I will start by saying we LOVE the SC state parks we have camped in and in the last 6 years or so camp around 30-40 nights a year. Once they switched over to the new reservation system our love has slowly dwindled. We've lost our campsite booking history, some of the great functionality the old site had was lost with the new site, new fees have since been implemented and using older gift cards has been a struggle. If we book a campsite with a special discount we can no longer just move to a different campsite (during the SAME time period) without losing our discount and have fees. It just isn't worth the hassle.
