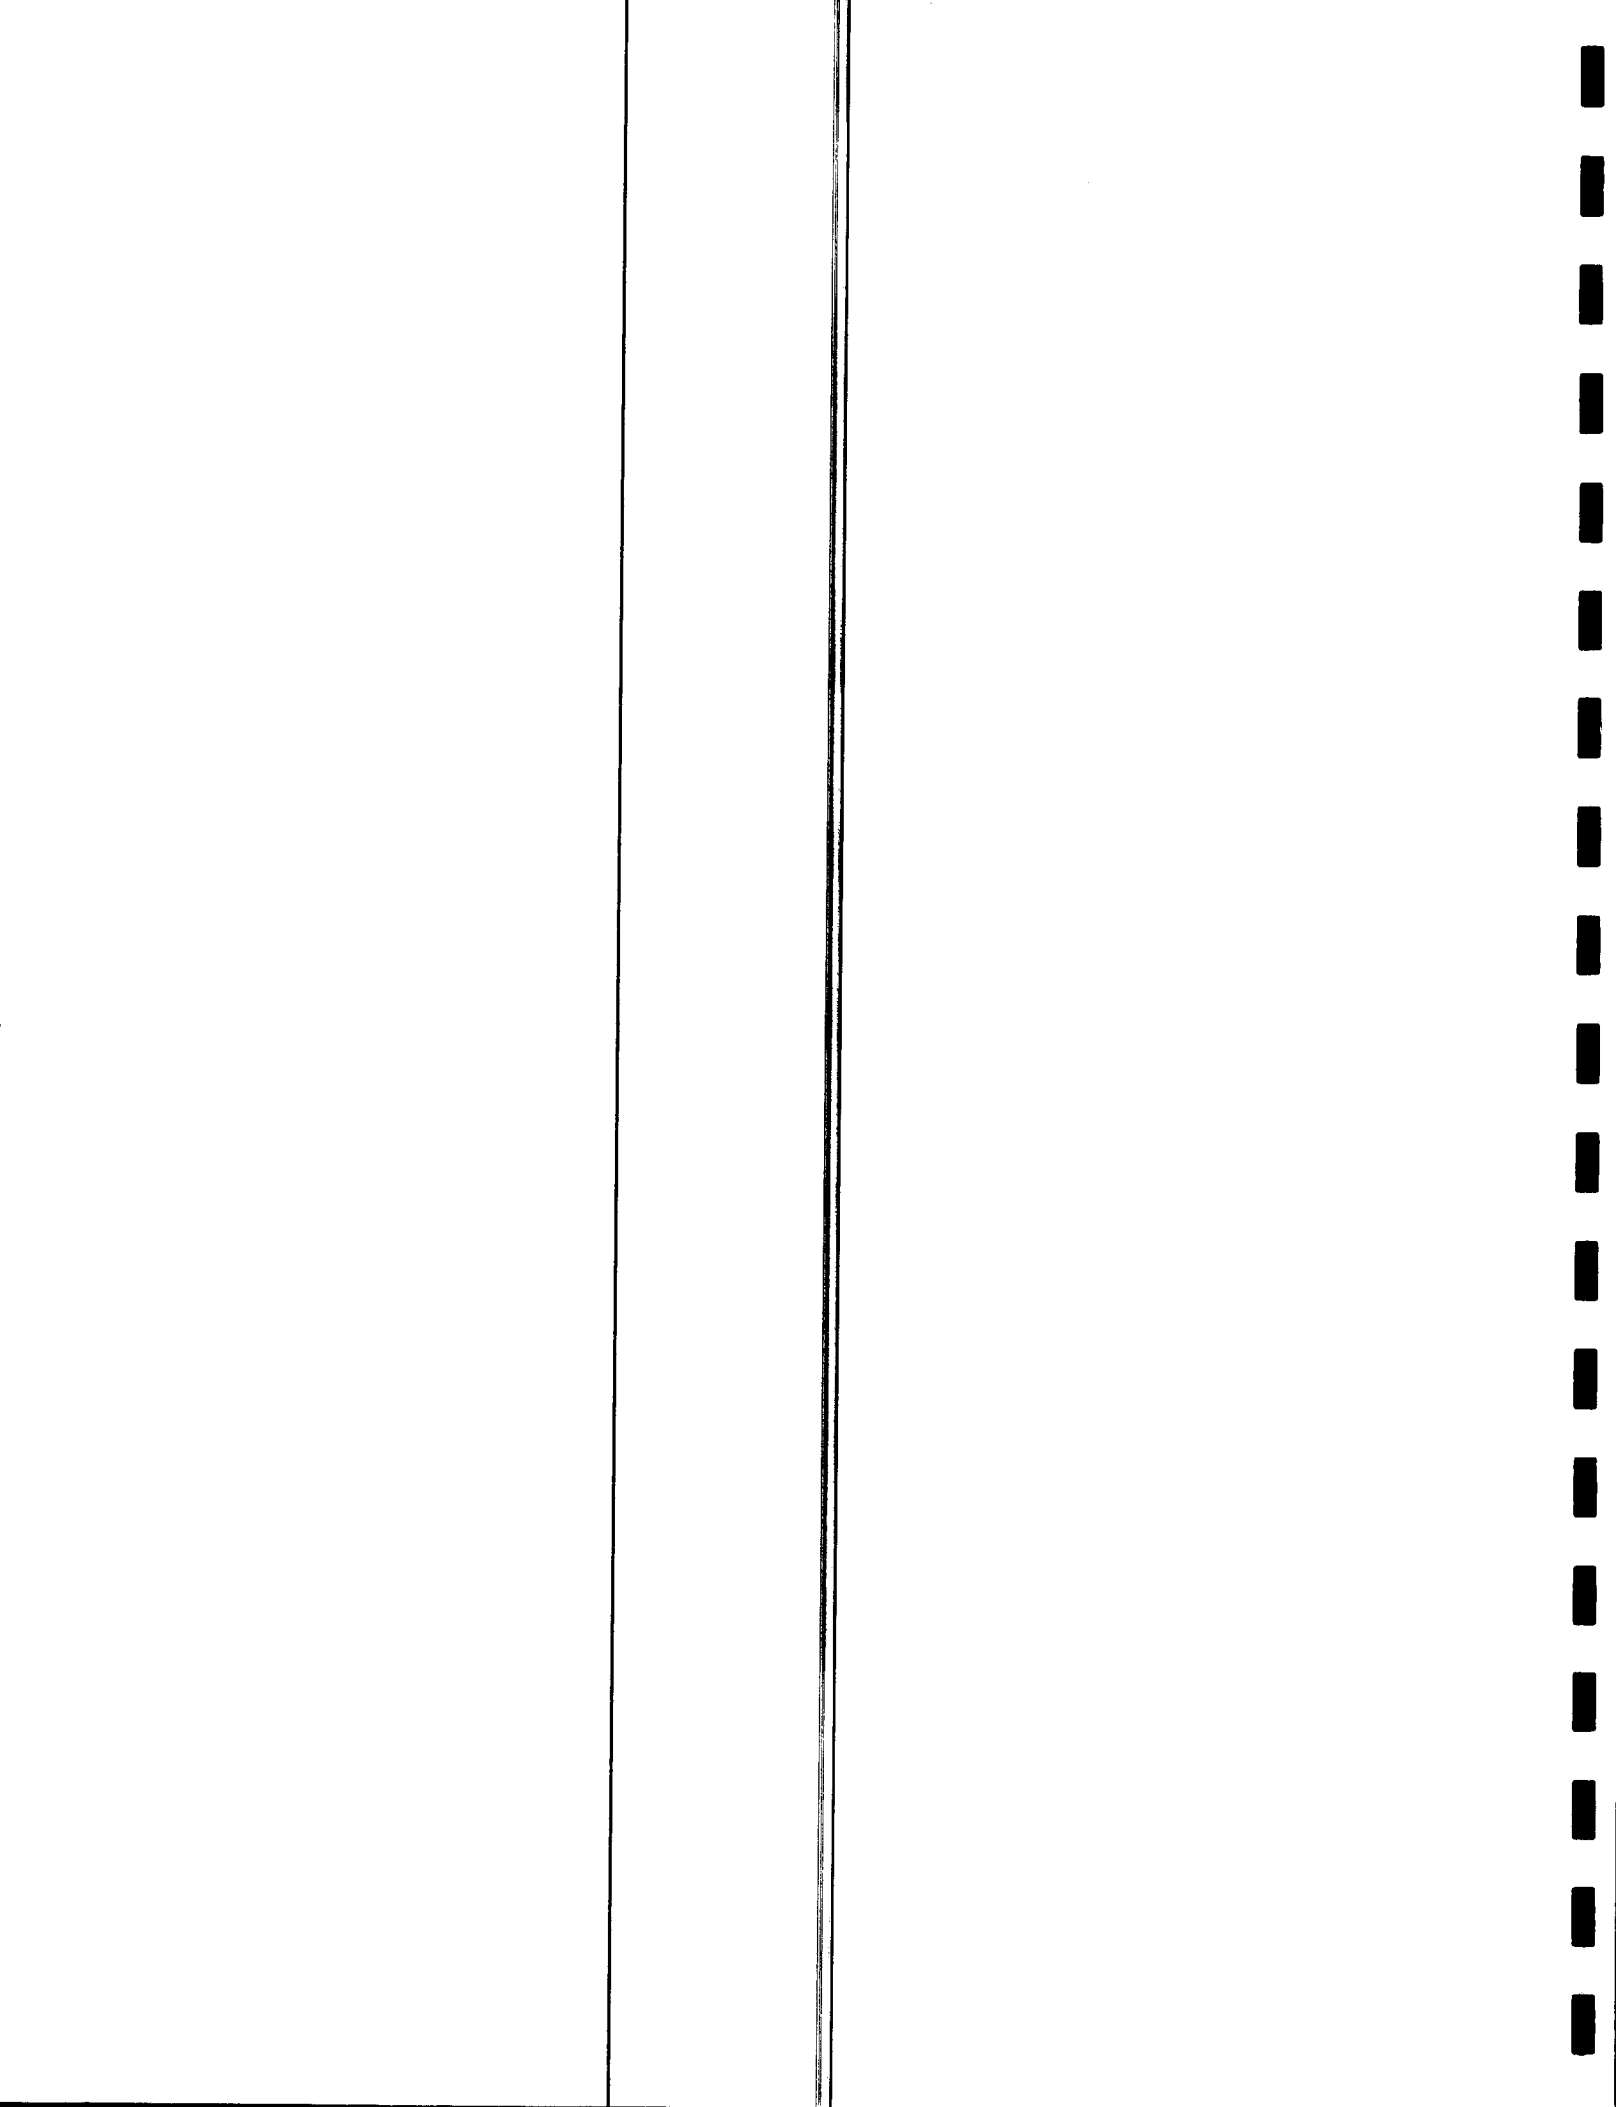

**CANADA**

**AND**

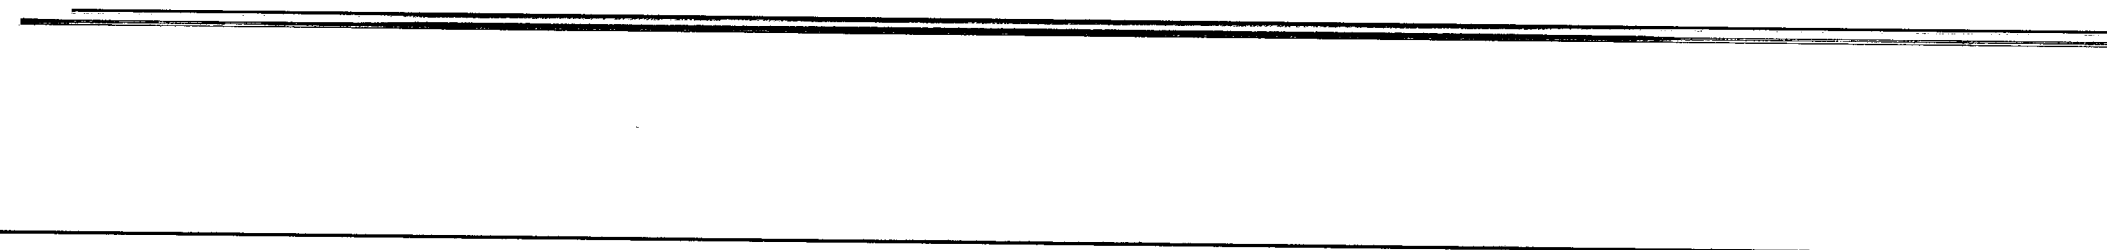

**THE UNITED STATES**

**Merge into one nation**

On the map below envision the size of the United States after the countries of Canada and U.S.A. merge. The United States would consist of all of North America.

