Subject: Governor's visit to Calder Brothers

Here you go Mike.

Quote from Haley press secretary Chaney Adams, "We are not only investing in education, we are investing in workforce training for those who are interested in opportunities besides four year undergraduate degrees - and thanks to our investment, companies that call South Carolina home are flourishing. What we see at companies like Calder Brothers gives us all the motivation we need to continue strengthening our workforce and build on the momentum of the last six years."
