**Subject:** Are you free June 13th?

---

Dear Kevin,

Please join us June 13 at 11 a.m. Pacific/2 p.m. Eastern to learn how the Washington State Department of Ecology uses a cloud-based financial system from Microsoft to solve a key challenge facing almost all state and local financial teams: delivering better outcomes for both your constituents and your leadership. This free, interactive webcast will give you a real-world look at how to deploy modern cloud-based financial solutions and what benefits you can expect from modernization efforts. The topics we'll cover include:

- Boosting efficiencies by digitizing time-consuming tasks and creating integration points
- Reducing financial risk by aggregating data and creating a single source of truth
- Leveraging data to deliver valuable business insights

Speakers will include:

Baird Miller, CIO, Washington State Department of Ecology  
Doug Bell, Dynamics 365 Specialist, Microsoft  
Julia Burrows — Moderator, Senior Fellow, The Governing Institute

You can register at no cost [here](#). Please feel free to share this information with any colleagues you feel would benefit from attending, and do let me know if you have any questions!

Thank you,

Lee Vang