# **CANADA AND THE UNITED STATES MERGE INTO ONE NATION**

## **THE BENEFITS OF THE TWO COUNTRIES MERGING**

### CANADA

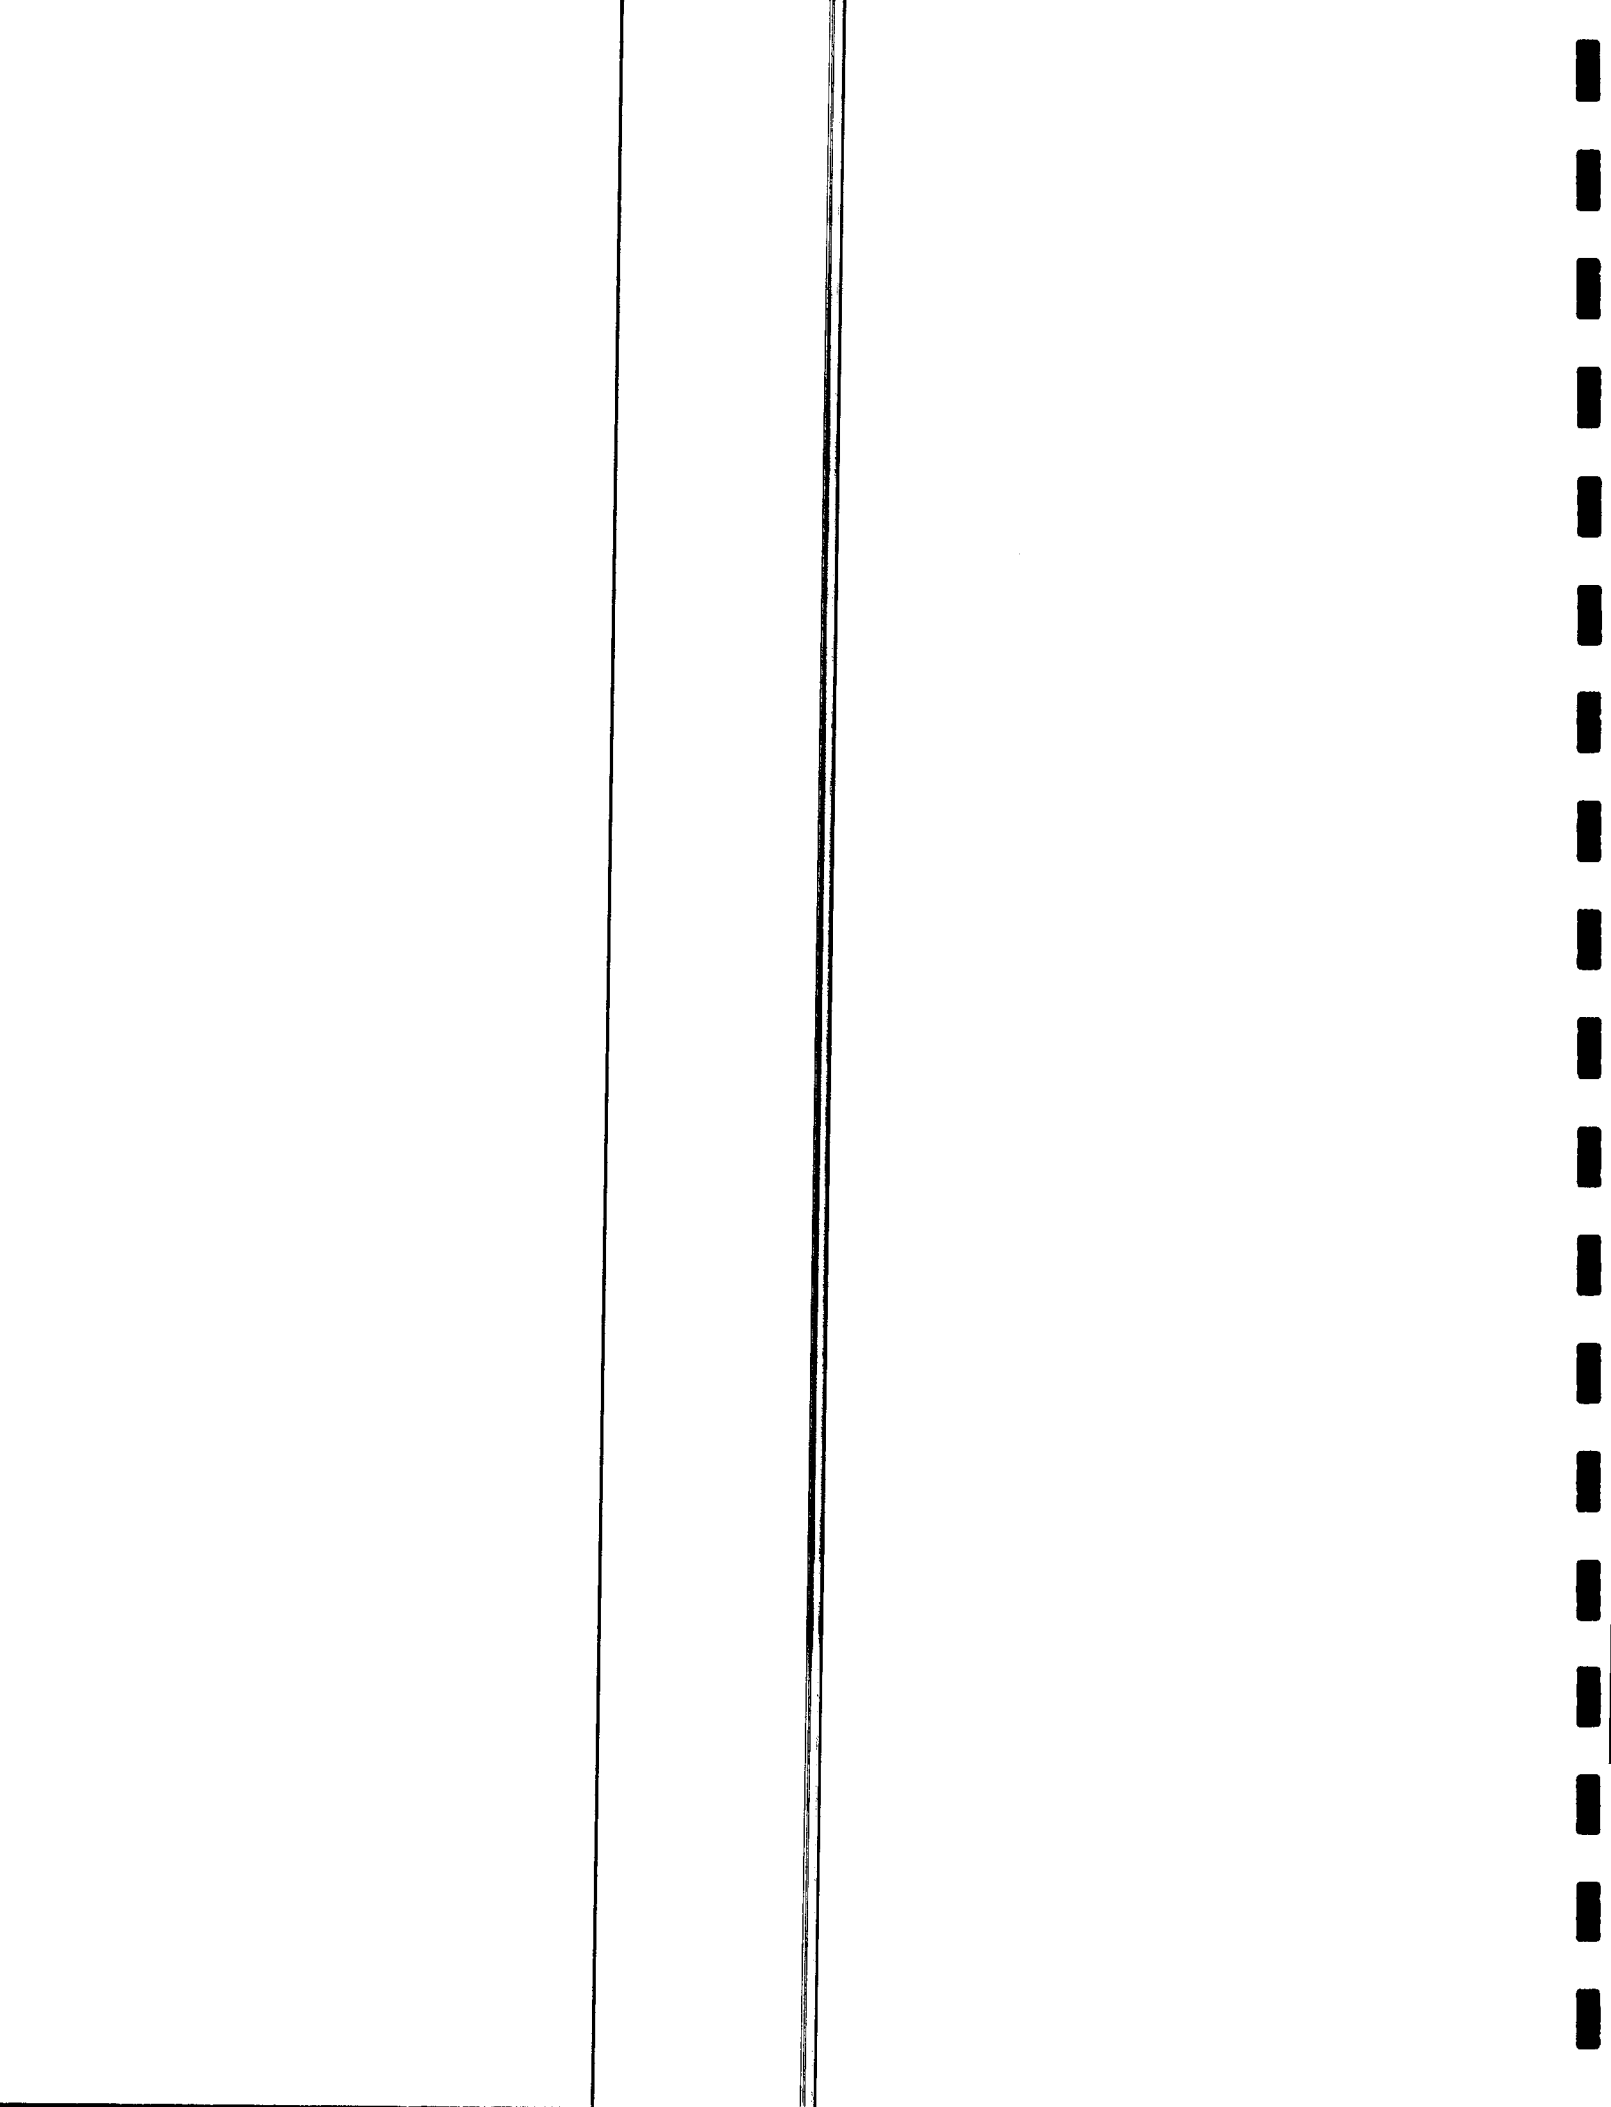

All Canadian citizens would become American citizens overnight. As American citizens they would experience the pride and self-esteem of being part of the world's greatest superpower nation. Canadian citizens would gain the rights, liberties and pride of an American citizen. Canadian citizens would have access to the warmer climates in the United States. The size of Canada would double. Stretching all the way to the Mexican border. The Canadian people would have easy access to the warmer climates in the United States.

### THE UNITED STATES

The United States would gain vast territory to the north. The United States would double in size. Canada has vast beauty and abundant natural resources. Canada