Dear Governor Haley,

If I were an elected official, I wouldn't support any nominee that President Obama nominates for the U.S. Attorney General due to the violations of the U.S. Constitution; for example Benghazi, IRS Targeting of Conservatives, Operation Choke Point, Fast and Furious, Amnesty and the Veteran's Administration fiasco, just to name a few of the more high profile incidents. What I don't understand is how congress has failed to hold anybody accountable for any of these wrong doings, and that makes me absolutely furious! What are citizens supposed to do when their elected officials can't or won't do anything to stop this communist type of power grab by the highest elected office in the land?

Sincerely,
Dean Hornsby
