**Subject:** National Study of Long-Term Care Providers

In the next few weeks, CDC's National Center for Health Statistics will begin fielding the second wave of the National Study of Long-Term Care Providers (NSLTCP), this biennial National Study of Long-Term Care Providers (NSLTCP), sponsored by the U.S. Centers for Disease Control and Prevention's National Center for Health Statistics (NCHS), is a groundbreaking initiative to monitor trends in the major sectors of paid, regulated long-term care services providers. NSLTCP includes adult day services centers, home health agencies, hospices, nursing homes, and assisted living and similar residential care communities. The vision for NSLTCP is to offer reliable, accurate, relevant and timely statistical information to support and inform long-term care services policy, research and practice. For more information go to <http://www.cdc.gov/nchs/nsltcp.htm>.