covers most of the northern part of the north American Continent and with an area larger than that of the United States. The government of Canada is a federation of ten provinces. Canada has a population 32,207,000 people. English and French are spoken. With a Labor force of 16.4 million people. Natural resources - iron ore, nickel, zinc, copper, gold, lead, etc..

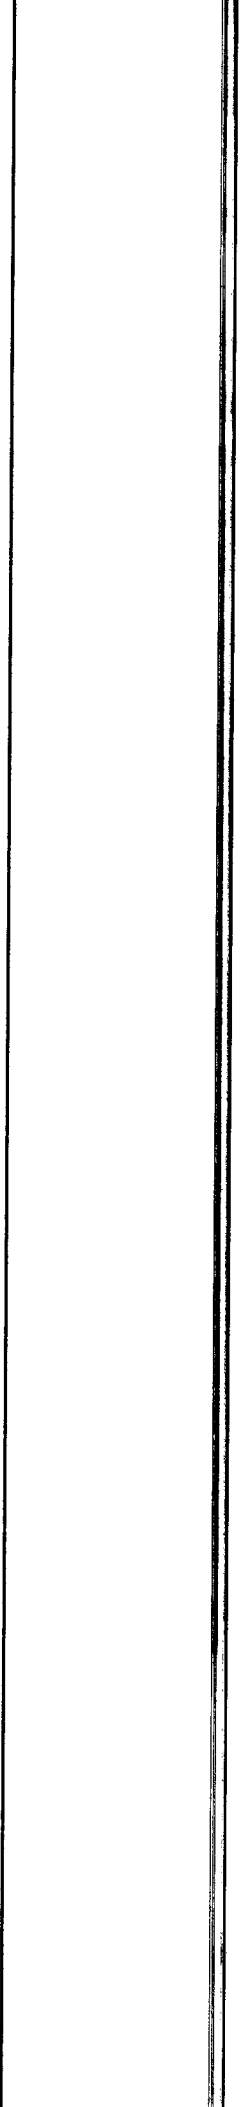

## **THE UNITED STATES AND CANADA BECOME ONE NATION**

An election would take place in two countries, Canada and the United States. Citizens of both countries would vote on merging the two countries into one very large country. If the citizens of both countries agree the United States Congress and the Canadian legislature will vote on the matter. If both legislatures agree the merger is undertaken. The Prime Minister of Canada will become the Vice President

