

Mr. Taylor will speak to Mr. Steadman about potential fire hydrant placement on the Denny Highway Project. Also Mr. Taylor informed the board that cut backs in the county may result in an even longer delay in the GIS mapping.

#### **Department Monthly Reports**

Mr. Burgess presented the monthly Financial and Operations Reports.

#### **Managers Report**

Mr. Burgess presented the board members with information regarding the SC Rural Water Annual Conference for anyone wishing to attend.

Mr. Burgess stated that the application to the U. S. Army Corp of Engineers is ready to be submitted on the Water Treatment Plant.

A preconstruction meeting on the Denny Highway project is scheduled for Tuesday, June 28 at 10:00 AM.

The final work to be completed, which includes moving one meter and an air release valve for the paving project at Cold Harbor Drive, and Bat Drive will be finished by the Authority Tuesday. Mr. Berry presented the board members with email correspondences concerning this project between Mr. Strawbridge, Mr. Burgess, and himself.

The environmental information has been sent to the USDA regarding the wastewater pump station and force main to the Town of Batesburg-Leesville.

#### **Adjournment**

Mr. Taylor made the motion to adjourn @ 8:18 PM and Mr. Black offered the second. Hearing no objections, the Saluda County Water & Sewer Authority adjourned.

Respectfully Submitted,

Jennifer F. Wertz  
Administrative Clerk
