

Dear Gov. Haley,

7/24/15

The truth is the truth no matter who tells it. So I have decided to be the one. But it will be up to you if you take the time to read this and do something about it. It appears that you have took it upon yourself to make some serious changes in South Carolina. You chose to step up to the plate and take down the Confederate flag down and that is okay. But I feel you need to know that the prison system in S.C. is about 80% black. So therefore you have created a powder keg, through out this prison system. You have placed all of us white fellows life in danger. So don't stop half way. You need to fix this problem. You need to separate/segregate the prison system. White inmates are being victimize by blacks all across the state in the prison system. Just know their blood + murders are on your hands. I personally witnessed 3 gang members murder a white inmate at Jailer prison in 2012 and it is still being covered-up yet today.

I am now at Broad River Cor. Inst. We had 9 white inmates stabbed here at one time in one day. feel free to check with your Director and look at the black on white crimes in the prison system. You need to do something about it its taking place under your watch so therefore the buck stops with you.

The Next thing is this. We older inmates are receiving Negligent Medical Care in this prison system. If the state can not afford to give us older inmates proper medical care. then you need to get a judge to come to these prisons and bring every senior citizen before him + take a look at his age, his crime, how much time he has done and his medical condition and have enough heart and compassion to order our release. Enough is enough. Where is your heart at?

THANK YOU,

OVER

W.D.A. Allen
WILLIAM D. ALLEN, I

Just in case something happen to me or anyone I know.

A Copy of this was mailed to my lawyer and my family.
Do to the powder keg that has been caused by the ones of you
that run the state + the prison system.

Just to give you an example:

I am 62 years old:

Completely blind in one eye (legally blind)

got 2 ~~thick~~ blocks in my heart

got High blood pressure

got Asthma

got the gout

got diabetes

And I have been lock-up straight 25 years. I am only for
a burden and cost to the prison system / tax payers
of this state.

When is enough, enough?

You can't please everybody you just proved that with the
flag. Release us older inmates for the better of the state and
the tax payers. Just do it they will get over it.

All you need is a fudge with a set of balls there ought to be at
least one in the state.