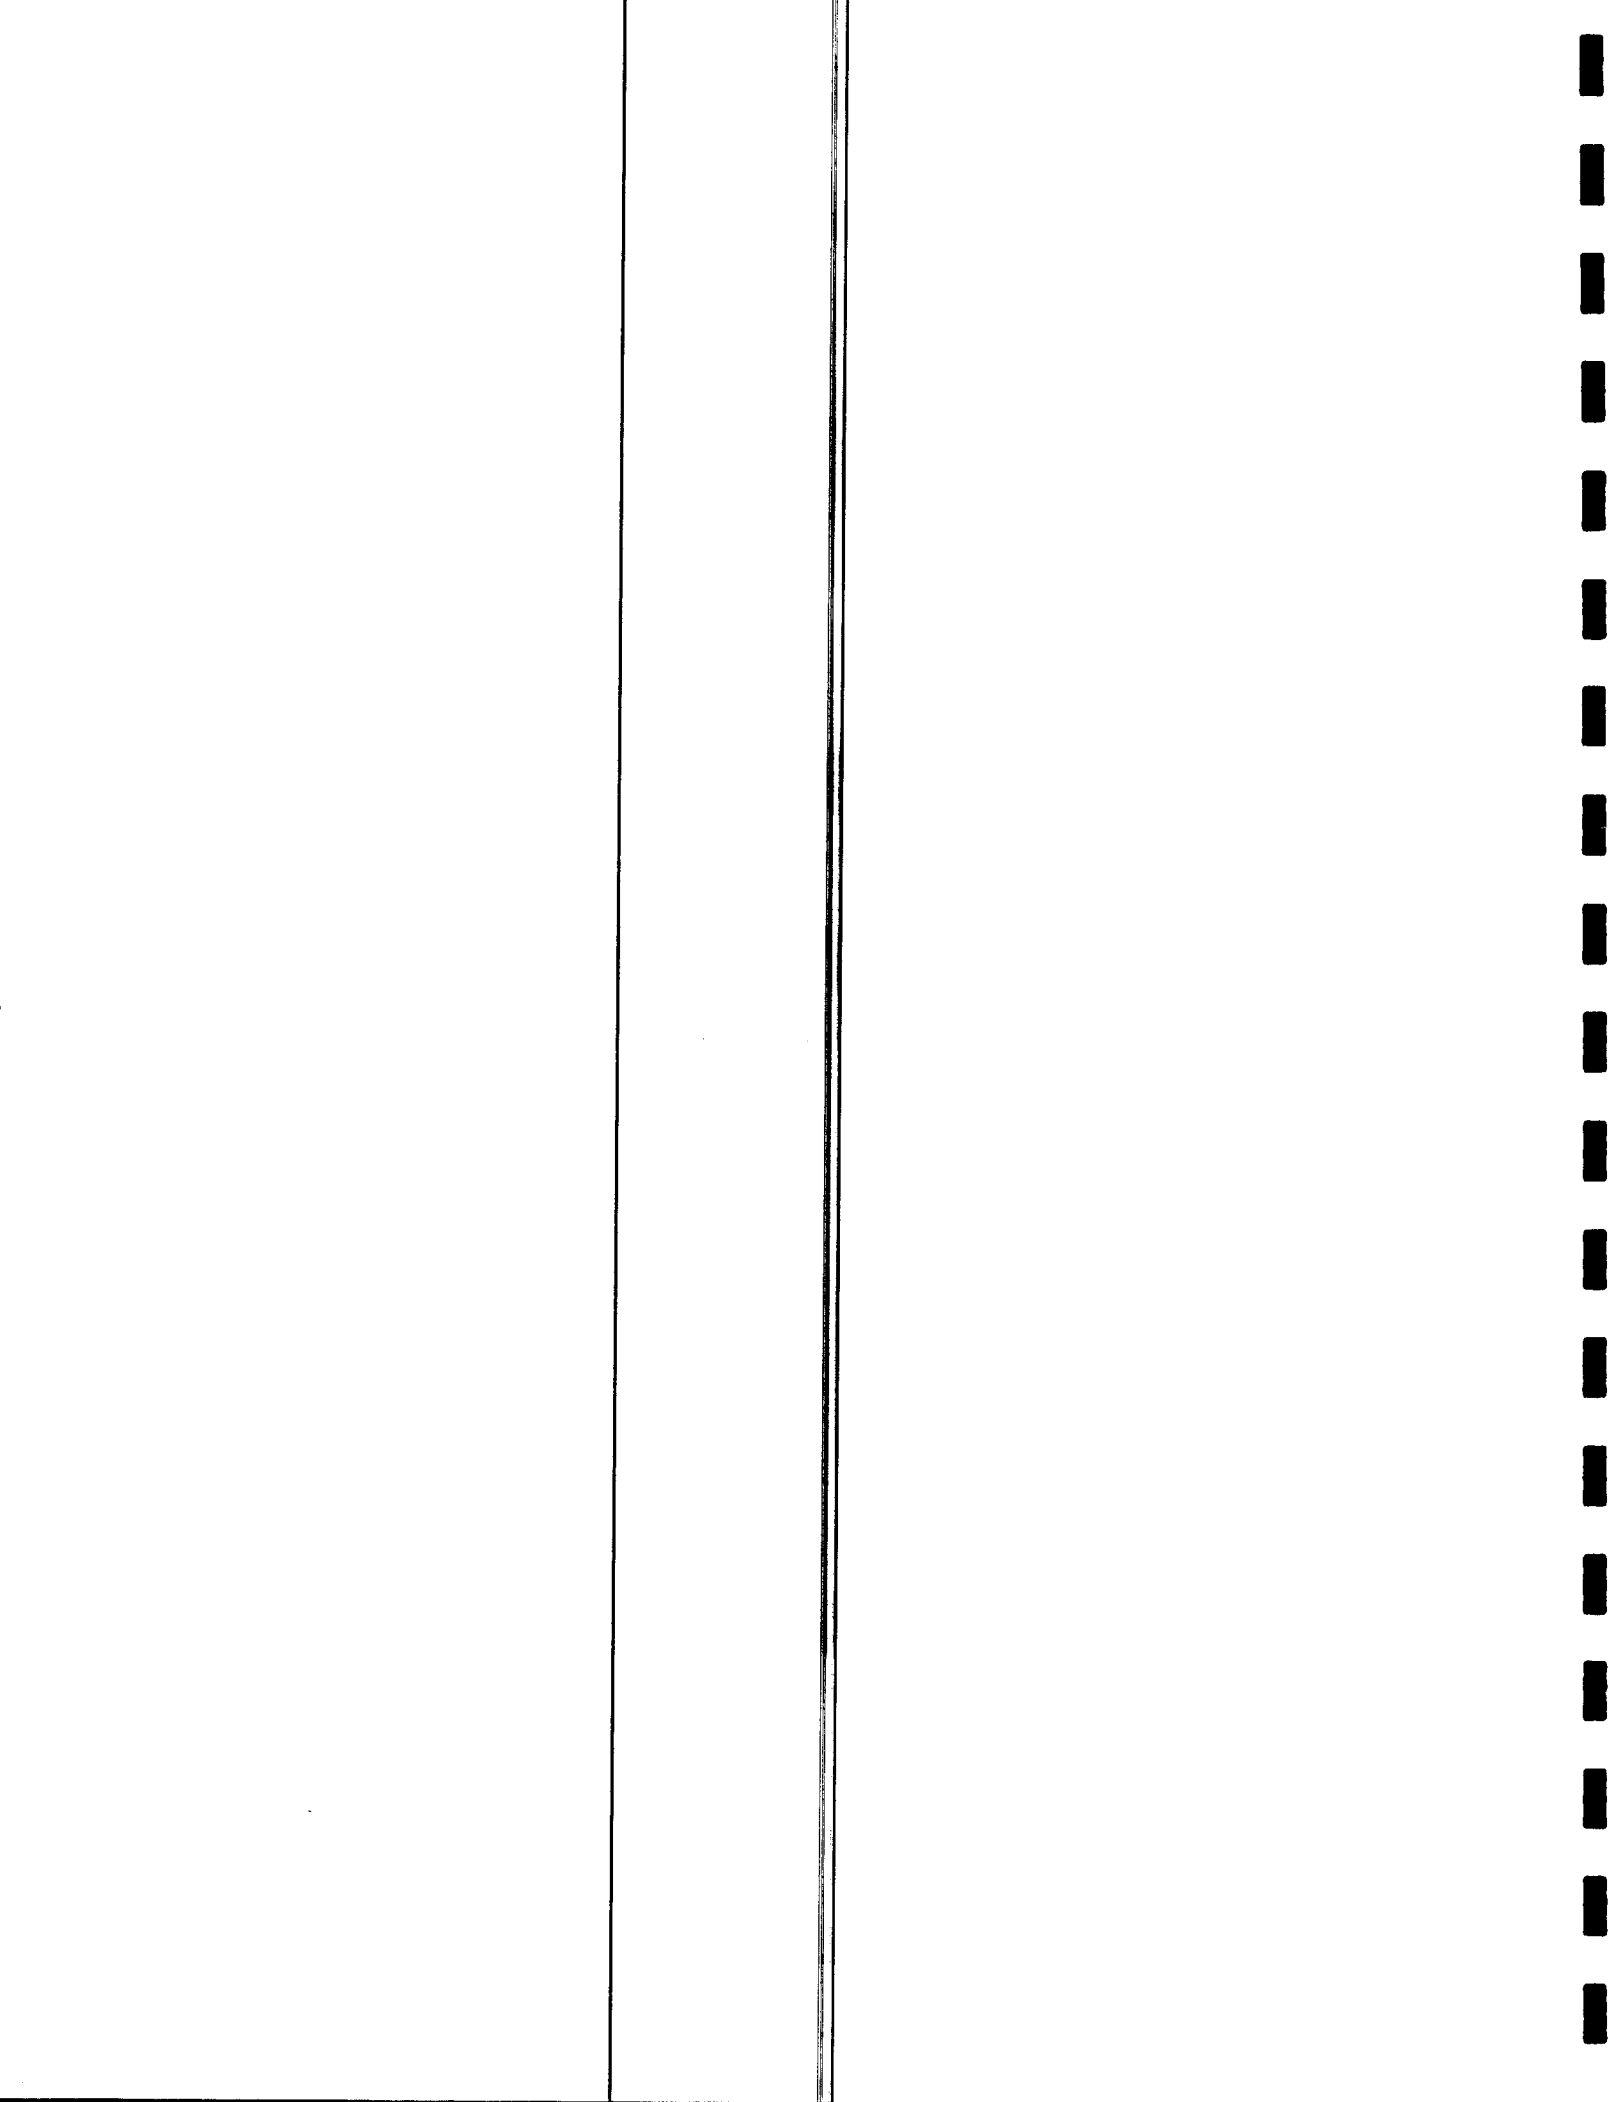

of the United States. The citizens of Canada will become American citizens. The twelve Provinces of Canada will become states with Governors and state legislatures. Elections would take place in Canada to elect senators and congressman to the United States Congress. Canada's military forces would become the military forces of the United States. Canadian laws verses U. S. laws would be considered. Canadian corporations would become U. S. Corporations. The combined size of Canada and the United States that will have merged into one nation will become the largest country in the world. The new country would stretch from Mexico to the North Pole. Canada's currency would be replaced with the U. S. Dollar. The name Canada would no longer apply. It would be called the Northern United States.

# **NEW HEALTH CARE SYSTEM**

# **NEW HEALTH CARE SYSTEM**

This new health care system is funded by the general public. The American people will pay for their own health care system. Because the health care system is funded by the American people, businesses and corporations, state governments and the federal government do not have to provide health care coverage. American businesses and corporations will no longer have to provide health care for their workers. Their employee's health care needs will be covered by the national health care system. State governments can eliminate the need to pay for health care for their citizens and their state budget will be substantially reduced. The federal government can eliminate health care costs from their budget. The Veterans Administration with all its VA hospitals and facilities will be closed down. America's veterans will receive their health care services from the national health care system. Other health care programs offered by the federal government will be closed down, such as Medicare which is the nation's largest health care program. All American citizens will be provided with health care under this new health care system. No one will be without health care services. This will become America's health care system.

