Dear Sirs:

Please refer to the attached communication to Nadine Livingston who is in charge of ESAP (DSS) program in SC. This agency and its lack of response for assistance for my elderly 88 year old mother is appalling. If your office can assist it would be much appreciated. If I need to file a complaint with the federal program that provides this funding, please advise. After reading numerous complaints online from other citizens of our state regarding this program, it seems a change in administration and leadership is desperately needed. I hope you can help. My mother would be grateful.

KTaylor