## **GOVERNMENT FUNDED HEALTH CARE SYSTEMS**

Health Care Systems that are funded by the national government, such as in the country of Canada, are less workable because the government does not always have sufficient funding for the health care system at all times. Governments have many other financial responsibilities and the government funded health care system

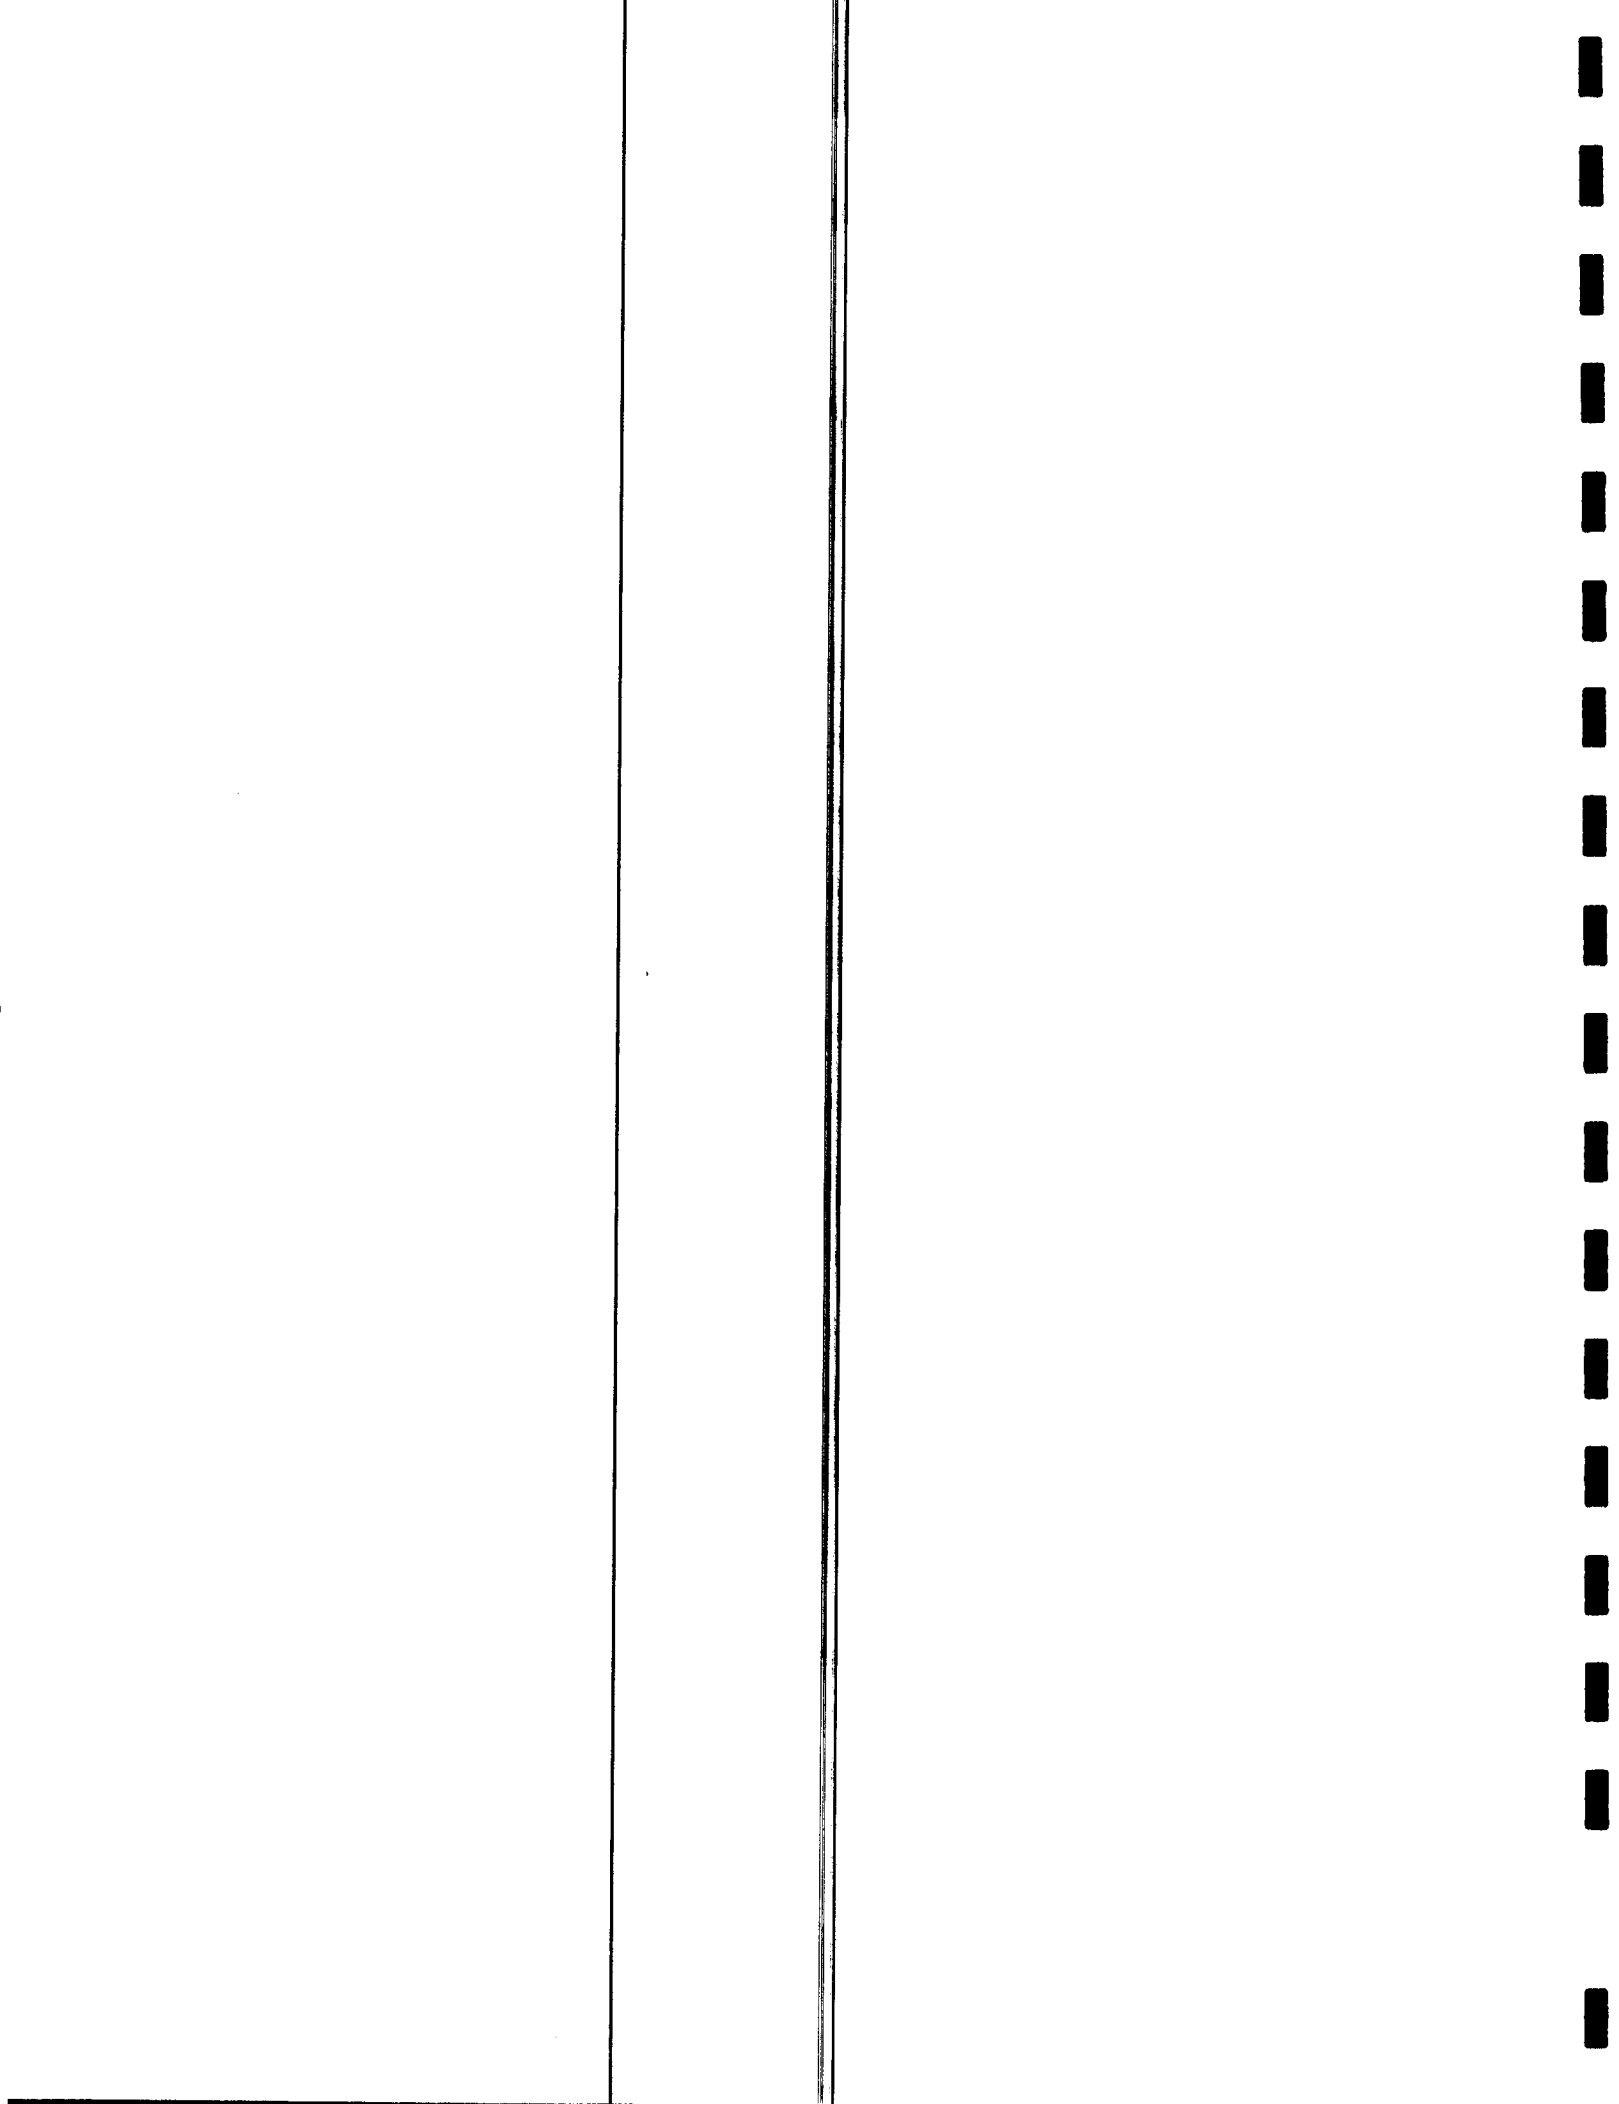

oftentimes does not have adequate funding. Long waits and inadequate health care services can be the result.

## **HEALTH CARE SYSTEMS PROVIDED BY THE PRIVATE SECTOR**

Health Care Systems that are provided by the private sector, such as the United States has, have many faults and shortcomings. Companies who provide health care insurance plans for businesses and private citizens are oftentimes more interested in earning profits and making money than in providing health care. Oftentimes companies who provide health care plans look for ways to cut costs by denying health care claims. The problem is that health care can oftentimes be very expensive for certain diseases, disorders or afflictions. In order to maximize profits, health care provider companies have devised many methods to deny people health care. HMOs, a preexisting condition and so forth are devices that are fabricated for the purpose of not paying health insurance claims. Oftentimes profit making overshadows a commitment to provide health care. A new system is needed. A health care system that is based upon profit-making is inclined to provide less health care in order to harvest more profits. The desire and yearning for profit making defeats and triumphs over the responsibility to provide health care. Health care providers make billions of dollars by limiting claims for health care coverage.

## **THE NEW HEALTH CARE SYSTEM**

The new health care system is not funded by the government or the private sector.

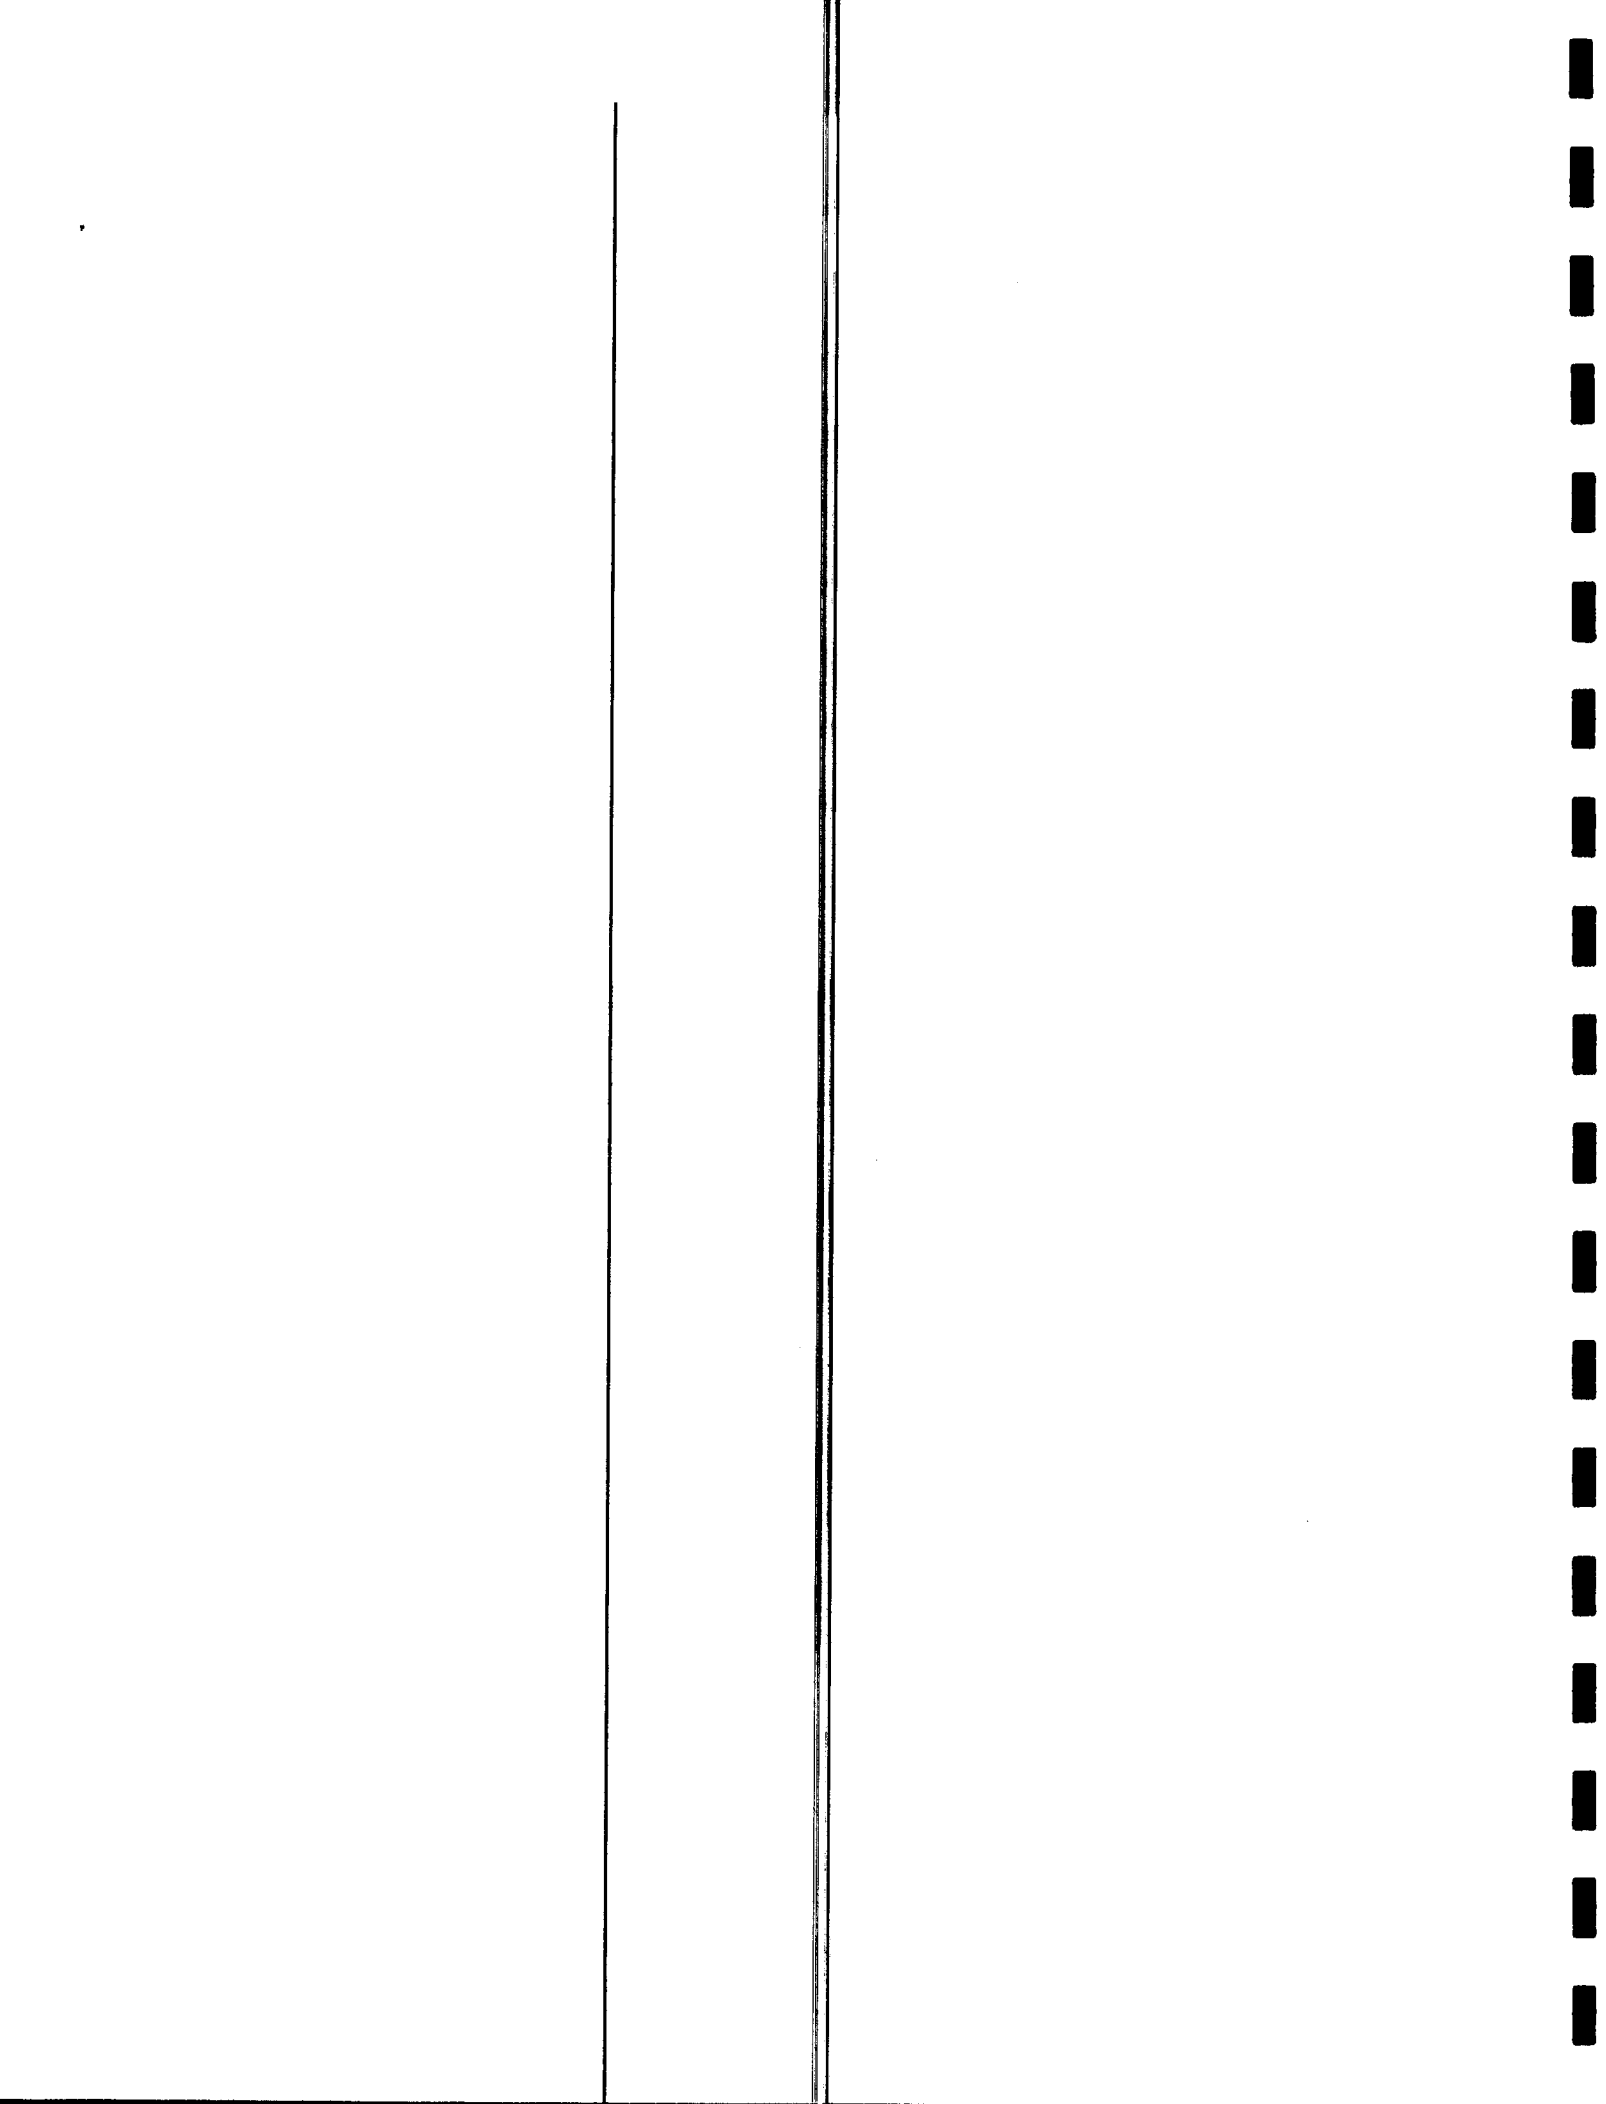

It is funded by the tax payers. The new health care system is funded by the general public. The new health care system provides health care for everyone. The costs of the system can be contained because the system has its own hospitals, doctors, dentists, health care professionals and facilities. The system devises its own methods for controlling costs without reducing health care services. The health care system provided by the private sector is expensive because profits and profit making dominate the system. This new health care system removes or eliminates profit-making from the health care system. Remove the exorbitant private sector profit-making health care system and that will reduce the costs down to just health care costs.

## **HOW THE NEW HEALTH CARE SYSTEM WORKS**

The new health care system consists of three types of facilities.

### **THE BASIC CARE MEDICAL CENTER**

The Basic Care Medical Center is the first step in the new health care system. All persons using the new health care system start off at the Basic Care Medical Center. This facility might be similar to a hospital emergency room or urgent care center. Each person's medical situation is analyzed at the Basic Care Medical Center and one of three things will occur. The doctors and health care professionals at the Basic Care Medical Center will fix the problem. If the problem cannot be solved at the Basic Care Medical Center the patient is referred to one of two facilities, the Health Care System Hospital or the Medical Specialty Doctor's Center.

## **THE HEALTH CARE SYSTEM HOSPITAL**

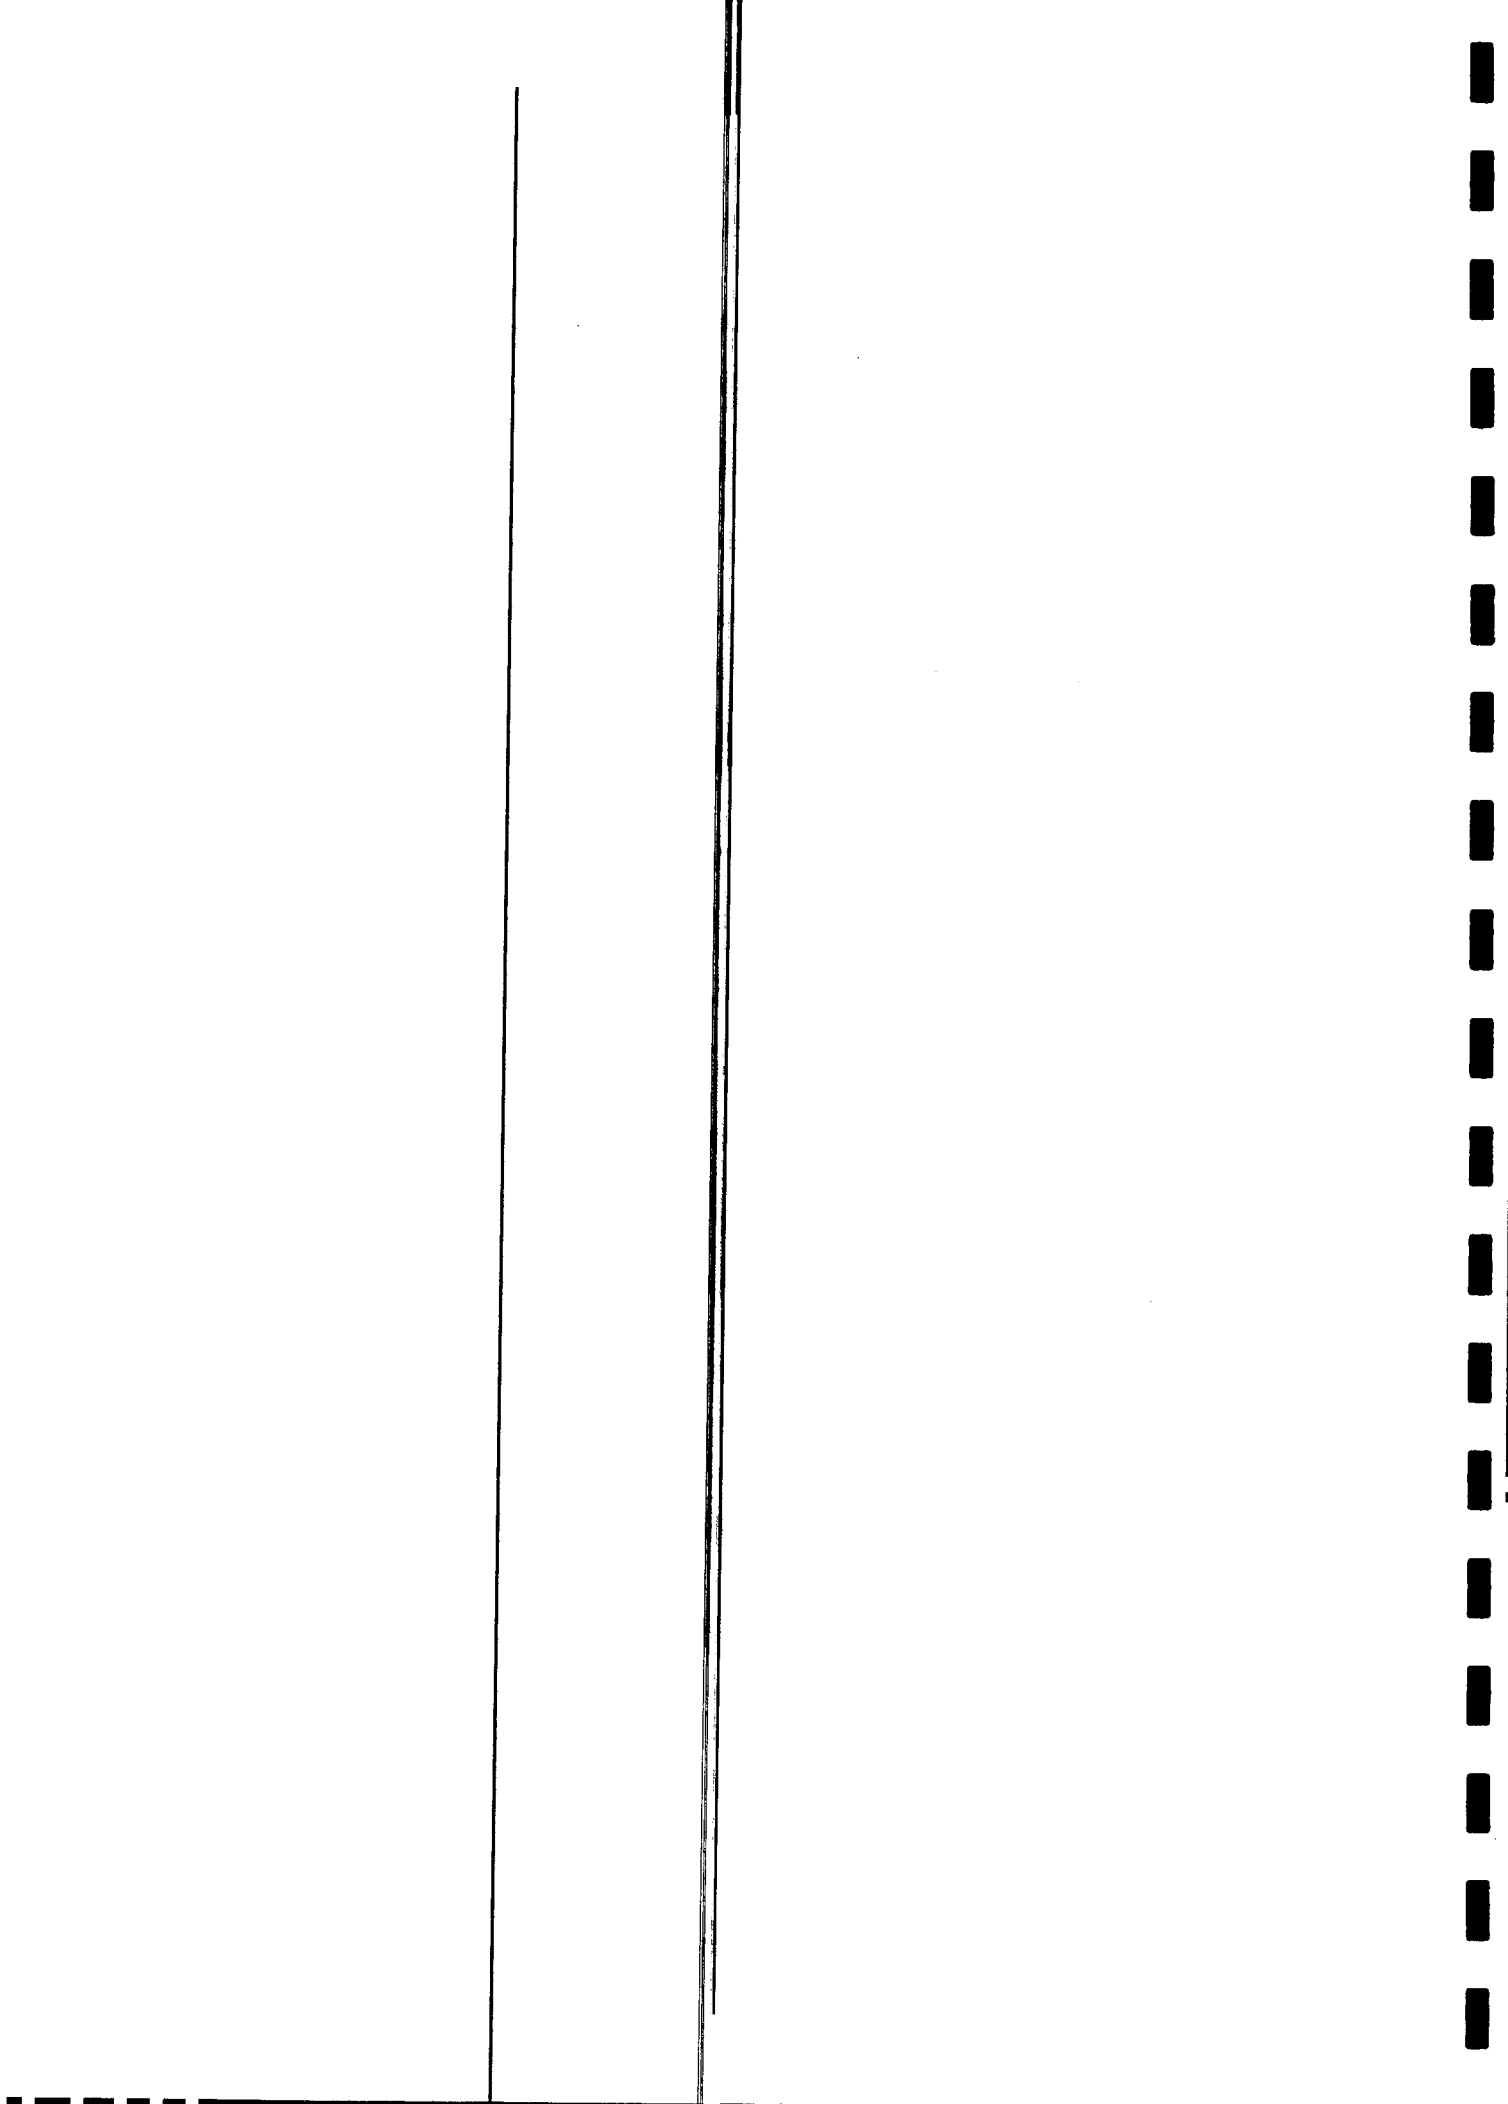

The Health Care System Hospital is like any other hospital. Patients are referred to the hospital from the Basic Care Medical Center and the Medical Specialty Doctor's Center. Doctors at the Medical Specialty Doctor's Center will do operations on their patients at the Health Care System Hospital. For medical emergencies people will go directly to the Health Care System Hospital for treatment.

## **THE MEDICAL SPECIALTY DOCTOR'S CENTER**

The Medical Specialty Doctor's Center is the center for all the medical specialty doctors of every type. Eye doctor, ear, nose and throat, general surgeon, obstetrics (child birth), family medicine, gastroenterology and so forth. Patients are referred to medical specialty doctors by the Basic Care Medical Center doctors and the Health Care System Hospital doctors. There are a great many different types of medical specialties in the medical profession. The Medical Specialty Doctor's Center is where they have their office and see patients. The Medical Specialty Doctors are paid by the Health Care System as are all doctors, nurses and employees in the Health Care System.

## **OTHER TYPES OF FACILITIES IN THE SYSTEM**

Pharmacies, Mental Health Services, Dental offices, Drug Addiction Treatment, Medical and Surgical Support Service and every other type of service (medical or dental) that may be part of any ordinary health care system.

## **HOW TAXES ARE COLLECTED FOR THE NEW HEALTH CARE SYSTEM**

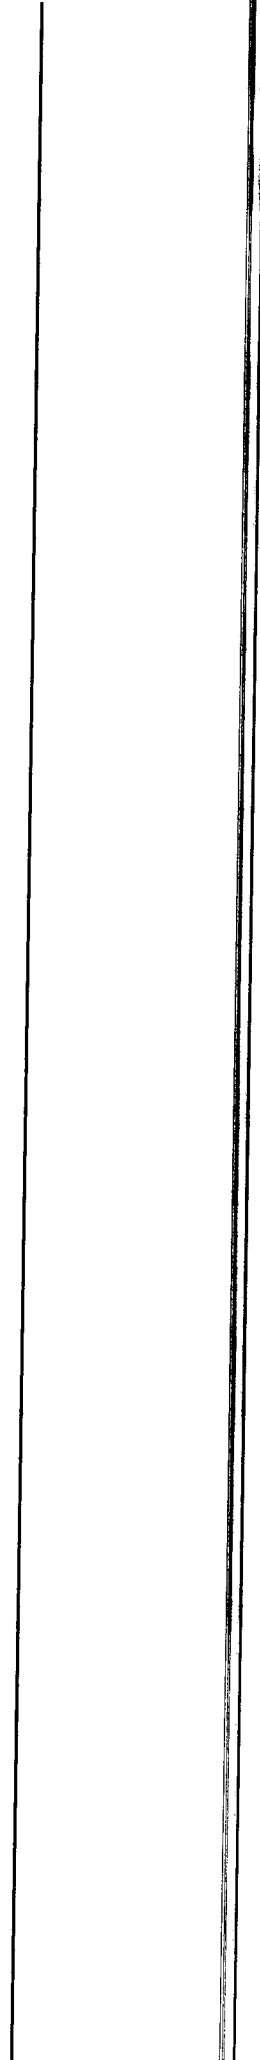

Each state government may be able to operate their own system. Or the federal government may prefer to operate the entire system. Taxes are collected through various methods. Some possible suggestions. Health Care System charges appear on people`s regular bills. For example.

Electricity Bill	Health Care System	\$2.85
Water Bill	Health Care System	\$ .87
Telephone Bill	Health Care System	\$ .28
Cable/Satellite TV	Health Care System	\$1.05
Credit Card Bill	Health Care System	\$1.65

All American citizens can use the health care system. They will have a health care system card that identifies them as being eligible for health care services. All health care services are free unless otherwise directed by the Health Care System. Some health care treatments may have co-pay requirements. Those who cannot pay will be exempt. The United States Congress may enact laws mandating how the health care system will be run. Foreign citizens living in the United States legally or illegally may have limited health care coverage for emergencies or for their children. This is optional.

## **HEALTH CARE COVERAGE THAT WILL BE DISCONTINUED**

Health care coverage provided by America`s businesses and corporations for their employees will be discontinued. All health care services will be provided by the

national health care system. State health care coverage for the poor or other persons will be discontinued. This will reduce costs on state budgets. Federal health care programs will be discontinued such as the VA hospitals that provide health care for veterans, Medicare and other health care coverage that the federal government provides will be discontinued.

## **THE BENEFIT OF THE SYSTEM**

America's businesses and corporations no longer have to provide health care coverage for their employees.

State governments no longer have to bear the cost of health care for their citizens.

The federal government no longer has to fund the Veterans Administration system. The federal government no longer has to pay for Medicare and other health care coverage.

While the cost of the nation's health care has been shifted onto the general public, when you remove the portion of the present health care system that consists of profit-making, the actual cost of the health care itself is not that expensive. Therefore, the cost of the new health care system only consists of health care costs and not the extravagant profit making that exists in the health care system provided by the private sector.
